☐ I do not request direct Federal assistance at this time.

☒ I request direct Federal assistance for work and services to save lives and protect property, and:

a. I request the following type(s) of assistance:
Emergency work and protective measures to save lives, protect public health and safety and to protect property, for state and local governments; including but not limited to the provision of food, water and other consumable commodities. Assistance from CDC, EPA, HHS, HUD, SBA and any other agencies with responsibilities related to health, nutrition, and water infrastructure.

b. List of reasons why State and local or Indian tribal government cannot perform, or contract for, required work and services.
State and local resources can not meet the demand for filters, cartridges, water, and water testing at each residence; or the physical and mental health or nutrition needs of the affected population of 40,509 households with approximately 99,002 residents. The city is not able to repair its water system and the state has responded, but the response needs far exceed the state's capability, in addition to continuing response to other disasters, including the 2014 flooding in metro Detroit.

c. In accordance with 44 C.F.R. § 206.208, the State or Indian tribal government agrees that it will, with respect to direct Federal assistance: (1) Provide without cost to the United States all lands, easements, and rights-of-ways necessary to accomplish the approved work; (2) Hold and save the United States free from damages due to the requested work, and shall indemnify the Federal Government against any claims arising from such work; (3) Provide reimbursement to FEMA for the non-Federal share of the cost of such work in accordance with the provisions of the FEMA-State or FEMA-Tribe Agreement; and (4) Assist the performing Federal agency in all support and local jurisdictional matters.

Request for Snow Assistance

☒ N/A ☐ I request snow assistance.

Snow assistance for the following jurisdictions (Specify counties, independent cities or tribes and/or tribal areas).

Please see Enclosure D: Historic and Current Snowfall Data for additional information in support of this request*.

Not Required for Emergency Declaration Request

11. Programs and Areas Requested (Continued)

Hazard Mitigation* ☐ Statewide OR

For the following specific counties, parishes, independent cities or tribes and/or tribal areas.
N/A

12. Mitigation Plan Information*

a. Mitigation Plan Expiration Date April 23, 2019 b. Type of Plan ☐ Enhanced ☒ Standard

13. Other Federal Agency Programs

☐ I do not anticipate requirements from Other Federal Agencies ☒ I do anticipate requirements from Other Federal Agencies

Please see **Enclosure C:** Requirements for Other Federal Agency Programs for additional information in support of this request*.

14. Findings and Certifications

☒ I certify the following:

a. I have determined that this incident is of such severity and magnitude that effective response is beyond the capabilities of the State and the affected local government or Indian tribal government and that supplementary federal assistance is necessary.

b. In response to this incident, I have taken appropriate action under State or tribal law and have directed the execution of the State or Tribal Emergency Plan on Jan 5, 2016 in accordance with the Stafford Act.

c. The State and local governments, or Indian tribal government will assume all applicable non-Federal share of costs required by the Stafford Act.

15. List of Enclosures and Supporting Documentation

☒ Cover Letter ☐ Enclosure A (Individual Assistance)* ☐ Enclosure B (Public Assistance)*

☐ Enclosure C (Requirements for Other Federal Agency Programs) ☐ Enclosure D (Historic and Current Snowfall Data)

☐ Additional Supporting Documentation _____

Governor's or Tribal Chief Executive's Signature

Jan 14, 2016
Date

If anyone except the Governor or Tribal Chief Executive signs this document, please provide the documentation that establishes that this individual has the legal authority to act on behalf of the Governor or Tribal Chief Executive.

*Not Required for Emergency Declaration Request

Hub Based

This is a collaborative effort, and may change with input from all parties involved.

- What do we want to do?
- Who is responsible for doing it?
- How do we communicate with each other?
- What is the procedure?

Work SMART:
Safe – Keep our community safe! Let our police and fire fighters protect and serve us!
Measurable – How will achievements be measured?
Action Oriented – Is an action verb used to describe expected accomplishments?
Realistic – Is the outcome achievable with given available resources?
Time Sensitive – What is the timeframe?

HUB churches will network with surrounding churches and establish agreed upon distribution schedules.

HUB churches will provide the list of churches that will obtain their water from the HUB church. This list will be sent to Lt. Roach at Roachb@michigan.gov.

Each ward will have one central church to be the Hub for water distribution for that area/ward. Within that ward will be the 3 sub-Hubs that will provide services to that area. Each hub will have the following:

- Loaders (National Guard/Sheriff work detail)
- Admin (Address look-up to direct you to your nearest hub)
- Water
- Water filters/replacement cartridges
- Home water test kits
- Provide mobile lead testing clinic, twice a week for individuals without insurance. The mobile clinics will ONLY be at the ward hubs. There will be no door to door clinics. Once tested, residents will receive a lead awareness nutrition booklet which will provide education on lead prevention tips for families.
- Recycling center for the empty water bottles will be placed at all 9 ward hubs.

Current Burn Rates at Fire Station PODs

Location	*Pallet Capacity*	*Burn Rate*
Station 3	29	2,404 cases/day
Station 6	25	2,362 cases/day
Station 8	35	2,299 cases/day
Station 1	22	2,248 cases/day
Station 5	30	1,663 cases/day (industrial area, no drive through limits distribution)

Logistic Requirements

Warehouse

- Drivers

- Trucks 9- 20' or longer, 1 electric pallet jack, lift gate
- Trucks 16' Penske for Rapid Response Calls, lift gate
- 5 electric pallet jacks
- 6 manual pallet jacks
- 3 forklifts
- 1 laptop, 1 phone, 1 printer, office supplies
- Packing tape, shrink wrap, dispensers, cardboard pallet boxes to stabilize stacks of water
- 23 staff/100,000 sq. ft. warehouse
- Drivers for vehicles over 26k lbs require CDL
- Forklift operators must be certified
- Pallet sizes 40x48
- Box cutters, side snips, etc to break down pallets and packing material
- Disposal arrangements

PODs

- Loading dock or level sidewalk with smooth transition to storage area for pallet jack operation
- Manual and/or electric pallet jack
- If storage areas are not indoors, an outdoor forklift or skyjack would be required.

Requests for Water

- The Hub point of contact is Lt. B.J. Roach 517-819-0841.
- Hubs will call at least 24 hours in advance to provide the quantity of water needed, and schedule a delivery time.

Deliveries

- Deliveries will be conducted by a MI DTMB driver, and truck.
- They have a pallet jack and the capability to move pallets from the truck to the staging area.
- If the water needs to be transported to an upper or lower level, Hub staff or volunteers will need to be available to help off-load.
- MTA has committed to assisting with distribution.

Church Distributions

- Hubs will network with and recruit surrounding churches and organizations to support as neighborhood PODs.
- Hubs will work with PODs to establish distribution schedules, including amounts of water needed.

Michigan State Police Points of Contact

Lt. B.J. Roach 517-819-0841, Roachb@michigan.gov Lt. Mark A. Russo 616-299-9312, Russom2@michigan.gov

EXISTING CITY DISTRIBUTION POINTS

Existing distribution points are listed on the attached spreadsheet

CHURCH DISTRIBUTION HUBS

NORTH
Foss Avenue Baptist Church
1159 East Foss Avenue, Flint MI
Pastor Flynn 810-965-1515
Point of Contact: Jackie Scott 810-787-9019
Delivery: 4 pallets starting 2-2-2016 @ 12:30 pm

NORTH WEST
St Mark Baptist Church
3020 DuPont NE, Flint MI
Pastor Thompson 810-280-9985
Point of Contact: Angie George 810-955-6297/810-234-6609
Delivery: 25 pallets starting 1-29-2016 @ 11.00 am

SOUTH CENTRAL
El-Shaddai Church of God in Christ
920 Walnut, Flint MI
Pastor Steve Hawkins
Point of Contact: Elder Eddie Kennedy 810-513-6762
Delivery: 20 pallets starting 1-29-2016 @ 9:00 am

SOUTH EAST
Grace Emmanuel Baptist Church
3502 Lapeer Road, Flint MI
Pastor Jennings 810-743-3900
Point of Contact: Glenna Gates 810-449-7853
Delivery: 8 pallets starting 1-30-2015 @ 10:00 am

SOUTH
Divine Revelations
902 Huron Street, Flint MI
Pastor Williams 810-931-0310
Delivery: 25 pallets starting 1-30-2016 @ 11:00 am

Neighborhood PODs
Neighborhood PODs are listed on the attached spreadsheet.

Filter Distribution Plan

Consider a plan of installing whole house filters in each customer household to alleviate questions about bathing and to reduce the time frame between cartridge replacements.
Consider a plan with City to eliminate billing for a pre-determined period to encourage flushing of the system and reduction of latency.

The community would like to be able to continue to make all resources available at all PODs.
Continue Rapid Response/home delivery for Functional Needs households and individuals.
Provide stock in bulk to Catholic Charities and Food Bank (and other partners as identified).
Maintain the Fire Station PODs until community hubs and PODs are running adequately or when demand no longer supports the need
Investigate possibility of a debit card or voucher system for people to obtain commodities at area stores
    Planning Consideration – MOUs needed with vendors to supply the appropriate cartridges and maintain minimum stock.
    Same stores would have "gift" card. Card is loaded periodically with specific commodity codes.
As demand wanes, maintain availability and Rapid Response until resources are depleted/no longer requested.

U.S. Department of Homeland Security
500 C Street, SW
Washington, DC 20472

FEMA

January 22, 2016

The Honorable Rick Snyder
Governor of Michigan
Lansing, Michigan 48909

Dear Governor Snyder:

This is in response to your January 14, 2016, request for an emergency declaration for the State of Michigan as a result of contaminated water described in your request as beginning on April 25, 2014, and continuing. You specifically requested a declaration for the Individuals and Households Program and emergency protective measures (Category B), including direct federal assistance and reimbursement, under the Public Assistance program for Genesee County.

The January 16, 2016, emergency declaration FEMA-3375-EM authorized emergency protective measures (Category B), limited to direct federal assistance, under the Public Assistance program at 75 percent federal funding. The emergency declaration authorized the federal provision of water, water filters, water filter cartridges, water test kits, and other necessary related items for a period of no more than 90 days for Genesee County. Additionally, the President offered assistance in identifying other Federal agency capabilities that could support the recovery effort.

After a thorough review of your request, it has been determined that additional Stafford Act assistance, beyond that which has been authorized under FEMA-3375-EM, is not appropriate for this event. Therefore, your request for the Individuals and Households Program and reimbursement for emergency protective measures (Category B) under the Public Assistance program for Genesee County is denied.

This denial may be appealed within 30 days after the date of this letter. Any appeal pursuant to 44 CFR § 206.46, along with additional information justifying the appeal, should be submitted to me through Andrew Velasquez III, Regional Administrator, FEMA Region V, located at 536 South Clark Street, Chicago, Illinois 60605.

Sincerely,

Elizabeth Zimmerman
Associate Administrator
Office of Response and Recovery

CITY OF FLINT
INCIDENT ACTION PLAN
STATE OF EMERGENCY

RETAIN THIS IMAGE
RETAIN THIS IMAGE
RETAIN THIS IMAGE

Objectives:

To provide short term relief and long term solutions in addressing the man-made emergency of increased lead levels in the City of Flint (the "City") water system resulting from the switch to Flint River as the City's water source as well as the threat to public health related to elevated blood lead levels in Flint residents, without interruption of the provision of public safety and other essential public services. *Due to the fluidic nature of emergencies and the complexity of the City of Flint's declared emergency,* this plan serves as a framework and may be altered as the emergency develops.

The Response Framework

The purpose of this plan is to organize efforts on behalf of the city to assess the extent of the City's infrastructure needs and risks to public health, provide immediate relief to those who are at risk, and establish long term solutions. In addition, the city must ascertain what immediate relief and long term solutions the City is capable of implementing based on what resources are available. For any activities that are beyond the resource capacity of the City, external sources of funding, supplies, and manpower must be sought.

There are a number of steps that must be taken in accordance with the Flint Emergency Support Operations Plan (SEOP), in order for the City to be compliant with the Genesee County Emergency Action Guidelines. These include the activation of the Incident Management Team, the Emergency Operation Center, and the sharing of essential documents with the County, including this plan. Information must also be shared by the City's Public Information Officer on a regular basis, as required by the SEOP.

This plan calls for the provision of immediate relief to those at risk in our community. Special consideration must be given to residents who belong to underserved groups, such as those who are homebound, undocumented, in poverty, etc. Additional consideration must also be given to the equitable provision of services throughout our community in order to equally protect the health and safety of every member of our community.

Implementation of this plan is to be conducted by the Incident Management Team, which will monitor the effective delivery of goods and services in order to address the conditions of the emergency.

Understanding the Issue:

October 1, 2015, the Genesee County Health Department issued a Public Health Emergency after elevated blood-lead levels were found among children in the City of Flint. This incident correlates with elevated levels of lead found in the City's drinking water after the City switched water sources in April of

2014 to the Flint River. The scope of this problem appears to be limited to Flint City Water Customers and their dependents, not to exclude franchise customers (i.e. Burton, Flint Township, Genesee and Mount Morris Townships) Public agencies from several levels of government, as well as charitable, nonprofit organizations have partnered with the City to provide immediate relief to Flint residents, including the expansion of health services, the provision of bottled water and NSF rated water filters. The city is also seeking long term infrastructure improvements to eliminate lead and other contaminants from the water system.

Gov. Rick Snyder appointed a task force to review "actions regarding water use and testing in Flint" and to make recommendations for future guidelines: Members of the state task force are Ken Sikkema of Public Sector Consultants, Chris Kolb of the Michigan Environmental Council, Dr. Matthew Davis of the University of Michigan Health System, Eric Rothstein of the Galardi Rothstein Group and Dr. Lawrence Reynolds of Mott Children's Health Center.

In an effort to halt the further escalation of this crisis, the City returned to receiving its water from the Detroit Water and Sewerage Department (DWSD) on October 16, 2015. Since that time, additional corrosion control program has started, estimating a reduction of lead levels over the next six months. In light of these efforts, concerns surrounding the quality of water and health of the residents persist to the point that Mayor Karen Weaver declared a State of Emergency on December 14, 2015 so as to resolve this crisis once and for all.

The current challenge facing the City is providing immediate relief and long term solutions of the quality of the water and health of residents while the City remains in a financially critical condition. It is hoped and expected that higher levels of government recognize this emergency as it pertains to the condition of the City's infrastructure and health of its residents, and do all things necessary to assist the City in the provision of relief and the execution of capital improvement projects that will eliminate the causes of this emergency.

Enhancing Understanding:

Information Collection

Essential Elements of Information (EEIs) can be qualified as the City's water tests containing lead results, the verification of lead water lines (both public and private), and health information. Water testing is performed by the City's water plant in cooperation with the MDEQ. The verification of lead water lines is being handled by University of Michigan Flint, who is currently digitizing the City's water line information and PSI Engineering, who is initiating the effort to verify lead lines by excavating an initial 150 residential lines. This information allows the Incident Management Team to assess the current

condition of the emergency by way of determining the water quality and the condition of the water distribution infrastructure.

Information Analysis

The City has sought partners to assist in the analysis and evaluation of complex data. Wayne State University's center for Urban Studies will serve a supporting role to assist the City efforts to document and track lead water lines, water test results, and filter distribution with geographic information system (GIS) technology. This allows for clear and precise information to be presented to officials.

Assessment of Impacts

The City will need assistance in determining the total cost of damage done to the public health and infrastructure. As of now, only portions of this damage are visible.

PSI is providing some assistance by excavating 150 residential water lines to verify that they are comprised of lead. This is an initial step, but not enough. More resources will be needed to continue this process.

Continuous Situational Awareness

It is important that the Incident Management Team receive continuous information regarding water testing results, lead water line numbers, and filter distribution information in order to gain a realistic and current perspective. Much of this information is currently available on the City's website (cityofflint.com) and more is added each week by the PIO team.

Actions taken in Response to the Emergency

Activation of the Incident Management Team

Upon the declaration of Emergency by Mayor Weaver, the Support Emergency Operations Plan (SEOP) was activated. The SEOP calls upon the Incident Management Team to generate the Incident Action Plan (IAP. Each member of this team serves a specific function as it relates to addressing the causes and effects of the emergency. The Emergency Management Team roster can be found in the SEOP on page 3, with a list of alternates on page 4 in case the need for succession arises.

Emergency Operations Center

The Emergency Operations Center (EOC) must be activated upon the declaration of a State of Emergency by the Mayor. This center is required by the SEOP and serves as a nerve center for the Incident Management Team. Here, emergency relief efforts are coordinated by key members of the

Incident Management Team. In this case, these relief efforts consist of the distribution of water filters at City Hall and community events, the distribution of bottled water throughout the city in conjunction with the efforts of community partners, and assisting with the circulation of water testing kits throughout the community. The EOC will also be monitoring and managing the inventory of relief supplies, such as water filters and bottled water.

According to the SEOP, the EOC must establish an incident tracking system. This system will serve as a work plan for the management of the emergency. In addition, it is essential that the IMT record water testing results, lead water line location information, and information about the distribution of water filters and bottled water all in one place so that information is readily available for the Incident Management Team. This information will also be sent out to the public and media in the form of daily regular updates by the City's PIO.

Communication

The EOC maintains a telephone system that exists to intake questions about relief efforts and to organize relief logistics. It is open from 8am to 5pm, Monday through Friday. A voicemail system and eventual email system will exist to handle requests and inquiries that occur outside of the normal operating hours. This system will be constructed by the City's IT department.

Public Awareness and Education

1. **Emergency Alerts and Updates:**
   The City's Public Information Officer will make available information as it relates to the emergency in the form of press releases, emails, and physical documents. Daily updates containing information on the distribution of water filters, bottled water, water testing, blood lead testing, and other relief efforts will be available on the City's website for the public to view. Information will be available at City Hall for residents. 211 is an important resource to receive information about where to get water filters and other important updates. The PIO will regularly be in contact with 211 personnel to ascertain the frequency and content of inquiries in order to continuously provide relevant information.

2. **Joint Information Center:**
   The City's PIO will establish a joint Information Center that is organized to coordinate the efforts of multiple agencies to communicate with the public. This includes the circulation of joint press releases, public health information, educational materials, and updates relating to the State of Emergency. This committee is comprised of public information officers and public relations personnel to coordinate efforts to keep the public updated and informed. Regular updates to the media regarding events and progress will be made as news develops.

The US EPA has offered assistance in the form of Public Information support. Additional support in this area has been provided by the Michigan State Police.

3. **Education:**
   Many government agencies and philanthropic organizations are already distributing information regarding the effects of lead on public health. It is important that the City assist in these efforts so vital information and knowledge is presented to all members of the community. The goal is to continue to eliminate misunderstandings and incorrect information as it relates to reducing lead in drinking water, pursuing medical help, and maintaining a healthy diet to reduce lead absorption in the body. Lead education is currently being performed by the Genesee County Health Department, the Michigan Department of Health and Human Services and Medical community at-large.

Assessment of Social Needs

In order to effectively and equitably provide immediate relief to Flint water customers, the City must take into account many of the socio-economic needs and limitations of the community. Some residents cannot get to City Hall for a water filter. Some residents do not have internet access. Literacy or a language barrier may also pose significant obstacles to the effective distribution of educational information and relief to those in need. These will be continuing challenges facing the community. At present these are the resources the City has available to mitigate some of those challenges.

Logistics

Logistics are being coordinated by the City Emergency Management Team's City's *Chief Logistics Officer*, who is the City Administrator. The CLO is responsible for the coordination, procurement, and transportation of goods and services, which is essential for effective implementation of the response plan.

Fixed Distribution Points

There are several locations throughout the City, coordinated by Genesee County Health Department, where residents may acquire a water filter. These locations are:

Flint City Hall
1101 South Saginaw, Flint MI 48502

Genesee County Community Action Resource Department (GCCARD)
601 North Saginaw, Flint MI 48502
and
2727 Lippencott Blvd, Flint MI 48507

Michigan Department of Health and Human Services
4809 Clio Road, Flint MI 48504
and
125 E. Union Street, Flint, MI 48502

Activation of Ward Distribution Centers

Each of the nine wards will have activated distribution centers that are primarily managed by City Council Members or their designees.

Flint City Council – Water Distribution Sites

WARD	COUNCILPERSON	LOCATION	ADDRESS
1	Eric Mays	Hasselbring Senior Center	1002 W. Home Avenue
2	Jackie Poplar	Joy Tabernacle Church	2505 N. Chevrolet Avenue
3	Kerry Nelson	Antioch Baptist Church	1083 E. Stewart Avenue
4	Joshua Freeman	Flint Fire Station No. 5	3402 Western Road
5	Wantwaz Davis	Doyle/Ryder Elementary School	1040 N. Saginaw Street
6	Herbert Winfrey	New Community Baptist Church	1375 Lavender Avenue
7	Monica Galloway	Brennan Community Center	1301 Pingree Avenue
8	Vicki VanBuren	Flint Southwestern Academy	1420 W. 12th Street
9	Scott Kincaid	Dort Mall Police Service Station	3600 S. Dort Highway

Mobile Distribution Centers

The city can help establish mobile distribution centers and delivery systems with the help of transportation agencies, like the Metro Transit Authority (MTA), Meals on Wheels, and GCCARD that can provide water filters, bottled water, and nutritious foods, among other types of relief accompanied by educational materials to neighborhoods and to homes of people who experience limited mobility.

- Mass Transportation Authority-MTA bus passes: Assisting residents with bus passes to improve their mobility will increase their chances of receiving help. Transportation services will also improve residents' access to medical care.
- MTA-Your Ride mobile distribution:
    - Estimated Costs: $25 per hour to deliver water and filters to homes throughout the City.

Problem 1. Public Health Emergency

The first objective in addressing this emergency is reducing, and eventually eliminating, the danger to public health. As City water coming out of faucets continue to contain lead, and copper and other harmful contaminants exceeding government guidelines and regulations, it poses a risk to the people of our community. Preventative measures must be taken to avoid the effects of toxicosis that are difficult if not impossible to completely reverse.

As far as preventative measures are concerned, education, water filters, and bottled water must be provided to every household in the City in order to reduce the chances of lead exposure, especially to our most vulnerable members of the community. If lead exposure has occurred, resulting in elevated blood lead levels, immediate and sustained medical attention must be available to those affected. Health services must be expanded in the area to accommodate increased numbers of case loads and specialized care regarding lead poisoning and its effects.

Immediate Relief for Public Health:

1. Prevention: Education, water filters and replacement cartridges, free water testing, and bottled water must be available to everyone.
2. Access to nutritious food that reduces the risks of lead absorption by the body. The City can coordinate activities with the County Health Department.
3. Genesee County Health Department comprehensive plan to address immediate and long term health issues for segments of the population.

Long Term Solutions: Maintaining Public Health and Coping with Lead Exposure

1. Work closely with the Genesee County Health Department and Michigan Department of Health and Human Services in order to provide sustainable care and monitoring of children exposed to lead. This care must be available for them for several years-preferably several decades.
2. Support and education for primary care providers regarding aggressive long-term neurodevelopmental screening and testing.
3. Improved access to developmental and behavioral (DBP) specialists, pediatric psychologists, pediatric psychiatrists.
    a. Pre-emptive referral to mental health/ toxic stress screenings.
    b. Support capacity building and or incentivize recruitment to allow Genesee Health System (GHS) to build this capacity which is currently needed and lacking.
4. Increase recognition and education regarding trauma informed care, social determinants of health (SDOH).
5. Expand State funded Genesee Health System (GHS) services.

a. Infant mental health (30 day capacity)
b. Child case management
c. Home based services
d. Trauma informed care- trauma focused CBT

Problem 2. Lead Contamination in the Water

Immediate Relief:

1. *Education, water filters and replacement cartridges, free* water testing for water customers, and bottled water must be available to everyone. Water filters can be obtained at any of the fixed distribution points throughout the City.
2. Identification and verification of lead water service lines throughout the city- both public and private.
3. Assistance to identify lead pipes within buildings and homes.

Distribution of Bottled Water:

At this point, we are directing all offers for donations to the Food Bank of Eastern Michigan. It is imperative that water be accessible to all members of the community through a variety of distribution channels. These channels are explained in the Logistics Section of this plan.

Distribution of Test Bottles:

Water testing kits can be picked up at City Hall with instructions. Test results are posted on the City's website to raise public awareness and encourage more participation.

Long term Solutions: Capital Improvements Needs

The distribution of filters, water, and food to counter the effects of lead are essential response efforts to keep people safe. However, long term solutions are required to keep people healthy, to eliminate lead from the public and private water distribution system distribution, and to provide affordable clean water. Our public infrastructure and utilities must be reliable, sustainable, and equitable in order for this community to rebound after this emergency. The following long term solutions must be implemented in order to set the City of Flint on a course for recovery. These solutions come at a heavy cost for a City that is currently in receivership. The City has experienced financial distress due to this Emergency, in addition to a two million dollar loss from switching back to DWSD. The City has diligently applied for Fiscally Distressed Cities, Villages, and Townships Grant in order to supplement funding for capital improvement projects. It is essential that these grants be awarded in order to achieve long term solutions.

1. COMPLETE **Transition to a Temporary Safe Water Source until the Completion of KWA:**
   This has already occurred. On October 16, 2015, Flint returned to receiving its water from DWSD on a 9 month agreement. This agreement will expire in June 2016, when the KWA is projected to be complete. The City had to pay $2 million out of its general fund to make this switch.

2. IN PROGRESS **Additional Corrosion Control added to the Water System:**
   This is already occurring. In early December, 2015, Flint began to add additional corrosion control to the water coming in from DWSD in attempts to rebuild the protective scale inside its pipes. This is estimated to reduce lead levels in two to six months.

3. **Faucet Replacement:**
   Replacement of Water faucets, and drinking fountains in the school system. It has been determined after state inspections that many sources of lead contamination in the School System's water were the faucets themselves. These faucets need to be replaced.

4. **Water Line Replacement:**
   Water Line Replacement to reduce antiquated infrastructure and lead service lines. These lines must be identified, verified, and replaced. Residents who are facing financial hardships must have access to assistance to cover the costs of these replacements through access to grants and (forgivable) loans made available through State and Federal agencies. The corrosion damage to *public and private lines that Flint River water caused is still being determined.*
   - Replacement of an estimated fifteen thousand (15,000) lead service lines at an estimated cost of three thousand dollars ($3,000) per line. Total costs forty –five million dollars ($45,000,000).

5. **Reimbursement of Critical Expenditures:**
   Seeking reimbursement of two million dollar cost of returning to DWSD and forgiveness of Water Revolving Loan Debt from the State of Michigan.

6. **KWA Capital Improvements:** The City has reconnected to Detroit temporarily until a water line from Port Huron is developed. The new water line known as the KWA pipeline or Karegnondi Water Authority is expected to bring water to the City from Lake Huron by July. The current cost agreement between Flint and DWSD is for nine months, therefore it is imperative that KWA be completed as soon as possible. Assistance relating to capital improvements to expedite this *process will help to achieve long term goals.*

KWA Capital Improvements:	**Estimated Costs:**

a.	*Transfer Station to Dort Reservoir*	*$4,500,000*
b.	*Raw water line to pump station #4*	*$636,000*
c.	*Phosphoric acid feed system*	*$186,000*
d.	*Alum Feed system*	*$40,000*
e.	*Post filtration system*	*$387,289*
f.	*SCADA Upgrades*	*$424,000*
g.	*Sewer Relining*	*$100,000*
	Total	***$6,273,289***

Ancillary Considerations: Public Safety during an Emergency

During a time of emergency public safety agencies need to be prepared to respond to threats to public safety and critical infrastructure. The City is facing a man-made emergency that is threatening the public health. Resentment and hostility toward local institutions and municipal government is at a significant level.

Critical infrastructure should be safeguarded if the need arises. This includes increasing security at City Hall to reduce potential for public safety risks. In the case of credible threats to public infrastructure, it may be required to hire private security company for first line of defense. Private Security is lower cost, thereby making it the first option. The minimum response is acted upon first, elevating only if the need arises. Credible or imminent threats of damage or destruction to critical infrastructure requires an elevated response. Such needs may require over-time police officers to address critical situations. Mutual aid from surrounding communities can be requested if Flint public safety is overextended.

Implementation:

Community Partners

Financial limitations of the city persist while it confronts this emergency. Many community partners have offered their assistance to perform various needed functions. The city is heavily reliant on the assistance that government agencies and nonprofit organizations have provided.

The Ruth and C.S. Mott Foundations

The C.S. Mott Foundation has provided financial assistance, especially in their generous contribution of $4 million for the reconnection to DWSD.

United Way

The Genesee County United Way has provided significant financial assistance in the way of purchasing and helping to distribute water filters since the Public Health Emergency began on October 1st, 2015.

Genesee County Community Action Resources Department (GCCARD)

GCCARD is organized to fight poverty and has been a primary partner in the distribution of water filters. It has also regularly supported the city with the logistics and availability of water filters at City Hall.

Genesee County Health Department

Has provided educational information to Flint Water customers concerning lead and public health. They have also diligently provided prevention information

Genesee County Board of Commissioners

The Board of Commissioners have pledged their support to help Flint seek solutions to this crisis. The Board has already assisted in making health and nutrition information available to the public. On October 1, 2015, Genesee County declared a Public Health Emergency recommending that people not drink the water coming from the City of Flint.

Assistance from Wayne State University

Wayne State University's Center for Urban Studies will be providing technical GIS support to assist in the documentation of emergency relief efforts and program evaluation guidance to ensure implementation effectiveness.

The US Environmental Protection Agency

Region 5 EPA has offered assistance with Public Information distribution during the emergency.

Outside Help is still needed...

The City of Flint is forever thankful to our community partners who have given so much to help so many people. However the magnitude of this emergency calls for more resources that are beyond the capacity of the combined local organizations and government agencies. Long term solutions will require a heavy investment in health care and capital improvement projects to upgrade the city's antiquated water distribution system.

- Help with Immediate Relief in terms of assuring allocative efficiency. Distribution should be equitable- assistance from other governments required to assure this.
- Reaching communities for the distribution of water filters, water, and educational materials.

- Help with Water Testing to increase participation and lead education.
- Increasing the rate of water testing
- Assistance is required to fund essential capital improvement projects to guarantee clean and safe water.

Prepared jointly by the City of Flint's Emergency Operations Center and the Genesee County Emergency Operations Center

Draft Flint Water Operations Plan
January 23, 2016

The emergency response to the Flint water crisis is an "all-in" mission and will involve several operations: Initial Distribution; a Surge, Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery.

Dates given in this draft plan are all subject to the agreement of all parties.

Metrics are intended to be SMART: (Specific, Measurable, Achievable, Realistic, and Time-bound)

Community Water Resource Distribution

The Flint Community Water Crisis Response Meetings will provide critical guidance this plan. The input received and the plan are a cooperative "whole community" effort that will provide the opportunity for all involved parties to provide input to the process, including the residents, local charities and non-governmental organizations, the city, the county, and the state. An initial working group comprised of the Food Bank, Catholic Charities, American Red Cross, 2-1-1, United Way, and local and state emergency management staff will develop and implement these initial strategies for long-term distribution of filters and filter cartridges by the target date As operations stabilize within this Volunteer Expansion, additional working groups will be formed to address specific missions

- Goal – Transition to full coverage and streamlined processes.
  - Metric – One year of availability and supply of water and other commodities to every household and franchise customer.
- Develop messaging for the transition to volunteer and community based distribution of water, filters, and cartridges.
- Identify statistical trends in the Fire Station PODS and transition to more available and locally operated PODs, in locations identified by a data driven strategy, by February 14.
- Provide for smooth transition and soft openings of new PODs as they open
- Identify water only PODs operated by local non-governmental agencies, faith-based organizations or other volunteer groups.
- Provide public messaging and mapping that makes locating a POD or calling for delivery to vulnerable populations both simple and quick
- Utilize multiple methods of public communication; e.g., reverse 9-1-1, robo-calls, Nixle, Facebook, backpack notes, etc. Strategies will be coordinated with 2-1-1
- Continue to collect and analyze all available geospatial and demographic data to identify needs and hot spots (and identify successes).
- Identify "Super PODs" that can resource smaller neighborhood PODs and identify their logistical requirements, including credentialing requirements.
  - Metric – a Super POD or Neighborhood POD within close proximity by walking or driving.
    - Assumption – MTA and ride share options as well as walking and delivery are considered.
- 2-1-1 will receive all calls/questions and serve as POC for special needs requests (Rapid Response Teams).
  - Assumption – Rapid Response Teams will transition from the local Emergency Operations Center to the ARC. The ARC and 2-1-1 will coordinate.
  - Metric – A measurable reduction in response times to Rapid Response Team requests.
- Volunteer Expansion target complete date: February 14.

Hubs

Churches
- Foss Ave Baptist
- St. Mark Baptist
- El-Shaddai Church of God
- Grace Emmanuel Baptist
- Divine Revelations

Food Bank
Catholic Charities
Police Mini-Stations
Community Centers

Ongoing Resourcing

- Goal – Implement a medium-term logistics system of supplying filtration components which supports a long-term, workable process to sustain provision of potable water to residents.
  - Metric – All households and franchise customers have access to safe, clean drinking water from the Flint water system, which is augmented by adequately filtered water within the home.
    - Assumption – Identify average family size and consumption, including burn rate, cooking and hygiene utilizing any available research from military operations guides, Peace Corps, Samaritan's Purse or other sources which may identify consumption rates.
    - Assumption – Filter cartridges last 100 gallons.
    - Assumption – People will move to Flint who will need initial filtering supplies
- Identify warehouse spaces adequate for commodities for the planning period (initial assumption 1 year)
- Water distribution would be led by the city, food banks, faith-based or other volunteer groups
- Messaging should strongly promote the use of properly certified filtration.
- Work with the federal HHS Unified Coordination Group and the Flint Water Interagency Coordinating Committee to maximize opportunities for Flint water system customers to participate in the ongoing repair and improvements to the water system and fully leverage and maximize the benefits of all available programs.
- Ongoing public messaging and education are offered to the public by a variety of public message outlets, media, extension courses and community workshops and seminars.
- Create a calendar of activities/distribution including the when and where of how the activities and missions will be provided to water system customers. Include decision points for planning teams
- Establish long-term filter distribution process using USPS, vouchers, Bridge style cards, or other measureable programs.
  - Is it supportable by FEMA's 90 day mission?
  - What are implications of over supply?

Long Term Recovery

- Goal – water distribution operations are normalized.
  - Metric 1 – Households are served by the Flint water system.
  - Metric 2 – All water tests meet or exceed all established water quality metrics and regulations.
  - Metric 3 – Households do not require filtration at the faucet.
- Work with the federal HHS Unified Coordination Group and the Flint Water Interagency Coordinating Committee to maximize opportunities for Flint water system customer to participate in the ongoing repair and improvements to the water system and maximize the benefits of all available programs to insure that we have leveraged all state, local, federal, and non-governmental resources.
- Ongoing public messaging and education are offered to the public by a variety of public message outlets, media, extension courses and community workshops and seminars.
- All recommended solutions are implemented Analyses are complete, and public trust in Flint water is re-established.
  - Metric 1 – Independent surveys indicate that residents and customers trust water test results.

**Dates are to be negotiated and confirmed by all parties involved

Situation Report Process

1. Bullet Point reminder
    a. At 1530 (3:30p) or 1.5 hours before the time due send an email to the following reminding them to send bullet points of today's activities.
        i. *List of recipients:*
            1. msp-seocopsc@michigan.gov
            2. msp-seoclgc@michigan.gov
            3. plangc@michigan.gov
            4. msp-seocfgc@michigan.gov
            5. msp-seocgis@michigan.gov
            6. msp-seocgis2@michigan.gov
            7. hollanderh@michigan.gov (or local EOC planning)
2. Sit Rep Preparation
    a. At 1700 (5:00p) open the MICIMS dashboard for the incident and click on the **Situation Report Process** under the **Menus** section.
    b. In the **Situation Report Process Board** click on the **Situation Report-Step 1-Agency Reports** link.
    c. In the **SEOC Agency Reports** board verify that the Last updated column shows that the agency report has been updated for today (for agencies that are present in the SEOC or have a supporting role).
    d. If they are not up to date please check with the representative and work the report updated prior to continuing in the Sit Rep Builder (the process in MICIMS).
3. Executive Summary
    a. At 1700 (5pm) make a copy of the previous days executive summary and rename it "Sit Rep Executive Summary 2016mmdd (replace mm with numbers of the month and dd with numbers of the day). This document is located in the s drive in the following location:
        i. Shared>Disaster>2015-10 Flint Water>Sit Reps>Executive Summary
    b. Open up the renamed Sit Rep and select all (Ctrl+A) and click highlight (in Home Tab and Font section) to highlight all the text. Then save the document.
    c. As you update the content you will remove the highlighting on the sections to indicate you have updated them.
    d. As you receive the bullet points from the section chiefs and staff by email update the corresponding sections with the information provided. This will require you to copy and paste the bullets and wordsmith the sections as necessary to ensure that they flow well.
    e. Who will send the bullets:
        i. Logistics->Logistics Section Chief.
        ii. JIC->pull information from the twice daily briefings and/or the JIC Sit Rep.
        iii. Recovery Branch-> bullets will accompany the daily numbers for the teams.
        iv. Operations->Operations Section Chief.
        v. Finance-> Finance Section Chief

vi. GIS-> GIS Staff/Section Leader
vii. DTMB-> Pull information from twice daily briefings and/or Agency Sit Rep.
viii. DHHS-CH-> Pull information from twice daily briefings and/or Agency Sit Rep.
ix. DEQ-> Pull information from twice daily briefings and/or Agency Sit Rep.
x. Local EOC-> Local EOC Planning will send bullets.

f. To update the numbers:
    i. Pull information for the following numbers from the following locations:
        1. Recovery
            a. Numbers sent along with bullet points (totals can be obtained by adding today's totals to the previous days count).
        2. Operations
            a. Warehouse Numbers
                i. These numbers will be in the Google Drive Pipeline document around 6:30p every evening.
            b. PODs
                i. These numbers are obtained from the **National Guard Reporting FD PODs 2016-mm-dd.** This is located in the following location on the S: drive.
                    1. SHARED>DISASTER>2015-10 Flint Water>MI CIMS Data for Sit Rep>POD numbers>National Guard Reporting FD PODs 2016-mm-dd.
                    2. Pull the numbers from the **1700 TOTAL NUMBERS** sheet. It will be the numbers in the orange box.

4. Situation Report Process (in MICIMS)
    a. You can begin this process once all of the state agencies have submitted their Sit Reps (verify using the Sit Rep Prep process above).
    b. In the **Situation Report Process Board** click on the **Situation Report-Step 1-Agency Reports** link.
    c. In the board click the ***Situation Report-Step-1-Planning Portion*** link.
    d. In the **Michigan Planning Section** board click the **Edit** button.
    e. In the editing page set the **Operation Period Begin and End** to reflect the current operational period (this only changes once a week currently).
    f. Change the **Situation Report No.** this number is changed by adding 1 each Sit rep.
    g. Change the **SEOC Hours of Operation Begin and End** these change daily and you should only have to change the date.
    h. Once you have changed those items click the **Save** button and close the page.
    i. Next you will need to click the **Situation Report-Step 2-Send to Planning** link.
    j. In this page click the **Send to Planning** button and wait 30 seconds then close the page.
    k. Next you will click on the **Situation Report-Step 3-Editing** button.
    l. Click on the **Edit** button.

m. Scroll down to the text box below the **Incident Response/Recovery Priorities/Objectives.**
    i. Ensure that the objectives are the current objectives from the Incident Action Plan for the current Operational Period (verify with Planning Section Chief if unsure).
    ii. These can be pulled from the following location if they are not current:
        1. SHARED>DISASTER>2015-10 Flint Water>Objectives & Tactics. From here you can pull the most recent objectives.
    iii. If the objectives need to be updated copy and paste them and format them accordingly.
n. Next scroll down to the text box below the **Emergency Declarations** title.
    i. In this section verify that all the declarations are listed in the appropriate sections. If any are mission copy and paste them from the previous Sit Rep in the following location.
        1. SHARED>DISASTER>2015-10 Flint Water> Sit Reps
o. Next scroll down to the **Weather Conditions, Upcoming Forecast**
    i. In this text box you will need to remove the *"Updated xxxx am/pm"* from the line. Then go to each date in parenthesis and change them from abbreviations to the full name (e.g. Jan to January).
    ii. In this box you will also need to un-capitalize and words that are incorrectly capitalized.
p. Finally scroll through the Agency Sit Reps and remove any extra spaces following the text in each text box to prevent large blank spaces on the final Sit Rep.
q. Placing the Executive Summary
    i. Once the executive summary has been completed go to the text box below the **Executive Summary** title.
        1. Delete the information currently in the box and copy and paste the text from your finished summary in word.
        2. Once this has been pasted scroll through the summary and place spaces between each section to make the summary easier to read.

5. Have the Planning Section chief review the finished product before printing and distributing with other section chiefs and SMEs.

GOVERNOR'S CERTIFICATION OF ECONOMICALLY INJURED SMALL BUSINESSES BY COUNTY

Business Name & Address ***Contact Name*** **Phone Number**	**Gross Income** (Last Fiscal Yr.) (Indicate Month & Year)	***Gross Income*** (Current Fiscal Yr. To Disaster) (Indicate Specific Date)	**Gross Income Forecast** (Disaster to Fiscal Yr. End)	**Estimate Insurance Recovery (Business Interrupt Only)**	**Estimated date when operations return to Normal** (Indicate Specific Date)
(1) The Lunch Studio 444 S. Saginaw Flint, MI 48502 (810) 424 -9868	From 10/1/14 to 1/29/15 $36,509.42	From 10/1/15 to 1/29/16 $24,930.63	$		
(2) Café Rhema 432 S Saginaw St Flint, MI 48502 (810) 394-3111	From 9/1/14 to 1/29/15 $36,400	From 9/1/1 to 1/29/16 $20,400	$		
(3) Joe Lee's Hair Styling Studio 6052 Clio Rd Flint, MI 48504 (810) 787-1976	FY 2015 $22,000	FY 2016 $15,000 (Estimated)	$		
(4) 501 Bar and Grill 500 S. Saginaw Flint, MI 48502 (810) 410-4406	From 1/1/15 to 1/29/16 $ N/A	FY 2016 $1,075,667	$		
(5) Cork On Saginaw 635 S. Saginaw St Flint, MI 48502 (810) 422-9625	FY 2014 $730,723	FY 2015 $675,465	FY 2016 $		

There must be at least five (5) businesses to request a disaster declaration. There must be at least one (1) sample business for each county (or political subdivision no larger than a county) which the Governor is requesting be included in the disaster declaration. If the request is for (1) county, there must be at least (5) businesses within the county. If six (6) counties are being requested, there must be at least six (6) businesses, with at least one (1) in each county.

Flint Daily Blood Test Report

Week of January 25-29, 2016
Includes Zip Codes 48501 to 48507

This report presents daily counts of the total number of venous or capillary blood lead test *results for Flint residents in zip* codes 48501-48507 received by MDHHS in the previous 24 hours. *(Counts on each* Monday of the week include the previous week-end.) Total counts are also provided for the week. These counts do not represent the number of individual people tested, as some individuals may be tested more than once per year. For information on the number of people tested per calendar year, please see the weekly Flint Blood Test Report (available at www.michigan.gov/flintwater) that includes counts and percentage of tests with blood lead levels ≥ 5 micrograms per deciliter of blood by calendar year.

Testing Key

 # Tests = the total number of venous or capillary blood lead test results received in the previous 24 hours.

 # ≥ 5 (# new) = the number of venous or capillary blood lead test results received in the previous 24 hours that were ≥ 5 micrograms per deciliter of blood (the number of those test results ≥ 5 micrograms per deciliter of blood that were from people not previously tested).

% ≥ 5 = the percent of total tests received in the previous 24 hours that were ≥ 5 micrograms per deciliter of blood.

Age in Years	1/25/2016			Cumulative through 1/25/2016

Flint Daily Blood Test Report

Week of January 25-29, 2016
Includes Zip Codes 48501 to 48507

This report presents daily counts of the total number of venous or capillary blood lead test results for Flint residents in zip codes 48501-48507 received by MDHHS in the previous 24 hours. (Counts on each Monday of the week include the previous week-end.) Total counts are also provided for the week. These counts do not represent the number of individual people tested, as some individuals may be tested more than once per year. For information on the number of people tested per calendar year, please see the weekly Flint Blood Test Report (available at www.michigan.gov/flintwater) that includes counts and percentage of tests with blood lead levels ≥ 5 micrograms per deciliter of blood by calendar year.

Testing Key

 # Tests = the total number of venous or capillary blood lead test results received in the previous 24 hours.

 # ≥ 5 (# new) = the number of venous or capillary blood lead test results received in the previous 24 hours that were ≥ 5 *micrograms per deciliter of blood* (the number of those test results ≥ 5 micrograms per deciliter of blood that were from people not previously tested).

% ≥ 5 = the percent of total tests received in the previous 24 hours that were ≥ 5 micrograms per deciliter of blood.

Dear_____,

In May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to using its own water treatment plant drawn from the Flint River. The different properties of the water resulted in leaching of lead from pipes in the city's water infrastructure into the water supply. The consumption of the contaminated water caused increased lead exposure to the citizens. Exposure to lead can cause short and long-term negative health effects. However, the main health concerns are long-term effects in children, such as developmental, cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Officer.

On October 1, 2015 the Genesee County Health Department declared a Public Health Emergency due to the elevated blood lead levels in citizens. In response the City of Flint declared a local State of Emergency on December 15, 2015. Further, on January 4, 2016 Genesee County declared a local State of Emergency and requested a governor's declaration of a state of emergency. A State of Emergency was declared for the city of Flint and the County of Genesee on January 5, 2016 due to the presence of lead in the public water supply above the EPA threshold of 15 ppb.

At least _ businesses in the area have been impacted due to the nature of this event. A Sample Survey of these businesses was conducted by the Chamber of Commerce to determine the economic impact of those losses. The survey results , which are attached, show that _ of the _ businesses surveyed have gross revenue loss of _% for the disaster period as compared to the same period in the previous year.

Based on the survey, I hereby certify, in accordance with the Code of Federal Regulations, Part 123.3, that, in the City of Flint in Genesee County more than five (5) small businesses combined, and more than one (1) individually, suffered substantial economic injury as a direct result of the contaminated public water supply that led to the initial public health emergency on October 1, 2015. I further certify that the degree of economic injury suffered is so severe that financial assistance at reasonable rates and terms is not otherwise available, thereby creating the necessity for federal involvement in the form of subsidized loans.

Sincerely,

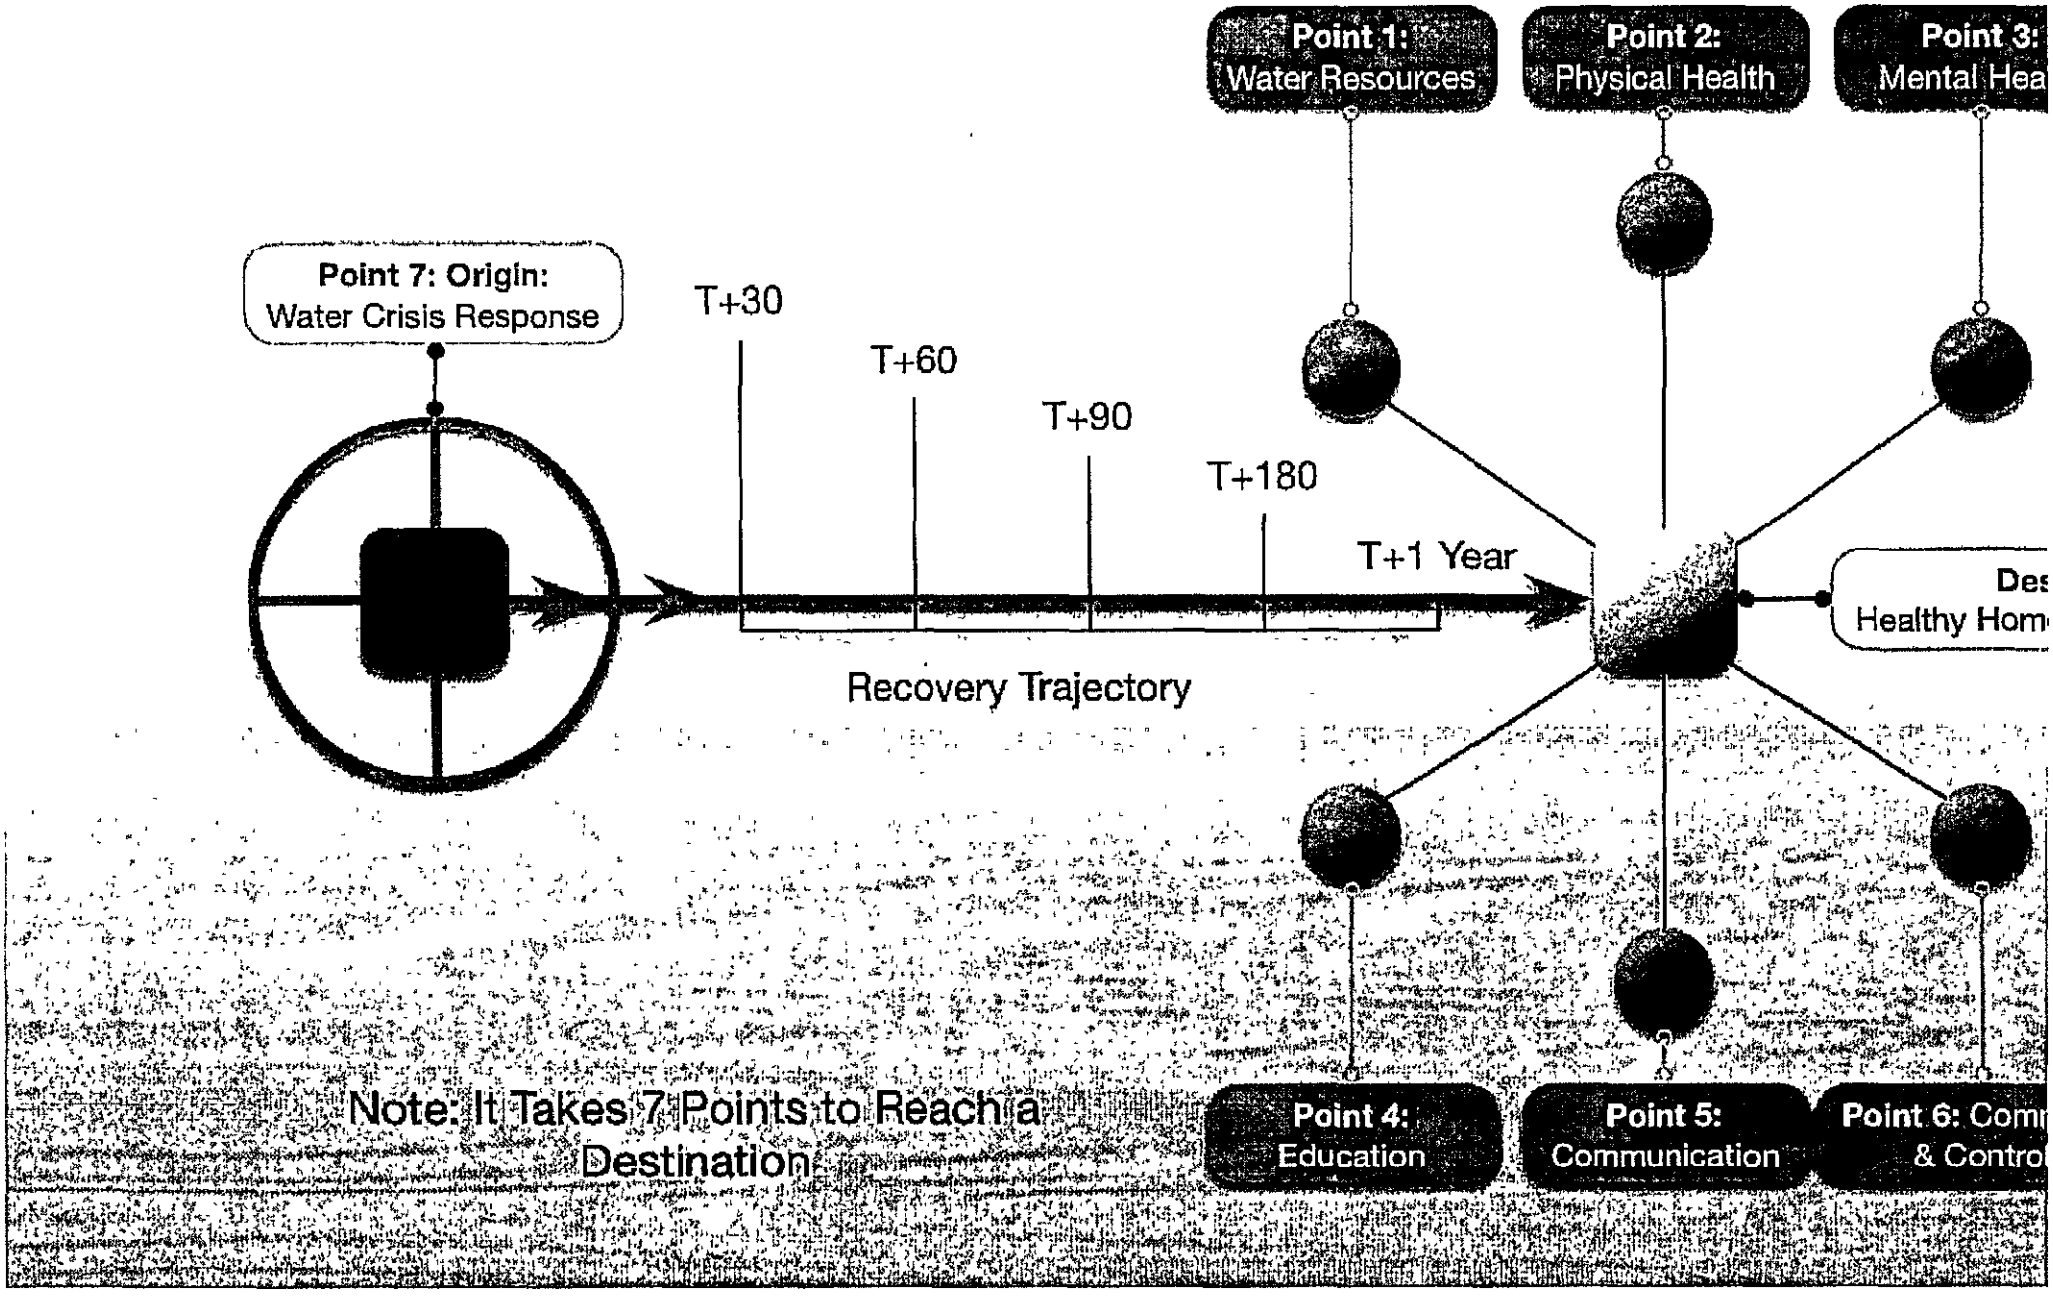
Governor, State of Michigan

FLINT MI WATER CRISIS

RECOVERY MODEL

RECOVERY – RESILIENCE – RETURN TO HEALTH
HOMES AND A HEALTHY COMMUNITY

DESTINATION RECOVERY



RECOVERY DESTINATION DEFINITION

HEATHY HOME?

- FILTERED WATER
  - FILTERS CHANGED AT KNOWN INTERVALS BASED ON CURRENT LEAD LEVELS
- SAFE AND REGULAR SUPPLY OF DRINKING WATER
- SAFE AND REGULAR SUPPLY OF WATER FOR:
  - COOKING
  - HYGIENE
  - LAUNDRY
- PERSONAL EDUCATION
- INDIVIDUAL AND FAMILY PHYSICAL HEALTH RECOVERY
- INDIVIDUAL AND FAMILY MENTAL HEALTH RECOVERY

HEALTHY COMMUNITY?

- SAFE WATER
- REPAIRED INFRASTRUCTURE
- EDUCATED COMMUNITY
- SELF-SUSTAINING HOUSEHOLD
- COMMUNITY TRUST AND POSI PERCEPTIONS
- SAFE ENVIRONMENT

POINTS OF RECOVERY

- **R** - WATER RESOURCES
  - MACRO DISTRIBUTION TO MICRO DISTRIBUTION
- **P** - PHYSICAL HEALTH
  - MITIGATING AND REVERSING THE PHYSICAL HEALTH IMPLICATIONS OF PROLONGED LEAD EXPOSURE
  - NUTRITION
- **M** - MENTAL HEALTH
  - MITIGATING AND REVERSING THE PSYCHOLOGICAL IMPACT OF WATER CRISIS
  - REESTABLISHING TRUST
- **E** - EDUCATION
  - INDIVIDUALS AND FAMILIES UNDERSTAND HOW TO RECOVER
  - INDIVIDUALS AND FAMILIES UNDERSTAND THE RECOVERY PROCESS
  - INDIVIDUALS AND FAMILIES UNDERSTAND HOW TO PROTECT THEMSELVES
- **C** - COMMUNICATION
  - RAPID AND TRUSTED COMMUNICATION NETWORKS
  - RELIABLE MESSAGING
- **CC** - RECOVERY COMMAND AND CONTROL
  - PROVIDING RESOURCES
  - RECOVERY PLAN EXECUTION AND MONITORING
  - DATA COLLECTION AND METRICS

CURRENT CONFIGURATION

HANDICAP PARKING

HANDICAP–VAN ACCESSIBLE

STANDARD PARKING

Operations

- Identifying all vulnerable populations to help streamline Hot Shot process
- Working on plan for church water distribution and pod locations
- Looking for other areas for pods
- Fielding multiple calls from celebrities, donations, volunteers

Uniform Ground Teams

-

Safety

- Working on tracking incidents at warehouse and car accident at GCEOC

City of Flint Liaison

- Coordinated water donations and delivery areas
- Completed lighting @ Station 3
- Coordinated water pickup for city employees
- Working on lighting at other stations
- Testing

DHHS - MCSC

- Last minute large donations of water and volunteers expected during weekend; placement locations needed
- Hill 23 Drive full; reroute deliveries to Clio Road Warehouse
- Putting summary of deliveries together

American Red Cross

- 900 Volunteers expected Saturday
- Request Salvation Army Canteen Teams be deployed to areas of volunteers, NG, and MSP; Salvation Army contacted and will participate.
- Finalized lodging for Team Rubicon

Genesee County Health Department

- Concern water at jail. Working on solution.
- Need good and effective public health message
- Materials translated into different languages (Arabic, Spanish, Mandarin, Russian)
- Local and State Health Depts fielding calls @ water quality
- Calls coming in from water well residents concerned about lead

Logistics

- Hot Shot Requests *URGENT*
- IPad troubleshooting
- Recycling

National Guard

- Coordinated traffic and completed traffic signs
- Collected Red Cross volunteer requests from pods
- Continued Operations
- Implemented teams with less members but backed with IPad users
- 12,790

Local Hazard Mitigation Planning Status

Statewide Mitigation Planning

Michigan currently has 63 local and/or tribal plans currently approved by FEMA under the standards of the federal Disaster Mitigation Act of 2000 (DMA). (Parenthetical county names are listed only to provide location information.) Communities whose plans have passed their expiration / update deadline are still listed below, but have a line through their names (~~like this, for example~~). Communities with plans that will expire within six months (by June 30, 2016) are underlined in the list below.

DMA 2000 FEMA-Approved Local / Tribal Plans in Michigan as of December 31, 2015

- Alcona County (will expire 10/27/2019)
- Alger County (will expire 8/31/2020)
- Allegan County (will expire 3/12/2020)
- Alpena County (will expire 10/27/2019)
- Ann Arbor, City of (will expire 9/17/2017)
- Antrim County (will expire 11/18/2020)
- ~~Arenac County~~ 2015 PDMP planning grant application
- Baraga County (will expire 9/9/2018)
- ~~Barry County~~ no known planning activity
- Bay County (will expire 3/23/2016)
- Benzie County (will expire 4/1/2020)
- Berrien County (will expire 5/2/2018)
- Bloomfield Township (Oakland Co) (expir. 10/3/2016) appl
- ~~Calhoun County~~ PDMP 2014 grant exp 9-30-2016
- Cass County (will expire 1/5/2017)
- ~~Charlevoix County~~ PDMP 2012 grant exp 7-31-2016
- ~~Cheboygan County~~ PDMP 2012 grant exp. 7-31-2016
- Chippewa County (will expire 11/25/2019)
- ~~Clare County~~ PDMP 2012 grant exp 9-30-2016
- Clinton County (will expire 7/6/2020)
- Crawford County (will expire 11/18/2019)
- Delta County (will expire 8/10/2020)
- Delta Township (Eaton County) (will expire 8/10/2020)
- Detroit, City of (Wayne County) (will expire 4/7/2020)
- ~~Dickinson County~~ EMHSD direct assistance
- Eastern Michigan University (will expire 3/15/2018)
- Eaton County (will expire 8/10/2020)

- ~~Washtenaw County~~ no known planning activity
- Wayne County (will expire 7/16/2019)
- Wexford County (will expire 8/31/2020)

Background on the map that follows: Because there is a five-year planning cycle that requires communities to review and update their approved plans in order to remain eligible to apply for or directly benefit from federal hazard mitigation grant funds, it is important to track those communities and alert / encourage them to begin this required update process. Therefore, the following categories have been used on the map on the following page: Those counties that have been smoothly shaded in various colors have a completed plan. Those counties without smooth shading (marked only with crosshatching, lines, dots, or otherwise devoid of color) are not currently eligible to receive or directly benefit from federal hazard mitigation grants. A display of dots identifies communities whose plans have expired and therefore are ineligible for mitigation grants until their plan is updated. Shading with white stripes identifies a community that currently is covered by an approved and adopted plan but is scheduled to have that plan expire or be updated sometime within the next two years. Lighter shading denotes areas that still have to officially adopt their updated local hazard mitigation plans (also identified in the list above).

Local Hazard Mitigation Plan Status
12/31/2015

Counties on the map are coded to match the categories below
Selected communities within the counties are listed to the right of those categories which apply to them in the descriptions below

Plan Status

- No reviewable draft plan recieved Battle Creek
- Old plan has expired (an update process is needed) Lac Vieux Desert Tribe, MTU
- Planning process currently under way
- *Plan not yet approved by FEMA* Grand Traverse Band
- Plan meets requirements but NEEDS LOCAL ADOPTION
- Plan approved & adopted Participants are grant-eligible: Delta Twp, Detroit, EMU, Estral Beach, Lansing
- Plan is due for update within the next 2 years Ann Arbor, Bloomfield Twp, Pokagon Band, U of M Flint

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	01/17/2016 08 00 00
Operational Period End.	01/19/2016 08 00 00
Situation Report No.	12
SEOC Status:	Full
SEOC Hours of Operation Begin:	*01/17/2016 08 00 00*
SEOC Hours of Operation End:	01/17/2016 20 00 00

Executive Summary

SEOC Update.
Accomplished today (January 17)

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies
- *Incident prioritization*
- Coordination of life/health safety measures
- Resources.
- Public Information Control

- Logistics
o Working on securing vehicles for additional teams for Monday, January 18th
o Procured 2 additional vans from DOC to shuttle additional teams next week
o Obtaining armed security for warehouse between the hours of 7 00 pm and 7 00 am
o Requested expedited delivery of DEQ water testing kits
o 20 ft trailer has been procured from the DOC for use by ARC to store assembled water test kits
o Verizon Booster and wireless will be provided to warehouse for internet connectivity and improved cellular reception.
o POD trash issue is being resolved and new removal system is in place
o Submitted a request to MDOT for reflective vests for volunteers
o Submitted request for hand warmers for volunteers
- JIC
o Governor's office issued a news release announcing the presidential emergency declaration approval
o Answered media calls about the state's resource distribution and activity efforts to date
o Updated daily talking points to include the state's activity efforts to date and the Presidential emergency declaration
o Coordinating with FEMA External Affairs to plan a Congressional call on January 17, in additional to a legislative call regarding the Presidential emergency declaration Preparing talking points for the Congressional and legislative conference calls
o Issued a news release with today's activity for the water resource sites and water distribution teams, as well as the increase in National Guard personnel
- Recovery Branch
o Worked to ramp up team activities for tomorrow
o Continued coordination with Red Cross on volunteers for Monday
o Data is for 1/17/16 as of 5 00 pm
Water Response Teams TOTALS 1/17/2016
Occupied Homes 8,871 2799
Vacant Homes 2,954 790
Unknown 4,523 1374
Total Homes Visited 16,348 4963
Resources Provided
Door Hangers 6,369 1982
Water - Cases 3,595 1510
Water - Gallons (Jugs) 98 1
Filters-Faucet 4,572 1558
Replacement Filter 2,938 897
Filter Pitchers 35 6
Water test kits 854 434
Total Resources Dispersed 18,461
Future sample test site 914 460

- Planning Section
o Lead morning and afternoon state agency conference call
o *Coordinated logistics of resource tracking.*
o Developed projections based off of reporting and trend analysis
o Published Sit Rep # 12
o Participated in distribution process meetings

- Operations Section
o Conducted SEOC Briefings
o Worked with local EOC to fix trash issue at the stations
o 89 American Red Cross volunteers are active across operation today

o Warehouse Numbers
□ Clio St Warehouse (approximate current stock)
• Replacement Cartridges
o 62,048
• Filters (faucet)
o 57,097
• Water (cases)
o 31,920
• Testing Kits
o 11,053
o Point of Distribution (as of 7 pm)
□ Contacts
• 741
□ Water (cases)
• 4809
□ Filters (faucet)
• 938
□ Replacement Cartridges
• 306
□ Filters (pitcher)
• 10
□ Test kits
• 1105
• Finance Section
o Working on verifying correct entry of EMHSD staff overtime in DCDS
o Continuing to work on developing spend plan.

• GIS Branch Updates.
o Determined that 40% of the registered 29,994 active water subscribers have received filters
o Developed a Flint Water Response Team progress map for public distribution
o Produced a city of Flint infrastructure map for FEMA IMAT
o Developed planning maps for the Recovery Branch

DTMB
• Clio Rd Warehouse security setup today
• Warehouse technology issues addressed and resources will be supplied by tomorrow
• DTMB, DSEMIC, and NC3 are monitoring social media for information on cyber-attack.

DHHS-CH
• Put together a timeline of activities for DHHS response
• Letter sent to JIC on blood lead analyzers for pediatricians
• Coordinated with DOE on potential grant for children impacted by traumatic events

DEQ
• Working on the test kit production.
• Working to transition ordering to FEMA if needed

Local EOC Update
• Facilitated activation of Genesee County/Genesee Health System MOU for mental health services
• Coordinated supplies for U of M flint Distribution
• Coordinated trash pickup at Fire Station PODs with Liaison Officer
• Developed Sit Rep #7
• *Coordinated hotshot deliveries of supplies to special locations*

Incident Response/Recovery Priorities/Objectives

1 Ensure all households within impacted community have required resources.
2 *Ensure accurate tracking and accounting of all commodities*
3 Improve and maintain public information strategy
4 Develop a long term public health and services plan
5. Ensure adequate staffing to support operational requirements.
6 Identify possible assistance programs
7 Develop an approved GIS strategy
8 Maintain coordination between partner agencies and organizations.
9 Enhance situational awareness and common operating picture of all activities
10 Develop a comprehensive Recovery Plan

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was operational in Flint from 8 a m to 10 p m. on Jan 17

State agencies at the JIC included the Governor's Office, Departments of Health and Human Services, Agriculture and Rural Development, and Technology and Management and Budget, Natural Resources, Environmental Quality, Licensing and Regulatory Affairs, Military and Veterans Affairs and Michigan State Police. The Genesee County Sheriff's Office was also present.

Tasks accomplished·

- Helped arrange a legislative and congressional conference call to give updates on state and FEMA efforts.
- Provided talking points for Captain Kelenske for the legislative and congressional phone call
- Provided talking points for attendees on congressional/legislative call so they can share updates with their constituents.
- Arranged a media availability at the Clio Road warehouse for media to have the opportunity to tour the warehouse to get photos and video of where water resources for Flint residents are being housed and distributed. Event attended by F/Lt. Dave Kaiser,

ARC Warehouse Manager, and Capt. Tafoya of GCSD.
• Provided printed instructions to 211 for installing a water filter.
• Created a section called Federal Declaration Requests on the Flint Water Website to house the emergency declaration and associated letters.
• Updated the Lead in the Body FAQ/fact sheet on the website to focus more on lead in the water.
• Planning to send out nightly news release with updated information about today's activity.
• At the request of 211, arranged for a PIO from the Community Service Commission to be in the JIC this week.

Agriculture and Rural Development (MDARD)

Saturday Jan 16th update

Primary activities today: coordination with FDA Detroit District on their and MDARD's upcoming activities related to food, inquiry into a possible animal facility requiring follow up; draft of a document outlining federal resources that may be available to assist with broader recovery issues

American Red Cross (ARC)

Today was the last day the American Red Cross supplied staffing at the fire station POD's supporting the National Guard mission
The assembly of water test kits at ARC headquarters was postponed until product is available.
We deployed and supported 10 teams (30 volunteers) for neighborhood canvassing (Water Response). 10-14 teams are planned for tomorrow
We supplied lunches for all 20 of the Water Response Teams today, and will feed all of the teams again tomorrow.
The volunteer reception center (VRC) was in full operation today 42 volunteers were processed today. The VRC will be in operation on Monday
We continued warehouse and inventory management efforts
A total of 89 Red Cross volunteers were active in today's efforts.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC activities
Also monitoring media and coverage of rallies and events

Community Health (MDCH)

To support and provide information to the CHECC Disaster Behavioral Health planning lead, MDE was inquired regarding potential application for the "Project School Emergency Response to Violence," (SERV) grant Follow-up was received from Louis Burgess who indicated that information will be gathered by MDE regarding this grant to determine the applicability and feasibility

Provided MDHHS PIOs with drafted letter developed by the CHECC and reviewed/approved by Dr Wells, Dr Johnson, and April Swartout, for approval from the JIC to be signed and sent to GCHD This letter serves to encourage Genesee County pediatricians to accept and use portable lead analyzers being offered to them by the GCHD This letter was approved by the JIC this afternoon, pending minor edits. The final version of the letter will be provided to the SEOC State Director for approval before sending to GCHD

Provided a MDHHS timeline of Flint Water-related activities, to date, to the Operations Section Chief as requested This timeline included both health and human services statistics such as water and filter orders, number of blood lead tests conducted, and data on the number of elevated blood lead levels reported in children (categorized by age) in Flint

Coordinated with the JIC and CHECC on nutritional information available online, as well as the possibility of activating the Disaster Distress 24/7 helpline through SAMHSA These two projects are a work-in-progress to be further facilitated by the subject matter experts working on them later in the week

Corrections (MDOC)

Brent Travelbee and Todd Bechler on duty SEOC today. All previous requests for vehicles, personnel and warehouse equipment have been filled and continue to be on site to assist with water distribution, additional request's today for re-allocation of hand jacks, a replacement electric jack, an additional box truck and 2 more transportation vans have either been filled or are in progress set for Monday morning delivery. MDOC Director Heidi Washington is providing full support to our assistance efforts. We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field All resources are documented on the appropriate forms and shared with the SEOC staff Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility.

The MDOC is dedicating a considerable amount of resources and staff to this effort We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner All MDOC resources will be reporting tomorrow Sunday January 17, 2016 as requested

MDOC RESOURCES PENDING DEPLOYMENT: Monday, January 18, 2016

Vehicles with Drivers

(2) – 18' Box Trucks
(4) – 20' Box Trucks
(2) - 24' Box Trucks
(1) - 30' Box Truck (Lift gate broken but truck still on site, DTMB repairing)

Box Trucks have power lift gates

(1) – F250 Pick Up Quad Cab with Cap
(1) – 5 Passenger Handicapped Capable Van

(1) – 15 Passenger Van with 10' Enclosed Trailer
(1) – Pick-up Truck

(6) – 10/15 Passenger Vans

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks (This includes one that is broken and will be returning to Ionia tomorrow night for repair)

(7) – Hand Pallet Jacks

(5) 6-10 Passenger Vans

All vehicles drivers have 800 MHz Radio Operability (G EVENT 9)

Staffing

There will be 24 staff members on site 23 drivers and an assistant for the Red Cross Transportation Van (w/trailer)

Education (MDE)

MDE is monitoring the situation and coordinating as necessary with other state agencies

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today.
- Identified MDEQ employee George Krisztian to attend the Tuesday Flint health briefing
- Coordinated one 24' trailer or truck to be delivered to the ARC HQ in Flint This will be used to store water test kits once assembled by the ARC Duration of request was 7 days
- Participated in SEOC activities to include the daily state agency briefing and the Distribution Process meetings.
- Provided support for possible transition of test-kit provision to FEMA
- Initiated expedited delivery of sample bottles already on order.

Human Services (MDHS)

Updated MDHHS Budget / Finance of FEMA intention of assuming water filter device procurement

Provided FEMA OPs and Logs requested information on current water filtration device orders and inventories

Met with FEMA VAL Exchanged contact information, provided some SA and supplied contact information between FEMA VAL and MCSC in Flint

Staying in communication with 211, addressing human service concerns and delivery of resources to the elderly and disabled.

Review and provide regular 211 updates to SEOC Ops.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

Two bubblers that were supposed to be overnighted and delivered to a Flint area Home Depot did not arrive. Without these bubblers the Freeman School faucet replacement pilot cannot be completed, Install could possibly be finished on 1/18 if parts arrive.

LARA is currently working with DEQ to create a schedule for LARA's Plumbing Division to help DEQ with testing of additional schools in the Flint area.

LARA Bureau of Community and Health Services is in contact with licensed facilities to ensure they are receiving appropriate assistance if needed LARA is continuing to receive information on the facilities to determine the appropriate actions needed.

Military and Veterans Affairs (DMVA)

Last 24 hours.
Distributed water, water filters, water test kits and collected water samples for analysis at five points of distribution Coordinated efforts with Genesee County EOC and Joint Information Center In-Processed 33 Soldiers to augment distribution operations at 1800 S outer Dirve, Saginaw, MI on 17 January 2016 at 1300 Conducted lodging and operations orientation following in-processing. Total of 67 Soldiers on State Active Duty on 17 January 2016. All PODS received pallet jacks for off-loading water pallets Coordination between FEMA and Selfridge Air Base (SANGB) taking place. Exact terms of agreement of FEMA using SANGB for staging operations have not been identified at this time

Total of 67 Soldiers on State Active Duty.
1 at Genesee County EOC
1 at Joint Information Center
32 at PODS
33 Soldiers In-processing

Next 48 hours
Distribute water, water filters, and water test kits and collect water samples for analysis at five points of distribution Coordinate efforts with Genesee County EOC and Joint Information Center. Relieve Red Cross at PODS, assuming their role of distributing filters Total of 67 Soldiers on State Active Duty on 17 January 2016 Additional Soldiers will conduct first full day of distribution operation on 18 January 2016. Continue coordination between FEMA and SANGB, a 0800 meeting will be conducted on 18JAN16.

Micheal Shook
CPT, IN, USA
989-763-4256

National Weather Service (NWS)

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac Participation in afternoon SEOC briefings in planned only if significant changes in the forecast occur

NWS support beyond this weekend being coordinated between NWS Grand Rapids and NWS Detroit Hand off to NWS Detroit for morning conference call weather forecast likely before the end of January.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC

Department POC's include
Chief Gary Hagler, F/Lt Jennifer Wolf, F/Lt Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the Genesee County Health Department and MDHHS, has helped organize local meetings and distribute water and water filters VAAA is an access point for receiving calls from homebound seniors who are not able to pick up water filters or need assistance installing water filters VAAA reports they continue to receive calls from seniors who need assistance.

Contact info for VAAA Executive Director is

Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

VAAA has distributed 2 bottles of water with each home delivered meal to each HDM client within the City of Flint. Water VAAA also provided water to homebound seniors who needed water to prepare food as they had limited support to pick up bottled water Congregate meal participants also have access to water and filters as needed Once water filters were installed, VAAA discontinued including water with home delivered meals.

VAAA also contacted the Grandparents Raising Grandchildren program to ensure that they were aware of educational efforts and confirm the program had received water filters to distribute to program participants

On 1/11/16 AASA forwarded to MSP/GIS over 1,400+ NAPIS addresses of Flint seniors who received in-home services in FY15. The NAPIS file was sent encrypted and did not include client names. The NAPIS file included 1,029 HDM, 138 CM, and 30 CCS clients.

VAAA continues to operate as a call center and referral point for area seniors concerned about their drinking water. They've noticed this week that seniors who've had filters installed are beginning to request bottled water again.

AASA's State LTC Ombudsman has checked in with the local Ombudsman in Flint. Local Ombudsman reports Flint area nursing homes have been taking precautions using bottled water for cooking and drinking The local Ombudsman remains concern about Nursing Homes' long term need to replace old facility plumbing that may be leaching lead.

State Police (MSP)

Teams have been distributing water all day. 4968 homes have been visited today.

2.59 p m - Ryan McKee from DTMB requested assistance from MSP MIOC/DSEMIIC to monitor social media for information

relating to the cyber attacks that occurred on the following websites yesterday and today; CityofFlint.com, Michigan.gov and Flinttownshippolice.org

3:09 p m - Analyst Peter Hoffman of the DSEMIIC was notified DTMB will be forwarding their information to the DSEMIIC, MIOC and MC3 for coordination.

3.50 p m - DTMB forwarded their information regarding the cyber attack to the DSEMIIC, MIOC and MC3 for social media monitoring.

5 59 p m. Lt. Young advised today, Sunday, Jan 17, 2016 - 173 total team members made up 11 teams which consisted of 104 volunteers to include 22 DHHS, 69 Non volunteers (Paid Personnel) which included 11 drivers from Dean Trailways, 12 MDOC personnel, 17 MSP and 29 GCSO

We have 114 state of Michigan employee volunteers scheduled for Sunday Jan 17th and 139 scheduled for Monday Jan 18th

Supreme Court

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency

Technology, Management and Budget (MDTMB)

Provided management briefing and information on emergency declaration

DTMB Mail Services has seven drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams Drivers have agreed to work through the end of day Tuesday, January 19.

DTMB assisted in procuring 72 truck loads of water, 8 trucks per day until Wednesday, January 20
60 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
Provided 450 credentialing badges for volunteers and 4 temporary fuel cards for the MSP officers driving rented U-Haul trucks.
Warehouse space was procured for 80,000 square feet to hold water, water filters, cartridges and water test kits
Procured 500 rain ponchos for volunteers and a 40 yard dumpster for use at the warehouse
Providing printing needs for agencies for volunteers to distribute to city residents.
Provided armed security for Clio Rd warehouse
Providing server monitoring of MiCIMS servers.
Provided wireless router and printer for FEMA staff at SEOC
Verizon Wireless booster will be onsite at Clio Rd warehouse on Monday, January 18 by 2 00pm.
Procuring hand warmers for Water Response Teams

Transportation (MDOT)

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	01/17/2016 08 00 00
Operational Period End:	01/19/2016 08 00 00
Situation Report No.	12
SEOC Status:	Full
SEOC Hours of Operation Begin:	01/17/2016 08 00 00
SEOC Hours of Operation End:	01/17/2016 20 00 00

Executive Summary

On January 6, 2016, Governor Snyder declared a State of Emergency for the City of Flint and Genesee County Genesee County requested the Governor's declaration on January 5, 2016, following the declaration of a State of Emergency in the county in response to the presence of lead in the public water supply, and the detection of elevated blood lead levels exceeding governmental standards These conditions exist in the City of Flint, which declared a local State of Emergency and activated local response plans and their Emergency Operations Center on December 15, 2015 A public health emergency was declared by the Genesee County Health Department on October 1, 2015

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to the Flint River as their primary water source The corrosive river water caused the leaching of lead from lead pipes into the water supply Increased exposure to lead can cause immediate negative health effects However, the main health concerns are long-term effects in children such as developmental and

cognitive delays, and behavioral disorders Elevated blood lead levels were observed in a significant sampling of young children in the City of Flint, and confirmed by the State Chief Medical Officer

To mitigate the negative effects of corrosive river water on the water infrastructure in the City of Flint, the city switched back to DSWD as their primary water source on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone. MDHHS has increased surveillance of blood lead levels in children, addresses water issues in environmental investigations facilitated to identify lead sources in the environment of affected children, and provide health education and information to residents, health care providers and daycare/educational institutions Local nonprofit organizations have provided potable water to Flint residents MSP/EMHSD GIS staff is supporting county and local GIS staff, consolidate data from local sources into comprehensive databases, and providing mapping services that support incident analysis and forecasting. Data and maps will be made available regarding the location of water pipes, affected schools, filter distribution locations, water monitoring results, predictive blood lead levels for affected areas, demographics, etc

Before December 16, 2015, $9 35 million were provided by the State of Michigan, and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While drops in lead levels have been observed since reconnecting to the DWSD system, water in the City of Flint is *still not safe to drink, unless specifically filtered.*

Incident Response/Recovery Priorities/Objectives

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was operational in Flint from 8 a m to 10 p m on Jan. 17

State agencies at the JIC included the Governor's Office, Departments of Health and Human Services, Agriculture and Rural Development, and Technology and Management and Budget, Natural Resources, Environmental Quality, Licensing and Regulatory Affairs, Military and Veterans Affairs and Michigan State Police. The Genesee County Sheriff's Office was also present.

Tasks accomplished
- Helped arrange a legislative and congressional conference call to give updates on state and FEMA efforts
- Provided talking points for Captain Kelenske for the legislative and congressional phone call.
- Provided talking points for attendees on congressional/legislative call so they can share updates with their constituents.
- Arranged a media availability at the Clio Road warehouse for media to have the opportunity to tour the warehouse to get photos and video of where water resources for Flint residents are being housed and distributed Event attended by F/Lt Dave Kaiser, ARC Warehouse Manager, and Capt Tafoya of GCSD.
- Provided printed instructions to 211 for installing a water filter.
- Created a section called Federal Declaration Requests on the Flint Water Website to house the emergency declaration and associated letters
- Updated the Lead in the Body FAQ/fact sheet on the website to focus more on lead in the water
- Planning to send out nightly news release with updated information about today's activity
- At the request of 211, arranged for a PIO from the Community Service Commission to be in the JIC this week.

Agriculture and Rural Development (MDARD)

Saturday Jan 16th update Primary activities today coordination with FDA Detroit District on their and MDARD's upcoming activities related to food, inquiry into a possible animal facility requiring follow up, draft of a document outlining federal resources that may be available to assist with broader recovery issues

American Red Cross (ARC)

Today was the last day the American Red Cross supplied staffing at the fire station POD's supporting the National Guard mission.
The assembly of water test kits at ARC headquarters was postponed until product is available
We deployed and supported 10 teams (30 volunteers) for neighborhood canvassing (Water Response). 10-14 teams are planned for tomorrow.
We supplied lunches for all 20 of the Water Response Teams today, and will feed all of the teams again tomorrow
The volunteer reception center (VRC) was in full operation today 42 volunteers were processed today The VRC will be in operation on Monday.
We continued warehouse and inventory management efforts
A total of 89 Red Cross volunteers were active in today's efforts.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC activities.
Also monitoring media and coverage of rallies and events

Community Health (MDCH)

To support and provide information to the CHECC Disaster Behavioral Health planning lead, MDE was inquired regarding potential application for the "Project School Emergency Response to Violence," (SERV) grant. Follow-up was received from Louis Burgess who indicated that information will be gathered by MDE regarding this grant to determine the applicability and feasibility.

Provided MDHHS PIOs with drafted letter developed by the CHECC and reviewed/approved by Dr. Wells, Dr. Johnson, and April Swartout, for approval from the JIC to be signed and sent to GCHD. This letter serves to encourage Genesee County pediatricians to accept and use portable lead analyzers being offered to them by the GCHD. This letter was approved by the JIC this afternoon, *pending minor edits The final version of the letter will be provided to the SEOC State Director for approval before sending to* GCHD

Provided a MDHHS timeline of Flint Water-related activities, to date, to the Operations Section Chief as requested. This timeline included both health and human services statistics such as water and filter orders, number of blood lead tests conducted, and data on the number of elevated *blood lead levels reported in children (categorized by age) in Flint*

Coordinated with the JIC and CHECC on nutritional information available online, as well as the possibility of activating the Disaster Distress 24/7 helpline through SAMHSA These two projects are a work-in-progress to be further facilitated by the subject matter experts working on them later in the week

Corrections (MDOC)

Brent Travelbee and Todd Bechler on duty SEOC today. *All previous requests for vehicles, personnel and warehouse equipment* have been filled and continue to be on site to assist with water distribution; additional request's today for re-allocation of hand jacks, a replacement electric jack, an additional box truck and 2 more transportation vans have either been filled or are in progress set for Monday morning delivery. MDOC Director Heidi Washington is providing full support to our assistance efforts We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field All resources are documented on the appropriate forms and shared with the SEOC staff Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility

The MDOC is dedicating a considerable amount of resources and staff to this effort. We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner. All MDOC resources will be reporting tomorrow Sunday January 17, 2016 as requested.

MDOC RESOURCES PENDING DEPLOYMENT Monday, January 18, 2016

Vehicles with Drivers

(2) – 18' Box Trucks
(4) – 20' Box Trucks
(2) - 24' Box Trucks
(1) - 30' Box Truck (Lift gate broken but truck still on site, *DTMB repairing)*

Box Trucks have power lift gates

(1) – F250 Pick Up Quad Cab with Cap
(1) – 5 Passenger Handicapped Capable Van

(1) – 15 Passenger Van with 10' Enclosed Trailer
(1) – Pick-up Truck

(6) – 10/15 Passenger Vans

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks (This includes one that is broken and will be returning to Ionia tomorrow night for repair)

(7) – Hand Pallet Jacks

(5) 6-10 Passenger Vans

All vehicles drivers have 800 MHz Radio Operability (G EVENT 9)

Staffing

There will be 24 staff members on site 23 drivers and an assistant for the Red Cross Transportation Van (w/trailer).

Education (MDE)

MDE is monitoring the situation and coordinating as necessary with other state agencies

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today
• Identified MDEQ employee George Krsztian to attend the Tuesday Flint health briefing.
• Coordinated one 24' trailer or truck to be delivered to the ARC HQ in Flint. This will be used to store water test kits once assembled by the ARC Duration of request was 7 days

- Participated in SEOC activities to include the daily state agency briefing and the Distribution Process meetings.
- Provided support for possible transition of test-kit provision to FEMA
- Initiated expedited delivery of sample bottles already on order.

Human Services (MDHS)

Updated MDHHS Budget / Finance of FEMA intention of assuming water filter device procurement.

Provided FEMA OPs and Logs requested information on current water filtration device orders and inventories.

Met with FEMA VAL Exchanged contact information, provided some SA and supplied contact information between FEMA VAL and MCSC in Flint

Staying in communication with 211, addressing human service concerns and delivery of resources to the elderly and disabled.

Review and provide regular 211 updates to SEOC Ops.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

Two bubblers that were supposed to be overnighted and delivered to a Flint area Home Depot did not arrive Without these bubblers the Freeman School faucet replacement pilot cannot be completed; Install could possibly be finished on 1/18 if parts arrive

LARA is currently working with DEQ to create a schedule for LARA's Plumbing Division to help DEQ with testing of additional schools in the Flint area

LARA Bureau of Community and Health Services is in contact with licensed facilities to ensure they are receiving appropriate assistance if needed. LARA is continuing to receive information on the facilities to determine the appropriate actions needed.

Military and Veterans Affairs (DMVA)

Last 24 hours:
Distributed water, water filters, water test kits and collected water samples for analysis at five points of distribution Coordinated efforts with Genesee County EOC and Joint Information Center. In-Processed 33 Soldiers to augment distribution operations at *1800 S outer Drive, Saginaw, MI on 17 January 2016 at 1300 Conducted lodging and operations orientation following in-*processing Total of 67 Soldiers on State Active Duty on 17 January 2016. All PODS received pallet jacks for off-loading water pallets Coordination between FEMA and Selfridge Air Base (SANGB) taking place. Exact terms of agreement of FEMA using SANGB for staging operations have not been identified at this time.

Total of 67 Soldiers on State Active Duty:
1 at Genesee County EOC
1 at Joint Information Center
32 at PODS
33 Soldiers In-processing

Next 48 hours:
Distribute water, water filters, and water test kits and collect water samples for analysis at five points of distribution. Coordinate efforts with Genesee County EOC and Joint Information Center. Relieve Red Cross at PODS, assuming their role of distributing filters. Total of 67 Soldiers on State Active Duty on 17 January 2016. Additional Soldiers will conduct first full day of distribution operation on 18 January 2016 Continue coordination between FEMA and SANGB, a 0800 meeting will be conducted on 18JAN16

Micheal Shook
CPT, IN, USA
989-763-4256

National Weather Service (NWS)

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac Participation in afternoon SEOC briefings in planned only if significant changes in the forecast occur.

NWS support beyond this weekend being coordinated between NWS Grand Rapids and NWS Detroit. Hand off to NWS Detroit for morning conference call weather forecast likely before the end of January.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the Genesee County Health Department and MDHHS, has helped organize local meetings and distribute water and water filters. VAAA is an access point for receiving calls from homebound seniors who are not able to pick up water filters or need assistance installing water filters VAAA reports they continue to receive calls from seniors who need assistance.

Contact info for VAAA Executive Director is:

Kathryn C Boles
President, CEO
Valley Area Agency on Aging
225 E Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

VAAA has distributed 2 bottles of water with each home delivered meal to each HDM client within the City of Flint. Water VAAA also provided water to homebound seniors who needed water to prepare food as they had limited support to pick up bottled water. Congregate meal participants also have access to water and filters as needed Once water filters were installed, VAAA discontinued including water with home delivered meals

VAAA also contacted the Grandparents Raising Grandchildren program to ensure that they were aware of educational efforts and confirm the program had received water filters to distribute to program participants.

On 1/11/16 AASA forwarded to MSP/GIS over 1,400+ NAPIS addresses of Flint seniors who received in-home services in FY15 The NAPIS file was sent encrypted and did not include client names The NAPIS file included 1,029 HDM, 138 CM, and 30 CCS clients

VAAA continues to operate as a call center and referral point for area seniors concerned about their drinking water They've noticed this week that seniors who've had filters installed are beginning to request bottled water again.

AASA's State LTC Ombudsman has checked in with the local Ombudsman in Flint. Local Ombudsman reports Flint area nursing homes have been taking precautions using bottled water for cooking and drinking The local Ombudsman remains concern about Nursing Homes' long term need to replace old facility plumbing that may be leaching lead.

State Police (MSP)

Teams have been distributing water all day 4968 homes have been visited today

2:59 p m. - Ryan McKee from DTMB requested assistance from MSP MIOC/DSEMIIC to monitor social media for information relating to the cyber attacks that occurred on the following websites yesterday and today, CityofFlint com, Michigan.gov and Flinttownshippolice org

3.09 p m.- Analyst Peter Hoffman of the DSEMIIC was notified. DTMB will be forwarding their information to the DSEMIIC, MIOC and MC3 for coordination

3 50 p m - DTMB forwarded their information regarding the cyber attack to the DSEMIIC, MIOC and MC3 for social media monitoring

5 59 p.m Lt. Young advised today, Sunday, Jan 17, 2016 - 173 total team members made up 11 teams which consisted of 104 volunteers to include 22 DHHS, 69 Non volunteers (Paid Personnel) which included 11 drivers from Dean Trailways, 12 MDOC personnel, 17 MSP and 29 GCSO.

We have 114 state of Michigan employee volunteers scheduled for Sunday Jan 17th and 139 scheduled for Monday Jan 18th.

Supreme Court

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency Nothing to report from the Judiciary regarding the emergency DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

Technology, Management and Budget (MDTMB)

Provided management briefing and information on emergency declaration

DTMB Mail Services has seven drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Drivers have agreed to work through the end of day Tuesday, January 19.

DTMB assisted in procuring 72 truck loads of water, 8 trucks per day until Wednesday, January 20.
60 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
Provided 450 credentialing badges for volunteers and 4 temporary fuel cards for the MSP officers driving rented U-Haul trucks
Warehouse space was procured for 80,000 square feet to hold water, water filters, cartridges and water test kits
Procured 500 rain ponchos for volunteers and a 40 yard dumpster for use at the warehouse
Providing printing needs for agencies for volunteers to distribute to city residents.
Provided armed security for Clio Rd warehouse
Providing server monitoring of MiCIMS servers
Provided wireless router and printer for FEMA staff at SEOC
Verizon Wireless booster will be onsite at Clio Rd. warehouse on Monday, January 18 by 2:00pm

Procuring hand warmers for Water Response Teams

Transportation (MDOT)

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions

DCDS Hours Entry by Coding Block

(Last revised 1/28/14)

To change your default entry to Hours by Coding Block Entry:

1. Log into DCDS.
2. Select Options.
3. Check Hours by CB (Coding Block) Entry to change your default.

To enter work Hours by Coding Block (regular, overtime, comp time earned, etc.):

1. Open your time sheet as you normally do.
2. You should see an Hours Entry by Coding Block section above the time entry section. *The blue line is the active line.*
3. Click your cursor in the AY box and enter the last 2 digits of the appropriation (fiscal) year.
4. Tab to Index and enter your Index number.
5. Tab to PCA and enter the PCA associated with work you did for the number of hours worked that you worked on it.
6. Move down to the time entry section and select the appropriate Hours Type.
7. Tab to the appropriate day and enter the number of hours associated with the PCA you entered above.
8. Enter daily comments for each Hours Type.
9. Select Save.
10. At the end of the pay period, select Submit.

To enter hours for holidays, comp time used, annual leave, sick leave, school & community leave, bank leave time used, administrative leave, initial leave, jury duty, Plan A:

1. Check the "std" (standard coding) box under the Hours Entry by Coding Block section.
2. Move down to the time entry section and select the appropriate Hours Type.
3. Tab to the appropriate day and enter the number of hours.
4. Enter the required information for school & community leave. Required information includes all of the following: 1) name of the school or community activity sponsor; 2) name of the event; description of the volunteer services performed; and 4) the time period that the employee performed the volunteer services.
5. Select Save.

6. At the end of the pay period, select Submit.

To view your time sheet:

1. Select Reports.
2. Select Employee Data Collection.
3. Selection Option B - Detail Time (or Option A - Coding Block Detail Time).
4. Enter Department 55.
5. Enter Agency 01.
6. Enter TKU 044. (EMHSD)
7. Select the PP (pay period) End Date.
8. Select OK.

Brainstorm Ideas for Possible VOAD/NGO Support in Flint Water Contamination 1/06/16 Version

The MSP/EMHSD planners asked the Red Cross [ARC] to brainstorm and come up with possible ways in which MI-VOAD, the Red Cross and other NGOs might be able to assist in the response and recovery phases of the Flint Water Contamination. When reviewing the ideas which follow, please keep in mind these considerations:

1 We cannot speak for MI-VOAD and recommend that MI-VOAD be convened so that the members can be briefed and discuss these ideas.
2. NGOs seek funding to implement programs which align with their missions. None of them are funded to conduct recovery efforts for the Flint Water Contamination and would likely need financial support to do so.
3 These ideas are not task assignments or commitments.

POSSIBLE NGO SUPPORT ACTIVITIES

a) NGOs can help educate Flint residents about water filters and ways to mitigate lead exposure in children through nutrition and early childhood education (Leveraging the Red Cross' Home Fire Prevention Campaign, ARC volunteers could provide education materials, water filters and replacement cartridges when they visit homes to install smoke alarms Discussions are currently underway to do this.)

b) The ways in which educational information is disseminated may provide an opportunity to rebuild trust in government. If those efforts engage trusted organizations such as faith-based groups and the Red Cross, the positive perceptions may be extended to government.

c) NGOs' places of business could be used as points of distribution for water and filters. In addition to space, the NGOs may be able to provide people to staff them. Perhaps some NGOs could provide the water and filters, but not all. Such arrangements would need to be time limited

d) Some NGOs can provide language interpretation and translation for those residents who need it and for translation of educational materials

e) In Flint, Child Care Network trains providers of early childhood education.

f) Some Flint residents affected by the water contamination may benefit from crisis counseling. People who work on the recovery (agency staff and volunteers) may also. There are NGOs which provide such counseling.

g) Some homes contain lead pipes, faucets or related infrastructure. Perhaps some NGOs (Habitat for Humanity?) could install new ones However, this may require specific licenses or permits.

h) If it's determined that food will be distributed to improve nutrition, NGOs may be able to assist.

i) There may be NGO services available directly to those children who evidence disabilities as a result of lead exposure.

j) There are local agencies which have been and continue to address the needs of Flint residents. Because the recovery may be long term, the capacity of these agencies may be taxed. It's possible that NGOs could support them by providing workers (staff and/or volunteers) to help, depending on their needs (including answering phone calls and responding to email.)

k) Some of the MI-VOAD member agencies may be able to act as liaisons with local government and non-profit agencies.

Dec. 16, 2015

Talking Points

Flint Water Issue

NOT INTENDED TO BE DISSEMINATED TO THE MEDIA OR PUBLIC IN THIS FORMAT

Background

- In April 2014, the city of Flint moved from purchasing water from the Detroit Water and Sewer Department and began processing Flint River water. Several local and state issues surfaced and about the quality of the processed river water, including high lead levels caused by the water's corrosiveness. This caused state and local officials to go back to purchasing water from the Detroit Water and Sewer Department.
    - Water and health experts have found that the high lead levels were caused by corrosive water leaching lead particles from older water services lines. Since the initial water switch, children have been
- On Oct. 1, 2015, the Genesee County declared a "Public Health Emergency."
- On Oct. 15, 2015, Gov. Rick Snyder signed a bill (Public Act 143 of 2015) to direct funding to the city of Flint's emergency water services to reconnect the city's water supply to the Great Lakes Water Authority until the Karegnondi Water Authority pipeline is completed.
- In addition to the $6 million appropriated to reconnect Flint to the Detroit Water and Sewer System:
    - $300,000 goes to the Department of Environmental Quality's drinking water and environmental health service,
    - $1 million to provide for DEQ to test drinking water samples;
    - $1 million to enable the Department of Health and Human Services to purchase and distribute water filters to Flint residents;
    - $850,000 will aid in follow-up services for Children, including testing, investigations, and case management for those with elevated blood levels;
    - $200,000 will fund state plumbing inspections for schools and health facilities.
    - **NOTE:** To reconnect the city of Flint to Detroit water, the city provided $2 million the Charles Stewart Mott Foundation committed $4 million and the state of Michigan provided $6 million.
    - **OVERALL TOTAL:** State: $9.35 million; Local/private nonprofit: $6 million
- Dr. Karen Weaver, the new Flint Mayor, revealed her 100-day plan on Dec. 1, 2015. She is calling for a federal disaster declaration so the community can pursue federal assistance to help Flint residents during this crisis. She is working with state legislators and Congressman Dan Kildee.

- Dr. Marc Edwards, the Virginia Tech professor who has been studying Flint water issues, was recently in Flint talking about his findings. Edwards said recent samples of the water show dramatic drops in lead levels (after the switch back to Detroit water), but some homes are still showing very high levels. He said the water is still not safe to drink, adding that it may still take months to get below the safe federal standard.

- On Dec. 14, Flint Mayor Karen Weaver declared a "local state of emergency" and called for a Genesee County to declare a "local state of emergency" to support her declaration.

- On Dec. 15, The Flint Journal reported that Genesee County Board of Commissioners Chairman Jamie Curtis will hold a hearing about Flint declaration request at a meeting on Jan. 4, 2016. The Journal reported that he supported Flint's assistance request, but the city needed to follow administrative procedures. He compared the request to applying for a grant.

Disaster Declaration Sought by Local Officials

- The water situation in the city of Flint is a terrible situation for everyone involved. Every day, we expect clean and safe water to come from our taps. Steps have been taken by both state and local officials to ensure citizens have safe water at their homes

- To date, federal, state and local government and many private nonprofit organizations have provided money, filters or staff expertise to ensure Flint residents have clean and drinkable water. Through a whole community approach, everyone is working together to bring Flint back to a state of normalcy. But remember: Normalcy won't happen overnight.

- The Michigan State Police, Emergency Management and Homeland Security Division continues to support the Genesee County Emergency Management officials and the city of Flint. We have a state police district coordinator who has been engaged with local emergency management officials since the beginning of this public health emergency.

    - **IF NEEDED CLARIFICATION:** Local emergency management officials are NOT the same as emergency financial managers. Please keep this in mind.

- The Michigan State Police is working with county and city officials to see how we can continue to assist Flint residents.

    - For example, we recently put area nonprofits in touch with FEMA so they can obtain water. FEMA updates its water inventory regularly and provides nonprofits about to expire water free of charge. They are only liable to shipping costs.

What is a local state of emergency?

- The chief executive official of a community, like a mayor or county board chair, can declare a "local state of emergency" during an emergency or disaster. A local declaration enables a community to activate its emergency operations plans and administer local aid and assistance. Directives may be issued too.

- A local emergency declaration is not an automatic call for state or federal assistance. It is a mechanism to cope with an emergency or disaster. It's a red flag, notifying everyone that there's a problem within the community.

- A local declaration typically complements the activation of a county or municipality's emergency operations center and public information operations.

Why does Flint depend on Genesee County for emergency declarations?

- The city of Flint has opted to be incorporated into the Genesee County Emergency Management program. The city has an emergency support plan that complements Genesee County's emergency operations plan.

- When the city of Flint exhausts its resources during an incident, they may call upon Genesee County for resources. It's a mutual agreement where both help each other out when it's needed most.

- The city of Flint's Fire Chief and Genesee County's Emergency Management Coordinator, which is the Sheriff and his designees, are designated as the emergency management officials to manage an emergency situation.

What is a Governor's declaration?

- When a designated Michigan Emergency Management Act program **exhausts** its resources during an emergency or disaster; they may request specific resources form the state of Michigan. Resources include contracts, equipment, staff, etc.

- All requests are submitted to the Michigan State Police, Emergency Management and Homeland Security Division, which provides a recommendation to the Governor's Office. The Governor may approve or deny the request.

- If an approval is given, the Governor will declare a "state of emergency" or "state of disaster."

Is a federal disaster declaration possible?

- A federal disaster declaration is not easy to pursue with weather-related disasters. We have to manage expectations that this situation is unlikely to be eligible for federal disaster assistance through FEMA.

    - In 2014, Wisconsin Gov. Scott Walker requested a federal major disaster declaration due to a deep freeze that damaged millions of dollars in public infrastructure. The declaration was denied. His appeal was also denied.

        - The disaster declaration was denied based on the determination that federal assistance under the federal law (Stafford Act) was not necessary or appropriate under the circumstances.

        - Federal law and regulations outline a major disaster as being any natural catastrophe, any fire, flood or explosion.

    - On Jan. 10, 2014, President Obama declared an emergency existed in West Virginia after chemicals were spilled into the Elk River and affecting the water supply close to 300,000 residents.

- An emergency declaration provides relief efforts that have the purpose of alleviating the hardship and suffering caused by the emergency on the local population, or to lessen or avert the threat of a catastrophe.

- There is a $5,000,000 cap in federal assistance for an emergency.

- West Virginia later tried to obtain a presidential major disaster declaration, but was denied. FEMA said incident failed to meet the definition of a disaster.

IF ASKED: Why has the state not declared a disaster?

- The Michigan State Police, Emergency Management and Homeland Security Division has been engaged since this emerged as an emergency issue. We have been working with Genesee County officials throughout this process. At this time, the county has not requested assistance through the Michigan Emergency Management Act.

    - The city of Flint's emergency management program is a part of Genesee County's program. All requests for federal assistance should be channeled through the Genesee County Emergency Management Coordinator.

    - To date, a thorough damage assessment has not been conducted by city of Flint and Genesee County officials. Also, no specific resources have been requested.

- Because infrastructure issues are unlikely to be declared disasters through the Stafford Act, other options must be examined for assistance, like through the U.S. Department of Housing and Urban Development (Community Development Block Grants), the Center for Disease Control and Prevention, the Environmental Protection Agency, or legislative action.

December 2015

Frequently Asked Questions

Flint Water and Emergency/Disaster Declarations

What is a local state of emergency?

- The chief executive official of a community, like a mayor or county board chair, can declare a "local state of emergency" during an emergency or disaster. A local declaration enables a community to activate its emergency operations plans and administer local aid and assistance. Directives may be issued too.

- A local emergency declaration is not an automatic call for state or federal assistance. A local declaration is a mechanism to cope with an emergency or disaster. It's a red flag, notifying everyone that there's a problem within the community

- A local declaration typically complements the activation of a county's or a municipality's emergency operations center and public information operations.

Why does Flint depend on Genesee County for emergency declarations?

- The city of Flint has opted to be incorporated into the Genesee County Emergency Management program. The city has an emergency support plan that complements Genesee County's emergency operations plan.

- When the city of Flint exhausts its resources during an incident, they may call upon Genesee County for resources. It's a mutual agreement where both help each other out when it's needed most.

- The city of Flint's Fire Chief and Genesee County's Emergency Management Coordinator, which is the Sheriff and his designees, are designated as the officials to manage an emergency situation.

What is a Governor's declaration?

- When a designated Michigan Emergency Management Act program **exhausts** its resources during an emergency or disaster, they may request specific resources from the state of Michigan. Resources include contracts, equipment and personnel.

- All requests are submitted to the Michigan State Police, Emergency Management and Homeland Security Division, which provides a recommendation to the Governor's Office. The Governor may approve or deny the request.

- If a request is approved, the Governor will declare a "state of emergency" or "state of disaster."

What state resources are available under a Governor's declaration?

- The Governor may provide state resources, like contracts, equipment and personnel, to support and assist during the emergency or disaster.

- For the situation in Flint, state resources have been already deployed outside of a disaster declaration. For example, the Michigan State Legislature provided more than $9.35 million to lessen the threat of a catastrophe by reconnecting the city water to the Detroit Water and Sewer System. This total also includes lead testing, case management for children with elevated blood levels, and filters.

What is a Presidential declaration?

- When a state exhausts its resources during an emergency or disaster, a Governor may request assistance through the Stafford Act. Requests are submitted to the President through the Federal Emergency Management Agency's Region V Office in Chicago.

- FEMA reviews all requests and provides a recommendation to the President. Ultimately, the President decides whether to make an emergency or major disaster declaration.

Is a Presidential declaration possible?

- A Presidential declaration is not easy to pursue during emergencies or disasters. A case has to be made to prove the incident is outside the scope of both local and state response and recovery efforts.

- A Presidential major disaster declaration provides long-term recovery resources after an emergency or disaster. Federal law and regulations define a major disaster as being any natural catastrophe, any fire, flood or explosion.

- A Presidential emergency declaration provides supplemental aide during an incident. Federal law outlines an emergency where federal assistance is needed to supplement state and local efforts and capabilities to save lives and to protect public health and safety, or to lessen or avert the threat of a catastrophe. There is a $5,000,000 cap in federal assistance.

Why hasn't the Governor declared an emergency or disaster?

- The Michigan State Police, Emergency Management and Homeland Security Division has been engaged since this emerged as an emergency issue. The agency has been working with Genesee County officials throughout this process. At this time, the county has not requested specific resources through the Michigan Emergency Management Act.

    - The city of Flint's emergency management program is a part of Genesee County's program. All requests for state assistance must be channeled through the Genesee County Emergency Management Coordinator.

    - To date, a thorough damage assessment has not been conducted by city of Flint and Genesee County officials. Also, no specific resources have been requested. We must know what is needed to provide the correct recommendations.

    - Through other processes, the state has been providing aid and assistance.

- Because infrastructure issues are unlikely to be declared disasters through the Stafford Act, other options must be examined for assistance, like through the U.S. Department of Housing and Urban Development (Community Development Block Grants), the Center for Disease Control and Prevention, the Environmental Protection Agency, or legislative action.

- In addition to the $6 million appropriated by the Michigan State Legislature to reconnect Flint to the Detroit Water and Sewer System, the following has also been provided:

    - $300,000 to the Department of Environmental Quality's drinking water and environmental health service;
    - $1 million to provide for DEQ to test drinking water samples;
    - $1 million to enable the Department of Health and Human Services to purchase and distribute water filters to Flint residents;
    - $850,000 will aid in follow-up services for children, including testing, investigations, and case management for those with elevated blood levels; and
    - $200,000 will fund state plumbing inspections for schools and health facilities.
    - **NOTE:** To reconnect the city of Flint to Detroit water, the city provided $2 million the Charles Stewart Mott Foundation committed $4 million and the state of Michigan provided $6 million.
    - **OVERALL TOTAL:** State: $9.35 million; Local/private nonprofit: $6 million.

Are water service lines eligible for disaster assistance?

- Water service lines are those water lines that go from the water main to the house. Different communities have defined this differently. If a water service line is the responsibility of the homeowner and on private property, then he or she is responsible for replacing it.

- Private property lead water services lines are not considered eligible expenses under the Michigan Emergency Management Act and Stafford Act

PROCLAMATION

DECLARATION OF DISASTER

WHEREAS, Section 1 of Article V of the Michigan Constitution of 1963 vests the executive power of the state of Michigan in the Governor; and

WHEREAS, under the Emergency Management Act, Act No. 390 of the Public Acts of 1976, as amended, MCL 30.401 to 30.421, the Governor is responsible for coping with dangers to this state or the people of this state presented by a disaster or emergency or threat thereof, and may issue executive orders, proclamations, and directives having the force and effect of law to implement the Act; and

WHEREAS, under Section 3 of the Emergency Management Act, 1976 Public Act 390, MCL 30.403, the Governor shall, by executive order or proclamation, declare a state of disaster if the Governor finds that a disaster has occurred or that the threat of a disaster exists; and

WHEREAS, over the course of 2014 and 2015, the deleterious effects of corrosive water struck the City of Flint, Michigan's water infrastructure, causing significant leeching of lead into the water, causing extensive damage and negative health impacts; and

WHEREAS, the area affected include the entire City of Flint, within the county of Genesee; and

WHEREAS, the damaged water infrastructure and unleashing of toxic lead into the city's water caused widespread and severe damage to public and private water infrastructure, elevated blood lead levels in humans and potentially pets, especially in the population of children and pregnant women, and causing an immediate threat to public health and safety and disrupting vital community services; and

WHEREAS, from October 1, 2015 to this date, the County of Genesee and the City of Flint have taken a number of actions to cope with the situation, including but not limited to declaring local states of emergency and a public health emergency, activating the disaster response and recovery aspects of their emergency operations plan, marshaling and distributing required resources on a city-wide level, and issuing emergency public information; and

WHEREAS, local resources have been insufficient to address the situation, and additional assistance from voluntary organizations and the state is required to protect public health, safety, and property, and to lessen or avert the threat of more severe and long lasting impacts to the community;

NOW, THEREFORE, I, RICHARD D. SNYDER, Governor of the State of Michigan, pursuant to the Constitution of the State of Michigan and provisions of Act No. 390 of the Public Acts of 1976, as amended, do hereby proclaim that a state of disaster exists in the aforementioned county and municipality; and

FURTHER, the Emergency Management and Homeland Security Division of the Department of State Police shall coordinate and maximize all state efforts, and may call upon all state departments to utilize resources at their avail to assist in the disaster area pursuant to the Michigan Emergency Management Plan; and

FURTHER, termination of this disaster will occur at such time as the threats to public health, safety, and property caused by the disaster no longer exist and appropriate programs have been implemented to recover from the effects of this disaster, but in no case longer than February 3, 2016, unless extended as provided by Act No 390.

Given under my hand and the
Great Seal of the State of Michigan this
6th day of January in the Year of Our
Lord, Two Thousand and Sixteen.

RICHARD D. SNYDER
GOVERNOR

BY THE GOVERNOR:

SECRETARY OF STATE

Possible organizations that can help us with the Distribution of water filters, water pitchers, 23 cup filters and replacement filters along with distribution of preparedness materials, health department material and smoke detector sign up sheets.

Ennis Center for Children—Caseworkers visit home
Greater Flint Health Coalition—Connection to all local health industries
CAC for hearing/sight impaired--Interpreters
MTA—Bussing--Funds
Catholic Charities –Mass feeding

My next Tuesday

Mike Sobocinski's notes from the SEOC briefing of January 6, 2015:

Capt. Kelenske: This activation is different from many. Overall goals will include assessing the situation, prioritizing actions, and coordinating between agencies, identifying life-safety issues. SEOC activation hours are currently 8a-5p Mon-Fri. MI CIMS event titled 2015-10-1-City of Flint water contamination/shortage. Maintain activity logs in MI CIMS. Battle order set up for today: IC objectives meeting 10am, assign work tasks 11am IC + general staff, 2pm planning meeting, IAP approved 3pm, Unified command initial meeting 4pm. Governor declared state of emergency. Presidential disaster declaration will not apply here, but an emergency is possible to supplement state efforts. Lead pipe replacement program to be checked into – perhaps by Jen [Boyer?] of MDEQ. GIS mapping to cover filter distribution, home locations, distribution/testing gaps, etc. Nutrition distribution program [correct title?]. More of a long-term recovery style of approach. Goal to restore trust in state government. JIC will be set up.

Dr. Wells (DHHS chief medical executive): Pb as neurotoxin, affecting every system in the body, lowering Fe and Ca. Especially problematic in developing children under age 6, esp if not getting enough Ca, Fe. Standards have become increasingly strict over time, with Pb levels formerly 10ug/dl to warrant action, *then lowered to 5ug/dl, and today Pb is treated as having no safe exposure level.*

[NOTE: she is referring to **blood** concentration levels of micrograms per deciliter, not to be confused with water concentrations referred to elsewhere in units of micrograms per liter: ug/l. I'm using u to represent the greek letter mu, symbol for the "micro" prefix]

Health problems from lead include gastric problems, ulcers, anemia, etc. including death. Cognitive & developmental delays, attention & behavioral disorders. Pb sources include gasoline and paint (until the 1970s), pipes (esp. pre-1978 home construction), ammunition and firearms, soils & industrial sites, air pollution (especially in summertime). CLPP "clip" Childhood Lead Prevention Program. Screenings at age 1, age 2. Those who test >5ug/dl (national standard) are evaluated for environmental exposures/causes. Critical action level 45ug/dl – immediate medical treatment, chelation treatment to remove Pb, and investigation of Pb sources in environment. Water concentration does vary seasonally, with temperature and Ph changes. Old cities are targeted areas for higher risk. Virginia Tech independent testing of water. [From her limited description, I was unclear in the end of the relationship between these results and other tests.] Elevated Pb levels generally declining, including in Flint, until 3rd quarter of 2014 [fiscal quarter or calendar year??]. Hurley Medical Center deals with the high-risk area in Flint. American Journal of Public Health issue of 2 weeks ago had study published on this topic. Water is not the only source of Pb in the area. An increase was measured in 2 Flint zip codes [485]03 and [485]04 although it didn't reach statistical significance. Need to pin down high-risk areas – Pb levels can and do drop when environmental exposure is reduced. Testing since Oct. 1 [2015], to Dec. 18 [period for specific results, assuming testing still continues after Dec 18?]. Improper water filter use, or non-use (e.g. after Detroit water restored in Flint), has caused problems. Pb has half-life of less than 30 days. Department [hers or in the city of Flint?] surveillance results: 23 children under 6, 7 children age 6+, 13 adults who had blood levels above 5ug/dl. 12 elevated Pb blood level investigations; now including water testing, but Pb in dust, paint, and soil was also found. 1 hospitalized (level in the high

30s of ug/dl). HUD-funded program at the state level [name?] Coordination with Wayne State University and Flint campus of [she had said MSU, but it is likely that it is instead U-M Flint]. Misinformation exists re: questions like whether it's okay to shower or bathe in the water [she provided no answer for her own example – is it okay?]. Much local support exists. Info sent through schools with the children who attend them. SNAF, WIF [double check?] nutritional programs for young children. Would like to test as many young children (under 6) as possible in the city. See MI.gov or Flint Water for information about filters – Home Depot as a partner. MDEQ includes blood Pb level in their testing reports.

Question asked: Are there other substances of concern besides Pb in water? A: yes, bacteria, Cu (esp. for those with Wilson's disease), and "other chemicals." [MDEQ person later fills in a couple of these: total trihalomethanes TTHM and halo-acetic acids HAA5, which both fall under the category of disinfectant by-products DBPs]

George Christian [correct spelling?] of the MDEQ (Flint action plan coordinator): Flint had used the Flint River as a source before 1967, in 1967 switched to use of Detroit Water and Sewer Department DWSD for its water supply. Jan 2006 discussions began with Karegnondi Water Authority KWA. April 17, 2014 [event? Possibly the end of DWSD supply?]. May 2014 city began using Flint River water. Aug-Sept Boil water notices issued in part of the city of Flint, for E. coli and total coliform violations. [NOTE: spoke too quickly for me to accurately catch all of the dates/events he mentioned. People really should provide their info in writing rather than rely upon verbal briefs under distracting SEOC conditions!] Had the Flint River as a back-up supply all along, which is why the facility there was still maintained [paraphrase; didn't catch exact wording]. Late 2014-early 2015 DBPs: HAA5 and TTHM, with carbon as a treatment to remove these compounds. Sequence of tests: first at 6ppb 90th percentile level [he didn't explain this well at all, but normally this would mean that the 90th percentile value is at or above the bottom 90% out of all ranked values in a list]. 2nd round of tests: up to 11ppb, compared to EPA's action level of 15ppb. Corrosion control treatment [a means of reducing lead concentrations in the water]. There were also issues reported involving the color, odor, and taste of Flint water. Virginia Tech Pb testing Sept 5 [?], 2015, with Pb advisory issued by Flint. Fall 2015 schools testing and actions required. Some fixtures and fountains above 100ppb. 4 samples per sampling point, after different flush times, 10 consecutive 1liter samples, 200-300 samples total per facility [math not exact, must be estimates], Info placed into spreadsheets and reports. Oct. 15 Flint switched back to DWSD water. Dec. 9, 2015 supplemental phosphate [PO$_4$] addition began. Use of erosion controls do slow but do not stop the leaching process (of lead into the water). Any resident of Flint can obtain a bottle and take water samples in for testing; results posted online. Water filters are available for free. Overall slight downward Pb trend, but some values are well over 100ppb. One child care facility measured at 2500ppb. No historical test results there [in schools] to compare with, but some historical data exists elsewhere to compare. [No mention of the comparisons themselves] Not a problem only of Flint's, increasing recognition of problem more broadly. "Low-lead brass fixtures" could still have as much as 8% lead. [not sure whether he said this or Dr. Wells]

Dr. Wells: Excavation and manipulation of lead lines tends to exacerbate particulate levels.\

Capt. K: Everyone review the MEMP to look for relevant information. All info to go out through PIOs (except for internal coordination and calculations).

Richard [Thelen?] of DHHS: allocation to buy water and filters, 2 pick-up locations in Genesee – free filters [locations not specified; are they at DHHS offices?]. Water purchases from South Carolina.

Brad [Deacon?] of MDARD: Food services, processing, and restaurants are also of interest. Lead affects animals as it does humans, so companion animals may be affected.

??? of the Dept of Education? "DEA" or "DoA"? [people were not introduced properly!] said something about school meals.

ARC not yet involved at this point.

LARA helped DEQ with testing. Flint & Genesee oversee their won plumbing but lack inspectors – need assist from state (Capt: or through EMAC use)

Terrace Room to be used as initial JIC, with PIOs there.

Governor's Representative [name?]: pending lawsuit against governor, potential lawsuit under Safe Drinking Water Act. Everyone do your jobs, but take care, remembering litigation potential.

MDOT [Eileen Phifer?]: Many pipes are under roads and so coordination would be good; shared objectives probably exist w MDOT, EPA, etc.

Lt. BJ Roach, MSP: Genesee Co. Public Health Dept, GCARP [?] (public assistance forum) are involved: water distribution, filter distribution, education, Pb testing clinics (coordinated with DHHS), United Way, Flint Health Dept. Over 23K filters and replacement cartridges provided so far. County GIS getting under way – coord w MSP GIS?

Capt K: submit action items to Tom Weber for IAP. Everyone stay until noon and review MEMP, then to decide whether needed after lunch today.

Tony: Required agencies already known to be needed to stay: MDEQ, DHHS, Education, Talent & Economic Growth, MDTMB, MDARD.

REQUEST FOR PRESIDENTIAL DISASTER DECLARATION
COVER LETTER
MAJOR DISASTER OR EMERGENCY

(Date of Request)

The Honorable //// //////
President of the United States
The White House
Washington, D. C.

Through: Regional Administrator [NAME]
FEMA Region _____
City, State, Zip Code

Dear Mr. President:

Under the provisions of Section [Major Disaster citation (401), Emergency citation (501)]of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121-5207 (Stafford Act), and implemented by 44 CFR § [Major Disaster citation (206.36), Emergency citation (206.35)], I request that you declare a [major disaster or emergency] for the ***(name of the State or Indian tribal government)*** as a result of ***(name type of incident and incident date as identified in the declaration request form)***.

[The following information is required for ALL requests. Provide additional information that is not contained in the form. If requested information is included in the form, it is not necessary to repeat in the cover letter.]

Describe deaths and/or injuries associated with the event.

Describe voluntary agency assistance provided to the community in anticipation of or as a result of the event. (including but not limited to activities taken by the American Red Cross (ARC), Salvation Army, Southern Baptists, and Voluntary Organizations Active in Disaster; voluntary agency and/or municipal shelter information, including the number of shelters open, the peak population, total number of overnight stays, and when the shelters closed; number of mental health contacts made by voluntary agencies; number of ARC cases open and closed; number of clean up kits provided; number of meals served; number of fixed and/or mobile feeding sites; level of ARC operation (I-V); and any other type of assistance that was provided by voluntary organizations).

Indicate whether a State of Emergency has been declared, when and to what areas are included in the declaration. Indicate if affected jurisdictions have also declared states of emergency.

Provide a description of damage as a result of the event (such as the impact the event has had on the affected area and population; disruption of normal community functions and services, including damage to any critical facilities that have been rendered non-operational by the event and extended or widespread loss of power or water; emergency conditions that may be present,

health and safety hazards, status of repairs, and estimated completion date(s), if known.

Provide information on PDA findings and how and where they were conducted, including accessibility concerns, if additional space needed from the form.

The following information is furnished on the nature and amount of State, local, or Indian tribal government resources that have been or will be used to alleviate the conditions of this disaster:

Describe what has been done to respond to the disaster, including actions pending or taken by the State, local, or Indian tribal governments. Describe any State, local or Indian tribal government Individual Assistance programs.

Provide the disaster history of the State or Indian Tribal government over the past 12 months, including Stafford Act declarations and declarations by the Governor or Tribal Chief Executive and the extent to which the State or Indian tribal government has expended its own funds; list areas that have sustained damage from this event and other disasters in the previous 12 months; and include any other pertinent factors that would have a bearing on the State or Indian tribal government's ability to respond, such as economy of the area, terrain, inaccessibility, or capacity of voluntary organizations active in disaster.

[The following information is required for requests for Individual Assistance.]

Provide detailed information on the impacted population, including percentage of insurance, percentage below poverty level, median household income, percentage of elderly, percentage of disabled, pre-disaster unemployment rates, and any other special populations. Include a comparison of the percentage of the State, local, or Indian tribal government averages and national averages.

	Average of Persons Below Poverty Level*	Median Household Income*	Percent Elderly*	Percent Disabled*	Percent Pre-Disaster Unemployment*
National Average	%	$	%	%	
State/Tribe Average	%	$	%	%	
List Jurisdictions Requested	%	$	%	%	

** Indicate source of data cited*

[The following information is required for requests for Public Assistance.]

Provide a brief analysis of infrastructure damage by category, including the cost estimates for each category and the percentage of the total eligible Public Assistance cost estimate. Include in your discussion significant impacts to specific areas. If any local communities have sustained significant damage and

have incurred extremely high per capita impacts, provide that information, especially if the localized damage is in the tens or even hundreds of dollars per capita.

Discuss level of insurance coverage.

If applicable, include estimates for emergency dune restoration on non-engineered beaches that may be eligible for the placement of temporary berms in order to eliminate or lesson the threat of additional damage from a five year event. Identify all damage associated with engineered beach projects and indicate whether or not the damage associated with those beaches is included in the PDA information. Note that beach projects under the authority of the United States Army Corps of Engineers, are not eligible for Public Assistance, as they are under the authority of another federal agency, therefore costs associated with such projects should not be included in the PDA information. Such costs should be identified in Enclosure C.

Insert concluding statement.

Sincerely,

//////////////
(Governor or Tribal Chief Executive)

PROCLAMATION

DECLARATION OF DISASTER

WHEREAS, Section 1 of Article V of the Michigan Constitution of 1963 vests the executive power of the state of Michigan in the Governor; and

WHEREAS, under the Emergency Management Act, Act No. 390 of the Public Acts of 1976, as amended, MCL 30.401 to 30.421, the Governor is responsible for coping with dangers to this state or the people of this state presented by a disaster or emergency or threat thereof, and may issue executive orders, proclamations, and directives having the force and effect of law to implement the Act; and

WHEREAS, under Section 3 of the Emergency Management Act, 1976 Public Act 390, MCL 30.403, the Governor shall, by executive order or proclamation, declare a state of disaster if the Governor finds that a disaster has occurred or that the threat of a disaster exists; and

WHEREAS, ~~over the course of 2014~~on April 25th 2014 the City of Flint Michigan switched to the Flint River as a water source ~~and 2015,~~ the deleterious effects of corrosive water struck the ~~City of Flint, Michigan's~~city's water infrastructure, causing significant leeching of lead into the water~~, causing~~ which caused extensive damage to the water system and negative health impacts to the citizens; and

Formatted: Superscript

WHEREAS, the area affected include the entire City of Flint, within the county of Genesee; and

WHEREAS, the damaged water infrastructure and leeching~~unleashing~~ of toxic lead into the city's water caused widespread ~~and severe~~ damage to public and private water infrastructure, elevated blood lead levels in humans and potentially pets, especially in the population of children and pregnant women, and causing an immediate threat to public health and safety and disrupting vital community services; and

WHEREAS, from October 1, 2015 to this date, the County of Genesee and the City of Flint have taken a number of actions to cope with the situation, including but not limited to switching back to Detroit Water and Sewerage on October 16th, declaring local states of emergency and a public health

emergency, activating the disaster response and recovery aspects of their emergency operations plan, marshaling and distributing required resources on a city-wide level, and issuing emergency public information, and

WHEREAS, local resources have been insufficient to address the situation, and additional assistance from voluntary organizations and the state is required to protect public health, safety, and property, and to lessen or avert the threat of more severe and long lasting impacts to the community;

NOW, THEREFORE, I, RICHARD D SNYDER, Governor of the State of Michigan, pursuant to the Constitution of the State of Michigan and provisions of Act No 390 of the Public Acts of 1976, as amended, do hereby proclaim that a state of disaster exists in the aforementioned county and municipality, and

FURTHER, the Emergency Management and Homeland Security Division of the Department of State Police shall coordinate and maximize all state efforts, and may call upon all state departments to utilize resources at their avail to assist in the disaster area pursuant to the Michigan Emergency Management Plan; and

FURTHER, termination of this disaster will occur at such time as the threats to public health, safety, and property caused by the disaster no longer exist and appropriate programs have been implemented to recover from the effects of this disaster, but in no case longer than February 3, 2016, unless extended as provided by Act No. 390.

Given under my hand and the
Great Seal of the State of Michigan this
6th day of January in the Year of Our
Lord, Two Thousand and Sixteen.

RICHARD D. SNYDER
GOVERNOR

BY THE GOVERNOR:

SECRETARY OF STATE

MEDIA MONITORING REPORT

1/5/2016

Issues:

- No issues to report.

Summary:

- Gov. Rick Snyder is considering whether to declare an emergency for Flint's contaminated water a week after apologizing to residents for the state's handling of Flint's water crisis.
- Gov. Rick Snyder is gathering the information needed to formally declare a state of emergency in Flint over the water contamination issue, but in the meantime is "already recognizing this as an emergency," spokesman Dave Murray said Monday.
- Keri Webber, summed up her feelings in as it relates to the city of Flint and its lead contaminated water: "We're terrified."
- A Genesee County judge has clarified a ruling made last month regarding water shutoff notices for Flint residents.
- The Genesee County Health department estimates 40 percent of homes have not yet installed the filters
- About 1,200 workers are taking advantage of the relatively mild winter to build the final portion of a new pipeline to bring water from Lake Huron to communities including Flint.
- Bryn Mickle, Flint Journal/MLive editor, talks with Rachel Maddow about why his organization is calling for a federal investigation, including subpoena power, of what the Rick Snyder administration knew, and when, about the problems with lead and the new water supply to Flint.
- Nancy Kaffer opines about the state apology and that the resignation over Flint water is the first step.
- The recent scandal over lead-poisoning in the water in Flint prompted many of our communities to take a closer look at the issue. According to recent data, West Michigan neighborhoods are home to even higher levels of lead poisoning in kids than Flint.
- A former emergency management professional suspects levees are causing the Mississippi River to flood.
- With the country seemingly in a heightened state of alert, Michigan State Police are reminding local residents that they can play a critical role with the newly unveiled "If you see something, say something" campaign.

Analysis:

- Heavy coverage about Genesee County's request for a Governor's declaration.
- Concern about Flint residents obtaining the filters they need.
- Will continue to monitor the situation.

FLINT WATER

Snyder weighs declaring water emergency in Flint

The Detroit News, January 4, 2016

Gov. Rick Snyder is considering whether to declare an emergency for Flint's contaminated water a week after apologizing to residents for the state's handling of Flint's water crisis.

But Michigan faces hurdles to getting federal relief, including forgiveness for state loans to Flint involving drinking-water infrastructure improvements that are covered by federal rules.

Even before any official declaration can be made, Snyder's office said Monday that state officials "are recognizing this as an emergency and are working with city and county leaders to coordinate efforts, streamline communication and tap all available resources at the state's control."

Board declares state of emergency in Flint water crisis

Detroit Free Press, January 4, 2016

Gov. Rick Snyder is gathering the information needed to formally declare a state of emergency in Flint over the water contamination issue, but in the meantime is "already recognizing this as an emergency," spokesman Dave Murray said Monday.

Murray made his comment after the Flint Journal reported the Genesee County Board of Commissioners declared a state of emergency Monday in Flint.

The board's action follows an emergency declaration by Flint Mayor Karen Weaver, who said she plans to meet this week with Snyder.

Specifics of the request are being worked out, but plans call for dealing with causes and effects of lead contamination. It's also part of the process for requesting federal assistance.

Emergency declaration for Flint headed to Gov. Snyder's desk

WJRT-TV 12 in Flint, January 4, 2016

An emergency declaration is heading to the Governor's desk.

The Genesee County Board of Commissioners signed off on the order Monday morning to try to secure federal money for Flint's fight on lead.

By declaring a state of emergency, city and county officials hope to secure federal funding to assist with the water emergency. The number they're asking for right now is $45 million from Washington.

Mother concerned, angry over continuing water crisis

WNEM-TV 5, January 4, 2016

Keri Webber, summed up her feelings in as it relates to the city of Flint and its lead contaminated water: "We're terrified."

The mother of two daughters is fearful of what the future might bring.

"My girls are 15 and 20 and very close to their next birthday. We have no idea what this means long term for the reproduction," Webber said.

The emotions this family feels on a daily basis is over flowing

It started when experts discovered high levels of lead in the drinking water flowing from the tap at houses throughout this city. Webber said the added insult is paying for that water.

"Not even offended, I am angry. Our water bill last month was $240 for what?" Webber said.

Webber's youngest daughter is 15. Victoria has had extreme complications due to lead poisoning, while her oldest Stephanie, 20, appears lead free. At least for now.

As a mother she wonders what will happen to them in a few years after having consumed lead-laced water?

"I know. There aren't words. We have fought for these kids," Webber said. "We didn't have these kids easy, it took us five years, protected them at every turn and handed them poison in a glass."

Flint water customers with overdue water bills, will now get more notice before a shutoff

WJRT-TV 12 in Flint, January 4, 2016

A Genesee County judge has clarified a ruling made last month regarding water shutoff notices for Flint residents.

Circuit Judge Archie Hayman is NOT blocking the city from issuing them for customers delinquent in paying bills since September.

That's when lower water and sewer rates were put into place after his ruling that deemed a 35-percent increase, illegal.

It's all tied to a class-action lawsuit against the city - involving Flint residents who believe they were wrongly over-charged.

Attorney Val Washington, who is representing them in the case, says the Judge is instead, requiring customers be given MORE notice - 90 days - before the city takes action with stopping service.

Notices began going out again last month.

Flint water filter use is low

WJRT-TV 12 in Flint, January 4, 2016

There's disturbing information that three months after a campaign began to make free water filters available to fight lead in Flint, many homes still do not have them.

The Genesee County Health department estimates 40 percent of homes have not yet installed the filters.

Dr. Mona Hanna-Attisha is the Hurley Medical Center pediatrician who discovered high lead levels in Flint children. She says too many parents are not making the effort to install the filters that can block lead in drinking water.

Hanna-Attisha says last month, all 54 families checked through a health program related to lead said they didn't have water filters in their homes.

We checked with adults picking up students at a Flint elementary school to see if they had filters in their homes.

"We're planning on it today because we just recently got it. The majority of people I know don't have them hooked up. Maybe they're just lazy," said Sameika Clayton.

"Well, I kind of just got mine because everyone was getting theirs in a certain order, or I couldn't really take off from work to go get it, so I just got mine," said Queda Wright.

"I got one just to keep the water pure even though we still drink bottled water," said Lemeer Bell.

You can pick up free water filters and replacement cartridges at two GCCARD offices in Flint and at the DHS offices in downtown Flint.

Call 211 for information on how you can receive a free water filter

Work continues on new Michigan water pipeline

Detroit Free Press, January 5, 2016

OREGON TOWNSHIP, Mich. — About 1,200 workers are taking advantage of the relatively mild winter to build the final portion of a new pipeline to bring water from Lake Huron to communities including Flint.

The Flint Journal reports the $285 million Karegnondi Water Authority project is on track.

Crews are burying the 66-inch-diameter pipeline on a path that starts with an intake at Lake Huron. Sections under construction include parts of Sanilac and Lapeer counties. A $71 million water treatment plant is being built in Oregon Township.

Flint switched from Detroit's water system in 2014 to Flint River water in a cost-cutting move ahead of the Karegnondi project's completion. Residents complained about the taste, smell and appearance, and children were found to have elevated blood-lead levels. Flint returned to Detroit's system in October.

Kaffer: State apology, resignation over Flint water first step

Detroit Free Press, January 5, 2016

In the quiet week between Christmas and New Year's Day, Michigan Department of Environmental Quality chief Dan Wyant resigned, followed quickly by department spokesman Brad Wurfel.

And Gov. Rick Snyder — finally — apologized for what happened in Flint.

For 18 months, Flint residents were exposed to lead-contaminated drinking water, after the city — while under state oversight and with MDEQ approval — began to draw its drinking water from the Flint River. Since the switch, an increasing percentage of Flint kids have elevated blood-lead levels. Lead poisoning causes irreversible behavioral and developmental difficulties.

So this apology, and these resignations, represent a sea change But it's not enough.

For months, Snyder and his MDEQ attempted to dodge the reality that state policy wrought in the City of Flint. As reports, based not only on data compiled or gathered by outside researchers and journalists but on the state's own information, began to explain what was happening, Snyder's spokespeople and MDEQ officials worked to deflect, discredit and deny.

State employees who intentionally distort data could face jail time under a proposed law

Michigan Radio, January 5, 2016

A state lawmaker wants to make it a felony for state employees to manipulate data in official reports.

State Representative Phil Phelps, D-Flushing, says there's no law on the books to punish state employees who intentionally distort data to change the outcome of an official report.

Critics claim that's what happened with state reports that downplayed problems with Flint's drinking water after the 2014 switch to the city's namesake river. If that's what happened, Phelps says that should be against the law.

"If that was proven to be manipulation of data or removing data that changed the outcome, it could be subject to a five year felony," says Phelps.

Video: New calls for federal probe of Snyder admin in Flint water fiasco

MSNBC (Rachel Maddow Show), January 4, 2016

Bryn Mickle, Flint Journal/MLive editor, talks with Rachel Maddow about why his organization is calling for a federal investigation, including subpoena power, of what the Rick Snyder administration knew, and when, about the problems with lead and the new water supply to Flint.

Data shows even higher lead poisoning in kids in West Michigan than Flint

Fox 17 in Grand Rapids, January 5, 2016

GRAND RAPIDS, Mich. – The recent scandal over lead-poisoning in the water in Flint prompted many of our communities to take a closer look at the issue. According to recent data, West Michigan neighborhoods are home to even higher levels of lead poisoning in kids than Flint.

The problem in Flint was so bad it forced the head of Michigan's Department of Environmental Quality to quit last week. Yet as this crisis continues, data shows the problem is broader than the Flint area.

In a recent report, The Center for Michigan, a think tank promoting awareness of public policy issues, cited evidence that among five Grand Rapids' zip codes alone, nearly one in 10 kids tested positive for lead poisoning.

"In Grand Rapids, it's collectively between those zip codes, it's 10 percent," said Paul Haan, executive director with the Healthy Homes Coalition of West Michigan. "We're four times the national level of kids with that low to moderate to even high level of lead poison."

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Weather spotters serve as eyes and ears for meteorologists

Port Huron Times Herald, January 4, 2016

Stan Arnett has been tracking severe weather for at least three decades.

The 70-year-old Marysville man is one of about 50 trained weather spotters in St. Clair County.

Arnett said it was something he started doing through his love of amateur radio.

"A long time ago I was interested in the magic of communicating around the world or even locally on two-way radios," he said.

Now he uses that hobby to talk to people around the world and help meteorologists determine if severe weather warnings need to be issued.

"Any severe weather ... anything that significantly impacts citizenry," is reported, Arnett said. "It's just something I can do."

Rich Pollman, the warning coordination meteorologist at the National Weather Service White Lake office, said about half of the 5,000 spotters in the 17-county region are ham radio operators.

Levees among possible cause of more frequent flooding

Associated Press, January 5, 2016

The Mississippi River floods more often than it used to, and at higher levels. Richard Knaup thinks he knows why.

The veteran emergency management director for southeast Missouri's Cape Girardeau County is fighting floods again, just as he did last year, and the year before that, and the year before that.

"Prior to levee building, the river was a wild thing and it spread out between the river bluffs," Knaup said Monday. "Now we've tried to tame it. Mother Nature and Old Man River will fight back."

Ex-Macomb County PR rep arrested in child porn case

Detroit Free Press, January 4, 2016

A former spokesman for Macomb County government, the Detroit International Bridge Co. and Cobo Center who is well-known in metro Detroit public relations and media circles has been arrested on child porn charges by the Macomb County Sheriff's Office.

Philip William Frame, 61, of Shelby Township is charged with five counts of possession of child sexually abusive material, a four-year felony; one count of using a computer to commit a crime, a seven-year crime, and a misdemeanor charge for possessing marijuana, the Sheriff's Office said today.

He was arrested and then released Saturday from the Macomb County Jail after posting a $10,000 cash or surety interim bond. He was formally arraigned today, where the same bond was continued. His next court date is Jan. 19.

Police ask citizens to report unusual activity

Soo Evening News, January 5, 2016

With the country seemingly in a heightened state of alert, Michigan State Police are reminding local residents that they can play a critical role with the newly unveiled "If you see something, say something" campaign.

"Homeland security starts with hometown security and our citizens know their neighborhoods, schools and work places better than anyone," said F/Lt. Joe Shier of the St. Ignace Post. "If something appears suspicious or out of place, don't hesitate to report it to law enforcement."

An expert on right-wing terrorism explains the militia movement behind the Oregon takeover

Vox, January 5, 2016

A group of armed activists calling itself Citizens for Constitutional Freedom took over a federal building on the Malheur National Wildlife Refuge near Burns, Oregon, on Saturday, saying they were protesting the tyranny of the federal government.

The militants have called for others throughout the US to come and join their fight. They're tapping into a growing trend: the number of unorganized militias in the US has increased 37 percent in the past year, according to the Southern Poverty Law Center.

Daryl Johnson saw this coming. In 2009, as an analyst at the Department of Homeland Security, Johnson wrote a report arguing that the economic downturn and the election of the first black president could fuel a new wave of anti-government violence from extreme right-wing groups.

His report was later leaked, provoking widespread outrage from conservatives. Johnson left DHS in 2010. But his analysis proved correct. The number of anti-government militias grew ninefold between 2008 and 2011, and after a brief period of decline, is now growing again.

El Nino storms slam drought-parched California

Associated Press, January 5, 2016

A strong storm was forecast for Northern California, prompting officials to issue flash flood watches for several rural areas hit by last year's wildfires.

El Nino storms lined up over the Pacific started soaking California with light rain Monday but a series of stronger systems are expected to arrive starting Tuesday, forecasters said.

The National Weather Service issued a flash-flood watch for Northern California communities affected by several destructive wildfires last summer and fall.

Michigan DNR Marks Busy 2015 With Several Successes

Ammoland, January 5, 2016

When wildfires raged this season in western states – and a Canadian province – the Michigan DNR was quick to put a fireman to work on putting out a hot spot on the Marquette County Road 601 fire. The fireman was among several sent to Manitoba this past summer. respond. This year, 54 individuals traveled to hot zones in Alaska, California, Idaho, Manitoba, Montana, Oregon and Washington, taking on 16 different overhead positions from fire-line leadership to command staff and hand crews. There were a total of 58 dispatches (or assignments), each one lasting roughly two weeks.

"Cooperative efforts are key to protecting people, property and resources statewide as well as nationally," said Paul Kollmeyer, DNR resource protection section manager. "We are proud that our firefighters have the necessary skills to assist with emergency situations in other states."

Kollmeyer said that while DNR firefighters are providing assistance out west or in other locations, Michigan remains adequately staffed to handle any fire incident that might start here at home. When sending staff on out-of-state firefighting assignments, the state of Michigan is fully reimbursed for all costs associated with providing that support.

Clare County Crews Work To Repair Gas Line

9 and 10 News, January 5, 2016

Construction crews in the city of Clare hit a gas line while working near an old car dealership.

Clare County's emergency manager says the crew hit a line at an old Ford dealership at the south end of Clare.

The Admiral Gas Station next to the old car dealership was quickly evacuated.

The street was blocked off between McEwan and Clare streets while crews worked to repair the line, but has since been reopened.

We have a crew heading to Clare and will have the latest updates on the gas leak on air and online.

You have heard the news. Even still, watch this video. Just at least the first three minutes. After you start its hard to stop.
Then ask yourself a few questions.
1. Did I vote in last year's Election that got Rick Snyder re-elected?
2. (If No) Do I feel like a complete idiot for not using my valuable vote to keep this guy from destroying the city of Flint as well as the rest of our state?
3. (If Yes) Who did I vote for again?
4. (If Yes, and you voted Snyder) What makes me so dumb? Is it that my parents raised me to vote biasedly on their own views, and I blindly helped elect a scumbag?
5. (If Yes, and you didn't vote Snyder) How could I have helped keep him from being elected in the first place when there are so many biased idiots who's biased political views come from their parents? Why aren't there more citizens voting?
6. How can I get this guy out of office

Let me just say that in this new year, 2016, is a Presidential Election year. This issue of Flint's contaminated water supply is a direct result of "you get who you vote for". Gov. Snyder, a republican is where the buck stops. He is the one who appointed the special manger to take over Flint's government from the officials those very people elected. Shame on the republicans! Remember - you get who you vote for!!! Poor Flint!

Flint Water Crisis – Published January 2, 2016

https://youtu.be/mgDsnTTOg-k

September ??, 2014

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C. 20500

Through: Ms. Janet Odeshoo, Acting Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, Illinois 60605

Dear Mr. President:

Under the provisions of Section 401 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121-5207 (Stafford Act), and implemented by 44 CFR § 206.36, I request that you declare a major disaster for the State of Michigan as a result of severe flash flooding that struck the counties of Macomb, Oakland, and Wayne, including metropolitan Detroit, on August 11-12, 2014.

The flash flooding was caused by a low pressure storm system that moved across southeast Lower Michigan in the early evening hours of August 11. This storm system produced historically heavy rainfall – four to six inches in less than four hours in parts of Macomb, Oakland, and Wayne counties – resulting in severe flash flooding and widespread sewer back-ups in many communities. Officials from the National Weather Service indicate that existing one-day rainfall totals were broken or nearly broken in several areas. For example, at 4.57 inches of rainfall, metropolitan Detroit experienced its second highest rainfall total ever recorded in a single day, falling just short of the all-time record of 4.74 inches set back on July 31, 1925.

According to the National Weather Service, the City of Dearborn in Wayne County received the highest rainfall total for the storm, 6.31 inches, during a 12-hour period. In the City of Southfield in Oakland County, 6.25 inches of rainfall occurred during a 12-hour period, while in the City of Berkley, also in Oakland County, 6.00 inches of rainfall occurred in a 9-hour period. In the City of Troy in Oakland County, the rainfall total for the storm measured 5.46 inches. In the City of Warren in Macomb County, particularly hard-hit in this flood disaster, 5.20 inches of rainfall was recorded in a 13-hour period. Three other Macomb County communities (i.e., the cities of Fraser and Rochester, and Shelby Township) exceeded four inches of rainfall for the storm. In Wayne County, a total of 14 communities, including the aforementioned City of Dearborn, received four inches or more of rainfall during the storm. The City of Dearborn Heights, immediately adjacent to the City of Dearborn, was also particularly hard-hit, at 4.97 inches of rainfall over a 12-hour period. A summation of the rainfall totals for these and other affected local communities can be found at Attachment 3 at the end of this letter.

Across the area, the heavy rainfall overwhelmed creeks and tributaries, municipal and county storm drains, and pumping stations for area roadways; caused flash flooding and sewer back-ups that flooded thousands of homes and businesses; stranded hundreds of motorists in up to head-deep water; and forced the closure of major sections of area interstate and state highways for several days. The National Weather Service reported that at least three bodies of water in the impacted counties flooded in the hours and days immediately after the August 11 heavy rainfall: the lower Rouge River in the City of Dearborn in Wayne County; Ecorse Creek in

the City of Dearborn Heights, also in Wayne County; and the Clinton River in Clinton Township and the City of Sterling Heights, in Macomb County. In fact, the Clinton River set an all-time record with a crest of 20.8 feet on August 12, eclipsing the previous record crest of 20.0 feet set 67 years ago on April 5, 1947.

Damage to flooded homes and businesses was particularly severe. The damage typically resulted from a few inches to several feet of water in basements, to water above the first finished floor causing significant damage to foundations and other structural elements. In addition, water on the first finished floor damaged interior finishes and personal property. Many basements incurred substantial damage to the foundation walls and footings, to electrical and mechanical systems, to finished living spaces, and to personal property. A significant number of the homes that incurred substantial basement damage had finished essential interior living spaces in the basement, such as an occupied bedroom, a bathroom, or in some cases the home's only kitchen and food storage area.

Any discussion of damage related to this flood disaster must be coupled at this point with a corresponding discussion related to the uniform lack of insurance for flood hazards in the affected area. Our initial assessments, confirmed later by federal damage survey teams, show that more than 80-percent of the affected households do not have flood insurance or sewer back-up insurance policies in place that would have covered the damage most commonly incurred in this disaster, that being: structural damage to walls and foundations; damage to electrical and mechanical systems; damage to home furnishings, wall treatments, and flooring; loss of appliances such as washers and dryers; and loss of televisions, computers, clothing, and other personal belongings. Even if these affected households had full-coverage flood insurance policies in place, the losses they incurred are far greater, on average, than the maximum coverage provided by flood insurance policies under the National Flood Insurance Program.

Additionally, flood damage caused by sewer back-ups into basements is not covered under a standard flood insurance policy. Rather, a separate sewer back-up rider must be purchased (where available) as part of a homeowner's home insurance policy. Unfortunately, damage surveys indicate that more than 80-percent of households in the affected area do not have such coverage and therefore are left to absorb whatever losses they incurred out-of-pocket. For most affected households, sewer back-ups resulting from the historic rainfall caused the majority of the flood damage to their homes. Although some households may potentially be eligible for limited financial compensation for sewer back-up damage under Michigan's Governmental Liability of Negligence Act (1964 Public Act 170, as amended, MCL 691.1401 to 691.1419), the amount received, in most cases, will not begin to cover the entirety of their losses.

Damage surveys indicated that many homes are in areas that have experienced repetitive flooding, and this factor coupled with the age and condition of the dwellings means that many flooded homes may have incurred damage that meets or exceeds federal and state substantial damage criteria. An instructive example of this was found in the City of Dearborn Heights in Wayne County, where a damage survey conducted by a team of Michigan Department of Environmental Quality and Federal Emergency Management Agency flood specialists identified an area of older homes particularly hard-hit by flooding of Ecorse Creek

caused by the unusually heavy rainfall. This team identified at least 84 damaged homes in one neighborhood that exceed federal and state substantial damage criteria for flood-damaged structures, meaning that these homes will likely have to be demolished or entirely rebuilt to meet Michigan Construction Code and floodplain protection provisions. Unfortunately, the percentage of households in this area with flood insurance is low (just slightly over 40-percent), and the area was characterized as lower income where most residents are older and have limited financial resources. Although this was just one neighborhood in one community, this situation is not uncommon throughout the three-county area. Without significant assistance from the federal government, these and other households like them will experience severe financial hardship for years as they attempt to recover from this flood disaster.

Although numerous local jurisdictions in the three-county area were severely impacted by the flooding and over 118,000 homes and businesses were damaged or affected in some significant way, damages were particularly concentrated in the cities of Warren, Sterling Heights, and Centerline, and Clinton Township in Macomb County; the cities of Oak Park, Royal Oak, and Southfield in Oakland County; and the cities of Dearborn, Dearborn Heights, and Detroit in Wayne County. These areas had particularly notable concentrations of public and/or private damage. For example, in the City of Warren in Macomb County, nearly 23,000 homes incurred damage, representing approximately 40-percent of the city's housing stock. In the City of Dearborn, over 7,600 homes incurred damage, representing approximately 20-percent of that city's nearly 38,000 housing units. The City of Detroit suffered damage to 7-percent of its housing stock. Similar concentrations of damage were experienced in the other aforementioned communities.

The concentration of damage within these small geographic areas magnifies the impact of this flood disaster considerably on the affected communities, and on the three counties as a whole. The collective economic toll to these communities and the region is astronomical. Assessments of private damage conducted by county and local assessors estimated that total residential and commercial flood damage exceeded $1.1 billion in the three-county impact area. Unfortunately, as I previously pointed out, these areas of concentrated damage also have some of the highest concentrations of residents who do not have flood insurance or sewer back-up coverage on their homeowner's insurance policy. Across the three-county impact area, damage surveys indicated that less than 20-percent of flood-damaged homes were covered by flood insurance and sewer back-up insurance. In some of the communities, the percentage of coverage is lower than 20-percent.

Equally troubling, the socio-economic profile of the affected counties and local communities found at Attachment 1 shows these areas are also some of the most economically-distressed in the region and therefore least able to recover from this flood disaster on their own. For example, in Wayne County, where over 23-percent of residents live below the federal poverty level, in the hard-hit cities of Dearborn, Detroit, Highland Park, and Inkster, the poverty levels all exceed 25-percent. In the City of Highland Park, the poverty level is closer to 50-percent. Three significantly affected Wayne County communities (i.e., the cities of Detroit, Highland Park, and Inkster) have median household incomes (at $26,955, $20,298, and $28,095, respectively) that are close to one-half of the state average of $48,471. In Macomb County, the City of Warren's poverty level exceeds 17-percent and its median household income, at $44,982,

also lags nearly 8-percent behind the state average. The cities of Dearborn and Dearborn Heights in Wayne County both have poverty levels exceeding the state average, and median household incomes that are less than the state average. The cities of Madison Heights and Oak Park in Oakland County also experience those same conditions. Unemployment in many of the affected communities is also high. For example, all three counties have unemployment rates (at 9.6-percent, 8.4-percent, and 11.1-percent, respectively) that exceed the state average of 7.7-percent. (Unfortunately, Michigan's unemployment rate remains one of the highest in the nation, and well-above the national average of 6.2-percent.) The City of Highland Park has an unemployment rate that exceeds 23-percent, while the City of Detroit's rate exceeds 17-percent. As the table at Attachment 1 shows, several other communities particularly hard-hit by the flooding also have unemployment rates that exceed double-digits.

By far the most tragic aspect of this flood disaster is that two confirmed deaths have been directly attributed to the flooding conditions, despite the generally-excellent efforts of the affected local jurisdictions and the Michigan State Police in preventing access to flooded areas and in disseminating warnings and emergency public information about the flooding. The warnings and emergency public information were largely followed; however, the rapidly-rising flood waters trapped numerous individuals in their vehicles or home basements, which directly contributed to the two deaths. In addition, flood warnings and emergency public information developed and disseminated by the National Weather Service office in Detroit also contributed positively to this public safety effort, although the historic nature and rapid rise of the flood waters caught even them off-guard.

In response to this flood disaster, I took appropriate action under state law and directed the execution of the Michigan Emergency Management Plan on August 13, 2014, in accordance with Section 401 of the Stafford Act. On that same date, under my authority as Governor I also proclaimed a State of Disaster for the counties of Macomb, Oakland, and Wayne, including the local political subdivisions located therein, and directed state departments and agencies to utilize all available resources necessary to assist the aforementioned counties and local political subdivisions in responding to and recovering from this disaster. I must note that numerous state departments and agencies had already initiated response actions prior to my formal proclamation, in accordance with their assigned missions in the Michigan Emergency Management Plan. These actions included but were not limited to: providing direct assistance to the affected communities and to individuals; assessing the damage and impacts to affected state facilities, infrastructure, and services under their stewardship; and taking appropriate actions to keep those affected facilities, infrastructure, and services operational.

The response by our partner voluntary relief organizations to the severe flooding has been both timely and appropriate. From the outset, the American Red Cross, the Michigan Voluntary Organizations Active in Disasters, and volunteers arranged through the Michigan Community Service Commission have actively provided relief assistance to those in need in the affected areas. Activities undertaken by these organizations during the flood response and early phases of recovery included but were not limited to:

- Providing food and water to emergency responders and flood survivors;

- Establishing and operating emergency shelters for flood survivors left homeless or stranded due to flood conditions;
- Establishing and operating 10 "Multi-Agency Resource Centers" (MARCs) in several communities;
- Distributing personal care items and clean-up kits to flood survivors;
- Providing basic health assessments and first aid services for flood survivors in emergency shelters;
- Providing direct recovery assistance in the form of in-kind materials and/or purchase vouchers for immediate needs items and certain essential household items;
- Providing flood survivors with counseling services and/or referrals to other community-based behavioral health service providers; and
- Assisting elderly and other functional needs individuals in cleaning up their flood-damaged homes, including the removal of flood-soaked building materials, furniture, appliances, and other damaged items.

In some jurisdictions, Community Emergency Response Teams (CERTs) and other community-based volunteer organizations (e.g., local civic/service clubs, church groups, etc.) provided supplemental assistance with response and/or recovery efforts by conducting damage and impact assessments; aiding in debris removal and clearance from public and private property; assisting homeowners in cleaning-up, restoring, and repairing their flood-damaged homes; and helping affected functional needs individuals in coping with their specific individual circumstances and directing them to appropriate resources to help facilitate or aid their recovery.

Despite the valiant efforts of these voluntary organizations and volunteers, they have not been enough to meet all of the recovery needs of all affected individuals and families. As a result, significant unmet needs still exist in the areas of: debris removal on private property; housing repair and restoration; replacement of essential household items; mold and other contaminant abatement; and temporary housing assistance. If this request for federal disaster assistance is granted, these needs could most appropriately be met through several federal Individual Assistance programs, including implementation of the U.S. Small Business Administration disaster loan program. (A separate request for a Small Business Administration Disaster Declaration will be forwarded to their regional office in Atlanta, Georgia, to activate the disaster loan program, in the event my assistance request contained in this letter is not granted.)

The affected local governments also took appropriate action under state law in response to this flood disaster. Pursuant to the Emergency Management Act, No. 390 of the Michigan Public Acts of 1976, as amended, Michigan Compiled Laws (MCL) 30.410 (b), a total of three counties and 19 local political subdivisions declared a "state of emergency" in response to the severe flooding affecting their jurisdiction. Those counties and local political subdivisions included:

- Wayne County on August 12, 2014;
- The City of Berkley on August 12, 2014;
- The City of Ferndale on August 12, 2014;
- The City of Hazel Park on August 12, 2014;
- The City of Huntington Woods on August 12, 2014;
- The City of Madison Heights on August 12, 2014;
- The City of Troy on August 12, 2014;
- The City of Royal Oak on August 12, 2014;
- Royal Oak Township on August 12, 2014;
- The City of Oak Park on August 12, 2014;
- The City of Warren on August 12, 2014
- Oakland County on August 13, 2014;
- Macomb County on August 13, 2014;
- The City of Dearborn on August 13, 2014;
- The City of Center Line on August 13, 2014;
- The City of Roseville on August 13, 2014;
- The City of Highland Park on August 13, 2014;
- The City of Southfield on August 13, 2014;
- Canton Township on August 15, 2014;
- The City of St. Clair Shores on August 15, 2014;
- Clinton Township on August 15, 2014; and
- The City of Dearborn Heights on August 18, 2014.

These jurisdictions implemented the response and recovery elements of their Emergency Operations Plans in a timely manner, in accordance with state law and associated administrative procedure. They also took a number of other appropriate actions to cope with the situation, including but not limited to: marshaling required resources; issuing emergency warnings and public information; taking emergency protective measures to preserve life and/or property; clearing roadways and other public spaces of debris; and limiting access to flooded areas. Generally speaking, the affected local governments took all actions required of them by state law and procedure, and dictated by incident circumstances. Their response was outstanding, given the unusually rapid and severe nature of the flooding and the significant threats to public health and safety created by the tremendous quantities of water-laden and contaminated debris collected from damaged homes and businesses. Refer to Attachment 3, "Significant State and Local Response and Recovery Actions," for more detailed information pertaining to specific response and recovery actions taken by the State and the affected local jurisdictions.

Unfortunately, this flood disaster is just the latest in a string of major incidents that have occurred in Michigan. Over the past 12 months, Michigan has experienced three incidents (including this flood disaster) which resulted in the declaration of a disaster or emergency by me under the Emergency Management Act, No. 390 of the Public Acts of 1976, as amended. The other incidents included an April 17, 2014 declaration of emergency for a widespread underground deep freeze affecting nine counties in Michigan's Upper Peninsula and extreme

northern Lower Peninsula, and an April 17, 2014 declaration of disaster for severe flooding in eight central Lower Michigan counties. Collectively, a total of 20 counties have been included in these declarations over the past 12 months. (Going back four months further, federal disaster 4121-DR-MI, declared in April 2013, involved a total of 16 counties – many of which were also impacted by the two incidents described above.) These incidents have stretched Michigan's relief and recovery resources to their limits. While we were fortunate to receive federal funding for disaster 4121-DR-MI, the other two state-declared incidents above did not qualify for federal relief assistance under the Stafford Act because incident response and recover costs did not meet the established per capita threshold levels required for Public Assistance funding consideration. As a result, the State and the affected local governments have been forced to absorb these costs, reducing our collective ability to fund other essential programs and services in the process.

Although Michigan has a Disaster and Emergency Contingency Fund under 1976 Act No. 390 for counties and local political subdivisions for partial reimbursement of eligible public damage and response costs, it has limited funding which must be replenished every budget cycle by the Michigan Legislature. By state law, these funds can only be provided to eligible public entities and certain volunteer organizations supporting incident response operations. Funds cannot be used to reimburse individual citizens for damages to their home, business, or property, and the state currently does not have another funding mechanism in place dedicated to the provision of post-incident assistance for all individuals and families with unmet needs. Although there are relief programs available through the Michigan Department of Human Services, eligibility is generally limited to low and moderate income individuals or households that incur extraordinary incident-related expenses. To meet the needs of most of our disaster survivors who are not insured or are under-insured against natural hazards such as severe winds or flooding, we must rely upon supplemental relief assistance provided by the federal government and/or voluntary organizations. As I previously indicated, our volunteer relief partners have done an exemplary job in addressing many of the needs stemming from this flood disaster. However, the scope and magnitude of this incident is beyond even their collective capability to provide necessary recovery services. Federal relief assistance is definitely needed to address the unmet needs of those most severely affected by the flooding.

In addition to the aforementioned gubernatorially-declared incidents, the affected local emergency management program jurisdictions have experienced numerous smaller-scale incidents for which they did not seek a gubernatorial declaration or state assistance but which had significant local impacts to residents, businesses, public facilities and infrastructure, and essential services. Individually and collectively, these incidents created significant burdens for the affected local governments, requiring the expenditure of resources (physical and financial) which in many cases had to be diverted from other community programs and services.

Recognizing their responsibility to make their community as disaster-resilient as possible, be advised that all of the affected local jurisdictions that are the subject of this request either have in place, or are actively working toward developing or updating, a current Disaster Mitigation Act of 2000-compliant hazard mitigation plan. Similarly, the State of Michigan has also made a strong commitment to mitigate hazards – particularly flooding hazards – and has met applicable federal standards: the Michigan Hazard Mitigation Plan was approved by FEMA

on April 23, 2014, as a Standard State Hazard Mitigation Plan under the Disaster Mitigation Act of 2000. If appropriate funding can be secured, this disaster will provide an opportunity to implement hazard mitigation projects identified in these plans, in order to reduce the impact of future disasters of this nature.

On August 22, 2014, I requested a joint federal, state, and local Preliminary Damage Assessment for both Individual Assistance and Public Assistance to survey the affected areas in Macomb, Oakland, and Wayne counties. That survey was conducted in two phases over a two and one-half week period, beginning on August 26 and concluding on September 9, 2014. The Preliminary Damage Assessment was conducted by teams consisting of representatives from the Federal Emergency Management Agency, the Michigan State Police Emergency Management and Homeland Security Division, and the affected local jurisdictions. The U. S. Small Business Administration participated in the Individual Assistance phase of the Preliminary Damage Assessment. In addition, representatives of the Michigan Department of Transportation participated in the Public Assistance phase of the Preliminary Damage Assessment in those jurisdictions in which damage occurred to public roadways and transportation infrastructure.

The Individual Assistance Preliminary Damage Assessment was conducted from August 26 through August 29, 2014, in the three affected counties. Federal Emergency Management Agency representatives met with state and local officials at the Double Tree Inn in Dearborn on the morning of August 26 for the Preliminary Damage Assessment organizational/kick-off meeting. Field evaluations began at the conclusion of that meeting, in the early afternoon of August 26. A total of six teams worked for the next four days to verify locally-reported damage and impact information related to homes and businesses affected by the flooding. The Individual Assistance Preliminary Damage Assessment identified a total of 243 homes that were verified as having been destroyed or that incurred major damage; 991 homes that incurred minor damage and 1,035 that were affected that may be eligible for federal assistance; 498 households that are potentially eligible for temporary housing funding; 1,640 households that are potentially eligible for housing repair assistance; one household that is potentially eligible for housing replacement assistance; and 1,871 households that are potentially eligible for "Other Needs Assistance" funding for essential household items and services.

This joint Preliminary Damage Assessment process confirmed three conditions related to the impacts on communities and individuals that must factor prominently in the analysis of this disaster, namely: the concentration of the most severe flood damage in a few communities; the lack of insurance to help offset the cost of recovering from this disaster; and the distressed economic status of many of the affected communities. (I have discussed each of these conditions in depth earlier in this letter. Supporting data related to those discussions can be found at Attachments 1 and 2.)

The second phase of the Preliminary Damage Assessment, for Public Assistance, consisted of four teams and was conducted from September 3 through September 9, 2014, also out of the Double Tree Inn in Dearborn. Teams consisted of representatives from the Federal Emergency Management Agency, the Michigan State Police Emergency Management and Homeland Security Division, the Michigan Department of Transportation, and the affected local jurisdictions that had reported debris removal, emergency protective measure, and public

facility and infrastructure damage costs (Public Assistance Categories A-G) related to the flooding.

The Public Assistance Preliminary Damage Assessment identified a total of $16,778,074 in eligible public damages and related costs – $7,007,477 in Wayne County, and $5,220,091 and $4,514,429 in Macomb and Oakland counties, respectively. An additional $36,078 in eligible state agency public damage costs was verified by the PDA teams. The vast majority of the public damage was for debris removal ($7,030,709) and damage to public buildings and equipment ($6,834,015), with these two damage categories representing 83-percent of the overall public damage total. Public utility damage and emergency protective measure costs were also significant, at $1,234,314 and $773,933, respectively. Those two categories represent 12-percent of the public damage. At $644,713, damage to roads and bridges constitutes 4-percent of the damage total.

The $16,778,074 statewide public damage figure represents a per capita loss of $1.70, well-exceeding the $1.39 per capita federal statewide threshold impact indicator for Public Assistance consideration. In addition, all three of the surveyed counties had per capita public damage losses that exceed the $3.50 per capita federal county-level threshold impact indicator for Public Assistance consideration. Macomb County's per capita loss, at $6.21, is close to double the federal threshold amount. Wayne County's per capita loss of $3.85 exceeds the federal threshold by 10-percent, while Oakland County's per capita loss of $3.75 exceeds the federal threshold by 7-percent.

Even though these counties have relatively large populations, the fact that their per capita losses exceed federal thresholds is indicative of the severity of the flooding. These jurisdictions do not have the financial resources to fully recover from this this flood disaster in a timely manner, or at all in some cases, without supplemental assistance from the federal government. The State of Michigan is able to provide limited financial assistance, in the form of cost-share participation for Individual Assistance, but does not have the funding to address these public damage losses in whole without supplemental federal assistance available through the Public Assistance program under the Stafford Act. By state law, Michigan's Disaster and Emergency Contingency Fund is capped at $4,500,000 and grants to individual jurisdictions cannot exceed $100,000. In all cases, this will not begin to cover the damages incurred by the affected counties in this flood disaster. More detailed impact and cost information related to the Preliminary Damage Assessment-verified public damages can be found at Enclosure B.

I have determined that this incident is of such severity and magnitude that effective recovery is beyond the capabilities of the State of Michigan and the affected local governments and that supplemental federal relief assistance is necessary. I am specifically requesting activation of both Individual Assistance and Public Assistance for the affected counties specified in this request, and activation of the Hazard Mitigation Grant Program for all counties within the state. Preliminary estimates of the types and amount of Individual Assistance and Public Assistance needed under the Stafford Act are tabulated at Enclosures A and B, respectively.

Information regarding the nature and amount of state, local, and nongovernmental resources that have been or will be used to alleviate the conditions of this disaster can be found at Attachment 2, "Significant State and Local Response and Recovery Actions." Maps, weather and flood charts, and damage photographs related to this disaster can be found at Attachment 3, "Supporting Maps, Charts, and Photographs."

I certify that for this major disaster, the state and local governments will assume all applicable non-federal share of costs required by the Stafford Act. Total non-federal share expenditures are expected to equal or exceed $4,816,304, in accordance with the tables at Enclosures A and B.

I have designated Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, as the State Coordinating Officer for this request. He will work with the Federal Emergency Management Agency on recovery program implementation and may provide further information or justification on my behalf.

Sincerely,

Rick Snyder
Governor

ATTACHMENT 2 TO MAJOR DISASTER REQUEST

Significant State and Local Response and Recovery Actions

Search and Rescue. The rapid and severe flash flooding inundated numerous sections of interstate highways, major state highways, and local roadways in the metropolitan Detroit area in the hours immediately after the heavy rainfall on August 11, trapping hundreds of vehicles and motorists in the rising water. Many of these motorists sought refuge on the tops of their vehicles or on nearby high ground and had to be rescued by Michigan State Police officers, local law enforcement officers, and local fire department personnel. Michigan State Police resources were particularly valuable to the search and rescue efforts. State Police officers provided direct assistance to stranded motorists, checked the status of abandoned vehicles, and assisted local responders in blocking access to flooded roadways. In addition, divers with the Michigan State Police Underwater Recovery Unit checked more than one hundred submerged vehicles for occupants (fortunately, none were found), and the State Police Aviation Unit conducted aerial fly-overs of the impacted areas to search for additional stranded motorists and to take aerial photographic and video footage of the flood scenes. (Some of those photographs are included at Attachment 3 to provide visual documentation of the scope and magnitude of the flooding.)

Critical Facilities and Infrastructure Restoration. A number of critical facility and infrastructure emergency restoration measures were implemented in the affected counties and local communities during the response to the severe flooding. Particularly hard hit were the interstate highways and major state roadways in and around metropolitan Detroit, although roadways in all three counties were heavily impacted by the flooding. Many sections of the affected highways in and around metropolitan Detroit (including interstate highways I-75, I-94, I-96, and I-696, and Michigan highways M-10 and M-39) were inundated with flood water, trapping vehicles and motorists who could not make their way through the rapidly-deepening water. This forced the closure of these roadway sections – in some cases for several days – so that crews from the Michigan Department of Transportation, Michigan State Police, and county and local road and law enforcement agencies could oversee the removal of stranded (and generally inoperable) vehicles; assess the physical damage to and conduct safety checks of road, bridge, and related infrastructure; and initiate appropriate facility repair and restoration measures so that the closed sections of roadway could be safely reopened to the motoring public. (Refer to the road closure map found at Attachment 3.)

Repair and restoration measures included but were not limited to: conducting safety checks of and making temporary or permanent repairs to damaged structures; removing water, mud and debris from the roadway, bridges, and rights-of-way; stabilizing banks to prevent further debris flows and physical degradation; repairing signage and electronic signals, where required; repairing pumping equipment and associated facilities to ensure they are operational; and testing the repaired facilities to ensure they will allow for safe travel. In most cases, the dedicated work crews were able to reopen the damaged highway and roadway facilities within 36-48 hours. However, some of the damaged sections of roadway and bridge infrastructure will

require more extensive permanent repairs which will take several weeks to several months to complete once funding is available to finance the repairs.

Uninsured damage to other local public facilities and infrastructure was significant. For example, in the City of Warren in Macomb County, the Police Department and Fire Department incurred nearly $2.8 million in uninsured damage to their police and fire vehicles and associated equipment. This includes 10 fully-equipped Fire Department vehicles and six fully-equipped Police Department vehicles requiring replacement, and another seven fire vehicles and nine police vehicles requiring major repairs. The City of Sterling Heights, also in Macomb County, had nearly $620,000 in insured public utility damage, while in St. Clair Shores, uninsured damage to public buildings and associated equipment totaled $225,000. In the City of Royal Oak in Oakland County, uninsured damage to a local high school and middle school totaled $210,000. Uninsured damage to St. John Providence Hospital in the City of Southfield in Oakland County was $200,000. Uninsured damage to Oakwood Hospital in the City of Dearborn in Wayne County exceeded $1.8 million, while in the City of Highland Park, also in Wayne County, uninsured damage to public utilities, city hall, and the community recreation center totaled in excess of $450,000. In the City of Detroit in Wayne County, uninsured damage to public buildings and equipment was over $930,000, with the majority of that total coming from damage to Police Department facilities. These are just a few instructive examples from the nearly $16.8 million in public damage that occurred in Michigan. Although temporary repair and restoration measures have been put in place in most instances to bring the damaged facilities and infrastructure in the three counties to basic operational status, almost all will still require extensive permanent repairs and restoration to bring them back to their pre-flood condition. That will not occur in a timely or comprehensive manner without federal disaster relief assistance.

Emergency Sheltering and Mass Care. Although the rapid (and unanticipated), heavy rainfall did not allow for preventive evacuations of the public in impacted areas, emergency sheltering and mass care services were required in several instances. For example, on August 11, over 400 stranded motorists had to be temporarily sheltered for the evening in the City of Warren because roadway flooding prohibited further travel and resulted in many areas being inaccessible by vehicle. (Many of these individual's vehicles were deeply submerged in flood water and would not have been able to travel anyway because of the damage to their vehicle.) Along M-10 in Wayne County, approximately 50 motorists were stranded for an extended period from the evening of August 11 through August 13 due to the deep flood water in the walled-in, lower sections of the highway. During this time, the American Red Cross provided these stranded individuals with food, water, and comfort kits until the roadway could be de-watered and reopened for travel. For six days after the flooding occurred, a small number of displaced flood survivors were sheltered and cared for at an American Red Cross shelter in Garden City in Wayne County because their homes were inaccessible and/or incurred sufficient damage to render them unsafe for occupancy. Lastly, the American Red Cross also provided cots and comfort kits to nearly two-dozen displaced residents at two apartment complexes in the cities of Detroit (Wayne County) and Troy (Oakland County) so that the residents could use other (unaffected) vacant units within the respective complexes for shelter, rather than having to be moved elsewhere to a temporary shelter facility.

I must note that these emergency sheltering and mass care figures are somewhat misleading, as we received reports that many more flood survivors were temporarily displaced because of flood damage and/or inaccessibility but sought shelter with nearby family, friends, or in unaffected area hotels and motels. As it is next to impossible to track these "unofficial" evacuations with any accuracy, it is safe to say that the number of temporarily displaced flood survivors is much higher than reported through official channels.

The American Red Cross generally led the organized emergency sheltering and mass care effort, supported by the Michigan Department of Human Services, the Salvation Army, and other community-based relief organizations.

Flood Recovery for Individuals and Families. To assist affected flood survivors in recovering from this devastating disaster, the American Red Cross teamed with the Michigan Department of Human Services, Michigan 2-1-1, the Michigan Community Service Commission, and other community-based relief organizations to establish and operate "Multi-Agency Resource Centers" (MARCs) in 10 different locations over a six-day period in the latter-half of August. (A corresponding map found at Attachment 3 shows the initial locations of these MARCs.) The Multi-Agency Resource Centers, which were visited by several thousand flood survivors, provided a location and means to disseminate information regarding flood recovery and available flood recovery assistance. Through these centers, flood survivors could connect with or be referred to agencies and organizations that could assist them in their recovery – addressing everything from filing insurance claims, to replacing food and clothing, to making repairs to damaged homes. In addition, the Multi-Agency Resource Centers also provided a clearinghouse for the distribution of flood clean-up kits, personal comfort kits, and other recovery supplies to those requiring such items. To date, over 300 referrals for behavioral health assistance have been made through the centers and other involved agencies.

In addition to the Multi-Agency Resource Centers, flood survivors also have the opportunity to request flood recovery information and/or assistance via the Internet or Michigan 2-1-1 telephone system. These options were widely disseminated to the public and the media in various information releases. For the internet options, affected individuals could register directly with the Recovery Coordination Center (discussed in "Management of Emergency Volunteers" below) operated by Michigan Voluntary Organizations Active in Disasters, at www.bit.ly/floodcleanupsemi, or they could register via a specially-designated web page (www.michigan.gov/miflood) at the Michigan State Police Emergency Management and Homeland Security web site, which provides a link to the Recovery Coordination Center registration form. Either option results in a referral for recovery assistance to one of the Michigan Voluntary Organizations Active in Disasters member organizations providing assistance through the Recovery Coordination Center.

(I must note that, although the Multi-Agency Resource Centers, Michigan 2-1-1, and the aforementioned web sites have been tremendously successful to date in identifying and addressing both short- and longer-term recovery needs of the affected flood survivors in this disaster, it is clear that even these collective efforts are not going to be sufficient to identify and address all of the unmet needs of the thousands of flood survivors. This is particularly true with regard to home rebuilding and restoration efforts to ensure safe re-occupancy of damaged

structures. Because over 80-percent of the affected households in the three-county area did not have insurance in place to address the damage incurred in this flash flood, it is very likely that many will be forced to occupy their homes with potentially dangerous and/or unhealthy conditions present due to damaged electrical and mechanical systems and/or the presence of black mold or other contaminants on building materials not properly dried out and restored. Simply put, the long-term unmet needs of the flood survivors far outstrip the combined resources of the involved voluntary organizations, volunteers, and existing human service programs to remedy those needs. Clearly, federal disaster relief assistance is required to enable these flood survivors to fully recover from this devastating flood and allow them to make their dwellings safe and sanitary for re-occupancy.)

Without significant relief assistance from the federal government, these individuals will not have the resources necessary to fully repair and restore their damaged homes and mechanical systems, ensure their homes are free of mold and other health hazards, and replace damaged essential household items such as appliances, clothing, food, medications, and furniture and bedding. Without federal relief assistance, it is an almost certainty that many individuals will continue to struggle to recover and be forced to live in unhealthy conditions due to mold, contact with contaminated materials, and substandard (and likely unsafe) mechanical systems that they could not afford to have properly repaired by licensed professionals.

Management of Emergency Volunteers. To date, hundreds of emergency volunteers have been mobilized through the collective efforts of the American Red Cross, Michigan Voluntary Organizations Active in Disasters, Michigan Community Service Commission, Michigan Department of Human Services, local and state emergency management offices, and community-based organizations, to assist in the recovery from this flood disaster. In fact, volunteers have been and continue to be the lifeblood of the flood recovery effort. The aforementioned agencies and organizations have done a tremendous job in managing these volunteer resources and ensuring their timely and effective use. As I previously indicated, several Multi-Agency Resource Centers have been established and successfully operated in the affected counties to allow for the distribution of clean-up and personal comfort kits, and to facilitate the connection of those in need with the agencies and organizations that can provide recovery and relief information and/or assistance.

Central to the disaster volunteer management effort has been the establishment of a Recovery Coordination Center (RCC) to provide a means to coordinate the efforts of organizations that provide volunteer assistance to flood survivors needing help in repairing and restoring their home. The majority of the volunteers providing assistance are working under the framework of Michigan Voluntary Organizations Active in Disasters, and in coordination with state and local emergency management agencies, Michigan 2-1-1, the American Red Cross, the Michigan Department of Human Services, and other community-based organizations. The Recovery Coordination Center helps identify flood survivors requiring recovery assistance and determines the nature and scope of their recovery needs. The center provides ongoing case management for individual recovery and rebuilding/restoration efforts, ensuring that no one "falls through the cracks" and does not receive the assistance they need. Affected individuals are identified and referred to the Recovery Coordination Center by Michigan 2-1-1, local and state emergency management offices, Michigan Department of Human Services county offices,

the Michigan Community Service Commission, churches and other faith-based organizations, or by involved volunteers themselves. Once a flood victim is registered with the Recovery Coordination Center, their recovery needs are referred to the appropriate agency or volunteer organization for follow-up action. Through the center, voluntary organizations can also track their recovery efforts, thus ensuring an accurate accounting of the volunteer hours spent with each flood victim. Currently, over 4,000 homeowners have requested clean-up and restoration assistance through the Recovery Coordination Center. To date, over 250 homes have been completed using volunteers coordinated through the center.

However, as I indicated earlier, even with these outstanding volunteer efforts in place the collective capabilities of volunteers can only go so far in meeting the more difficult long-term recovery needs aimed at ensuring safe and sanitary conditions in flood-damaged homes. Because of the lack of adequate insurance (less than one in five households was adequately insured) to help pay for potentially-expensive repair and restoration activities required to make home structural elements and mechanical systems safe and functional, and to fully-remove the presence of black mold and other contaminants in flood-damaged building materials, it is essential that federal disaster relief assistance be provided. Absent this assistance, affected flood survivors will, in many cases, be forced to live in potentially-dangerous and/or unsanitary conditions because they do not have the financial resources necessary to fully restore their dwellings to pre-flood condition in a timely manner – or at all.

Debris Removal to Protect Public Health and Safety. Debris management was a critically important recovery issue in the days and weeks immediately following this flood disaster. Throughout the affected counties and communities, extensive and rapid debris operations were required to clear and remove flood-damaged building materials and personal property from curbsides and roadway rights-of-way in residential and commercial areas in order to protect public health and safety and enable the continuing use of adjacent roadways, sidewalks, and fire hydrants. The wet, heavy, contaminated flood debris from tens-of-thousands of flood-damaged homes and businesses, coupled with the hot and humid weather conditions that occurred in the days that immediately followed the flood disaster, set the stage for potentially-dangerous and unsanitary conditions in these densely-populated and heavily-developed urban areas. Because of the very real potential for a public health emergency, it was necessary for the affected local communities to muster all of the private and public debris clearance and removal resources they could to ensure rapid and environmentally-compliant removal and disposal of this debris.

In that regard, the affected local jurisdictions did an exemplary job in rapidly managing this difficult and potentially life-threatening recovery issue. With the assistance of various state agencies working out of the State Emergency Operations Center, the local jurisdictions were able to identify sufficient resources to address their debris removal and disposal needs in a rapid and environmentally-compliant manner. All of the affected local communities effectively worked with the Michigan Department of Environmental Quality to obtain required emergency waivers for temporary debris storage and transfer centers, and for emergency transportation of flood debris to approved landfill facilities. These debris removal efforts, however, came at a collective $7 million cost to the affected local jurisdictions in the three counties – a cost which

these jurisdictions are not in a position to bear without significant cuts to other essential programs and services.

Emergency Public Information. During the first hours and days after the flash flooding occurred, the affected local jurisdictions and several Michigan state agencies undertook a comprehensive emergency public information campaign to warn residents of the health and safety risks posed by the flooding and flood-related damage, and to provide updates on recovery issues and concerns. Of particular concern initially were the health and safety risks associated with structural damage, damaged electrical and mechanical systems, and contaminated flood debris. Later, the public information focus shifted to address longer-term recovery issues such as use of licensed and reputable contractors, price-gouging, scam avoidance, and home restoration best practices. This public information campaign continues today, in both English and appropriate non-English languages, and will so for the foreseeable future until all recovery-related issues and concerns have been effectively dealt with. All appropriate media sources have been utilized in this campaign, including television, radio, print media, and web and social media sites. Although there were two incident-related deaths in the early days after the flooding, since that time this campaign has been largely successful in minimizing flood-related injuries and health and safety problems.

The Michigan United Way 2-1-1 telephone referral system has been a tremendously successful means of disseminating important recovery-related information and making referrals to agencies and organizations that can provide recovery assistance. To date, Michigan 2-1-1 has fielded nearly 10,000 calls from individuals seeking flood recovery information and/or referrals. Michigan 2-1-1 has been instrumental in connecting individuals in need with the appropriate resources to enable them to recover from this flood disaster. Despite its success, Michigan 2-1-1 also had one potential downside, that is, the large number of "abandoned" calls from callers that chose to hang up rather than utilize the call-back option when lines were busy. Telephone logs show that over 3,100 calls were abandoned between mid-August and the first week of September. This is disturbing to me because there is no way to track with certainty whether or not these individuals actually did receive the information and/or assistance they were seeking when they initially called Michigan 2-1-1. My hope is that they did, but I suspect a portion of these callers simply gave up and did not further seek recovery information and/or assistance.

(I must note that my concerns in this regard are not necessarily limited to Michigan 2-1-1. Reports received from state and local staff that participated in the Preliminary Damage Assessment indicate that a potentially large number of affected individuals may not have sought assistance due to a number of reasons, including but not limited to: a general distrust of or frustration with government; language and/or cultural barriers; technology barriers, i.e., do not regularly monitor media reports, the internet, or social media; or a lack of understanding regarding available resources and the means for accessing those resources. If federal disaster relief assistance is granted based on this request, we may find many additional individuals that may seek to apply for federal assistance – over and above those estimates developed in the Preliminary Damage Assessment.)

State Response and Recovery Assistance Efforts. Michigan's state departments and agencies and nongovernmental partner organizations have provided whatever appropriate resources they had at their avail to assist the affected counties and local jurisdictions in responding to and recovering from this flood disaster. Although the following is by no means an all-inclusive accounting of all response and recovery efforts, it does provide brief synopses of some of the more noteworthy efforts:

The **Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD)** began to monitor the incident in the early evening of August 11, after reports of flash flooding were first received from the affected local emergency management officials and the National Weather Service. Immediate communications were established with the local emergency management officials to assess the nature, scope, and magnitude of the incident and to help coordinate the provision of state resources as needed. This monitoring continued through the evening hours of August 11. When reports from the affected local jurisdictions and the Michigan Department of Transportation indicated that metropolitan Detroit interstate highways and major roadways had suffered major flooding, the MSP/EMHSD notified key staff to report to the State Emergency Operations Center (SEOC). The SEOC was in partial activation status for several hours, and then went to full activation status at 10:00 AM on August 12. Numerous departments, agencies, and nongovernmental partners responded and reported to the SEOC for duty.

The MSP/EMHSD coordinated SEOC operations at full activation status for the next 14 days, operating 24 hours a day, 7 days a week, on 12-hour shifts. On August 25, the overnight shift was terminated and the operational hours were changed to 8:00 AM till 8:00 PM. The SEOC remained on that schedule for two days, until August 27, when the hours were changed to 8:00 AM till 5:00 PM to more closely align with the Preliminary Damage Assessment operations ongoing in the three-county impact area. On September 8, the SEOC went to a weekly operational period.

Throughout the SEOC activation, the MSP/EMHSD staffed command, operations, logistics, planning, public information, mapping and technical support positions to keep the SEOC functioning at full capability and to fully support the state department/agency and nongovernmental partner representatives present in the facility. During this period, the MSP/EMHSD coordinated all resource requests received from the affected local jurisdictions, ensuring that each request was appropriately addressed in a timely manner. The MSP/EMHSD also coordinated the collection, compilation, review, analysis, synthesis, and reporting of damage and impact assessment information received from the affected jurisdictions and state departments/agencies. The MSP/EMHSD also conducted several briefings daily for local officials, state departments/agencies and nongovernmental partners, and other interested parties, to keep all stakeholders apprised of ongoing or planned activities and areas of concern. Daily incident management plans were developed by SEOC command staff to focus SEOC activities on planned incident management objectives and to ensure that state resources were being appropriately utilized to address the most pressing issues during the operational period. In addition, the MSP/EMHSD developed numerous daily written situation status reports and public information releases to keep SEOC staff, state government executive and legislative

leadership, local officials, our emergency management partners, and the public informed of ongoing issues, concerns, activities, and opportunities for coordination and/or involvement.

From August 25 to September 9, the MSP/EMHSD worked closely with Federal Emergency Management Agency officials to coordinate and conduct Preliminary Damage Assessments for both Individual Assistance and Public Assistance in the three-county impact area. The MSP/EMHSD was instrumental in the set-up of and conduct of the Preliminary Damage Assessment, handling all administrative and logistical aspects of the operation from the SEOC and an on-site coordination center established at the Double Tree Inn in Dearborn. Lastly, using the assessment information and findings from the Preliminary Damage Assessment, the MSP/EMHSD provided considerable technical assistance to me and my staff in the drafting of this request letter and in compiling the supporting information found in the various Attachments and Enclosures.

In addition to the MSP/EMHSD contributions, the **Michigan State Police (MSP)** also deployed considerable resources during the flood response to assist local officials in controlling access to flooded areas, conducting underwater search and rescue in flooded areas, and assisting with security and traffic control as required. Early in the response, the MSP Aviation Unit also flew aerial reconnaissance and assessment missions over the affected areas to search for additional stranded motorists on flooded highways, to aid local and state officials in determining the scope and magnitude of the flooding, and to take aerial photographs and video footage of flooded areas for damage and impact assessment purposes. (Some of those photographs appear in this letter at Attachment 3.) The MSP Special Operations Division also assisted at the SEOC, and the Michigan Intelligence Operations Center (MIOC) continuously monitored the flooding conditions and sent out situational awareness bulletins on the weather and flooding to all stakeholder partners through the duration of the response and recovery.

The **Michigan Department of Agriculture and Rural Development (MDARD)** made available flood clean-up (to include sewage) guidance to affected food establishments in the three-county impact area. This guidance was provided in English, Spanish, Arabic, and Mandarin languages. In addition, the MDARD and the U.S. Food and Drug Administration (FDA) Detroit District Office coordinated with various food industry associations in Michigan to assess the impact of the flooding on the food and agriculture sector and to determine appropriate follow-up measures necessary to protect public health. (Providing the clean-up guidance to food establishments was one of the necessary measures.) During this outreach process, the MDARD focused on food warehouses and retail establishments while the FDA focused on food processors and other regulated firms (e.g., drug, biologics, medical devices, etc.) within the local jurisdictions most heavily impacted by the flooding. (Those jurisdictions included but were not limited to: Warren, St. Clair Shores, and Clinton Township in Macomb County; Madison Heights, Ferndale, and Royal Oak in Oakland County; and Dearborn, Dearborn Heights, and Detroit in Wayne County.) In addition, the MDARD also reached out to the affected health departments (county and City of Detroit) who license and inspect restaurants, and with major grocery store chains and trade associations. MDARD personnel also inspected a number of gasoline stations in the affected area to determine if any had issues with flood water in their gasoline storage

tanks. (One did, but the issue was satisfactorily resolved by the state inspectors.)

The **Michigan Department of Community Health (MDCH)** coordinated with affected local health departments regarding the provision of disaster behavioral health resources; monitored and coordinated with local hospitals and the Region 2 Health Care Coalition regarding flood-related damage and the resultant impacts on hospital operations; and worked closely with the SEOC Public Information Officer to disseminate appropriate and timely health-related information to flood survivors.

The **Michigan Department of Environmental Quality (MDEQ)** coordinated extensively with local officials involved in debris management operations to ensure compliance with federal and state environmental laws and regulations; issued timely emergency approvals of sites designated for use as temporary debris storage and transfer sites; issued other emergency authorizations and waivers where appropriate; provided technical assistance to local officials and private debris management firms regarding issues pertaining to the collection, storage, transport, and disposal of flood-related debris; assisted in the identification of supplemental debris management resources for local officials in need of such resources; and monitored flood-related impacts on local drinking water treatment plants and operations in the affected area.

The **Michigan Department of Human Services (MDHS)** coordinated with involved voluntary relief organizations, community-based organizations, MDHS County Offices and the Michigan Community Service Commission, Michigan 2-1-1, and other human service providers to identify, assess, and attempt to meet the recovery needs of flood survivors. The MDHS undertook a number of activities during the response and recovery phases of this disaster to meet this broad mission, including but not limited to: coordinating with the American Red Cross, Michigan Voluntary Organizations Active in Disasters, and other voluntary relief organizations to establish and operate two temporary emergency shelters, 10 Multi-Agency Resource Centers, and a Recovery Coordination Center; coordinating the distribution of thousands of clean-up and personal comfort kits; coordinating with the SEOC Public Information Officer and other public information officials regarding the dissemination of appropriate and timely recovery information using all available means (e.g., Michigan 2-1-1, web and social media sites, television, radio, etc.); registering eligible flood survivors for the limited MDHS emergency relief assistance available; coordinating the receipt and use of donated goods for the recovery effort; resolving debris management issues for volunteers providing clean-up and/or repair assistance through the Recovery Coordination Center; assisting with volunteer recruitment through the Michigan Community Service Commission and other means; procuring needed supplies for volunteer repair/clean-up teams; and addressing recovery-related issues for various functional needs populations affected by the flooding.

The **Michigan Department of Licensing and Regulatory Affairs (MDLARA)** monitored incident-related energy disruptions and energy supply issues related to the storms and flooding; monitored the operations of regulated health care facilities affected by the flooding; provided (through the Michigan Occupational Safety and Health Administration – MIOSHA) worker safety information to emergency responders and workers, as appropriate; and provided (through the

Bureau of Construction Codes) information to citizens in the City of Highland Park and other communities on mandated building, mechanical, electrical and plumbing inspections.

The **Michigan Department of Technology, Management and Budget (MDTMB)** monitored the impacts of the flooding on state owned and operated facilities and state government operations in the three-county area; assisted in obtaining needed resources for emergency operations and/or flood recovery through standing vendor contracts and/or the state's emergency procurement process; identified and procured office space and coordinated information technology installation for needed emergency facilities; and assisted in transporting recovery supplies to Multi-Agency Resource Centers and other distribution facilities.

The **Michigan Department of Transportation (MDOT)**, assisted by local public works and law enforcement personnel and the Michigan State Police, managed the closure of several sections of interstate and state highways in and around metropolitan Detroit that were inundated by flood water. This included several sections interstate highways I-75, I-94, I-96, and I-696, and Michigan highways M-10 and M-39. The MDOT also monitored and reported on closures of local roads and bridges by local officials; reported on the scope and magnitude of road and bridge damage in the affected counties; coordinated with the Federal Highway Administration (FHWA) regarding implementation of its Emergency Relief Program; and participated in the Public Assistance Preliminary Damage Assessment for road and bridge damage.

THE REMAINDER OF THIS PAGE INTENTIONALLY LEFT BLANK.

MEDIA MONITORING REPORT

12/30/2015

Issues:

- No issues to report.

Summary:

- Gov. Rick Snyder yesterday issued a statement in response to initial findings from the Flint Water Task Force.
- Gov. Rick Snyder apologized to the City of Flint on Tuesday for the drinking water crisis that has left children poisoned by lead and announced that he accepted the resignation of Michigan Department of Environmental Quality Director Dan Wyant.
- Michigan Department of Environmental Quality spokesperson Brad Wurfel has joined director Dan Wyant in resigning after a task force cited department failures in addressing the Flint water crisis.
- Congressman Dan Kildee again appeared on "The Rachel Maddow Show" Tuesday for a live interview with guest host Melissa Harris Perry.
- A task force appointed by Gov. Rick Snyder says Michigan's environmental regulatory agency is primarily responsible for the state's failure to ensure safe drinking water for Flint residents.
- The City of Flint took another major step Tuesday in addressing the current water "State of Emergency" declared earlier this month by Mayor Karen Weaver.
- Michigan Public Broadcasting has posted the letter to Gov. Rick Snyder from the Flint Water Advisory Task Force.
- Columnist Larry Gabriel posted an article for Detroit Metro Times on Gov. Snyder's role in Flint water crisis.
- Flint Journal Editor Bryn Mickle posted a MLive article regarding Gov. Snyder and the state's role in Flint water crisis.
- Mayor Karen Weaver and other local leaders say the resignation of Michigan Department of Environmental Quality Director Dan Wyant and release of Flint Water Task Force findings Tuesday are the first steps toward holding people accountable for Flint's water crisis.
- State regulators should have required Flint to treat its corrosive drinking water to keep lead from leaching from service lines into people's homes but did not purposely mislead federal officials about the lack of corrosion control, Michigan's auditor general said in a preliminary report released Monday.
- An increased number of mass shootings and natural disasters across the United States has put a greater demand on Lenawee County Emergency Management Coordinator Curtis Parsons' time on a local level, according to Lenconnect.com.
- New York City ramps up security for New Year's Eve.
- Homes all across Michigan are still without power in Lenawee County after Monday's winter storm.
- Several hundred people are in the dark Tuesday afternoon after a winter storm pushed through West Michigan on Monday.
- While Monday's winter storm resulted in snow and dangerous ice conditions in much of Lower Michigan, the impact in Monroe County was mostly property damage on the Lake Erie shoreline in addition to street flooding at the height of the storm.

- Flint City Councilman Joshua Freeman announced Tuesday he will no longer represent the city's fourth ward.
- There's a push in Michigan's Congress to reverse some efforts to limit voter access to the polls.
- National Weather Service forecast updates.
- TV clips: State at fault in Flint water crisis; MDEQ Director and Spokesman resign after Snyder apologizes.

Analysis:

- *Media coverage is negative and neutral.*
- Flint Water Advisory Task Force released their finding to reveal MDEQ is mostly at fault for the Flint water issues.
- Gov. Rick Snyder issued an apology and accepted MDEQ Direct Dan Wyant's resignation.
- MDEQ Spokesman Brad Wurfel has announced his resignation.
- Flint Mayor Karen Weaver submitted an "Incident Action Plan" on Flint water crisis to Genesee County Emergency Management and Homeland Security Office.
- Will continue to monitor the situation.

FLINT WATER

Gov. Rick Snyder takes action on initial findings from Flint Water Task Force

Michigan.gov, December 29, 2015

In response to initial findings from the Flint Water Task Force, Gov. Rick Snyder today issued the following statement:

"When I became aware that the city of Flint's water showed elevated lead levels and that the state's handling of the situation was being questioned, I requested funding to switch the source back to the Great Lakes Water Authority and appointed an independent task force to identify possible missteps and areas for improvement.

"The task force has done an exceptional job, reviewing stacks of documents and interviewing scores of Flint, Genesee County, state and federal officials. Although the task force's final report is not yet completed, members have made me aware of some interim findings and corrective steps that I have decided to take immediately in order to restore trust in how the state keeps its citizens safe and informed.

DEQ spokesman resigns over Flint water crisis, says city 'didn't feel like we cared'

MLive, December 30, 2015

LANSING, MI – Michigan Department of Environmental Quality spokesperson Brad Wurfel has joined director Dan Wyant in resigning after a task force cited department failures in addressing the Flint water crisis.

Wurfel in an email to contacts on Tuesday night said he had been honored to serve under Wyant and was joining his boss in resigning.

"I have greatly appreciated my time as Communications Director at the DEQ, but I am looking forward to pursuing new opportunities in the new year. I tendered my resignation today as well," Wurfel said.

Snyder apologizes, Wyant resigns in Flint Water Crisis

Detroit Free Press, December 29, 2015

LANSING — Gov. Rick Snyder apologized to the City of Flint on Tuesday for the drinking water crisis that has left children poisoned by lead and announced that he accepted the resignation of Michigan Department of Environmental Quality Director Dan Wyant.

Snyder said in a news release that there will be other personnel changes at the DEQ and that the moves he announced are among "initial steps" he is taking to assure the safety of Flint residents, with more action to come

Michigan regulator resigns amid Flint's lead-in-water crisis

ABC News, December 29, 2015

Michigan's top environmental regulator resigned Tuesday after elevated levels of lead were found in Flint children during a drinking water crisis that a task force blamed primarily on his agency.

Gov. Rick Snyder accepted the resignation of Department of Environmental Quality Director Dan Wyant and apologized for what occurred in Flint, which switched its drinking water supply in a cost-cutting

move while under state financial management. Communications director Brad Wurfel also resigned, and Snyder said he plans additional personnel changes in the agency.

Flint water report prompts apologies, resignations

Detroit News, December 29, 2015

Michigan's top environmental official resigned Tuesday after an independent task force delivered its initial findings on the Flint water contamination crisis — conclusions that also prompted an apology from Gov. Rick Snyder.

Dan Wyant, director of the Department of Environmental Quality since 2011, tendered his resignation Tuesday, marking the second agency shakeup in just over two months related to Flint's lead-tainted drinking water problems. The industrial city has been plagued by lead issues since an April 2014 switch to the Flint River as its water source.

Congressman Dan Kildee will again discuss Flint water on 'The Rachel Maddow Show'

MLive, December 29, 2015

FLINT, MI -- Congressman Dan Kildee will again appear on "The Rachel Maddow Show"at 9 p.m. tonight for a live interview with guest host Melissa Harris Perry.

Last week, Kildee was on the show asking for Gov. Rick Snyder to help residents in Flint during the city's water crisis.

Kildee has advocated for resources from the state to help residents during Flint's lead-in-water crisis, including the help to improve Flint's distribution system. In addition, he is asking Snyder to create a state-financed health fund and to continually monitor the health of those exposed to elevated lead levels.

Task force lays most blame for Flint water crisis on MDEQ

Michigan Radio, December 29, 2015

A task force appointed by Gov. Rick Snyder says Michigan's environmental regulatory agency is primarily responsible for the state's failure to ensure safe drinking water for Flint residents.

The Flint Water Advisory Task Force says in a letter to Snyder that the state Department of Environmental Quality "must be held accountable for that failure."

Director Dan Wyant resigns after task force blasts MDEQ over Flint water crisis

MLive, December 29, 2015

LANSING, MI – Gov. Rick Snyder on Tuesday accepted a resignation from Michigan Department of Environmental Quality Director Dan Wyant after a task force laid responsibility for the Flint water crisis at the feet of the department.

Snyder, in a statement, announced Wyant's resignation and apologized to Flint residents after he received a letter from the Flint Water Advisory Task Force.

"...MDEQ Director Dan Wyant has offered his resignation, and I've determined that it's appropriate to accept it. I'm also making other personnel changes at MDEQ to address problems cited by the task force," Snyder said.

Flint mayor submits plan to deal with water problems

9 & 10 News, December 30, 2015

FLINT, Mich (AP) - Flint's mayor has submitted a plan following her state of emergency declaration over problems with the city's water system.

Karen Weaver's administration announced Tuesday it sent the plan to Genesee County emergency officials. The issue is on the agenda for the county Board of Commissioners' Jan. 4 meeting.

The plan outlines steps required to deal with causes and effects of lead contamination in the water. It's also part of the process for requesting federal assistance.

Mayor's office submits "Incident Action Plan" to county regarding Flint water

ABC 12, December 29, 2015

FLINT (WJRT) - (12/29/15) - The City of Flint took another major step Tuesday in addressing the current water "State of Emergency" declared earlier this month by Mayor Karen Weaver.

According to the city administrator, Mayor Weaver's office submitted an official "Incident Action Plan" to Genesee County Emergency Management and Homeland Security Office.

Letter from Flint Water Advisory Task Force

Public Broadcasting, December 29, 2015

Dear Governor Snyder:

The Flint Water Advisory Task Force, which you appointed on October 21, 2015 has devoted considerable effort and countless hours to our review of the contamination of the Flint water supply: What happened, why it occurred, and what is needed to prevent a recurrence in Flint or elsewhere in the state. We have also been assessing ongoing mitigation efforts to help assure that short- and long- term public health issues and water management concerns will be properly addressed to safeguard the health and well being of the Flint community.

Shortly after we began our work, we recognized the immediate need for better coordination of the state's response to the ongoing public health issues in Flin, and for assignment of a single person to provide this coordination. We addressed these concerns in a letter to you on December 7, 2015, and you responded with immediate adoption of these recommendations. We thank you for the commitment your response demonstrates.

Stir it up: No one is to blame for Flint but Snyder

Detroit Metro Times, December 30, 2015

I knocked on Mulenga Harangua's door early one day between Christmas and New Year's Day. I was doing a little post-holiday shopping and thought I'd get a couple of those "Detroit, comme ça" T-shirts he was selling. He was slow getting to the door and I banged on it a second time.

"Hold on a minute," Mulenga hollered from inside just before opening the door. "I was busy making some new T-shirts."

Gov. Rick Snyder still doesn't get it when it comes to Flint water crisis

MLive, December 29, 2015

Gov. Rick Snyder still doesn't get it.

Three months after the state finally acknowledged there was a problem with Flint water, Snyder issued a statement Tuesday, Dec. 29, apologizing for the situation and announcing actions to "ensure a culture of openness and trust."

Unfortunately, Snyder left out some key details.

Flint leaders applaud DEQ director's resignation, governor's apology

MLive, December 29, 2015

FLINT, MI – Mayor Karen Weaver and other local leaders say the resignation of Michigan Department of Environmental Quality Director Dan Wyant and release of Flint Water Task Force findings Tuesday are the first steps toward holding people accountable for Flint's water crisis.

"There is some accountability being put in place and that's a good thing," Weaver said. "That's what is happening and I think that's a good sign because it shows that our voices have been heard and that they will continue to be heard."

Auditor: State erred on Flint water but didn't mislead feds

The Oakland Press, December 29, 2015

LANSING (AP) — State regulators should have required Flint to treat its corrosive drinking water to keep lead from leaching from service lines into people's homes but did not purposely mislead federal officials about the lack of corrosion control, Michigan's auditor general said in a preliminary report released Monday.

Doug Ringler, citing a memo issued last month by the U.S. Environmental Protection Agency, concluded that the Michigan Department of Environmental Quality erred in not requiring the city to

immediately combat corrosion when it switched from Detroit's system to the Flint River in April 2014 in a cost-cutting move while under state financial management. State officials interpreted federal rules to mean Flint could make the transition and then test the new water for lead over two six-month intervals to determine potential corrosion treatment.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Emergency management to increase outreach in 2016

Lenconnect, December 29, 2015

ADRIAN - An increased number of mass shootings and natural disasters across the United States has put a greater demand on Lenawee County Emergency Management Coordinator Curtis Parsons' time on a local level.

From area manufacturing plants and public service buildings to schools, Parsons has found himself addressing staff and administrators on increased awareness of disaster events. He said people are constantly reminded of the ever-evolving need to stay informed with the newest information in the wake of mass shootings across the United States to a tornado outbreak across southern states last week.

New York City ramps up security for New Year's Eve celebration

Reuters, December 29, 2015

A six-ton crystal ball is ready to be lowered above New York City, colorful paper has been ground into confetti that will rain on Times Square and about 6,000 police officers will guard revelers on New Year's Eve at one of the city's highest-profile events.

"We are ready," Mayor Bill de Blasio told a news conference on Tuesday. "We are the best prepared city in the country, the best prepared city to prevent terrorism and to deal with any event that could occur."

An estimated one million people are expected in the vicinity of One Times Square on Thursday for the New Year's Eve dropping of the ball, a tradition begun in 1907 and broken only during wartime blackouts.

MICHIGAN WINTER STORM

Some Michigan families still without power

13 ABC, December 29, 2015

LENAWEE CO (13abc Action News) - Homes all across Michigan are still without power. In Lenawee County, restoration efforts are underway.

"They've made significant progress in restoration of services," Curtis Parsons, Lenawee County Emergency Management coordinator said.

He says the numbers have dropped in a big way. At it's peak there were about 3,000 outages. By Tuesday morning, that number was more like 2,700 and by the evening it was down to about 100. But for some, Wednesday at 4 p.m. is the estimated time of restoration.

Consumers Energy: Hundreds still without power

WZZM 13, December 29, 2015

GRAND RAPIDS, Mich. (WZZM) – Several hundred people are in the dark Tuesday afternoon after a winter storm pushed through West Michigan.

Power outages on Consumers Energy's outage map started popping up on Monday afternoon. Users can use that map to check out outage information for their area, including an estimate on when power could be restored.

Customers can report an outage to the utility by calling 1-800-477-5050 or online at consumersenergy.com/outagecenter.

Michigan restoration, cleanup follows storm

Lenconnect, December 29, 2015

A day of clear weather helped crews clear roads and restore power to thousands of Lenawee County customers knocked offline by a storm Monday afternoon and night.

At its peak early Tuesday morning, more than 3,000 Lenawee County customers were without power due to freezing rain, strong winds and a little snow. Lenawee County Airport reported wins of 25 mph and gusts of 36 during Monday afternoon.

Some property damaged noted in lakeshore homes from Lake Erie's fury

Monroe News, December 29, 2015

While Monday's winter storm resulted in snow and dangerous ice conditions in much of Lower Michigan, the impact in Monroe County was mostly property damage on the Lake Erie shoreline in addition to street flooding at the height of the storm.

Monroe County measured 1.2 inches of rain from the storm at the Dundee Wastewater Treatment Plant

"We had more rain, thank goodness," said Susan Martinez, emergency management specialist with the Monroe County Office of Emergency Management, of the lack of ice and rain. "We were very fortunate."

MICHIGAN POLITICS

Flint City Councilman Joshua Freeman resigns

ABC 12, December 29, 2015

FLINT (WJRT) - (12/29/15) - Flint City Councilman Joshua Freeman announced Tuesday he will no longer represent the city's fourth ward.

Freeman's resignation officially takes place at midnight on Dec. 31.

Since taking office five years ago, Freeman says he has lived separate from his wife and children, who live and go to school in Davison.

Freeman has lived at his Flint home and says it's been a strain on his family.

Voter access could be an issue in 2016

Michigan Radio, December 28, 2015

There's a push in Congress to reverse some efforts to limit voter access to the polls.

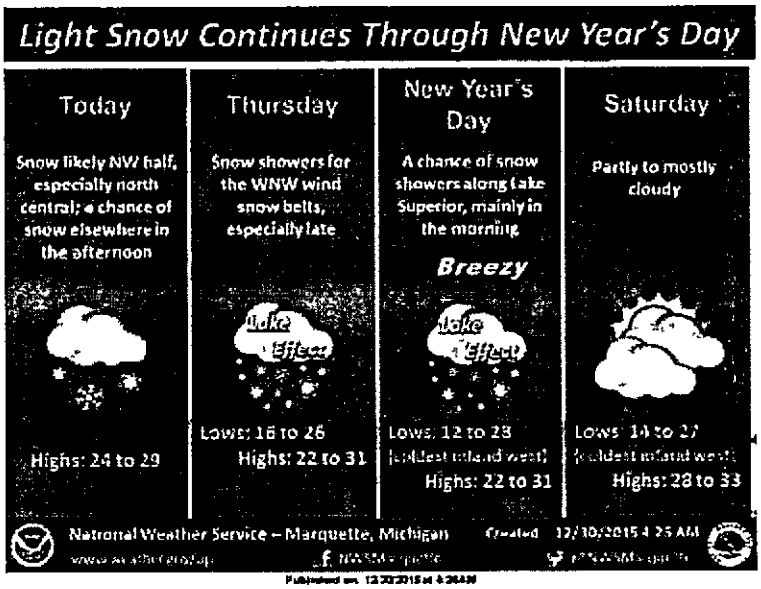
Michigan and other states have taken steps to limit early voting options and access to absentee ballots.

U.S. Senator Gary Peters (D-MI) says Congress should take steps to protect voter access.

"We should be in the process where everybody, no matter who you are, no matter where you live, has the ability to exercise the most fundamental right we have as an American citizen and that's the ability to vote," says Peters.

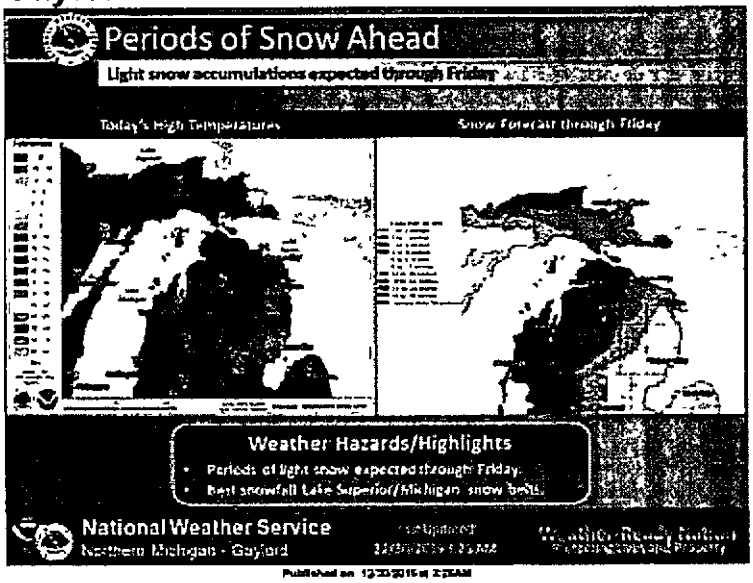
NATIONAL WEATHER SERVICE FORECASTS

Marquette



Quiet weather is expected across Upper Michigan as the calendar changes to 2016. Outside of light lake effect and a light dusting of snow this afternoon, little to no precipitation is forecast into the weekend.

Gaylord

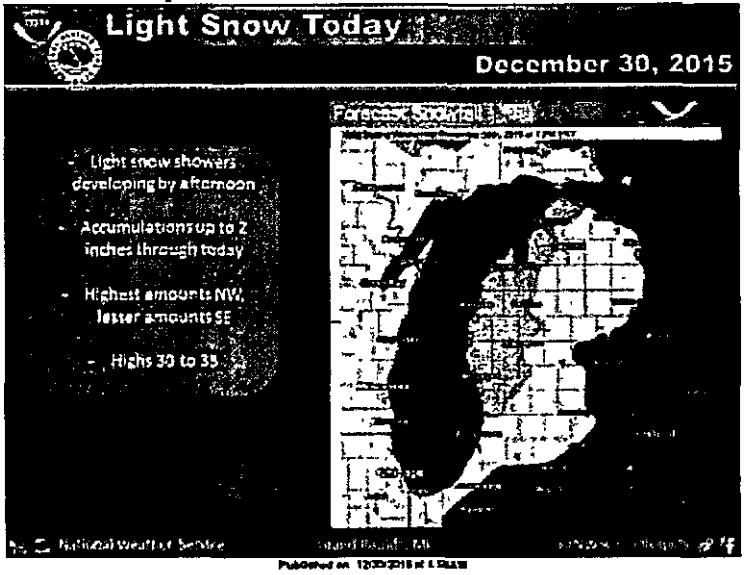


Periods of snow expected across northern Michigan through Friday ..with the lake snow belts downwind of Lake Superior and Lake Michigan seeing the majority of the snowfall through the end of the week.

Detroit

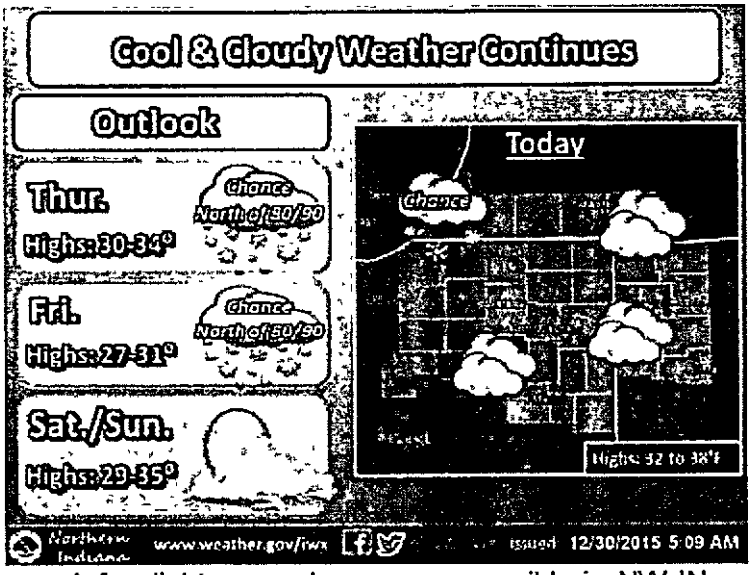
A fast moving upper level disturbance will bring some snow showers and flurries to the area today. The weak nature of this system will support little if any snow accumulations. Colder air will funnel into the region tonight in the wake of this system. While this air mass will be colder than that of the past few weeks, temperatures for New Year's will actually be near normal for this time of year.

Grand Rapids



Light snow will develop by afternoon. Accumulations of up to 2 inches expected, highest NW. Highs 30-35.

Northern Indiana



A few light snow showers are possible in NW IN and SW MI today but little to no accumulation is expected. Highs will be in the mid to upper 30s under cloudy skies Light lake effect snow showers will then be possible north of the toll road from tonight through Friday but any accumulation will be light (an inch or less.) Seasonable temperatures and clearing skies for the weekend.

Talking Points

Flint Water Issue

NOT INTENDED TO BE DISSEMINATED
TO THE MEDIA OR PUBLIC IN THIS FORMAT

Background

- In April 2014, the city of Flint moved from purchasing water from the Detroit Water and Sewer Department and began processing Flint River water. Several local and state issues surfaced and about the quality of the processed river water, including high lead levels caused by the water's corrosiveness. This caused state and local officials to go back to purchasing water from the Detroit Water and Sewer Department.
    - Water and health experts have found that the high lead levels were caused by corrosive water leaching lead particles from older water services lines. Since the initial water switch, children have been .
- On Oct. 1, 2015, the Genesee County declared a "Public Health Emergency."
- On Oct. 15, 2015, Gov. Rick Snyder signed a bill (Public Act 143 of 2015) to direct funding to the city of Flint's emergency water services to reconnect the city's water supply to the Great Lakes Water Authority until the Karegnondi Water Authority pipeline is completed.
- *In addition to the $6 million appropriated to reconnect Flint to the Detroit Water and* Sewer System:
    - $300,000 goes to the Department of Environmental Quality's drinking water and environmental health service;
    - $1 million to provide for DEQ to test drinking water samples;
    - $1 million to enable the Department of Health and Human Services to purchase and distribute water filters to Flint residents;
    - $850,000 will aid in follow-up services for Children, including testing, investigations, and case management for those with elevated blood levels;
    - $200,000 will fund state plumbing inspections for schools and health facilities.
    - **NOTE:** To reconnect the city of Flint to Detroit water, the city provided $2 million the Charles Stewart Mott Foundation committed $4 million and the state of Michigan provided $6 million.
    - **OVERALL TOTAL:** State: $9.35 million; Local/private nonprofit: $6 million
- Dr. Karen Weaver, the new Flint Mayor, revealed her 100-day plan on Dec. 1, 2015. She is calling for a federal disaster declaration so the community can pursue federal assistance to help Flint residents during this crisis. She is working with state legislators and Congressman Dan Kildee.

- Dr. Marc Edwards, the Virginia Tech professor who has been studying Flint water issues, was recently in Flint talking about his findings. Edwards said recent samples of the water show dramatic drops in lead levels (after the switch back to Detroit water), but some homes are still showing very high levels. He said the water is still not safe to drink, adding that it may still take months to get below the safe federal standard.

- On Dec. 14, Flint Mayor Karen Weaver declared a "local state of emergency" and called for a Genesee County to declare a "local state of emergency" to support her declaration.

- On Dec. 15, The Flint Journal reported that Genesee County Board of Commissioners Chairman Jamie Curtis will hold a hearing about Flint declaration request at a meeting on Jan. 4, 2016. The Journal reported that he supported Flint's assistance request, but the city needed to follow administrative procedures. He compared the request to applying for a grant.

Disaster Declaration Sought by Local Officials

- The water situation in the city of Flint is a terrible situation for everyone involved. Every day, we expect clean and safe water to come from our taps. Steps have been taken by both state and local officials to ensure citizens have safe water at their homes.

- To date, federal, state and local government and many private nonprofit organizations have provided money, filters or staff expertise to ensure Flint residents have clean and drinkable water. Through a whole community approach, everyone is working together to bring Flint back to a state of normalcy. But remember: Normalcy won't happen overnight.

- The Michigan State Police, Emergency Management and Homeland Security Division continues to support the Genesee County Emergency Management officials and the city of Flint. We have a state police district coordinator who has been engaged with local emergency management officials since the beginning of this public health emergency.

    - **IF NEEDED CLARIFICATION:** Local emergency management officials are NOT the same as emergency financial managers. Please keep this in mind.

- The Michigan State Police is working with county and city officials to see how we can continue to assist Flint residents.

    - For example, we recently put area nonprofits in touch with FEMA so they can obtain water. FEMA updates its water inventory regularly and provides nonprofits about to expire water free of charge They are only liable to shipping costs.

What is a local state of emergency?

- The chief executive official of a community, like a mayor or county board chair, can declare a "local state of emergency" during an emergency or disaster. A local declaration enables a community to activate its emergency operations plans and administer local aid and assistance. Directives may be issued too.

- A local emergency declaration is not an automatic call for state or federal assistance. It is a mechanism to cope with an emergency or disaster. It's a red flag, notifying everyone that there's a problem within the community.

- A local declaration typically complements the activation of a county or municipality's emergency operations center and public information operations.

Why does Flint depend on Genesee County for emergency declarations?

- The city of Flint has opted to be incorporated into the Genesee County Emergency Management program. The city has an emergency support plan that complements Genesee County's emergency operations plan.

- When the city of Flint exhausts its resources during an incident, they may call upon Genesee County for resources. It's a mutual agreement where both help each other out when it's needed most.

- The city of Flint's Fire Chief and Genesee County's Emergency Management Coordinator, which is the Sheriff and his designees, are designated as the emergency management officials to manage an emergency situation.

What is a Governor's declaration?

- When a designated Michigan Emergency Management Act program **exhausts** its resources during an emergency or disaster, they may request specific resources form the state of Michigan. Resources include contracts, equipment, staff, etc.

- All requests are submitted to the Michigan State Police, Emergency Management and Homeland Security Division, which provides a recommendation to the Governor's Office. The Governor may approve or deny the request.

- If an approval is given, the Governor will declare a "state of emergency" or "state of disaster."

Is a federal disaster declaration possible?

- A federal disaster declaration is not easy to pursue with weather-related disasters. We have to manage expectations that this situation is unlikely to be eligible for federal disaster assistance through FEMA.

    - In 2014, Wisconsin Gov. Scott Walker requested a federal major disaster declaration due to a deep freeze that damaged millions of dollars in public infrastructure The declaration was denied. His appeal was also denied.

        - The disaster declaration was denied based on the determination that federal assistance under the federal law (Stafford Act) was not necessary or appropriate under the circumstances.

        - Federal law and regulations outline a major disaster as being any natural catastrophe, any fire, flood or explosion.

    - On Jan. 10, 2014, President Obama declared an emergency existed in West Virginia after chemicals were spilled into the Elk River and affecting the water supply close to 300,000 residents.

- An emergency declaration provides relief efforts that have the purpose of alleviating the hardship and suffering caused by the emergency on the local population, or to lessen or avert the threat of a catastrophe.

- There is a $5,000,000 cap in federal assistance for an emergency.

- West Virginia later tried to obtain a presidential major disaster declaration, but was denied. FEMA said incident failed to meet the definition of a disaster.

IF ASKED: Why has the state not declared a disaster?

- The Michigan State Police, Emergency Management and Homeland Security Division has been engaged since this emerged as an emergency issue. We have been working with Genesee County officials throughout this process. At this time, the county has not requested assistance through the Michigan Emergency Management Act.

    - The city of Flint's emergency management program is a part of Genesee County's program. All requests for federal assistance should be channeled through the Genesee County Emergency Management Coordinator.

    - To date, a thorough damage assessment has not been conducted by city of Flint and Genesee County officials. Also, no specific resources have been requested.

- Because infrastructure issues are unlikely to be declared disasters through the Stafford Act, other options must be examined for assistance, like through the U.S. Department of Housing and Urban Development (Community Development Block Grants), the Center for Disease Control and Prevention, the Environmental Protection Agency, or legislative action.

December 2015

Frequently Asked Questions

Flint Water and Emergency/Disaster Declarations

What is a local state of emergency?

- The chief executive official of a community, like a mayor or county board chair, can declare a "local state of emergency" during an emergency or disaster. A local declaration enables a community to activate its emergency operations plans and administer local aid and assistance. Directives may be issued too.

- A local emergency declaration is not an automatic call for state or federal assistance. A local declaration is a mechanism to cope with an emergency or disaster. It's a red flag, notifying everyone that there's a problem within the community.

- A local declaration typically complements the activation of a county's or a municipality's emergency operations center and public information operations.

Why does Flint depend on Genesee County for emergency declarations?

- The city of Flint has opted to be incorporated into the Genesee County Emergency Management program. The city has an emergency support plan that complements Genesee County's emergency operations plan.

- When the city of Flint exhausts its resources during an incident, they may call upon Genesee County for resources. It's a mutual agreement where both help each other out when it's needed most.

- The city of Flint's Fire Chief and Genesee County's Emergency Management Coordinator, which is the Sheriff and his designees, are designated as the officials to manage an emergency situation.

What is a Governor's declaration?

- When a designated Michigan Emergency Management Act program **exhausts** its resources during an emergency or disaster, they may request specific resources from the state of Michigan. Resources include contracts, equipment and personnel.

- All requests are submitted to the Michigan State Police, Emergency Management and Homeland Security Division, which provides a recommendation to the Governor's Office. The Governor may approve or deny the request.

- If a request is approved, the Governor will declare a "state of emergency" or "state of disaster."

What state resources are available under a Governor's declaration?

- The Governor may provide state resources, like contracts, equipment and personnel, to support and assist during the emergency or disaster.

- For the situation in Flint, state resources have been already deployed outside of a disaster declaration. For example, the Michigan State Legislature provided more than $9.35 million to lessen the threat of a catastrophe by reconnecting the city water to the Detroit Water and Sewer System. This total also includes lead testing, case management for children with elevated blood levels, and filters.

What is a Presidential declaration?

- When a state exhausts its resources during an emergency or disaster, a Governor may request assistance through the Stafford Act. Requests are submitted to the President through the Federal Emergency Management Agency's Region V Office in Chicago.

- FEMA reviews all requests and provides a recommendation to the President. Ultimately, the President decides whether to make an emergency or major disaster declaration.

Is a Presidential declaration possible?

- A Presidential declaration is not easy to pursue during emergencies or disasters. A case has to be made to prove the incident is outside the scope of both local and state response and recovery efforts.

- A Presidential major disaster declaration provides long-term recovery resources after an emergency or disaster. Federal law and regulations define a major disaster as being any natural catastrophe, any fire, flood or explosion.

- A Presidential emergency declaration provides supplemental aide during an incident. Federal law outlines an emergency where federal assistance is needed to supplement state and local efforts and capabilities to save lives and to protect public health and safety, or to lessen or avert the threat of a catastrophe. There is a $5,000,000 cap in federal assistance.

Why hasn't the Governor declared an emergency or disaster?

- The Michigan State Police, Emergency Management and Homeland Security Division has been engaged since this emerged as an emergency issue. The agency has been working with Genesee County officials throughout this process. At this time, the county has not requested specific resources through the Michigan Emergency Management Act.

    - The city of Flint's emergency management program is a part of Genesee County's program. All requests for state assistance must be channeled through the Genesee County Emergency Management Coordinator.

    - To date, a thorough damage assessment has not been conducted by city of Flint and Genesee County officials. Also, no specific resources have been requested. We must know what is needed to provide the correct recommendations.

    - Through other processes, the state has been providing aid and assistance.

- Because infrastructure issues are unlikely to be declared disasters through the Stafford Act, other options must be examined for assistance, like through the U.S. Department of Housing and Urban Development (Community Development Block Grants), the Center for Disease Control and Prevention, the Environmental Protection Agency, or legislative action.

- In addition to the $6 million appropriated by the Michigan State Legislature to reconnect Flint to the Detroit Water and Sewer System, the following has also been provided:

    - $300,000 to the Department of Environmental Quality's drinking water and environmental health service;
    - $1 million to provide for DEQ to test drinking water samples;
    - $1 million to enable the Department of Health and Human Services to purchase and distribute water filters to Flint residents;
    - $850,000 will aid in follow-up services for children, including testing, investigations, and case management for those with elevated blood levels; and
    - $200,000 will fund state plumbing inspections for schools and health facilities.
    - **NOTE:** To reconnect the city of Flint to Detroit water, the city provided $2 million the Charles Stewart Mott Foundation committed $4 million and the state of Michigan provided $6 million.
    - **OVERALL TOTAL:** State: $9.35 million; Local/private nonprofit: $6 million.

Are water service lines eligible for disaster assistance?

- Water service lines are those water lines that go from the water main to the house. Different communities have defined this differently. If a water service line is the responsibility of the homeowner and on private property, then he or she is responsible for replacing it.

- Private property lead water services lines are not considered eligible expenses under the Michigan Emergency Management Act and Stafford Act

Dec. 16, 2015

Talking Points

Flint Water Issue

NOT INTENDED TO BE DISSEMINATED TO THE MEDIA OR PUBLIC IN THIS FORMAT

Background

- In April 2014, the city of Flint moved from purchasing water from the Detroit Water and Sewer Department and began processing Flint River water. Several local and state issues surfaced and about the quality of the processed river water, including high lead levels caused by the water's corrosiveness. This caused state and local officials to go back to purchasing water from the Detroit Water and Sewer Department.
    - Water and health experts have found that the high lead levels were caused by corrosive water leaching lead particles from older water services lines. Since the initial water switch, children have been
- On Oct. 1, 2015, the Genesee County declared a "Public Health Emergency."
- On Oct. 15, 2015, Gov. Rick Snyder signed a bill (Public Act 143 of 2015) to direct funding to the city of Flint's emergency water services to reconnect the city's water supply to the Great Lakes Water Authority until the Karegnondi Water Authority pipeline is completed.
- In addition to the $6 million appropriated to reconnect Flint to the Detroit Water and Sewer System:
    - $300,000 goes to the Department of Environmental Quality's drinking water and environmental health service;
    - $1 million to provide for DEQ to test drinking water samples;
    - $1 million to enable the Department of Health and Human Services to purchase and distribute water filters to Flint residents;
    - $850,000 will aid in follow-up services for Children, including testing, investigations, and case management for those with elevated blood levels;
    - $200,000 will fund state plumbing inspections for schools and health facilities.
    - **NOTE:** To reconnect the city of Flint to Detroit water, the city provided $2 million the Charles Stewart Mott Foundation committed $4 million and the state of Michigan provided $6 million.
    - **OVERALL TOTAL:** State: $9.35 million; Local/private nonprofit: $6 million
- Dr. Karen Weaver, the new Flint Mayor, revealed her 100-day plan on Dec. 1, 2015. She is calling for a federal disaster declaration so the community can pursue federal assistance to help Flint residents during this crisis. She is working with state legislators and Congressman Dan Kildee.

- Dr. Marc Edwards, the Virginia Tech professor who has been studying Flint water issues, was recently in Flint talking about his findings. Edwards said recent samples of the water show dramatic drops in lead levels (after the switch back to Detroit water), but some homes are still showing very high levels. He said the water is still not safe to drink, adding that it may still take months to get below the safe federal standard.

- On Dec. 14, Flint Mayor Karen Weaver declared a "local state of emergency" and called for a Genesee County to declare a "local state of emergency" to support her declaration.

- On Dec. 15, The Flint Journal reported that Genesee County Board of Commissioners Chairman Jamie Curtis will hold a hearing about Flint declaration request at a meeting on Jan. 4, 2016. The Journal reported that he supported Flint's assistance request, but the city needed to follow administrative procedures. He compared the request to applying for a grant.

Disaster Declaration Sought by Local Officials

- The water situation in the city of Flint is a terrible situation for everyone involved. Every day, we expect clean and safe water to come from our taps. Steps have been taken by both state and local officials to ensure citizens have safe water at their homes.

- To date, federal, state and local government and many private nonprofit organizations have provided money, filters or staff expertise to ensure Flint residents have clean and drinkable water. Through a whole community approach, everyone is working together to bring Flint back to a state of normalcy. But remember: Normalcy won't happen overnight.

- The Michigan State Police, Emergency Management and Homeland Security Division continues to support the Genesee County Emergency Management officials and the city of Flint. We have a state police district coordinator who has been engaged with local emergency management officials since the beginning of this public health emergency.

    - **IF NEEDED CLARIFICATION:** Local emergency management officials are NOT the same as emergency financial managers. Please keep this in mind.

- The Michigan State Police is working with county and city officials to see how we can *continue to assist Flint residents.*

    - For example, we recently put area nonprofits in touch with FEMA so they can obtain water. FEMA updates its water inventory regularly and provides nonprofits about to expire water free of charge. They are only liable to shipping costs.

What is a local state of emergency?

- The chief executive official of a community, like a mayor or county board chair, can declare a "local state of emergency" during an emergency or disaster. A local declaration enables a community to activate its emergency operations plans and administer local aid and assistance. Directives may be issued too.

- A local emergency declaration is not an automatic call for state or federal assistance. It is a mechanism to cope with an emergency or disaster. It's a red flag, notifying everyone that there's a problem within the community.

- A local declaration typically complements the activation of a county or municipality's emergency operations center and public information operations.

Why does Flint depend on Genesee County for emergency declarations?

- The city of Flint has opted to be incorporated into the Genesee County Emergency Management program. The city has an emergency support plan that complements Genesee County's emergency operations plan.

- When the city of Flint exhausts its resources during an incident, they may call upon Genesee County for resources. It's a mutual agreement where both help each other out when it's needed most.

- The city of Flint's Fire Chief and Genesee County's Emergency Management Coordinator, which is the Sheriff and his designees, are designated as the emergency management officials to manage an emergency situation.

What is a Governor's declaration?

- When a designated Michigan Emergency Management Act program **exhausts** its resources during an emergency or disaster, they may request specific resources form the state of Michigan. Resources include contracts, equipment, staff, etc.

- All requests are submitted to the Michigan State Police, Emergency Management and Homeland Security Division, which provides a recommendation to the Governor's Office. The Governor may approve or deny the request.

- If an approval is given, the Governor will declare a "state of emergency" or "state of disaster."

Is a federal disaster declaration possible?

- A federal disaster declaration is not easy to pursue with weather-related disasters. We have to manage expectations that this situation is unlikely to be eligible for federal disaster assistance through FEMA.

    - In 2014, Wisconsin Gov. Scott Walker requested a federal major disaster declaration due to a deep freeze that damaged millions of dollars in public infrastructure. The declaration was denied. His appeal was also denied.

        - The disaster declaration was denied based on the determination that federal assistance under the federal law (Stafford Act) was not necessary or appropriate under the circumstances.

        - Federal law and regulations outline a major disaster as being any natural catastrophe, any fire, flood or explosion.

    - On Jan. 10, 2014, President Obama declared an emergency existed in West Virginia after chemicals were spilled into the Elk River and affecting the water supply close to 300,000 residents.

- An emergency declaration provides relief efforts that have the purpose of alleviating the hardship and suffering caused by the emergency on the local population, or to lessen or avert the threat of a catastrophe.

- There is a $5,000,000 cap in federal assistance for an emergency.

- West Virginia later tried to obtain a presidential major disaster declaration, but was denied. FEMA said incident failed to meet the definition of a disaster.

IF ASKED: Why has the state not declared a disaster?

- The Michigan State Police, Emergency Management and Homeland Security Division has been engaged since this emerged as an emergency issue. We have been working with Genesee County officials throughout this process. At this time, the county has not requested assistance through the Michigan Emergency Management Act.

    - The city of Flint's emergency management program is a part of Genesee County's program. All requests for federal assistance should be channeled through the Genesee County Emergency Management Coordinator.

    - To date, a thorough damage assessment has not been conducted by city of Flint and Genesee County officials. Also, no specific resources have been requested.

- Because infrastructure issues are unlikely to be declared disasters through the Stafford Act, other options must be examined for assistance, like through the U.S. Department of Housing and Urban Development (Community Development Block Grants), the Center for Disease Control and Prevention, the Environmental Protection Agency, or legislative action.

I write to appeal your January 22, 2016 denial of my request that the emergency declaration FEMA-3375-EM be modified to provide federal assistance for Category B emergency protective measures for the City of Flint affected by the water contamination incident. Respectfully I disagree with the determination that the event was not of such severity and magnitude to warrant further public assistance for the reasons expressed herein. The chemical spill, which affected the water supply of 29,444 customers, was unprecedented, and the impact of the spill has been continuous.

The President recognized the significance of this event when he granted my request for an emergency declaration. Federal Emergency Management Agency (FEMA) officials designated the type of assistance granted to us as Public Assistance Category B, "Emergency Protective Measures", limited to direct federal assistance. The far-reaching impact of this event was beyond our initial expectations when I requested, in consultation with FEMA officials, assistance to combat this incident.

In the weeks since the declaration for this event of national significance, we have responded in true partnership. At my request, FEMA supplied bottled water, water filters, replacement cartridges, and water test kits for the state and our partners to distribute to citizens in need. In this incident the community has come together, especially the voluntary agencies, to quickly and generously respond with donations of water, water resources, and time.

As the urgency of the situation eased, it became clear certain ongoing aspects of the emergency would continue to demand public assistance. The state and local agencies, including the affected counties and the West Virginia Department of Environmental Protection continue to incur costs. The Centers for Disease Control (CDC) issued statements regarding safe levels of the chemicals involved in the spill, and the tests were necessary to ensure the water was meeting those standards. Even after flushing procedures were implemented, there were surges in chemical presence in various areas, requiring more testing. Because of the strong odor of the chemical, the water was objectionable long after the spill was contained. Accordingly, testing continued, and still continues, at significant expense to the state and local agencies. This testing was necessary to lessen the immediate threats to public health and safety posed by the mass exposure to a relatively unknown chemical. Additionally, I approved the engagement of independent environmental consultants to confirm the health screening standards of the chemical, and to develop a home testing protocol to account for adverse variables in homes that could increase harmful effects of the chemical. The CDC provided useful guidance on the safe levels of the chemical, and the public requires assurances that these levels are being met. Thorough information about the consequences of the spill in home water systems is essential to addressing this threat. Finally, I ordered the demolition of the facility that stored the chemicals involved in the spill, which is necessary to reduce the likelihood of the chemical leaching into the river. This is an expensive and precise process in light of the environmental concerns associated with hazardous sites.

I strongly urge you to reconsider your denial of the continuance of West Virginia's partnership with FEMA on this disaster. The expenses incurred by the state and local agencies after federal assistance ended were necessary and responsible. Since the attack on September 11, 2001, the protection of our country's water supply has been an issue of targeted concern and national discussion. Our ongoing response to the spill, continuous studies, and test results will serve as future guidance not only for exposure to specific chemicals involved in the spill, but for any water system contamination in the nation. The work we are funding will fill a void in the scientific and public health knowledge base with much needed information. West Virginia and its subdivisions lack the resources to cover 100 percent of the costs expended to eliminate the threats to public safety caused by the chemical spill. Collecting costs from the company responsible for the spill is unlikely, considering the company's bankruptcy posture.

The results of our evaluation of the direct and indirect costs of this event are attached. These costs are documented, and we have attempted to be conservative in our estimated regarding eligible

reimbursement costs under Category B of the Public Assistance program. At this time, estimated losses to the economy of the affected county are estimated at $XX,XXX,XXX. The total economic impact will likely be greater.

- The sectors of the economy primarily affected included restraint and hotel businesses that were forced to close until alternate sources of potable water could be provided. Many employees of these businesses earn low wages, and, in the case of restraint servers, depend on tips to make a living wage. In an effort to support those who lost income due to this event, the United Way collected and distributed over $112,000 in assistance to more than 600 families to help them pay utility bills.
- Businesses that temporarily closed due to the lack of potable water showed remarkable determination to reopen as soon as possible, and incurred additional costs in order to meet the standards set by the health officials to reopen using alternate water sources. To this day many businesses, especially those serving food, are incurring additional costs to provide assurances to their customers that no tap water is being used in the food preparation or cleansing of the silverware, plates, or glasses. The losses were severe enough to warrant a Small Business Administration (SBA) Economic Injury Disaster Loan Program for the affected area, but this support traditionally covers only a small portion of the total businesses in the disaster area.
- Hospitals and medical care facilities had to cancel elective and non-emergency services. Nursing homes and other long-term care facilities had to develop alternatives to caring for their patients, and local health departments were faced with a considerable increase in responsibilities and workload.
- The education community was also impacted by the water outage. While this unusually harsh winter caused students to miss several instructional days, this event caused schools in the affected areas to close for no less than a week, and in some cases, longer. Genesee County estimate they have lost over $X,XXX,XXX in instructional time because of the water outage.

The response to this disaster was a community effort. With your supplemental assistance we responded, and continue to respond to each new aspect of the event as it arises.

The attached "EM-3375-Category B Assessment-as of X/X/XX" was developed with guidance from experienced FEMA Public Assistance staff that scrutinized the data provided by state and local agencies to determine the eligible costs for Stafford Act Public Assistance. Their conclusions are based on a much more careful analysis of the provided information than is normally done during a Preliminary Damage Assessment process, and the figures may be exceeded when actual Project Worksheets are developed. Their estimate of more than $X,XXX,XXX in probable eligible Public Assistance Costs plus the over $5,000,000 cost of direct federal assistance means the Category B expenditures in our joint response to this Event of National Significance were over $6,500,000. This is more than double our Public Assistance impact indicator for a Major Disaster Declaration of $X,XXX,XXX.XX.

The financial impact of this event is significant and widespread. The estimated $XX,XXX,XXX economic loss noted above added to the total impact noted on the attachment exceeds $XX,XXX,XXX. This figure does not include our ongoing study, on which we will spend over $XXX,XXX, and the continued response to this event. It also does not include the donations the United Way noted above which add another $XXX,XXX to the total. The total estimated costs and losses are equal to a $XXX per capita impact on the XXX,XXX people directly affected by this crisis.

I understand your agency's original decision to limit the Public Assistance Category B to direct federal assistance. However, as subsequent events have demonstrated, this was a true emergency that demanded the best efforts of the entire community to protect public health and safety. The key role of state and local

agencies in our response is essentially ignored unless they can be reimbursed for their part in responding to this crisis.

Thank you for your consideration and your attention in this matter. Any questions regarding this appeal or requests for additional documentation should be directed to XX.XXXX X. XXXXXX whom I have appointed as State Coordinating Officer for this disaster recovery operation.

Their conclusions are based on a much more careful analysis of the provided information than is normally done during a Preliminary Damage Assessment process, and the figures may be exceeded when actual Project Worksheets are developed. Their estimate of more than $X,XXX,XXX in probable eligible Public Assistance Costs plus the over $5,000,000 cost of direct federal assistance means the Category B expenditures in our joint response to this Event of National Significance were over $6,500,000. This is more than double our Public Assistance impact indicator for a Major Disaster Declaration of $X,XXX,XXX.XX.

The financial impact of this event is significant and widespread. The estimated $XX,XXX,XXX economic loss noted above added to the total impact noted on the attachment exceeds $XX,XXX,XXX. This figure does not include our ongoing study, on which we will spend over $XXX,XXX, and the continued response to this event. It also does not include the donations the United Way noted above which add another $XXX,XXX to the total. The total estimated costs and losses are equal to a $XXX per capita impact on the XXX,XXX people directly affected by this crisis.

I understand your agency's original decision to limit the Public Assistance Category B to direct federal assistance. However, as subsequent events have demonstrated, this was a true emergency that demanded the best efforts of the entire community to protect public health and safety. The key role of state and local

agencies in our response is essentially ignored unless they can be reimbursed for their part in responding to this crisis.

Thank you for your consideration and your attention in this matter. Any questions regarding this appeal or requests for additional documentation should be directed to XX.XXXX X. XXXXXX whom I have appointed as State Coordinating Officer for this disaster recovery operation.

Frequently Asked Questions

Flint Water and Emergency/Disaster Declarations

What is a local state of emergency?

- The chief executive official of a community, like a mayor or county board chair, can declare a "local state of emergency" during an emergency or disaster. A local declaration enables a community to activate its emergency operations plans and administer local aid and assistance. Directives may be issued too.

- A local emergency declaration is not an automatic call for state or federal assistance. A local declaration is a mechanism to cope with an emergency or disaster. It's a red flag, notifying everyone that there's a problem within the community.

- A local declaration typically complements the activation of a county's or a municipality's emergency operations center and public information operations.

Why does Flint depend on Genesee County for emergency declarations?

- The city of Flint has opted to be incorporated into the Genesee County Emergency Management program. The city has an emergency support plan that complements Genesee County's emergency operations plan.

- When the city of Flint exhausts its resources during an incident, they may call upon Genesee County for resources. It's a mutual agreement where both help each other out when it's needed most.

- The city of Flint's Fire Chief and Genesee County's Emergency Management Coordinator, which is the Sheriff and his designees, are designated as the officials to manage an emergency situation.

What is a Governor's declaration?

- When a designated Michigan Emergency Management Act program **exhausts** its resources during an emergency or disaster, they may request specific resources from the state of Michigan. Resources include contracts, equipment and personnel.

- All requests are submitted to the Michigan State Police, Emergency Management and Homeland Security Division, which provides a recommendation to the Governor's Office. The Governor may approve or deny the request.

- If a request is approved, the Governor will declare a "state of emergency" or "state of disaster."

What state resources are available under a Governor's declaration?

- The Governor may provide state resources, like contracts, equipment and personnel, to support and assist during the emergency or disaster.

- For the situation in Flint, state resources have been already deployed outside of a disaster declaration. For example, the Michigan State Legislature provided more than $9.35 million to lessen the threat of a catastrophe by reconnecting the city water to the Detroit Water and Sewer System. This total also includes lead testing, case management for children with elevated blood levels, and filters.

What is a Presidential declaration?

- When a state exhausts its resources during an emergency or disaster, a Governor may request assistance through the Stafford Act. Requests are submitted to the President through the Federal Emergency Management Agency's Region V Office in Chicago.

- FEMA reviews all requests and provides a recommendation to the President. Ultimately, the President decides whether to make an emergency or major disaster declaration

Is a Presidential declaration possible?

- A Presidential declaration is not easy to pursue during emergencies or disasters. A case has to be made to prove the incident is outside the scope of both local and state response and recovery efforts.

- A Presidential major disaster declaration provides long-term recovery resources after an emergency or disaster. Federal law and regulations define a major disaster as being any natural catastrophe, any fire, flood or explosion.

- A Presidential emergency declaration provides supplemental aide during an incident. Federal law outlines an emergency where federal assistance is needed to supplement state and local efforts and capabilities to save lives and to protect public health and safety, or to lessen or avert the threat of a catastrophe. There is a $5,000,000 cap in federal assistance.

Why hasn't the Governor declared an emergency or disaster?

- The Michigan State Police, Emergency Management and Homeland Security Division has been engaged since this emerged as an emergency issue. The agency has been working with Genesee County officials throughout this process At this time, the county has not requested specific resources through the Michigan Emergency Management Act.

    - The city of Flint's emergency management program is a part of Genesee County's program. All requests for state assistance must be channeled through the Genesee County Emergency Management Coordinator.

    - To date, a thorough damage assessment has not been conducted by city of Flint and Genesee County officials Also, no specific resources have been requested. We must know what is needed to provide the correct recommendations

    - Through other processes, the state has been providing aid and assistance.

- Because infrastructure issues are unlikely to be declared disasters through the Stafford Act, other options must be examined for assistance, like through the U.S. Department of Housing and Urban Development (Community Development Block Grants), the Center for Disease Control and Prevention, the Environmental Protection Agency, or legislative action.

- In addition to the $6 million appropriated by the Michigan State Legislature to reconnect Flint to the Detroit Water and Sewer System, the following has also been provided:

    - $300,000 to the Department of Environmental Quality's drinking water and environmental health service;
    - $1 million to provide for DEQ to test drinking water samples;
    - $1 million to enable the Department of Health and Human Services to purchase and distribute water filters to Flint residents;
    - $850,000 will aid in follow-up services for children, including testing, investigations, and case management for those with elevated blood levels; and
    - $200,000 will fund state plumbing inspections for schools and health facilities.
    - **NOTE:** To reconnect the city of Flint to Detroit water, the city provided $2 million the Charles Stewart Mott Foundation committed $4 million and the state of Michigan provided $6 million.
    - **OVERALL TOTAL:** State: $9.35 million; Local/private nonprofit: $6 million.

Are water service lines eligible for disaster assistance?

- Water service lines are those water lines that go from the water main to the house. Different communities have defined this differently. If a water service line is the responsibility of the homeowner and on private property, then he or she is responsible for replacing it.

- Private property lead water services lines are not considered eligible expenses under the Michigan Emergency Management Act and Stafford Act

January 4, 2016

TO: Commanding Officer - Emergency Management Division
Department of State Police; District #3
Emergency Management Division District Coordinator
Post #35 State Police Post Commander

On October 1, 2015 residents within the City of Flint, located within Genesee County, were exposed to toxic levels of lead resulting in an imminent danger to public health and safety caused by elevated lead levels in the public water distribution system due to utilizing the Flint River as a primary source of water without proper corrosion control treatment. As a result of this situation, the following conditions exist: lead toxicosis in City of Flint residents and accelerated deterioration of the City of Flint water distribution system.

Therefore, as Board of Commissioners Chairperson of Genesee County, in accordance with Section 10 of 1976 PA 390, as amended, I hereby declare that a "State of emergency" exists therein, that the response and recovery aspects of the emergency operations plan have been activated, and that local resources are being utilized to the fullest possible extent.

Authorized by: _____

Jamie Curtis, Board Chairperson

Ms. Elizabeth Zimmerman
Associate Administrator
Office of Response and Recovery
500 C Street, SW
Washington, DC 20472

Through: Mr Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL 60605

Dear Ms. Elizabeth Zimmerman,

I am submitting this letter of appeal to Associate Administrator for the Office of Response and Recovery Elizabeth Zimmerman's letter to me dated January 22, 2016. In that letter, she indicated that the State of Michigan has been denied in its request for the Individual and Households Program and reimbursement for emergency protective measures (Category B) under the Robert T. Stafford Disaster Relief and Emergency Assistance Act for contamination and damage to the public water system in the City of Flint. I respectfully submit this letter of appeal, in accordance with the provisions set forth in 44 CFR § 206.46, to request a reconsideration of that decision.

Respectfully, I appeal the determination that "additional Stafford Act assistance, beyond that which has been authorized under FEMA-3375-EM, is not appropriate for this event". Given the unique characteristics of this disaster pose an imminent and long-term threat to the citizens of Flint that warrants special consideration for the Individuals and Households Program and reimbursement under the Public Assistance program for Genesee County. This unique disaster poses imminent and long-term threat to the citizens of Flint and warrants special consideration for all categories of the Individual and Households Program, as well as reimbursement under the Public Assistance program in order to facilitate recovery.

Over the past 5 years FEMA has approved 55 emergency declarations for various events across the country and territories. Of the 55 declarations only 7 (including this declaration) have been for man-made events and of those only the West Virginia chemical spill is a close comparison to this event. In that incident they faced a similar instance where the tap water was contaminated and unusable. In that instance with similar conditions and interests they were granted Category B funding under the declaration to reimburse the costs incurred.

These impacts will contribute to years and potentially decades of health problems and economic loss as well as necessary repairs to infrastructure that neither the city, county, or state have the capacity to conduct. I feel a more narrow reading of this definition does not adequately reflect the intentions of our "all-hazards" approach to emergency management at the federal and state levels, if our primary mechanism for relief is read in a way that limits the hazards to which we can provide relief.

Given the gravity of the situation and ramifications for urban areas across the United States with pre-1987 constructed water distribution systems, I hope you will determine that providing assistance beyond "appropriate assistance for required emergency measures ..to save lives and to protect property and public health and safety" is warranted. As documented in my letter to you on January 14, 2016, the city of Flint has been devastated by job losses and associated economic decline.

While I greatly appreciate the emergency declaration and the assistance it provides for the city of Flint, I am disappointed that no other assistance is being offered or suggested, whether through Stafford Act measures or through programs of other federal agencies.

As additional support of this appeal, I offer the following information:

GENESEE COUNTY
FLINT WATER CRISIS COST SUMMARY
February 1, 2016

DEPARTMENT	COST INCURRED	DESCRIPTION
EQUALIZATION	$2,238.60	Build database and grid for private/public information for EOC working with GIS and Lt. Roach to assist with development of emergency action plan
INFORMATION TECHNOLGY	$8,484.41	Set-up network access/phones for Emergency Operations Center; provide ongoing IT support for EOC
BUILDING & GROUNDS	$3,457.68	Set-up EOC; pick-up and deliver water filters and water to Flint fire stations; clear snow at warehouse for semi-truck delivery of water
GEOGRAPHIC INFO SYSTEMS (GIS)	$6,850.03	Meetings with EOC personnel and Equalization; mapping data and communicating with all GIS partners; provide GIS maps as needed to assist with development of emergency action plan
SHERIFF DEPARTMENT	$387,650.03	Manning the EOC; distribute water, filters throughout the City of Flint
COMMUNITY ACTION RESOURCE DEPT	$29,362.40	Distribute water, filters throughout the City of Flint
HEALTH DEPARTMENT	$533,154.45	Ongoing activities 24/7 to deal with the crisis; meetings with State and City, preparation of emergency plan, extensive testing and screening both pre and post emergency declaration
TOTAL COSTS INCURRED	$971,197.60	

I write to appeal your January 22, 2016 denial of my request that the emergency declaration FEMA-3375-EM be modified to provide federal assistance for emergency protective measures for the City of Flint affected by the water contamination incident. Respectfully I disagree with the determination that the event was not of such severity and magnitude to warrant further public assistance for the reasons expressed herein. The chemical spill, which affected the water supply of XX,XXX customers was unprecedented, and the impact of the spill has been continuous.

The president of the United States recognized the significance of this event when he granted my request for an emergency declaration. Federal Emergency Management Agency (FEMA) officials designated the type of assistance granted to us as Public Assistance Category B, "Emergency Protective Measures", limited to direct federal assistance. No one could foresee the far-reaching impact of this event that first night when I requested, in consultation with FEMA officials, supplemental assistance to combat the crisis.

In the days and weeks following this event of national significance, we responded in true partnership. At my request, FEMA supplied water, and food to be distributed and delivered to citizens in need by state and local agencies, as well as volunteers. Communities came together, especially the Voluntary Organizations Active in Disasters, to quickly and generously respond with donations of water, food, other resources, and time.

As the urgency of the situation eased, it became clear certain ongoing aspects of the emergency would continue to demand public assistance. The state and local agencies, including the affected counties and the West Virginia Department of Environmental Protection continue to incur costs. The Centers for Disease Control (CDC) issued statements regarding safe levels of the chemicals involved in the spill, and the tests were necessary to ensure the water was meeting those standards. Even after flushing procedures were implemented, there were surges in chemical presence in various areas, requiring more testing. Because of the strong odor of the chemical, the water was objectionable long after the spill was

contained. Accordingly, testing continued, and still continues, at significant expense to the state and local agencies. This testing was necessary to lessen the immediate threats to public health and safety posed by the mass exposure to a relatively unknown chemical. Additionally, I approved the engagement of independent environmental consultants to confirm the health screening standards of the chemical, and to develop a home testing protocol to account for adverse variables in homes that could increase harmful effects of the chemical. The CDC provided useful guidance on the safe levels of the chemical, and the public requires assurances that these levels are being met. Thorough information about the consequences of the spill in home water systems is essential to addressing this threat. Finally, I ordered the demolition of the facility that stored the chemicals involved in the spill, which is necessary to reduce the likelihood of the chemical leaching into the river. This is an expensive and precise process in light of the environmental concerns associated with hazardous sites.

I strongly urge you to reconsider your denial of the continuance of West Virginia's partnership with FEMA on this disaster. The expenses incurred by the state and local agencies after federal assistance ended were necessary and responsible. Since the attack on September 11, 2001, the protection of our country's water supply has been an issue of targeted concern and national discussion. Our ongoing response to the spill, continuous studies, and test results will serve as future guidance not only for exposure to specific chemicals involved in the spill, but for any water system contamination in the nation. The work we are funding will fill a void in the scientific and public health knowledge base with much needed information. West Virginia and its subdivisions lack the resources to cover 100 percent of the costs expended to eliminate the threats to public safety caused by the chemical spill. Collecting costs from the company responsible for the spill is unlikely, considering the company's bankruptcy posture.

The results of our evaluation of the direct and indirect costs of this event are attached. These costs are documented, and we have attempted to be conservative in our estimated regarding eligible reimbursement costs under Category B of the Public Assistance program. At this time, estimated losses to

the economy of the affected county are estimated at $XX,XXX,XXX. The total economic impact will likely be greater.

- The sectors of the economy primarily affected included restraint and hotel businesses that were forced to close until alternate sources of potable water could be provided. Many employees of these businesses earn low wages, and, in the case of restraint servers, depend on tips to make a living wage. In an effort to support those who lost income due to this event, the United Way collected and distributed over $112,000 in assistance to more than 600 families to help them pay utility bills.
- Businesses that temporarily closed due to the lack of potable water showed remarkable determination to reopen as soon as possible, and incurred additional costs in order to meet the standards set by the health officials to reopen using alternate water sources. To this day many businesses, especially those serving food, are incurring additional costs to provide assurances to their customers that no tap water is being used in the food preparation or cleansing of the silverware, plates, or glasses. The losses were severe enough to warrant a Small Business Administration (SBA) Economic Injury Disaster Loan Program for the affected area, but this support traditionally covers only a small portion of the total businesses in the disaster area.
- Hospitals and medical care facilities had to cancel elective and non-emergency services. Nursing homes and other long-term care facilities had to develop alternatives to caring for their patients, and local health departments were faced with a considerable increase in responsibilities and workload.
- The education community was also impacted by the water outage. While this unusually harsh winter caused students to miss several instructional days, this event caused schools in the affected areas to close for no less than a week, and in some cases, longer. Genesee County estimate they have lost over $X,XXX,XXX in instructional time because of the water outage.

The response to this disaster was a community effort. With your supplemental assistance we responded, and continue to respond to each new aspect of the event as it arises.

The attached "EM-3375-Category B Assessment-as of X/X/XX" was developed with guidance from experienced FEMA Public Assistance staff that scrutinized the data provided by state and local agencies to determine the eligible costs for Stafford Act Public Assistance. Their conclusions are based on a much more careful analysis of the provided information than is normally done during a Preliminary Damage Assessment process, and the figures may be exceeded when actual Project Worksheets are developed. Their estimate of more than $X,XXX,XXX in probable eligible Public Assistance Costs plus the over $5,000,000 cost of direct federal assistance means the Category B expenditures in our joint response to this Event of National Significance were over $6,500,000. This is more than double our Public Assistance impact indicator for a Major Disaster Declaration of $X,XXX,XXX.XX.

The financial impact of this event is significant and widespread. The estimated $XX,XXX,XXX economic loss noted above added to the total impact noted on the attachment exceeds $XX,XXX,XXX. This figure does not include our ongoing study, on which we will spend over $XXX,XXX, and the continued response to this event. It also does not include the donations the United Way noted above which add another $XXX,XXX to the total. The total estimated costs and losses are equal to a $XXX per capita impact on the XXX,XXX people directly affected by this crisis.

I understand your agency's original decision to limit the Public Assistance Category B to direct federal assistance. However, as subsequent events have demonstrated, this was a true emergency that demanded the best efforts of the entire community to protect public health and safety. The key role of state and local agencies in our response is essentially ignored unless they can be reimbursed for their part in responding to this crisis.

Thank you for your consideration and your attention in this matter. Any questions regarding this appeal or requests for additional documentation should be directed to XX.XXXX X. XXXXXX whom I have appointed as State Coordinating Officer for this disaster recovery operation.

Ms Elizabeth Zimmerman
Associate Administrator
Office of Response and Recovery
500 C Street, SW
Washington, DC 20472

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL 60605

Dear Ms Elizabeth Zimmerman,

I am submitting this letter of appeal to Associate Administrator for the Office of Response and Recovery Elizabeth Zimmerman's letter to me dated January 22, 2016. In that letter, she indicated that the State of Michigan has been denied in its request for the Individual and Households Program and reimbursement for emergency protective measures (Category B) under the Robert T. Stafford Disaster Relief and Emergency Assistance Act for contamination and damage to the public water system in the City of Flint. I respectfully submit this letter of appeal, in accordance with the provisions set forth in 44 CFR § 206.46, to request a reconsideration of that decision

Respectfully, I appeal the determination that "additional Stafford Act assistance, beyond that which has been authorized under FEMA-3375-EM, is not appropriate for this event". This unique disaster poses an imminent and long-term threat to the citizens of Flint. Its severity warrants special consideration for the Individuals and Households Program and reimbursement under the Public Assistance

"does not meet the legal definition of a "major disaster" under 42 U S.C. § 5122, as implemented at 44 C.F.R. § § 206.2(17), the incident was not caused by a natural catastrophe, nor was it caused by fire, flood, or explosion." This unique disaster poses imminent and long-term threat to the citizens of Flint. Its severity warrants special consideration for all categories of the Individual and Public Assistance Programs, as well as the Hazard Mitigation program in order to facilitate recovery

While the definition under 44 C.F R. § § 206 2(17) provides examples of what might constitute a natural disaster, I submit that this disaster expands and fits within the categories of both storm and flood given that qualities within the water, over a long term, flooded and damaged the city's infrastructure in ways that were not immediately or easily detectable. These impacts will contribute to years and potentially decades of health problems and economic loss as well as necessary repairs to infrastructure that neither the city, county, or state have the capacity to conduct. I feel a more narrow reading of this definition does not adequately reflect the intentions of our "all-hazards" approach to emergency management at the federal and state levels, if our primary mechanism for relief is read in a way that limits the hazards to which we can provide relief.

Given the gravity of the situation and ramifications for urban areas across the United States with pre-1987 constructed water distribution systems, I hope you will determine that providing assistance beyond "appropriate assistance for required emergency measures...to save lives and to protect property and public health and safety" is warranted. As documented in my letter to you on January 14, 2016, the city of Flint has been devastated by job losses and associated economic decline.

While I greatly appreciate the emergency declaration and the assistance it provides for the city of Flint, I am disappointed that no other assistance is being offered or suggested, whether through Stafford Act measures or through programs of other federal agencies.

As additional support of this appeal, I offer the following information:

As the urgency of the situation eased, it became clear certain ongoing aspects of the emergency would continue to demand public assistance. The state and local agencies, including the affected counties and the West Virginia Department of Environmental Protection continue to incur costs. The Centers for Disease Control (CDC) issued statements regarding safe levels of the chemicals involved in the spill, and the tests were necessary to ensure the water was meeting those standards. Even after flushing procedures were implemented, there were surges in chemical presence in various areas, requiring more testing. Because of the strong odor of the chemical, the water was objectionable long after the spill was

contained. Accordingly, testing continued, and still continues, at significant expense to the state and local agencies. This testing was necessary to lessen the immediate threats to public health and safety posed by the mass exposure to a relatively unknown chemical. Additionally, I approved the engagement of independent environmental consultants to confirm the health screening standards of the chemical, and to develop a home testing protocol to account for adverse variables in homes that could increase harmful effects of the chemical. The CDC provided useful guidance on the safe levels of the chemical, and the public requires assurances that these levels are being met. Thorough information about the consequences of the spill in home water systems is essential to addressing this threat. Finally, I ordered the demolition of the facility that stored the chemicals involved in the spill, which is necessary to reduce the likelihood of the chemical leaching into the river. This is an expensive and precise process in light of the environmental concerns associated with hazardous sites.

I strongly urge you to reconsider your denial of the continuance of West Virginia's partnership with FEMA on this disaster. The expenses incurred by the state and local agencies after federal assistance ended were necessary and responsible. Since the attack on September 11, 2001, the protection of our country's water supply has been an issue of targeted concern and national discussion. Our ongoing response to the spill, continuous studies, and test results will serve as future guidance not only for exposure to specific chemicals involved in the spill, but for any water system contamination in the nation. The work we are funding will fill a void in the scientific and public health knowledge base with much needed information. West Virginia and its subdivisions lack the resources to cover 100 percent of the costs expended to eliminate the threats to public safety caused by the chemical spill. Collecting costs from the company responsible for the spill is unlikely, considering the company's bankruptcy posture.

The results of our evaluation of the direct and indirect costs of this event are attached. These costs are documented, and we have attempted to be conservative in our estimated regarding eligible reimbursement costs under Category B of the Public Assistance program. At this time, estimated losses to

the economy of the affected county are estimated at $XX,XXX,XXX. The total economic impact will likely be greater.

- The sectors of the economy primarily affected included restraint and hotel businesses that were forced to close until alternate sources of potable water could be provided. Many employees of these businesses earn low wages, and, in the case of restraint servers, depend on tips to make a living wage. In an effort to support those who lost income due to this event, the United Way collected and distributed over $112,000 in assistance to more than 600 families to help them pay utility bills.
- Businesses that temporarily closed due to the lack of potable water showed remarkable determination to reopen as soon as possible, and incurred additional costs in order to meet the standards set by the health officials to reopen using alternate water sources. To this day many businesses, especially those serving food, are incurring additional costs to provide assurances to their customers that no tap water is being used in the food preparation or cleansing of the silverware, plates, or glasses. The losses were severe enough to warrant a Small Business Administration (SBA) Economic Injury Disaster Loan Program for the affected area, but this support traditionally covers only a small portion of the total businesses in the disaster area.
- Hospitals and medical care facilities had to cancel elective and non-emergency services. Nursing homes and other long-term care facilities had to develop alternatives to caring for their patients, and local health departments were faced with a considerable increase in responsibilities and workload.
- The education community was also impacted by the water outage. While this unusually harsh winter caused students to miss several instructional days, this event caused schools in the affected areas to close for no less than a week, and in some cases, longer. Genesee County estimate they have lost over $X,XXX,XXX in instructional time because of the water outage.

The response to this disaster was a community effort. With your supplemental assistance we responded, and continue to respond to each new aspect of the event as it arises.

The attached "EM-3375-Category B Assessment-as of X/X/XX" was developed with guidance from experienced FEMA Public Assistance staff that scrutinized the data provided by state and local agencies to determine the eligible costs for Stafford Act Public Assistance. Their conclusions are based on a much more careful analysis of the provided information than is normally done during a Preliminary Damage Assessment process, and the figures may be exceeded when actual Project Worksheets are developed. Their estimate of more than $X,XXX,XXX in probable eligible Public Assistance Costs plus the over $5,000,000 cost of direct federal assistance means the Category B expenditures in our joint response to this Event of National Significance were over $6,500,000. This is more than double our Public Assistance impact indicator for a Major Disaster Declaration of $X,XXX,XXX.XX.

The financial impact of this event is significant and widespread. The estimated $XX,XXX,XXX economic loss noted above added to the total impact noted on the attachment exceeds $XX,XXX,XXX. This figure does not include our ongoing study, on which we will spend over $XXX,XXX, and the continued response to this event. It also does not include the donations the United Way noted above which add another $XXX,XXX to the total. The total estimated costs and losses are equal to a $XXX per capita impact on the XXX,XXX people directly affected by this crisis.

I understand your agency's original decision to limit the Public Assistance Category B to direct federal assistance. However, as subsequent events have demonstrated, this was a true emergency that demanded the best efforts of the entire community to protect public health and safety. The key role of state and local agencies in our response is essentially ignored unless they can be reimbursed for their part in responding to this crisis.

Thank you for your consideration and your attention in this matter. Any questions regarding this appeal or requests for additional documentation should be directed to XX.XXXX X. XXXXXX whom I have appointed as State Coordinating Officer for this disaster recovery operation.

Job Description – VRC Director

Your job is to oversee the operation of the Volunteer Reception Center. You will:

- Clearly designate one entrance and one exit
- Set up the room for efficient flow of volunteers and information
- Ensure efficiency of operation
- Brief and assign tasks to staff and volunteers of the center
- Monitor the operation and make appropriate changes when necessary
- Maintain all records of safety and job training provided to volunteers, and hours worked in the VRC by employees and volunteers
- You should meet and thank all volunteers who help in the VRC and instruct them to sign in and out on the Volunteer Sign-in / Sign-out Record daily.

Preferred Qualifications:

- An undergraduate or graduate degree in nonprofit management or a similar field, or experience in marketing
- Excellent communication skills
- Patience
- Exceptional people skills
- Windows-based computer knowledge and experience
- Good organizational and delegating skills and/or experience
- Project management skills. He or she will be organized and detail-oriented
- Competence in written and oral communication, including group presentation experience
- Customer service experience
- *One year of experience as volunteer coordinator and/or demonstrated leadership* capability as a volunteer

Job Description – Greeters

(Red text is used to highlight the functions that trainees can realistically perform during VRC training or exercises. All other functions are critical to the smooth operation of a "real life" VRC.)

Ideally, you will be working with a partner, orienting volunteers inside and outside the volunteer entrance. **Your job is to greet people with a friendly and firm demeanor, determine the purpose of their visit and direct them accordingly.**

- **If they are there to volunteer, thank them, give them a "Volunteer Instructions" sheet and ask them to fill out a registration form. When the form is completed, direct them to the next available interviewer at Station #2.**
- If they are media personnel, direct them to the Public Information Officer.
- If they are disaster survivors, refer them to the appropriate organization.
- If they have food, clothing, etc., to donate, refer them to the appropriate agency, unless it is food for the volunteer reception center staff. (For safety reasons, most Emergency Management departments do no accept unsolicited donations of food for their staff – Something to consider!)

If there is a long wait, some volunteers may not understand the reason and may become impatient. **Please thank everyone for volunteering, briefly explain the process** and ask everyone to be patient or to come back later.

Items needed:

- ID badge
- Sign (Station #1 Registration)
- Table or clipboards and chairs for volunteers to use for filling out their forms
- Supply of "Volunteer Instructions" handouts
- Supply of Disaster Volunteer Registration Forms
- Pens
- Flag or hat to summon runners

Job Description – Interviewers

(Red text is used to highlight the functions that trainees can realistically perform during VRC training or exercises All other functions are critical to the smooth operation of a "real life" VRC)

Your job is to do a quick interview of the prospective volunteer and determine his or her appropriateness and ability for the tasks needed. If possible, refer him to a job at an agency appropriate to his abilities and interests. (In some circumstances, this referral will be done by the Agency Coordination staff.) Volunteer requests will be posted on a board in front of you (behind the volunteers being interviewed) and will be erased as they are filled. If the center has a computer system, you might also receive a printed list of the current needs.

When a new volunteer approaches, ask for his/her registration form. With the volunteer, verify its completeness and accuracy, and use it as a guide from which to inquire more about the volunteer's skills. At the conclusion of the interview, have him/her take their registration form to the Data Coordination station, along with a Volunteer Referral Form. You should initial the Volunteer Referral Form to indicate the Interview Process was completed. When the volunteer accepts an assignment, complete a Referral form filling in all information requested, give it to the volunteer and instruct him to report to Data Coordination (Station #3).

Before signaling the Greeter that you are ready for another interview, take a minute to jot down in the "Notes" section anything about the volunteer you feel is important, that the volunteer did not include on his registration form (a special skill, an obvious physical limitation, etc.) If your center decides to use the blind field labeled "Office Use Only* **(see page two)**," check the appropriate box. Place his registration form in the bin or file.

Key points to remember are:

- **Disaster registration differs from a "normal" volunteer intake – there is less time to try to fit each volunteer into an ideal assignment.**
- **Refer the volunteer on the spot** if possible – it may be impossible to contact him later. If the volunteer has special training or unusual skills that you think might be needed soon, ask him to wait in the sitting area and to check the volunteer request board for new requests for their specialized skills.
- Be sure to watch for volunteers who would work well in the Volunteer Reception Center.
- It is likely that some volunteers will exhibit the stress of the disaster – an extra measure of patience and understanding is needed.
- You may be called upon to train volunteers to assist with the interviewing.

Job Description – Interviewers (cont'd)

The VRC Director should determine appropriate use of the "Office Use Only" field, with input from the local ESF-15 lead agency. It is intended to provide a customizable "blind" field in which special information can be noted about volunteers. If, for future referral of that volunteer, it would be helpful to know his general level of ability to work independently, boxes 1-5 could be coded:* ***1.* *Learns quickly, able to supervise the activities of others;* ***2.*** *Would work well independently, good decision making skills;* ***3.*** *Needs some supervision and assistance with decision making;* ***4.*** *Needs close or constant supervision; and* ***5.*** *Has a mental, physical or emotional limitation to consider in making a referral.*

Items needed:

- An ID badge for each interviewer
- Two tables and eight chairs (see VRC floor plan)
- Sign (Station #2 Interviews)
- Supply of Referral forms
- Pens
- Flag or hat to summon runners
- Bin or file for maintaining Volunteer Registration Forms

Job Description – Data/Agency Coordinator

(**Red** text is used to highlight the functions that trainees can realistically perform during VRC training or exercises. All other functions are critical to the smooth operation of a "real life" VRC.)

Your job is to match the Referral forms to the Requests and to close out the Requests when they have been filled or are no longer needed. If *interviewers are overwhelmed*, you may need to complete the referral process with volunteers – identifying the appropriate volunteer task for them. You may have to call an agency contact to clarify the agency's Request. When you speak with an agency contact, record the information on the Request form in the section called "Follow-up Contacts with Requesting Agency."

When a volunteer brings you his Referral form, enter his name and the date of the referral on the Request form to which he was referred. Place your initials on his Referral form. If you have time, call the agency contact to let him know who or how many volunteers have been referred. Confirm with the agency contact whether you should continue referring volunteers or close out the request. ***When a request has been filled, raise your flag or put on the hat to call a runner and ask him to remove that request from the board.***

If a volunteer who has been interviewed but not referred approaches your station, thank them for coming and ask them to please wait in the sitting area in the center of the room.

Enter the date and reason the request was closed (completed, no longer needed, etc.) at the bottom of the Request form. If your Requests for Volunteers have been entered into a database, be sure to enter the date and reason the Request was closed as soon as possible. **Place open Requests in one file and closed Requests in the other,** *in either numerical order or* **alphabetically by agency.**

Items needed:

- An ID Badge for each staff member
- Sign (Station #3 Data Coordination)
- Two tables and four chairs
- Phone
- Two sets of files – one for open Requests and one for closed out Requests
- Pens
- Computer, if available, networked to the computers at the Phone Bank station
- Flag or hat to summon runners

BLIND CODES – If Data Coordinator is making referrals, the Interviewers will use the following codes to convey their impression of the volunteers' suitability for tasks.

The VRC Director should determine appropriate use of the "Office Use Only" field, with input from the local ESF-15 lead agency. It is intended to provide a customizable "blind" field in which special information can be noted about volunteers. If, for future referral of that volunteer, it would be helpful to know his general level of ability to work independently, boxes 1-5 could be coded:* ***1.* *Learns quickly, able to supervise the activities of others;* ***2.*** *Would work well independently, good decision making skills;* ***3.*** *Needs some supervision and assistance with decision making;* ***4.*** *Needs close or constant supervision; and* ***5.*** *Has a mental, physical or emotional limitation to consider in making a referral.*

Job Description – Phone Bank Staff

(**Red** text is used to highlight the functions that trainees can realistically perform during VRC training or exercises All other functions are critical to the smooth operation of a "real life" VRC.)

You will be handling two types of **calls, those from agencies requesting volunteers** and those from people wanting to volunteer. **The information you record about each call must be complete and in sufficient detail to facilitate matching volunteers to the needs.**

When you receive a call from an agency, fill out a Request for Volunteers form while you are speaking with the agency caller. If there is a computer available for entering the needs into a database, Data Entry staff should enter the need as soon as possible.

Next, call a runner by raising the flag at your station. Ask the Runner to post the volunteer request on the dry erase board in view of the Interviewers (Station #2) and then to give the Request for Volunteers form to the Data Coordinator (Station #3).

When people call to volunteer, thank them and give them the following registration options:

- If they choose to register on line or by fax, they will be e-mailed or called to discuss possible assignments and given further instructions. If the caller represents a group that wishes to volunteer together, ask them to be patient while you determine where they can be of most help. It might take one day or several to match them with a need, especially if they are coming from out of town. Post the caller's inquiry on the board behind the Phone Bank.

  When a match (a mission) is found for that volunteer, e-mail or call them back and schedule a time for them to come to the VRC to sign their on-line registration form, pick up their referral form and ID bracelet(s), and attend a safety briefing. Make sure that the volunteer's on-line registration form is waiting with the Interviewers (Station #2) on their arrival date.

- If they choose to register in person at the VRC, they will be given instructions when they arrive.

Items needed:

- An ID Badge for each staff member
- Sign (Phone Bank)
- Supply of Request for Volunteers forms
- Push pins or masking tape
- Two tables and four chairs
- Phones
- Pens
- Flag

Job Description – Data Entry

(Red text is used to highlight the functions that trainees can realistically perform during VRC training or exercises. All other functions are critical to the smooth operation of a "real life" VRC.)

Your job is to enter the information from the volunteer Registration and Request for Volunteers forms **into the database** so that the county has an accurate record of who participated in the recovery effort, what kinds of work they performed and when. The computer will assign a number to each Registration and Request, which must also be hand-written on the paper forms.

After the initial influx of volunteers has subsided, you may have time to begin entering the referrals recorded on the Request forms and to close out the completed Requests. As needed by VRC staff, print updated lists of the unfilled Requests and ask a Runner to distribute copies to Phone Bank staff, Data Coordination, Interviewers and, if requested, the VRC Director.

Even if you are familiar with the software being used by the VRC, please ask for a brief orientation before beginning your first shift. Accuracy is more important than speed. The information you enter will be used to determine the amount of money the county will receive from the Federal Government as a result of the disaster.

If you have difficulty using the computer, please ask for help immediately. Do not attempt to fix the problem yourself.

Items needed:

- An ID Badge
- One table and two chairs
- Printer
- Pens
- Flag
- One or more computers (multiple computers should be networked to provide all users access to information on the status of volunteer requests and the availability of volunteers.)

Job Description – Volunteer ID Staff

(**Red** text is used to highlight the functions that trainees can realistically perform during VRC training or exercises All other functions are critical to the smooth operation of a "real life" VRC.)

Ask if the volunteer for his/her Referral form. *If they have not* been referred, thank them for coming and ask them to please wait in the sitting area in the center of the room.

Clearly write on the white portion of an ID wristband the name of the *volunteer, dates he/she will be working, and the name of the* agency to which the volunteer was referred, as shown on their Referral form. Place the ID wristband securely on the volunteer's wrist.

Explain to the volunteers that the ID will be "good" only for the date(s) written on the band. *Authorities will not permit them to enter any of the* disaster impacted areas on any other day, without a current ID wristband. If volunteers plan to work more than one day, you may write the beginning and ending dates of their service. Thank them for coming and direct them to Station #5 Safety Training.

If you need assistance, please raise your flag or put on the hat to summon a Runner.

Items needed:

- An ID Badge
- Two tables and four chairs
- Sign (Station #4 Volunteer I.D. Tags)
- Supply of volunteer ID wristbands
- ID bracelet tool, if required
- Markers
- Scissors
- Flag or hat to summon runners

Job Description – Safety Trainers

(Red text is used to highlight the functions that trainees can realistically perform during VRC training or exercises. All other functions are critical to the smooth operation of a "real life" VRC.)

Your job is to brief all new volunteers on what to expect at their job sites, how to be safe while volunteering and how to take good care of themselves after their experience. When a small group has gathered, thank the volunteers for offering to help. Pass around a clipboard with an attendance sheet and check to be sure that all participants have signed it.

Read the entire Safety Training sheet slowly, emphasizing the importance of following supervisors' instructions at the worksite. Encourage everyone to attend a debriefing, if available, at the end of their shift. Ask if there are any questions. If a question arises to which you do not know the answer, put on the hat to summon a runner. Ask the runner to summon the VRC Director or other VRC staff to answer the question.

Some volunteers will be required to take additional training for their particular work. Direct those volunteers to where that training is provided. When your briefing is concluded, explain where the volunteers should meet the transportation to their worksites, if transportation is provided.

If you're conducting an exercise and have time to play a second round, please ask participants to play the role of at least one other volunteer with different skills. Direct them to the Registration Area to fill out another Registration form, giving only their new names and new skills.

File the attendance sheet for each class in the folder and turn them in to the VRC Director daily. If the content of your safety briefing changes (new material is added or safety instructions change), staple a copy of the new safety training script to the attendance sheet of the first class in which the new script was used. **Maintenance of these records is important to help protect the Coordinating Agency and local disaster officials from liability, should a volunteer be injured on the job.**

Items needed:

- An ID Badge
- Sign (Station #5 Safety Training)
- 10 or more chairs, preferably in a semi-circle so participants can see one another
- Clipboard with attendance sheets
- Pen
- Stapler
- Flag or hat to summon runners
- List of additional training required by specific worksites, training locations and instructors
- A supply of Safety Training handouts

Job Description – Runners

(Red text is used to highlight the functions that trainees can realistically perform during VRC training or exercises. All other functions are critical to the smooth operation of a "real life" VRC.)

Your job is to carry information from one station to another within the VRC. When a station needs you to pick up forms, restock their supplies or escort a volunteer from one place to another, **they will signal you by raising a flag or putting on a hat at their station.**

Please watch carefully for this signal and respond promptly, in order to keep the information and volunteers moving smoothly through the registration and referral process.

When you are asked to post a new Volunteer Request on the board, be sure to use only the markers provided and write neatly and large enough so that the interviewers can see the requests clearly. After posting the request on the board, give the Request form to the Data Coordinator (Station #3).

Items needed:

- An ID Badge
- Dry erase marker or water soluble marker (depending on the type of board available)
- Dry eraser or damp sponges

MEDIA MONITORING REPORT

12/4/2015

Issues:

- No issues to report.

Summary:

- Congressmen Dan Kildee spoke loud and clear to President Obama's cabinet, America's top corporate CEO's and other lawmakers about Flint's water emergency and infrastructure problems plaguing the city
- The Department of Health and Human Services says of the nearly 1,000 children in Flint it tested since the beginning of October, 21 children still have elevated blood lead levels.
- Preliminary state data indicates that 30 of 1,361 adults and children tested in Flint since October 1 had elevated blood lead levels, according to a report issued today by the Michigan Department of Health and Human Services.
- Peter Bade, who served as city attorney throughout Mayor Dayne Walling's six years as mayor, has tendered his resignation.
- The professor whose research helped expose rising levels of lead in drinking water in Flint says it's still not safe to drink without a faucet filter.
- The head of Genesee County's homeland security, Jenifier Boyer, submitted her resignation Tuesday Dec. 1 just weeks after she filed a sex discrimination complaint against Genesee County Sheriff Robert Pickell.
- In light of the most recent mass shooting in California this week, public safety at Northern Michigan University says they are prepared to handle a similar situation.
- WLNS does a report on what to do if there is an active shooter situation at a workplace.
- Gwinnett County commissioners gave the Gwinnett County Fire and Emergency Services officials permission this week to accept 500 smoke alarms and a $10,000 stipend from the Michigan Public Health Institute to pay for education programs in elementary schools.
- Kalamazoo County emergency management officials say they've been training to respond to a mass shooting since before September 11.
- The suspects in the San Bernardino shootings used semiautomatic rifles that were legally obtained despite gun laws in California that were intended to ban assault weapons and are widely regarded as among the strictest in the country.
- The woman who helped carry out the shooting in San Bernardino, Calif., on Wednesday had pledged allegiance to the Islamic State in a Facebook posting, according to federal law enforcement officials.
- National Weather Service forecast updates.
- TV clips: Detroit Homeland Security Officials roll out emergency alert system; Self-defense in a shooting situation.

Analysis:

- Media coverage is neutral.
- Heavy coverage on San Bernardino shooting incident that occurred Wednesday, Dec. 2.
- Coverage continues on Flint water issues.

- The Department of Health and Human Services reports that nearly 1,000 children in Flint it tested since the beginning of October, 21 children still have elevated blood lead levels.
- Flint City attorney Peter Blade resigns; Flint Mayor Karen Weaver expects to replace blade despite questions about her authority to make appointments because of the state's oversight.
- Will continue to monitor situation

FLINT

Congressman Dan Kildee discusses Flint's water emergency in White House meeting

ABC 12, December 3, 2015

FLINT (WJRT)- (12/3/15) - Inside the White House Export Council meeting Thursday, Congressmen Dan Kildee spoke loud and clear to President Obama's cabinet, America's top corporate CEO's and other lawmakers about Flint's water emergency and infrastructure problems plaguing the city.

" It's a city of 100,000 people, that for fourteen months had lead levels in its water system that were so high that 7,000 children under the age of five, for fourteen months, were explose to lead in a way that will affect the trajectory of their lives permanently," Representative Kildee said.

New blood lead level results in from the state

ABC 12, December 3, 2015

FLINT (WJRT) - (12/03/15) - New blood lead level results are in from the state.

The Department of Health and Human Services says of the nearly 1,000 children in Flint it tested since the beginning of October, 21 children still have elevated blood lead levels.

Flint city attorney resigns; New mayor says she expects to name replacement

MLive, December 3, 2015

FLINT -- Peter Bade, who served as city attorney throughout Mayor Dayne Walling's six years as mayor, has tendered his resignation.

Bade said today, Dec. 3, that he has accepted a position in the Office of General Counsel at Hurley Medical Center and will serve his last day as city attorney Jan. 1

MDHHS releases latest data outlining blood lead levels in Flint; follow up care, case management resources continue for families

Michigan.gov, December 3, 2015

LANSING, Mich. – Preliminary data indicates that 30 of 1,361 adults and children tested in Flint since October 1 had elevated blood lead levels, according to a report issued today by the Michigan Department of Health and Human Services.

This marks the first summary report on lead testing called for in the state's action plan related to health concerns about Flint's water infrastructure.

Preliminary state data shows drop in rate of elevated lead levels in Flint

MLive, December 3, 2015

FLINT, MI -- Preliminary data shows 30 of 1,361 adults and children tested since Oct. 1 in Flint had elevated blood lead levels, according to a new state report.

The 2.2 percent rate of elevated blood lead is below the 6 percent rate found in tests done between July and September, the state said.

Congressman Dan Kildee pushes action on Flint Water Crisis, infrastructure investments at White House meeting of President's export council

dankildee.house.gov, December 3, 2015

Congressman Dan Kildee (MI-05) today spoke at the White House about the Flint water crisis and the need for critical investments in our nation's older, industrial cities like Flint, Saginaw and Bay City, especially when it comes to improvements to our infrastructure and aging water systems.

Congressman Kildee's remarks came at a meeting of the President's Export Council, where he is one of only five members of the U.S. House of Representatives appointed to advisory board. The President's Export Council is the principal advisory council to the president on trade and manufacturing, made up of both government and private sector leaders. Since his appointment in January by former Speaker of the House John Boehner, Congressman Kildee has used his position on the council to push for policies that support American workers and American cities. It has also allowed him to advocate for economic policies that create jobs and boost U.S. manufacturing exports.

Flint water still unsafe without lead filters, professor says

MLive, December 3, 2015

FLINT, MI — The professor whose research helped expose rising levels of lead in drinking water in Flint says it's still not safe to drink without a faucet filter.

Professor Marc Edwards told doctors and others at Hurley Medical Center on Wednesday, Dec. 2, that researchers at Virginia Tech university are continuing to test water samples in Flint, and while lead levels are dropping, they remain above the federal limit for lead in some areas.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

County official who claims workplace sex discrimination resigns

MLive, December 3, 2015

GENESEEE COUNTY, MI – The head of Genesee County's homeland security, Jenifier Boyer, submitted her resignation Tuesday Dec. 1 just weeks after she filed a sex discrimination complaint against Genesee County Sheriff Robert Pickell.

Boyer filed a complaint against Pickell on Nov. 13 claiming sexual discrimination at the workplace.

Self-defense in a shooting situation

WILX, December 4, 2015

The first option you have in an active shooter situation is to run.

"Anytime you're out, whether you're at a mall, children in school, government building, movie theatre, you should always know your way out. you should always know the quickest exit," said Lt. Brody Boucher with Michigan State Police.

That starts with always being aware of your surroundings. Because if you can't run, the next option is to hide.

NMU officers talk about preparing for active shooters

Upper Michigan Source, December 3, 2015

MARQUETTE — In light of the most recent mass shooting in California this week, public safety at Northern Michigan University says they are prepared to handle a similar situation.

Public safety trains their officers to gather information, secure perimeters, and make contact with shooting suspects. They train year-round with city, county and state officers. In an active shooter situation, people should try to barricade the room they are in with chairs, tables and anything that will keep the shooter out.

Agencies talk emergency communications plans

Up North Live, December 3, 2015

WPBN/WGTU — With the events that happened on Wednesday in California, law enforcement in Northern Michigan said they are prepared to respond to a mass casualty or active shooter situation.

Law enforcement said they're constantly training and will regularly work with other agencies to make sure that they're on the same page.

What to do if an active shooter comes into your workplace

WLNS, December 3, 2015

LANSING, MI (WLNS)- The deadly shooting that happened yesterday is a stark reminder that similar violence could happen almost anywhere.

This begs the question, what plans can you have in place to keep this from happening in your workplace and respond quickly if it did?

Six news spoke to Michigan State Police and officials at MSU about how to plan for the unexpected.

Fire department joining Michigan-based fire safety education program

Gwinnett Daily Post, December 3, 2015

Does your child know what to do when a fire breaks out?

If they don't, Gwinnett County Fire and Emergency Services officials plan to make sure will learn soon enough. County commissioners gave the agency permission this week to accept 500 smoke alarms and a $10,000 stipend from the Michigan Public Health Institute to pay for education programs in elementary schools.

The money enables the department to join the institute's Sound Off with the Home Safety Patrol program as a "super site selection."

Kalamazoo county officials say W. Mich. is prepared for mass shooting event

WWMT, December 3, 2015

KALAMAZOO, Mich. (NEWSCHANNEL 3) - According to the Washington Post, there have been 355 mass shootings this year.

In fact, the shooting in San Bernardino was the second mass shooting on Wednesday alone.

Four people were shot, and one person was killed in Savannah, Georgia.

SAN BERNARDINO SHOOTING

'It was unspeakable': San Bernardino Officer says of shooting scene

NPR, December 4, 2015

Lt Mike Madden of the San Bernardino police was on his way to lunch when a dispatcher sent out word of an active shooter at the Inland Regional Center.

Madden is a police administrator, and dispatch is one function he oversees. He could tell from the dispatcher's voice that "this was actually happening, a real event. ... We have an active shooter, and we have an active shooter going on in our city."

Couple kept tight lid on plans for San Bernardino shooting

New York Times, December 3, 2015

SAN BERNARDINO, Calif. — Syed Rizwan Farook and Tashfeen Malik met online and married two years ago, after he presented himself on a Muslim dating site as a devout young man who liked to fix cars and memorize the Quran. They registered at Target when Ms. Malik became pregnant, with a cheery newlyweds' catalog of wishes. a car seat, diapers and safety swabs.

But for all the outward signs of suburban normality, this couple, according to the police, used their comfortable home in a middle-class community near here to stockpile weapons and build pipe bombs. And on Wednesday morning, they left their 6-month-old daughter with her grandmother before heading to a holiday party with Mr. Farook's co-workers where, the police say, they killed 14 people and wounded 21 others. A few hours later, they died in a crush of bullets in a brutal face-off with the police.

Weapons in San Bernardino Shootings were legally obtained

New York Times, December 4, 2015

The suspects in the San Bernardino shootings used semiautomatic rifles that were legally obtained despite gun laws in California that were intended to ban assault weapons and are widely regarded as among the strictest in the country.

The rifles were variants of the popular AR-15, the semiautomatic civilian version of a military M-16. They are surprisingly easy to acquire in California, though they come with limitations aimed at curbing their ability to inflict mass damage Semiautomatic rifles, for instance, cannot have magazines that hold more than 10 bullets or can be quickly removed.

San Bernardino gunwoman pledged allegiance to ISIS, officials say

New York Times, December 4, 2015

WASHINGTON — The woman who helped carry out the shooting in San Bernardino, Calif., on Wednesday had pledged allegiance to the Islamic State in a Facebook posting, according to federal law enforcement officials.

There's no evidence the group directed the woman, Tashfeen Malik, and her husband Syed Rizwan Farook, to launch the attacks, which killed 14 and wounded 21, said the officials, who spoke on the condition of anonymity because the investigation is continuing.

CBS News obtains photos of Calif. Shooters' bombs

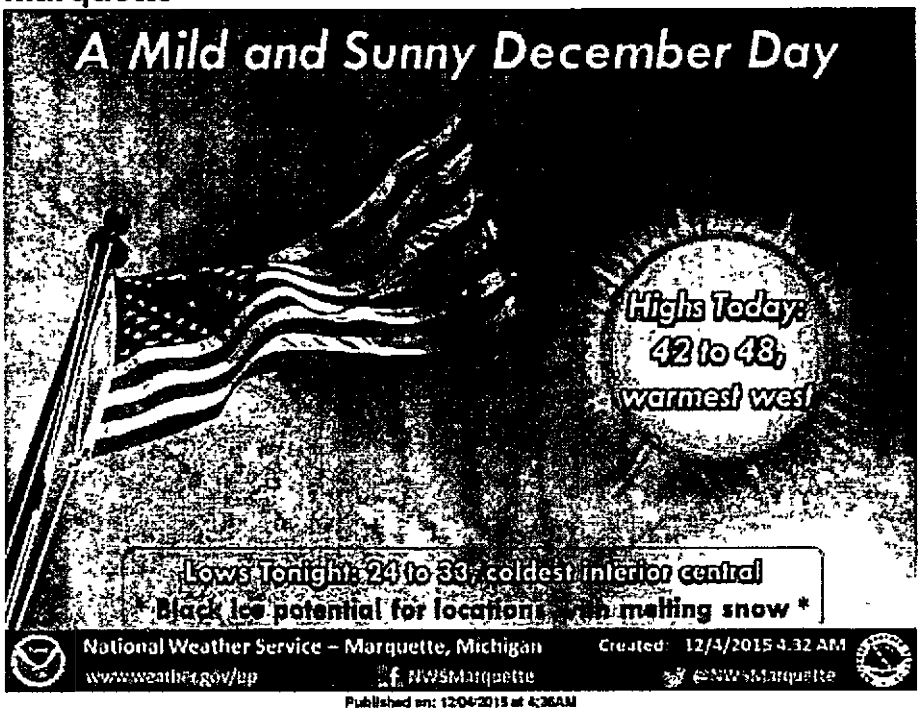
CBS News, December 3, 2015

CBS News has obtained images of explosive devices found at a Southern California social services center and the home of Syed Rizwan Farook, 28, and his wife, Tashfeen Malik, 27.

Below is a photograph of the explosive device found at the facility where the holiday party was held It is a cell phone photograph taken of the screen of the robot used by bomb squad to evaluate the explosive device. The photo shows a yellow toy car with a remote device intended to be the ignition source and three pipes connected to it and wires.

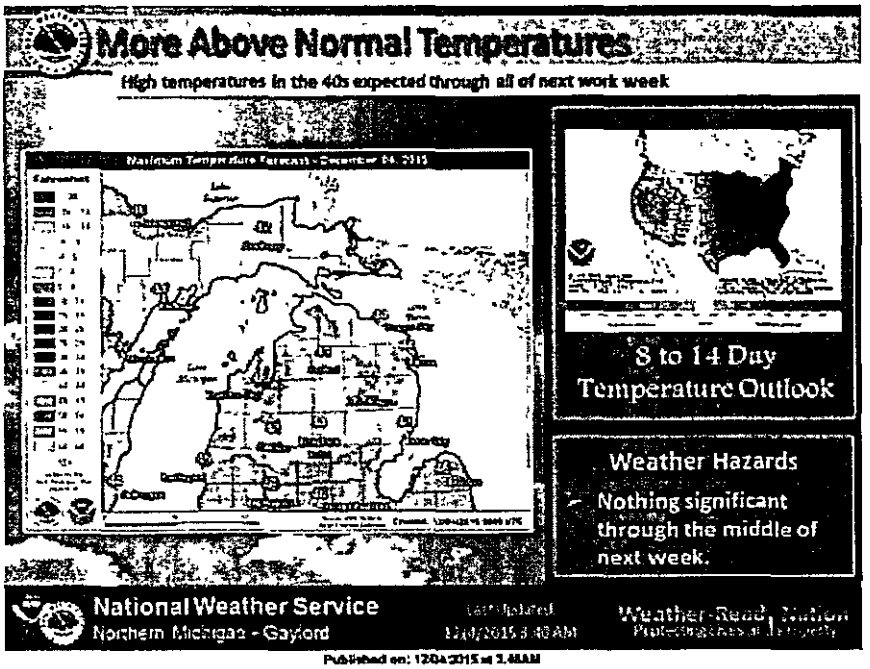
NATIONAL WEATHER SERVICE FORECASTS

Marquette



It will be a mild and sunny December day today, with highs in the 40s. Expect temperatures tonight to bottom out in the mid 20s to low 30s, with the coolest readings over the interior central portions of Upper Michigan. Taking a look ahead to the start of the weekend, temperatures on Saturday should again be in the 40s. A few 50 degree readings will be possible along the Lake Superior shoreline. With warm days and cool nights, the potential exists for melting snow to re-freeze on sidewalks and roadways, causing black ice.

Gaylord

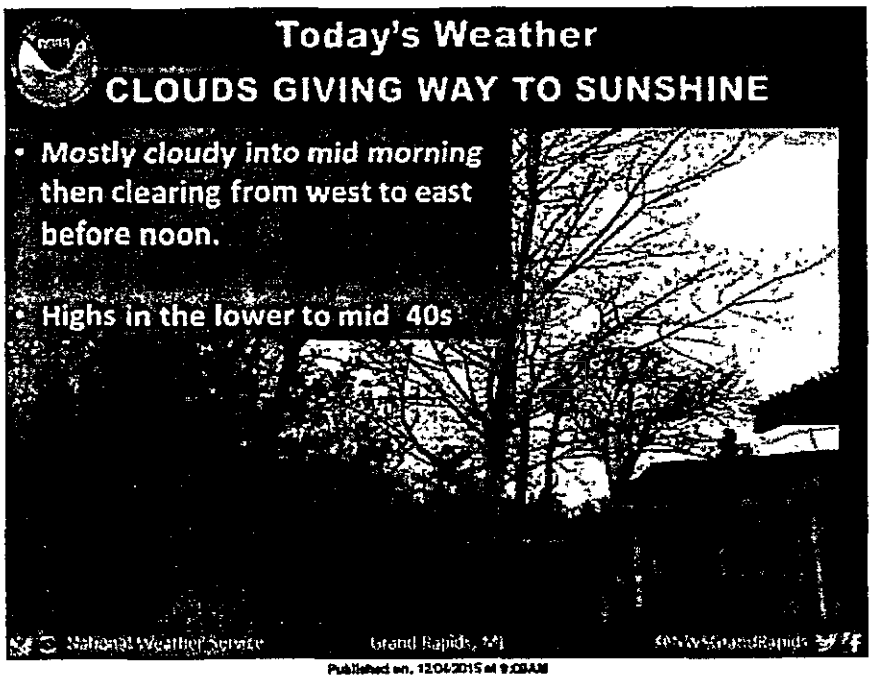


Morning clouds are expected to finally depart, leaving plenty of sun for the afternoon. Precipitation will be very hard to come by, while much warmer than normal temperatures are expected for quite a while. High temperatures through all of next work week will be in the 40s.

Detroit

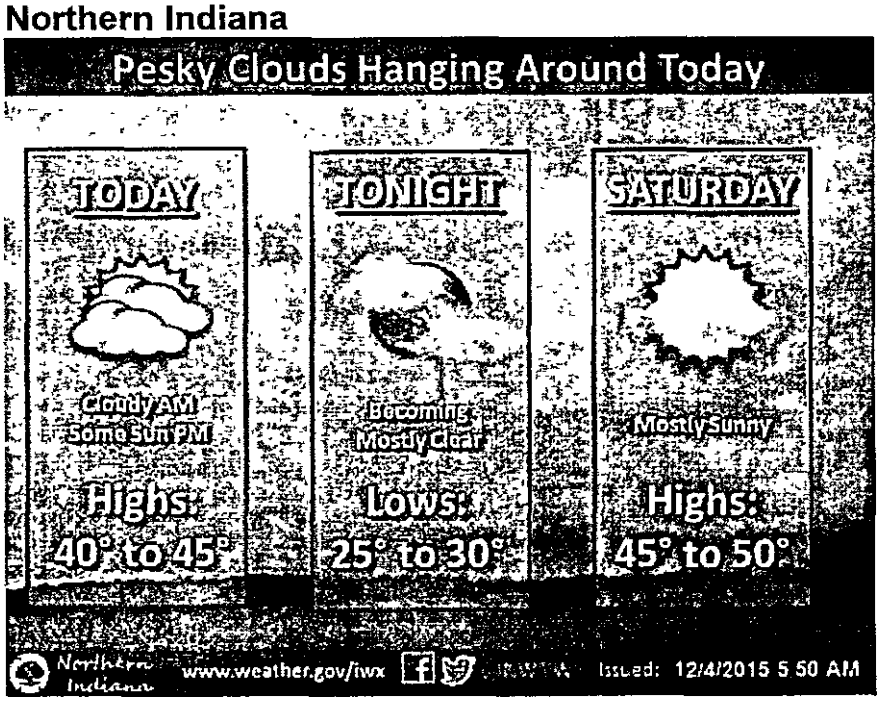
High pressure will influence the region for the next several days, maintaining dry conditions. Southwest flow circulating around this high will maintain an influx of relatively warm air across the region.

Grand Rapids



Decreasing clouds, becoming mostly sunny by noon. Unseasonably warm with highs in the lower to mid 40s.

Northern Indiana



Pesky clouds continue to hang across the area but some sun is expected by this afternoon. Mostly clear skies are expected tonight and Saturday. However...there is a chance that low clouds or even some fog could form once again tonight and spoil this forecast. Highs today will be in the lower 40s and lows tonight will be in the upper 20s.

MICHIGAN STATE UNIVERSITY

Don't Get Burned.

Taking part in destructive gatherings and burning furniture are NOT Spartan traditions. To celebrate MSU successes like a true Spartan, follow these simple guidelines and share them with your friends:

- **DO NOT attend large gatherings that block the street or sidewalks.**
- **DO NOT start, stoke, or fuel ANY type of fire.**
- **DO NOT be a bystander. If someone you know is about to do something dumb, stop them.**
- **COOPERATE with police.**
- **IMMEDIATELY leave any unlawful gathering - even just observing IS participating. Better yet, don't go in the first place.**
- **Anyone within 300 feet of an open fire that is not actively leaving the area faces a misdemeanor charge. This is punishable by up to 90 days in jail and a $500 fine.**
- **Any student who is found responsible for participating in an unlawful assembly or riot is subject to disciplinary sanctions, including suspension or expulsion from his/her school.**
- **These types of events are an embarassment to our community and our university. Don't allow your degree to be devalued.**

JUST IN: CBS News has obtained images of the San Bernardino shooting suspects' explosive devices.

CBS News obtains photos of Calif. shooters' bombs
Images of both explosive device that failed to go off at holiday party; and duffel bag filled with pipe bombs

On call: Chad V., Bob K., Lawrence M., Mary L., Ken S., Tom D.,

Open: 2:04pm

- Update of activity
  - VOADs
  - Bob: SBDR no teams this week. Assessed a couple more. World Renew is sending 10-15 (18-20th of February), and we have close to 50 the first full week of March (7th), and 140 second week (14th), and 110-120 the third week (21st). Gearing up from Spring Break. Bob is out of town the next 5 weeks. Will still call in and do emails. LDS and supplies – Chad to direct to Bob (email). Year-end totals: est. value of total volunteer labor is $750,000 (35,000 hours, 430 volunteers, 468 mud-outs, 15 rebuilds, w/ 35-40 more). This will get us in to Hamtramck and Pershing neighborhood
  - Lawrence: 30 volunteers again this week – both short and long-term (in 7 basements today). Really good team response. Still would LOVE to find money for materials. **Will run out of money before basements.** Crisis never ended in Detroit. 23 open cases for repairs (waiting on shipments of floor tile), but these should be done soon. A couple *open muck-outs*
    - Bob: for floor tile removal, are you dealing w/ asbestos (7", 9", 11"). Started to remove, but then stopped. Taking up and disposal are both huge issues. Now, this year, were told we could seal in clear bags (current advice was that there is no risk taking up, just grinding and creating dust?). Reuben: not dealing with it. We subcontract it out (decided not to handle it). Use Go-Green and Becky has another contact
    - Lawrence: in Crisis CleanUp, we have contact almost 100% of the folks on the east-side. *We could not be doing this without Salvation Army support and LDS materials!* Reuben seconds this! Also, city debris pickup
  - Mary: Case Management will not meet again until February 13th
  - Tom D.: Unfortunately, we had 2 groups drop out. Moved to SC (not Detroit). Will correct that info. First group will come in the first full week of March. Working with Reuben, so we need to transition to Becky directly. Reuben to coordinate w/ Tom
  - Reuben: AHV is closing project this month (January 31st). Can see high levels of unmet needs, and attention has been too low (vs. what it deserves). So very proud of all the efforts of everyone here. Have 12 volunteers in field today. A couple mucks/guts and rebuilds to finish. Will provide final report. 12,000 hours w/ nearly 400 volunteers. New funding means we can come back (irons in the fire for a later date)
  - DCM – no report (see Mary comment on next meeting)

- Update from Volunteer Committee lead
  - Very, very busy in Flint. Still available to support (just call and/or email). Thank you AHV! Reuben: thank you Chad and celebrate our work and collaboration we've had here in Detroit!

- Next meeting: Chad to update

Adjourn: 2:31pm

American Red Cross

Flint Water Crisis
Community Volunteer Resource Center (VRC)
Event-Based Volunteer Engagement Manual

V1_January 13, 2016

Community Volunteer Resource Center Overview

Overview:

Damaged infrastructure and the leaching of lead into the city's water caused damage to public and private water infrastructure and has caused or threatened to cause elevated blood lead levels especially in the population of children and pregnant women. The water situation has resulted in an immediate threat to public health and safety and disrupted vital community services. The city, county and state have all declared a state of emergency and have begun distributing required resources on a city-wide level. Stakeholders, (ex. NGOs, faith-based organizations, businesses and government agencies), acknowledge that a critical component of the Flint Water Crisis response and recovery is a sustainable community volunteer staffing solution.

Purpose:

The purpose of the Community Volunteer Reception Center (VRC) is to leverage the community partner agencies' expertise recruiting and managing event based volunteers to address the staffing needs of government agencies, community partners, and stakeholders.

The VRC will:

- Expand the existing workforce to meet urgent staffing needs and encourage long term planning of EBV staffed: events, work sites, activities, etc...
- Help set the strategic direction for building, sustaining and delivering the response and recovery programs to facilitate individual, family and community recovery.
- Serve as a mechanism/tool to recognize, capture and focus the good will of the local, regional and national communities and their interest in supporting the city of Flint and its citizens.
- Acknowledge, capture and focus the good will of the local, regional and national communities to support the response and recovery of the city of Flint and its citizens.

Volunteer Expectations:

- Match the need of the assignment with the skill set and ability of the volunteer.
- Orientation, education, training, safety briefing and job assignment.
- Providing an efficient and effective volunteer intake process and satisfying work assignment experience.

Definitions of Volunteers

An event-based volunteer (formerly spontaneous or community volunteers) are those people who volunteer for a specific event or disaster and who have no previous affiliation with the Red Cross.

The CVRC (supported by all partner agencies) will handle the scheduling of volunteers for all efforts requested. There are four types of volunteers that will be scheduled:

1. Event-Based Volunteers for the American Red Cross – Volunteers that are registering to support American Red Cross Efforts
2. Event-Based Volunteers for Partner Agencies – Volunteers that are registering to support Partner Agencies

Roles of the Community Volunteer Reception Center

State Community VCR Liaison – The Michigan Community Service Coalition (MCSC) will work in this role to clarify and streamline volunteer project requests from the state and local Emergency Operations Centers (SEOC and EOC respectively) and connect those requests to the point of contact (POC) at the Community Volunteer Reception Center (VRC). This position would serve to facilitate communication between the EOC structures and the VRC and affiliated partners.

Community VCR Lead – Oversees the Community Reception Center operation. Ensures the efficiency of operation within the Community VRC. Brief and assign tasks to staff and volunteers of the center. Monitor the operation and make changes as necessary. Regular Communication with the Community Volunteer Reception Center Workforce Coordinator and State Community VCR Liaison.

Community VRC Workforce Coordinator – Serves as the Point of Contact for Partner Agencies and Stakeholders. Review all Volunteer Workforce Request Forms for accuracy, clarity, and completion. Follow up with Volunteer Workforce Request Forms with partners as needed. Submit approved volunteer workforce request forms to the Community VRC. Communicate to Partner Agencies and Stakeholders.

Reception Volunteer - The receptionist is responsible for being the first point of contact into the VRC and therefore sets the tone of the experience during the registration process. The receptionist is responsible for two primary things, initial direction and setting expectation.

Registration Volunteer - The Registration Station allows prospective EVBs register with the American Red Cross or for the Flint Water Crisis.

Interview Volunteer - The interviews allow for more information about the prospective EVB to be gathered, while assessing whether or not this prospective EVB would be interested in learning more about the volunteer opportunities available in the area.

Placement Volunteer – Ensures completion of registration packet, Place the new Event Based Volunteer for shifts when they are available. Will have their availability collected and possibly scheduled if available and matches..

Training Volunteer - The trainer will be responsible for having a brief orientation and training with the EVBs before they are sent into the field.

Data Entry Volunteer – Enters request for Volunteers and Volunteer Registration Forms into the computer. Maintains daily placement log and schedule.

Staff Wellness Volunteer – Reviews pre-health questionnaire to ensure EVB can complete the task. Must be a registered nurse.

Marketing/Communication Plan

The Community Partners and Stakeholders will create a plan together how to reach out through volunteers through the Internet and media. Information included is the current need for volunteers, with the knowledge, skills, and abilities needed, the Community VRC Location, Hours of operation, information on the VRC Process (such as background checks).

Facility Set-Up

The Community VRC facility should be setup with the following designated areas:

- Management
    - Space for the lead
- General information
    - Table or wall space for general disaster information, opportunities, and information on participating information
- Registration
    - Space with tables, chairs, and computers for potential volunteers to complete applications.
- Interview
    - Space for interviewing prospective volunteers prior to placement
- Training
    - Two or more spaces for orientation and other disaster training
- Placement
    - Space for workers to track open positions and place volunteers into those position

- Canteen
    - Space for snacks and staff breaks
- Staff Wellness (SW)
    - Space with privacy for volunteers to meet with SW

Ensure that there is signage up for each station as well as at the entrance and parking.

Receiving Requests

The VRC will receive request the following way:

1. All partner agencies are to complete the Volunteer Workforce Request Form when there is an established need for the use of volunteers.
2. All Volunteer Workforce Requestors must understand the following items:
    a. The requestor of the volunteers must assume responsibility for the volunteer's safety and actions, as well as take responsibility for management and direction while on worksite
    b. 48 hour advance notification is required for all volunteer requests and reasonable expectations
3. All Volunteer Workforce Requests must include the following information:
    a. Date of Request
    b. Requestor's name and contact information
    c. Job Description
    d. Supervisor on site
    e. Location of site
    f. Date and time (broken into shifts as needed) Volunteers are Needed
    g. Number of volunteers
    h. Qualifications
    i. Is there transportation for the Volunteers? Where should they meet?
    j. Will lunch and/or snack be provided?
    k. Any additional notes
4. Once the form is completed and approved by the partner agency it is then submitted MCSC Liaison or CVRC Workforce Coordinator
5. The MCSC Liaison or Workforce Coordinator reviews the request to ensure that it is a reasonable request for volunteers
6. After approved, the MCSC Liaison will send the request to the VRC Lead.
7. The VRC Lead will review the request.
    a. If there are no questions, the VRC POC will send to the Supervisor of the VRC.
    b. If there are no questions, the VRC POC will contact the MCSC Liaison.
        i. The MCSC Liaison will answer any questions to the VRC POC.
        ii. If needed, the MCSC Liaison will go to the Partners/Stakeholders
8. Add the request to the list of opportunities available for Event-Based Volunteers.
9. The VRC will fill the staff request with Event-Based Volunteers to the best of their ability.
10. The MSCS Liaison and Workforce Coordinator will submit to the Partners/Stakeholders so that they are aware of the status of request.

Intake of Volunteers

The VRC will volunteers as follows:

1. Event-Based Volunteers for the American Red Cross
    a. They will check in with the Registration table
    b. Complete the paperwork
        i. Media Consent
        ii. Pre Member Health Registration
    c. EBV will apply online through a portal set up by the American Red Cross
        i. They will complete an online profile
        ii. Read and sign code of conduct and CIIPA
        iii. Initiate a background check
    d. Once the application is complete, a training volunteer will complete an in-person interview
    e. The placement volunteer will ensure completion of the Pre-Assignment Health Questionnaire, ensure completion of Background Check, placement of volunteers, and availability of volunteers.
    f. The training volunteer will ensure training and orientation of volunteer.
    g. The staff-wellness volunteer will review form (must be a Registered Nurse).
2. Event-Based Volunteers for Partner Agencies
    a. They will check in the Registration Table for the American Red Cross
    b. EBV will complete paperwork
        i. Application
        ii. CIIPA
        iii. Business Code
        iv. Media Consent
        v. Pre Member Health Registration
    c. Once the application is complete, a training volunteer will complete an in-person interview
    d. The placement volunteer will ensure completion of the Pre-Assignment Health Questionnaire, ensure completion of Background Check, placement of volunteers, and availability of volunteers.
    e. The training volunteer will ensure training and orientation of volunteer.
    f. The staff-wellness volunteer will review form (must be a Registered Nurse).

VRC Station Process

I. Reception Station
   a. The receptionist is responsible for being the first point of contact into the VRC and therefore sets the tone of the experience during the registration process. The receptionist is responsible for two primary things:
      i. Initial direction
         1. If registering with the American Red Cross, give the prospective event based volunteer (EBV) both the Health and Media Consent form.
         2. If choosing to go unregistered with the American Red Cross, give packet of forms.
            a. Once they are done with the packet, they then go to the interview station
      ii. Setting expectations
         1. There may be situations where when a prospective event based volunteer may not be able to volunteer immediately. In such cases, communicate with the EBV that they will complete an availability sheet and be contacted when an opportunity is available to volunteer.

II. Registration Station
   a. The Registration Station allows prospective EVBs to begin their Volunteer Connection account and makes them an official Red Cross volunteer.
   b. For efficiency, this role is to be staffed by a Volunteer Services AmeriCorps Member. This individual is responsible for two things:
      i. Resetting the computers to the Entry Point homepage, allowing for easy access when signing up.
      ii. Answering any questions about Volunteer Connection for the prospective EVB.

III. Interview Station
   a. The interviews allow for more information about the prospective EVB to be gathered, while assessing whether or not this prospective EVB would be interested in learning more about the volunteer opportunities at the Red Cross and getting involved in other areas.

IV. Placement Station
   a. The Placement Station is the most important station in the VRC because this is where the new Event Based Volunteer will have their availability collected and possibly scheduled.
   b. The Placement Station will serve under these functions:
      i. If volunteering with the ARC; Check the profile to ensure all steps have been completed in Volunteer Connection

ii. If not volunteering with ARC, run ICHAT background.
iii. When the EVB comes to the station, take the Health and Media Consent form as well as the interview and paperclip them together
    1. If the Health Consent has a yes checked, send to the Staff wellness.
        a. If they can volunteer for an opportunity available, they would proceed to the Placement Table.
iv. Go over the job opportunities that are available
v. Go over the DRO Assignment Sheet
vi. Complete the excel Assignment Sheet to log the schedules and shifts. This will be essential in calling volunteers back when assignments do open
vii. Add to the placement list
viii. At the end of the day, pull the excel sheet and see if there are any previous shifts that could be filled

V. Training Station
    a. The trainer will be responsible for having a brief orientation, training, and safety overview with the EVBs before they are sent into the field.

Call Back Process

If a volunteer is available for other opportunities complete the following process:

I. Call back the volunteer and schedule them.
    a. If scheduling, place on schedule and indicate that you called them back.
    b. Update any further availability that they might have.
    c. If leaving a message, please indicate what the need is and a number to call back
II. There is also the option to send an email to all volunteers with shifts as needed asking to email back if they can fill a schedule.

December 2014

Fact Sheet

Emergency or Disaster Declaration Process

The Michigan Emergency Management Act (Public Act 390 of 1976, as amended) outlines the emergency management process for the state of Michigan. If an incident exhausts state resources, the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 USC §§ 5121-5207) establishes the process for requesting and obtaining a presidential disaster declaration and assistance from the federal government.

STEP BY STEP: Emergency or Disaster Declaration Process

1. Disasters are first and foremost local events. Most disasters are handled by local government with minimal or no state assistance. At the onset of a disaster or emergency, local emergency responders, joined by volunteers and the private sector, are the first to be involved.

2. A local jurisdiction may declare a "Local State of Emergency" exists when they have sustained widespread or severe damage, injury or loss of life or property. A local declaration ensures the response and recovery aspects of the emergency operations plan have been activated, and local resources are being utilized to the fullest extent possible. Authorities may authorize local aid and assistance.

3. If recovery efforts are beyond the ability of local government, the community may turn to the state to request assistance. All requests for assistance are channeled through the Michigan State Police, Emergency Management and Homeland Security Division.

4. The Michigan State Police, Emergency Management and Homeland Security Division reviews specific requests for state assistance and makes recommendations to the Governor's Office. The Governor's authority, granted by the Michigan Emergency Management Act, may include mobilizing state government agencies to provide necessary support and assistance to local authorities under a "State of Emergency" or "State of Disaster" declaration.

5. If state and local government resources are unable to cope with the emergency or disaster, the Governor may request assistance through the U.S. Department of Homeland Security (DHS), Federal Emergency Management Agency (FEMA), Region V Office in Chicago

6. At the request of the Governor, FEMA may conduct a Preliminary Damage Assessment (PDA) in cooperation with state and local emergency management officials The results of the PDA will be reviewed by state officials and the Governor's Office and used as a basis for determining whether to request federal financial assistance.

7. Should the state request federal disaster assistance, FEMA will review the request and make a recommendation to the president, who will make the final determination on any disaster aid to be provided to the state. The goal of disaster assistance is not to make individuals, businesses or government entities whole again, but to restore the community to a level that meets expected health and safety considerations.

January 4, 2016

Honorable Rick Snyder
Governor
Office of Governor
State of Michigan
P.O. Box 30013
Lansing, MI 48909

SUBJECT: REQUEST FOR GOVERNOR'S EMERGENCY/DISASTER DECLARATION

Dear Governor Snyder:

On January 4, 2016 pursuant to Section 10 of Act 390, P.A. 1976, as amended, I declared that a "State of Emergency" exists in Genesee County due to the introduction of lead into the public water system and subsequently elevated blood lead levels exceeding governmental standards. The response and recovery aspects of the Genesee County emergency operations plan have been activated, and local resources are being utilized to the fullest extent practicable. Despite these efforts, local resources are not sufficient to cope with the situation.

Therefore, in accordan ce with Section 12 of Act 390, P.A. 1976, as amended, I deem this incident to be beyond the control of Genesee County, and I respectfully request, for and on behalf of the citizens of Genesee County that the Governor declare a "State of Emergency/Disaster" exists therein and that consideration be given, if conditions warrant, to petitioning the President of the United States for assistance provided by Public Law 93-288, as amended. In support of this request, we will submit specific damage assessment data through official channels and in accordance with the guidance in EMD PUB-901 (*Damage Assessment Handbook)* within three (3) days of this disaster, unless circumstances dictate an earlier submittal as requested by the Emergency Management Division, Department of State Police. Furthermore, I understand that this request will not be acted upon without sufficient damage assessment data to substantiate the need for assistance.

Specifically, I request the following assistance:

ESF #3 / Infrastructure Systems Recovery Support Function support to include but not limited to:

- Post-incident assessments of public works and infrastructure
- Executing emergency contract support for life-sustaining services

- Providing technical assistance to include engineering expertise, construction management, contracting, and real estate services
- Providing emergency repair of damaged public infrastructure and critical infrastructure

ESF #8 support to include but not limited to:

- Assessment of public health/medical needs
- Health surveillance
- Medical care personnel
- Patient care
- Behavioral health care
- Public health and medical information
- Potable water

ESF #11 support to include but not limited to:

- Provision of nutritional assistance
-

Accordingly, be advised that Christopher DeVriendt, Interim Genesee County Emergency Management Manager will provide liaison and coordination with State and Federal authorities for assistance related to this disaster, and in accordance with Section 14 of Act 390, P.A. 1976, as amended, he is directed to transmit this request to the appropriate State Police Emergency Management Division (EMD) District Coordinator by the most expeditious means.

Authorized By:

Jamie Curtis - Chairperson
Genesee County Board of Commissioners

At meeting/on call: Tom L, Lawrence, Tom N, Annette, Reuben, Chad, Justin, Becky, Bob
Excused: Mary

Open: 3:02pm

- Introductions

- Update of activity
  - VOADs
    - MDS – 25-30 volunteers ready starting next Monday. Set on volunteers through April! Working a lot w/ Michelle in Osborn (using 211/Crisis CleanUp). Reached out to 5 new homes (1 home has 3 adults and 9 children!)... excited for help
      - Bob – any major electrical or plumbing? SBDR is not doing any new work in this capacity. Lawrence – electrical has no new work, plumbing has had some work done through contractors (MDS has picked up the tab on what is not covered)
      - Bob – are you still in Jefferson Chalmers? Lawrence – yes, we have a couple left, and working w/ Mary, but more Osborn focused
    - AHV – Phase 3 (rebuild): 31 rebuilt, and mucked/sanitized 67. 387 volunteers so far, and just shy of 12,000 hours of work! Busy January... at capacity for this month. 16 volunteers in the field today
    - SBDR – had a team of 8 from OK last week (Christmas to January 2nd). 2 homes rebuilt and 3rd was a veteran's home rebuild (so, 3 total). No volunteers until early March. 40-80 people signed up for all March... 20-25 homes in Warren left, only 6 need finishing. Assessed in Pershing (3 before Christmas, 2 others to do right now). A lot of Pershing will be muck/sanitation! Sending a half dozen people there to help wheelchair bound person. Did have 4 men with World Renew to review facility (working in partnership with them). Looking to do 1-2 day, in-state assistance. May have some people go out to Missouri...
    - NW Detroit Flood Recovery Project – busy doing DCM. 86 active cases! Waiting on many to do rebuilds. Have about 12 rebuilds in progress. AHV partnership is going well. Looking for funds for furnaces/water heaters (had success w/ funds there). Bob Bruttell has helped w/ a couple roofing projects
    - Presbytery – Tom Neal: a number of groups coming in (looking for places to work). Working w/ AHV recently. Can AHV handle? Becky/Reuben – have to hold off on anything past... AHV is funded through January. Hoping for end of May or August, but additional funding is needed by January end! Becky – "Plan B is in the works". Tom – need site managers. Justin – can Bob/SBDR also direct? Bob – we can house, direct, etc. Bob – had a high school group ask to help (couldn't handle), but can w/ a parent/guardian
    - Alafia – social media campaign happening for assistance (volunteers and materials). Looking to work w/ a local radio station. We should reach out in to the communities themselves. ID'ed foundations and big box stores to donate furnaces and water heaters (have contacts ID'ed and will be approaching). Justin – will follow-up with Annette and Becky to work on this

- DCM
  - Do not have the funding for appliance replacement (hence Alafia's involvement). Mary and Lawrence have found 8 homes with appliance needs. Take in to consideration pre-existing needs and flood related needs, and have DCMs on hand w/ extensive social work background to assist. State Emergency Relief Fund contact – looking to redefine what constitutes an emergency (time period issue). We still have ongoing issues. *Will send time/date for Wed/13th DCM meeting.* Working on a DTE free furnace inspection project. MI VOAD meeting was excellent, and there is higher involvement (Annette/Alafia, social media increase – send details to Gene Rivers, *GoFundMe account set up*, and asked to take issues to parent organizations.) Talked w/ April Wood re: small grants (NVOAD) that are coming up. *And we are also looking to approach big box stores at the national level (in-kind donations).* Need lists of needs

- Any issues, best-practices, or needs?
  - Tom – is there going to be a MLK Day of Service this year? Reuben – yes, we will be accommodating more volunteers. Recruited some extra people, just in case. Looking for 30/day. PR work to get the word out! Chad to support this

- Update from Volunteer Committee lead
  - Confirm a timeline w/ SEMIFRG and funding! Justin – Detroit is an exception from the normal process; some people nationally are involved to push the funding. $50,000 grant is also a possibility
  - Becky – communication to the Executive Committee? Justin – need a broader meeting. Bob is a good example of involvement from EC. Chad – communicate directly (send emails to Sandra). Need for the EC to contact the NW Detroit Flood Recovery Project and the other groups involved
  - Nechama also looking to be here April and again (depending on support) in the Spring/Summer

- Next meeting – Chad will send invite

Adjourn: 3:58pm

Flint Water Lead Project

Michigan Department of Health and Human Services
Situation Report for January 14, 2016

Governor Snyder declares a state of emergency for Genesee County due to the health and safety issues related to lead in city of Flint drinking water.

The Community Health Emergency Coordination Center (CHECC) is at Level 2 Activation

****NOTE: Contains potentially Identifiable Information- REDACT AS INDICATED****
New items for the day listed first and in bold print.

Daily Briefing and Situation Report prepared by Linda Dykema

Surveillance Indicators: People Tested for Lead 10/1/2015 to 1/8/2016: 2,642;
Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 28
Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 15
Severity Indicators: Hospitalized/Discharged - 1/1; Deaths - 0

DAILY ACTIVITY SUMMARY

Elevated Blood Level (EBL) Environmental Investigations – ETC Contractors, Wes Priem, Courtney Wisinski

- EBL report through 1/12/2016
  - 23 families contacted
  - 16 EBL investigations completed.
  - 16 Water sampling completed.
  - 9 EBL Reports Received.
    - 8 homes with lead dust hazards
    - 3 homes with lead in soil hazards
    - 7 homes with lead-based paint hazards
    - 4 homes with lead detected in tap water
      - 3 homes with lead water levels less than 5 ppb
      - 1 home with lead water levels greater than 15 ppb
  - 5 investigations scheduled.
  - 5 applications received for the Lead Safe Homes Program, 1 family enrolled.
- 1 home was found to have elevated lead concentrations (72 ppb) in water from a bathroom tap. The family has been advised not to use the tap for consumption or brushing teeth. An additional filter will be provided to the family and options for replacing the fixture will be explored.

MDHHS/Genesee County Health Department (GCHD) Case Management (CM) Services – Nancy Peeler

- CM report through 1/8/2016:
  - # of contacts attempted: 186 (0-5 year olds) and 12 (6-17 year olds)
  - # offered CM: 134 (0-5 year olds) and 12 (6-17 year olds)
  - # CM started: 25 (0-5 year olds) and 3 (6-17 year olds)
  - # of children receiving CM who live in Flint: 25 (0-5 year olds) and 3 (6-17 year olds)
  - # billed to Medicaid: 14 (0-5 year olds) and 1 (6-17 year olds)
  - # other disposition: 30 (0-5 year olds) and 1 (6-17 year olds)

Epidemiology/Surveillance – Corinne Miller, Patti McKane, Martha Stanbury, Bob Scott, Jessica Cooper

- **Developed/updated Talking points to respond to Legionella questions.**
- **Completed Summary report describing second illness wave case investigations.**
- **Updated Analysis/Summary on first illness wave investigation with recently acquired patient information and illness-related mortality standard.**
- **Supplied Legionellosis cases to Vital Records for linkage to ascertain any unreported deaths.**
- The Governor's office held a press conference on Legionnaires disease in Genesee County.
- Blood lead level testing report through 1/8/2016 submitted to the JIC.
- Dr. Hanna-Attisha provided the first set of requested data as approved by MDHHS IRB.
- The data specifications and metrics were developed for a report to measure blood lead testing of children in Flint who are enrolled in Medicaid. The preliminary report will be reviewed week of 1/11/15.

Filter & Water Distribution Sheryl Thompson

Filter report through 1/13/2016

	Received	Distributed	Remaining
Water Filters	22,000	13,008	8,992
Water Pitchers	720	409	311
Replacement Cartridges - Brita	19,400	3,367	16,033
Replacement Cartridges - PUR	5,706	375	5,331
Replacement Cartridges - Zero	375	205	170

Communications/Information Sharing – Linda Dykema, Eden Wells

- **Weekly HHS internal briefing.**
- **Weekly coordination call with GCHD.**

Health Education Resources Updates - Michelle Bruneau, Emily Houk

- Continuing to write and coordinate additions to the EBL Case Manager Binder, now known as the MDHHS Lead Safe Family Guide Book. (MB)
- Began work on filter cartridge changing fact sheet; clarifying uses of filtered/vs unfiltered water (MB)

Toxicology - No Updates

WIC - No updates.

Healthcare/Providers - No updates

DEQ Information - Linda Dykema as Liaison

- DLARA plumbers are replacing fixtures at Freeman Elementary School that were previously tested and found to have > 15 ppb of lead in the water. MDEQ will conduct a "deep flush" of the school plumbing since many lines have been unused for several months. MDEQ will then retest of the water from the new fixtures to confirm whether or not these efforts have been effective in reducing or eliminating exposure to lead in the water.

SEMIFRG Executive Committee Minutes

January 14th, 2015

Attending or on call: Lyke T., Rev. Greg R., Angie S., Chad V., Bob B., Greg G.

Excused: Ginna H., Sandra C.

Executive Summary

- Bob – Support AHV. Work w/ Becky if church connection is an issue
- Bob – work to meet with Charlie Beckham and Jerry Norcia
- Ky and team – Stories to generate for media outlets. See notes (Lyke idea)
- Chad – confirm address w/ MNA (for correspondence)
- Chad – work with Rev. Roberts and Ginna to have the two meet (call)
- Greg – reach out to Faith Fowler

Welcome 1:10pm

I. **Old Business**

II. **Committee Report Outs**

- Communications (internal and external)

- Volunteer Management
  - Please see the attached notes from last week's meeting. **All Hands Volunteers needs help (funding short after January)!**

- Fund Development
  - Greg G. – update on status?
  - Lyke – have not heard much. GHHI is having funding difficulty. Neighborhood groups are also having issues w/ funding. Policy shift has contributed (new construction or major new rehab)
  - Rev. Roberts – Ginna and I were to talk about reach out program to clergy. *Haven't had the meeting yet. Chad to coordinate*
  - Bob – looked for money from DTE re: case management. Profile is too low. Wanted to know who we had that could make that difference? *Charlie Beckham could elevate the profile! Bob has reached out (no response, yet). Jerry Norcia would be another person to approach (and another person was mentioned).* Meetings coming. Construction group is sending an article out in the magazine, and are looking to add to newsletter
  - Greg G. – another LDS shipment of supplies offered. *Chad to determine if MNA address is correct*!

- Disaster Case Management

- Need update from Mary/Sam.

- Funders Forum/Unmet Needs
  - See detail below:

III. **New Business**

- Greg G. – Ginna had some ideas in partnership w/ Flint. But… situation has changed (for the worse) in terms of notice. Lyke – if Ginna is correct, we could get the funding rolling for the AmeriCorps program. Fundraising should go towards keeping teams here (AHV)!
- Greg G. – need to work w/ Becky and NW Detroit Flood Recovery Project. **Bob to reach out and help funding process!**
- Bob – reception has been very low; no political will present. Approach we're taking doesn't seem to be working.
- Greg G. – attention is very different in Flint (man-made and children, and heavy political component) = easy to gather interest.
- Lyke – maybe the way we're presenting this is not attractive. Not sure that the media attention is correct – list key media outlets (*Ky to pursue?*) and talk about individuals
- Greg G. – Work w/ Faith Fowler. Bob – concur. Work w/ Ky and Faith (and a neighborhood)
- Lyke – *3 part plan: family, community org., and the flood organization. First step is to work w/ Ky (agreement/adjustment) and AHV/MDS to ID families to for stories and then target specific media person to do this*
- Angie – DTE Test and Tune program pushed back.
- Bob – a DTE meeting I attended relayed that the program was ineffectual. They mentioned Bob and concentrating on one neighborhood…

IV. **Next Meeting** Chad to schedule (on behalf of Sandra)

Adjourn 1:53pm

American Red Cross

Volunteer Workforce Requests

REQUIRED INFORMATION:

- Brief job description is required
- The requestor of the volunteers must understand they assume responsibility for the volunteer's safety and the volunteer's actions
- The requestor of the volunteers is responsible for managing and providing direction
- 48 hour advance notification required for request
- Reasonable expectations of the volunteer workforce

Today's Date:	
Requestor's Name:	
Requestor's Cell Phone:	
Requestor's Email:	
Who will be serving as the volunteer's supervisor?	
Where do volunteers report? (Name of Facility, Address, City, Zip)	
What Dates are volunteers needed?	
What times are volunteers needed?	
How many volunteers are needed?	
Who is providing transportation for the volunteers?	
Does the volunteer need to provide their own lunch or will the requestor provide meals, snacks and beverages?	
Are there any qualifications needed?	
Additional Notes:	
Submit Request to:	Justin.Bays@redcross.org

Flint Water Lead Project

Michigan Department of Health and Human Services
Situation Report for January 12, 2016

Governor Snyder declares a state of emergency for Genesee County due to the health and safety issues related to lead in city of Flint drinking water.

The Community Health Emergency Coordination Center (CHECC) is at Level 2 Activation - Elevated Threat/Alert Mode.

****NOTE: Contains potentially Identifiable Information- REDACT AS INDICATED****
New items for the day listed first and in bold print.

Daily Briefing and Situation Report prepared by Linda Dykema

Surveillance Indicators: People Tested for Lead 10/1/2015 to 12/18/2015: 2,182;
Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 23
Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
Adults 18 years and older ≥ 5 µg/dl since 10/1/2015. 13
Severity Indicators: Hospitalized/Discharged-1/1; Deaths- 0

DAILY ACTIVITY SUMMARY

Elevated Blood Level (EBL) Environmental Investigations – ETC Contractors, Wes Priem, Courtney Wisinski

- EBL report through 1/12/2016
  - 22 families contacted
  - 14 EBL investigations completed.
  - 14 Water sampling completed.
  - 7 EBL Reports Received.
    - 6 homes with lead dust hazards
    - 3 homes with lead in soil hazards
    - 5 homes with lead-based paint hazards
    - 2 homes with lead detected in tap water
      - 0 homes with lead water levels >5 ppb
      - 0 homes with lead water levels >15 ppb
  - 6 investigations scheduled.
  - 5 applications received for the Lead Safe Homes Program, 1 family enrolled.

MDHHS/Genesee County Health Department (GCHD) Case Management (CM) Services – Nancy Peeler

- CM report through 1/8/2016:
  - # of contacts attempted: 186 (0-5 year olds) and 12 (6-17 year olds)
  - **# offered CM: 134 (0-5 year olds) and 12 (6-17 year olds)**
  - # CM started: 25 (0-5 year olds) **and 3 (6-17 year olds)**
  - # of children receiving CM who live in Flint: 25 (0-5 year olds) **and 3 (6-17 year olds)**
  - # billed to Medicaid: 14 (0-5 year olds) and 1 (6-17 year olds)
  - # other disposition: **30 (0-5 year olds)** and 1 (6-17 year olds)
- Weekly Flint Case Management call:
  - Discussed challenges regarding EBL investigations. GCHD reports that families are resistant to allowing EBL investigation for many reasons. Discussed providing participation incentives, potential of using texting to communicate with families, on-site EBL person, etc.

Epidemiology/Surveillance – Corinne Miller, Patti McKane, Martha Stanbury, Bob Scott, Jessica Cooper

- **Blood testing data through 12/8/2016 pulled from the warehouse and summarized for inclusion in bi-weekly blood count report.**
- Dr. Hanna-Attisha provided the first set of requested data as approved by MDHHS IRB.
- The data specifications and metrics were developed for a report to measure blood lead testing of children in Flint who are enrolled in Medicaid. The preliminary report will be reviewed week of 1/11/15.
- Additional Zip code-specific blood lead data on children in Flint was provided in response to a request from the MDHHS Director.
- Pending: hiring 2 epidemiologists to provide BLL surveillance support.

Filter & Water Distribution Sheryl Thompson

As of January 12, 2016				
	Remaining From Prior Month	Received	Distributed	Remaining
Water Filters	3,585	7000	1549	9,036
Water Pitchers	485	0	181	304
Replacement Cartridges - Brita	7,525	10400	1815	16,110
Replacement Cartridges - PUR	5,632	0	293	5,339
Replacement Cartridges - Zero	370	0	192	178

Communications/Information Sharing – Linda Dykema, Eden Wells

- **Tuesday (8:00 am) briefing with DLARA and MDEQ.**

Health Education Resources Updates - Michelle Bruneau, Emily Houk

- Continuing to write and coordinate additions to the EBL Case Manager Binder, now known as the MDHHS Lead Safe Family Guide Book. (MB)
- Began work on filter cartridge changing fact sheet; clarifying uses of filtered/vs unfiltered water (MB)

Toxicology - Kory Groetsch, Lisa Quiggle, Jennifer Gray

- Working on method(s) to convert lead dust wipe sample results into an intake metric compatible with the IEUBK model.
- Working on Child EBL Access database, which will be used to ensure that each child/family is offered all available SOM services and activities related to EBL cases.

WIC No updates.

Healthcare/Providers No updates

DEQ Information - Linda Dykema as Liaison

- **DLARA plumbers are replacing fixtures at Freeman Elementary School that were previously tested and found to have > 15 ppb of lead in the water. MDEQ will conduct a "deep flush" of the school plumbing since many lines have been unused for several months. MDEQ will then retest of the water from the new fixtures to confirm whether or not these efforts have been effective in reducing or eliminating exposure to lead in the water.**

American Red Cross

Flint Water Crisis
Community Volunteer Resource Center (VRC)
Event-Based Volunteer Engagement

Overview:

Damaged infrastructure and the leaching of lead into the city's water caused damage to public and private water infrastructure and has caused or threatened to cause elevated blood lead levels especially in the population of children and pregnant women. The water situation has resulted in an immediate threat to public health and safety and disrupted vital community services. The city, county and state have all declared a state of emergency and have begun distributing required resources on a city-wide level. Stakeholders, (ex. NGOs, faith-based organizations, businesses and government agencies), acknowledge that a critical component of the Flint Water Crisis response and recovery is a sustainable community volunteer staffing solution.

Purpose:

The purpose of the Volunteer Reception Center (VRC) is to leverage the community partner agencies' expertise recruiting and managing event based volunteers to address the staffing needs of government agencies, community partners, and stakeholders.

The VRC will:

- Expand the existing workforce to meet urgent staffing needs and encourage long term planning of EBV staffed: events, work sites, activities, etc...
- Help set the strategic direction for building, sustaining and delivering the response and recovery programs to facilitate individual, family and community recovery.
- Serve as a mechanism/tool to recognize, capture and focus the good will of the local, regional and national communities and their interest in supporting the city of Flint and its citizens.
- Acknowledge, capture and focus the good will of the local, regional and national communities to support the response and recovery of the city of Flint and its citizens.

Audience:

- Individuals or groups of event-based volunteers (EVBs).
- Community partners and stakeholders, (i.e. non-profit and faith-based organizations, businesses and government agencies).

Volunteer Expectations:

- Match the need of the assignment with the skill set and ability of the volunteer.
- Orientation, education, training, safety briefing and job assignment.
- Providing an efficient and effective volunteer intake process and satisfying work assignment experience.

VRC Operations
Hours: 9 a.m. to 7p m.
Location: American Red Cross
1401 South Grand Traverse
Flint, Michigan 48503
Dial 2-1-1

Flint Water Crisis
Community Volunteer Resource Center
Event-Based Volunteer Engagement
STANDARD OPERATING GUIDELINES

PURPOSE:
The purpose of these Standard Operating Guidelines is to provide guidance and a standardized methodology for decision making in support of the Volunteer Resource Center (VRC) established by the American Red Cross of Michigan, The United Way, and other partner agencies for Event-Based Volunteers of all qualifications.

ASSUMPTIONS:
Volunteers who are not registered with the American Red Cross will comprise the bulk of volunteers who come to this reception center.

SCOPE:
The standard operating guidelines include the activation, responsibilities, policies, staffing, records, communications, equipment, and closing procedures to be used by the Volunteer Management Support Team. Circumstances and conditions may require the Volunteer Management Support Team to deviate from these standard operation guidelines and make decisions that deviate from these standard procedures.

1. ACTIVATION

1.1. Activation will be in accordance with the Regional Disaster Plan

1.2. Upon notice of potential activation, the Volunteer Management Support Team Supervisor will deploy to the Staffing function at DRO headquarters and will notify the Volunteer Management Support Team of their alert status.

1.3. Upon notice of activation, the Volunteer Management Support Team Supervisor will assess support requirements and activate the Volunteer Management Support Team in as per the anticipated need.

1.4. The Volunteer Management Support Team Supervisor will be responsible for alerting and activating the Volunteer Management Support Team staff

2. RESPONSIBILITIES AND POLICIES

2.1. The Volunteer Management Support Team Supervisor will provide guidance and priorities to the Volunteer Management Support Team staff in accordance with directions from the Emergency Management Command Staff and Michigan American Red Cross Emergency Management.

2.2. Housing for Volunteer Management Support Team staff from outside the local area is not guaranteed and will be coordinated by the Volunteer Management Support Team Supervisor through the Staffing function at DRO headquarters.

2.3. Housing for spontaneous volunteers from outside the local area is not guaranteed and will be coordinated by the Volunteer Management Support Team Supervisor through the Staffing function at DRO headquarters.

2.4. Comfort/Feeding of spontaneous volunteers will be coordinated by the Volunteer Management Support Team Supervisor through the mass care function at DRO headquarters.

2.5. Volunteer Management Support Team functions include, but are not limited to:

- Welcoming and registration of unaffiliated volunteers;
- Skill determination through checklist and screening, background check & credentialing;
- Release of liability;
- Data entry;
- Work assignment;
- Identification for entry into work area;
- Safety briefing;
- Coordination of transportation to the work site.

2.6. Volunteers may be instructed to return to the Volunteer Management Support Team at the end of the work day to be released and/or for future assignment.

- Control of rental vehicles and the use of the privately owned vehicles of spontaneous volunteers will be the responsibility of the logistics manager.

2.7. Reception, Classification and Assignment of Volunteers.

- The Volunteer Management Support Team staff will receive spontaneous volunteers either as individuals or as part of groups who wish to volunteer. Volunteers will be asked to fill out a volunteer registration form including personal information and job skills.
- The Volunteer Management Support Team staff will screen each volunteer to verify data and any professional qualifications and will review any prioritized job requirements to determine a volunteer request match.
- When a volunteer is assigned to a job, the DRO Member registration form will be marked with the job assignment and filed with the request for volunteer form in an active file.
- An assigned volunteer will be provided a DRO Assignment sheet to the specific group and activity.

2.8. Identification of Volunteers for Entry into the Disaster Area:

- Once a volunteer is matched for a job, the volunteer will be given a Volunteer Management Support Team ID that will identify the volunteer, the location of the volunteer job assignment, and agency or department that has requested the volunteer as well as the date of authorized entry.
- Spontaneous volunteers will be required to get a current ID for each day that he/she enters the disaster area.
- The Volunteer Management Support Team Supervisor will furnish IDs to the Volunteer Management Support Team.

2.9. The DRO staff training function will provide a safety briefing and job training.

- Each volunteer will be given a general safety briefing relevant to the particular emergency. Specific safety information, as may apply to the assigned task, should be briefed by the group & activity.
- Specific job training may be accomplished by the Volunteer Management Support Team or by the receiving agency or department. The receiving agency will be responsible for special job training unless they have requested and coordinated such training with the Volunteer Management Support Team Supervisor.
- A complete and accurate record of safety and training briefings will be maintained by the Volunteer Management Support Team and the receiving agency.

2.10. Transportation Spontaneous volunteers will coordinate their own transportation to and from work sites.

2.11. At the close of business each day, Volunteer Management Support Team staff will be prepared to receive each volunteer that has been referred to a job, at the conclusion of the work day, to verify that the volunteer is physically safe and has exited from the disaster area. Reassignment for future work may be accomplished at this time.

3. Staffing Listed below are brief descriptions of the minimum positions that should be considered for opening the Volunteer Management Support Team.

3.1. Volunteer Management Support Team Supervisor:
- Manages the daily operations of the Reception Center including:
- Scheduling of Volunteer Management Support Team staff
- Set-up for comfort of the staff and efficient response to volunteers
- Briefs and assigns tasks to Reception Center staff
- Supervises key staff; monitors the operation
- Makes changes when necessary and coordinates with the Volunteer Management Support Team Supervisor regarding changing requirements.

3.2. Greeter:
- Greets and ascertains visitors needs and directs them to the appropriate location
- Assists prospective volunteers with completion of forms
- Stresses that there is no monetary compensation for the work performed
- Ensures that traffic flows as smoothly as possible.

3.3. Screener:
- Conducts a brief screening with a potential volunteer, verifies any professional qualifications and then refers potential volunteer to a job in a receiving agency appropriate to the person's abilities and interests
- Completes a DRO member registration and notes referral on the Volunteer Registration Form.

3.4. Staffing/Volunteer Management Support Team Trainer:

- Provides a general safety briefing to every volunteer that is referred to a receiving agency/opportunity. The briefing will include items about weather, use of gloves, drinking of water, and general safety and common sense. Provides general safety/health coordination including basic first aid at the Volunteer Management Support Team.

3.5. Data Coordinator:
- Collects, organizes and posts information about volunteers and referral
- Prepares daily reports to brief staff on number of volunteers referred, denied, unable to place
- Enters information from Volunteer Registration forms into the computer and prints reports.
- Responsible to the Volunteer Management Support Team Supervisor to ensure that the Volunteer Management Support Team Personnel Sign-In / Sign-Out register is maintained.

3.6. Coordinator of Agency Information:
- Coordinates receiving agency requests with Volunteer Management Support Team Supervisor, collects pertinent information from Volunteer Management Support Team Supervisor about needed volunteer assistance; briefs Volunteer Management Support Team staff regularly on requests.

3.7. Staff Wellness:
- Responsible for reviewing Pre-Assignment Health Questionnaire to ensure that volunteers are able to do the work assigned.

3.8. Additional Support: Additional support may be desired depending upon the emergency, duration of the emergency and availability of equipment and personnel. They may include:
- Phone Bank
- Data Entry
- Public Information – assigned by Incident Command at EOC
- Runners

4. RECORDS

4.1. The Volunteer Management Support Team will open and maintain an historical record of major activities or events, including opening and closing of the Volunteer Management Support Team and changes of personnel.

4.2. A record of personnel working in the Volunteer Management Support Team will be maintained on the Volunteer Management Support Team Agency Personnel Sign-in/Sign-out Form.

4 3 Daily Log Documentation will be completed and signed by all Volunteer Management Support Team Staff personnel daily. The Volunteer Management Support Team Supervisor will verify and sign all forms.

4.4. Disaster Relief Operations Pre-Assignment Health Questionnaire

4 5. All spontaneous volunteers will complete a background check within 6 days.

4 6. Disaster Volunteer Registration Form will be signed by registrant. The Volunteer Management Support Team staff will complete the bottom portion of the form and file the completed form with the Request for Volunteers Form when a *referral to a receiving agency is accomplished.*

4.7 Requests for Volunteers Form:

- The Request for Volunteers Form will be utilized by the Volunteer Management Support Team to track and fill requests for jobs from agencies or departments. Information will be received by the Volunteer Management Support Team Supervisor from a requesting agency. Requests received by the Volunteer Management Support Team direct from an agency will be referred back to the Volunteer Management Support Team Supervisor.
- Receiving agencies will furnish the information on the Request for Volunteers Form to the Volunteer Management Support Team Supervisor.

4.8. Placement Slip: A Placement Slip will be completed by the Volunteer Management Support Team Interviewer upon assignment of a volunteer to a receiving agency. The individual making the referral assignment will initial the slip in the box provided.

- The Placement Slip will be reviewed by the Volunteer Management Support Team
- The receiving agency will collect the Placement Slip, verify any special credentials, provide a job related Safety Briefing and maintain a record of the Safety Briefing.

4.9. Volunteer Sign-Out Register:

- *The Volunteer Management Support Team staff will maintain a Sign-Out* Register to be completed when a volunteer worker has completed work for the day and has returned to the Volunteer Management Support Team.
- This register records that the volunteer has exited the disaster area and is physically safe at the conclusion of the work day.
- The sign-out process permits the reassignment of a volunteer for the following days' work.

4 10. A record of volunteer hours will provide a cross-check for a record of volunteer hours worked that is to be maintained by every receiving agency.

4.11. Every effort will be made by the Volunteer Management Support Team staff to track the volunteer worker into and out of the Disaster Area and to record the workers hours. The Volunteer Management Support Team Safety Officer will document the attendance of each volunteer receiving the safety briefing using the Record of Safety Briefing

5. COMMUNICATIONS

5.1. Communications between the Volunteer Management Support Team Supervisor/EOC and the Volunteer Management Support Team are essential.

5.2. Volunteer Management Support Team Supervisor will provide priority guidance to the Volunteer Management Support Team Supervisor based upon EOC prioritization requirements.

5.3. The Volunteer Management Support Team Supervisor will provide the status of unfilled volunteer job requests to DRO groups and activities daily at 1030, 1530 and end of day or closing of the Volunteer Management Support Team for the day.

6. SIGNS AND EQUIPMENT

6.1. A list of recommended signs for possible use at the Volunteer Management Support Team.

6.2. A list of Equipment and supplies for the Volunteer Management Support Team.

7. CLOSING RESPONSIBILITIES

7.1. The Volunteer Management Support Team Supervisor will ensure that all Records and Logs will be closed and forwarded to the Volunteer Management Support Team Supervisor at DRO Headquarters.

7.2. Total work hours recorded on the Volunteer Management Support Team Personnel Sign-In / Sign-Out register should concur with the cumulative hours claimed on Daily log Documentation forms.

7.3. Total dollars recorded on Expenses Incurred by Volunteer Management Support Team should concur with the cumulative Material costs claimed on the Daily log Documentation forms.

7.4. The area utilized as the Volunteer Management Support Team will be generally cleaned and furniture and equipment returned to their normal location. Borrowed equipment/furniture shall be returned to its owner. Assistance to move/store purchased equipment/furniture may be requested through Logistics *via the Volunteer Management Support Team Supervisor.*

7.5. After Action Reports will be completed by Volunteer Management Support Team staff positions as defined in paragraph 3.2 through 3.8, at the conclusion of any activation and will be forwarded to the Volunteer Management Support Team Supervisor.

7.6. After Action Reports are due to the Volunteer Management Support Team Supervisor within 24 hours of de-activation.

American Red Cross

Flint Water Crisis
Community Volunteer Resource Center (VRC)
Event-Based Volunteer Engagement

Overview:

Damaged infrastructure and the leaching of lead into the city's water caused damage to public and private water infrastructure and has caused or threatened to cause elevated blood lead levels especially in the population of children and pregnant women. The water situation has resulted in an immediate threat to public health and safety and disrupted vital community services. The city, county and state have all declared a state of emergency and have begun distributing required resources on a city-wide level. Stakeholders, (ex. NGOs, faith-based organizations, businesses and government agencies), acknowledge that a critical component of the Flint Water Crisis response and recovery is a sustainable community volunteer staffing solution.

Purpose:

The purpose of the Volunteer Reception Center (VRC) is to leverage the community partner agencies' expertise recruiting and managing event based volunteers to address the staffing needs of government agencies, community partners, and stakeholders.

The VRC will:

- Expand the existing workforce to meet urgent staffing needs and encourage long term planning of EBV staffed: events, work sites, activities, etc...
- Help set the strategic direction for building, sustaining and delivering the response and recovery programs to facilitate individual, family and community recovery.
- Serve as a mechanism/tool to recognize, capture and focus the good will of the local, regional and national communities and their interest in supporting the city of Flint and its citizens.
- Acknowledge, capture and focus the good will of the local, regional and national communities to support the response and recovery of the city of Flint and its citizens.

Audience:

- Individuals or groups of event-based volunteers (EVBs).
- Community partners and stakeholders, (i.e. non-profit and faith-based organizations, businesses and government agencies).

Volunteer Expectations:

- Match the need of the assignment with the skill set and ability of the volunteer.
- Orientation, education, training, safety briefing and job assignment.
- Providing an efficient and effective volunteer intake process and satisfying work assignment experience.

VRC Operations
Hours: 9 a.m. to 7p.m.
Location: American Red Cross
1401 South Grand Traverse
Flint, Michigan 48503
Dial 2-1-1

CITY OF FLINT
INCIDENT ACTION PLAN
STATE OF EMERGENCY

RETAIN THIS IMAGE
RETAIN THIS IMAGE
RETAIN THIS IMAGE

Objectives:

To provide short term relief and long term solutions in addressing the man-made emergency of increased lead levels in the City of Flint (the "City") water system resulting from the switch to Flint River as the City's water source as well as the threat to public health related to elevated blood lead levels in Flint residents, without interruption of the provision of public safety and other essential public services. Due to the fluidic nature of emergencies and the complexity of the City of Flint's declared emergency, this plan serves as a framework and may be altered as the emergency develops.

The Response Framework

The purpose of this plan is to organize efforts on behalf of the city to assess the extent of the City's infrastructure needs and risks to public health, provide immediate relief to those who are at risk, and establish long term solutions. In addition, the city must ascertain what immediate relief and long term solutions the City is capable of implementing based on what resources are available. For any activities that are beyond the resource capacity of the City, external sources of funding, supplies, and manpower must be sought.

There are a number of steps that must be taken in accordance with the Flint Emergency Support Operations Plan (SEOP), in order for the City to be compliant with the Genesee County Emergency Action Guidelines. These include the activation of the Incident Management Team, the Emergency Operation Center, and the sharing of essential documents with the County, including this plan. Information must also be shared by the City's Public Information Officer on a regular basis, as required by the SEOP.

This plan calls for the provision of immediate relief to those at risk in our community. Special consideration must be given to residents who belong to underserved groups, such as those who are homebound, undocumented, in poverty, etc. Additional consideration must also be given to the equitable provision of services throughout our community in order to equally protect the health and safety of every member of our community.

Implementation of this plan is to be conducted by the Incident Management Team, which will monitor the effective delivery of goods and services in order to address the conditions of the emergency.

Understanding the Issue:

October 1, 2015, the Genesee County Health Department issued a Public Health Emergency after elevated blood-lead levels were found among children in the City of Flint. This incident correlates with elevated levels of lead found in the City's drinking water after the City switched water sources in April of

2014 to the Flint River. The scope of this problem appears to be limited to Flint City Water Customers and their dependents. Public agencies from several levels of government, as well as charitable, nonprofit organizations have partnered with the City to provide immediate relief to Flint residents, including the expansion of health services, the provision of bottled water and NSF rated water filters. The city is also seeking long term infrastructure improvements to eliminate lead and other contaminants from the water system.

Gov. Rick Snyder appointed a task force to review "actions regarding water use and testing in Flint" and to make recommendations for future guidelines: Members of the state task force are Ken Sikkema of Public Sector Consultants, Chris Kolb of the Michigan Environmental Council, Dr. Matthew Davis of the University of Michigan Health System, Eric Rothstein of the Galardi Rothstein Group and Dr. Lawrence Reynolds of Mott Children's Health Center.

In an effort to halt the further escalation of this crisis, the City returned to receiving its water from the Detroit Water and Sewerage Department (DWSD) on October 16, 2015. Since that time, additional corrosion control program has started, estimating a reduction of lead levels over the next six months. In light of these efforts, concerns surrounding the quality of water and health of the residents persist to the point that Mayor Karen Weaver declared a State of Emergency on December 14, 2015 so as to resolve this crisis once and for all.

The current challenge facing the City is providing immediate relief and long term solutions of the quality of the water and health of residents while the City remains in a financially critical condition. It is hoped and expected that higher levels of government recognize this emergency as it pertains to the condition of the City's infrastructure and health of its residents, and do all things necessary to assist the City in the provision of relief and the execution of capital improvement projects that will eliminate the causes of this emergency.

Enhancing Understanding:

Information Collection

Essential Elements of Information (EEIs) can be qualified as the City's water tests containing lead results, the verification of lead water lines (both public and private), and health information. Water testing is performed by the City's water plant in cooperation with the MDEQ. The verification of lead water lines is being handled by University of Michigan Flint, who is currently digitizing the City's water line information and PSI Engineering, who is initiating the effort to verify lead lines by excavating an initial 150 residential lines. This information allows the Incident Management Team to assess the current condition of the emergency by way of determining the water quality and the condition of the water distribution infrastructure.

Information Analysis

The City has sought partners to assist in the analysis and attenuation of complex data. Wayne State University's center for Urban Studies has agreed to assist the City in its efforts to document and track lead water lines, water test results, and filter distribution with geographic information system (GIS) technology. This allows for easily updateable, digestible information to be presented to officials.

Assessment of Impacts

The City will need assistance in determining the total cost of damage done to the public health and infrastructure. As of now, only portions of this damage are visible.

PSI is providing some assistance by excavating 150 residential water lines to verify that they are comprised of lead. This is an initial step, but not enough. More resources will be needed to continue this process.

Continuous Situational Awareness

It is important that the Emergency Management Team receive continuous information regarding water testing results, lead water line numbers, and filter distribution information in order to gain a realistic and current perspective. Much of his information is currently available on the City's website (cityofflint.com) and more is added each week by the PIO team

Actions taken in Response to the Emergency

Activation of the Incident Management Team

Upon the declaration of Emergency by Mayor Weaver, the Support Emergency Operations Plan (SEOP) was activated. The SEOP calls upon the Incident Management Team to generate the Incident Action Plan (IAP. Each member of this team serves a specific function as it relates to addressing the causes and effects of the emergency. The Emergency Management Team roster can be found in the SEOP on page 3, with a list of alternates on page 4 in case the need for succession arises.

Emergency Operations Center

The Emergency Operations Center (EOC) must be activated upon the declaration of a State of Emergency by the Mayor. This center is required by the SEOP and serves as a nerve center for the Incident Management Team. Here, emergency relief efforts are coordinated by key members of the Incident Management Team. In this case, these relief efforts consist of the distribution of water filters at

City Hall and community events, the distribution of bottled water throughout the city in conjunction with the efforts of community partners, and assisting with the circulation of water testing kits throughout the community. The EOC will also be monitoring and managing the inventory of relief supplies, such as water filters and bottled water.

According to the SEOP, the EOC must establish an incident tracking system. This system will serve as a work plan for the management of the emergency. In addition, it is essential that the IMT record water testing results, lead water line location information, and information about the distribution of water filters and bottled water all in one place so that information is readily available for the Incident Management Team. This information will also be sent out to the public and media in the form of daily regular updates by the City's PIO.

Communication

The EOC maintains a telephone system that exists to intake questions about relief efforts and to organize relief logistics. It is open from 8am to 5pm, Monday through Friday. A voicemail system and eventual email system will exist to handle requests and inquiries that occur outside of the normal operating hours. This system will be constructed by the City's IS department.

Public Awareness and Education

1. **Emergency Alerts and Updates:**
   The City's Public Information Officer will make available information as it relates to the emergency in the form of press releases, emails, and physical documents. Daily updates containing information on the distribution of water filters, bottled water, water testing, blood lead testing, and other relief efforts will be available on the City's website for the public to view. Information will be available at City Hall for residents.

2. **Joint Information Center:**
   The City's PIO will establish a joint Information Center that is organized to coordinate the efforts of multiple agencies to communicate with the public. This includes the circulation of joint press releases, public health information, educational materials, and updates relating to the State of Emergency. This committee is comprised of public information officers and public relations personnel to coordinate efforts to keep the public updated and informed. Regular updates to the media regarding events and progress will be made as news develops.

   The US EPA has offered assistance in the form of Public Information support. Additional support in this area has been provided by the Michigan State Police.

3. **Education:**
   Many government agencies and philanthropic organizations are already distributing information regarding the effects of lead on public health. It is important that the City assist in these efforts so vital information and knowledge is presented to all members of the community. The goal is to continue to eliminate misunderstandings and incorrect information as it relates to reducing lead in drinking water, pursuing medical help, and maintaining a healthy diet to reduce lead absorption in the body. Lead education is currently being performed by the Genesee County Health Department, the Michigan Department of Health and Human Services and Medical community at-large.

Assessment of Social Needs

In order to effectively and equitably provide immediate relief to Flint water customers, the City must take into account many of the socio-economic needs and limitations of the community. Some residents cannot get to City Hall for a water filter. Some residents do not have internet access. Literacy or a language barrier may also pose significant obstacles to the effective distribution of educational information and relief to those in need. These will be continuing challenges facing the community. At present these are the resources the City has available to mitigate some of those challenges.

Logistics

Logistics are being coordinated by the City Emergency Management Team's City's *Chief Logistics Officer*, who is the City Administrator. The CLO is responsible for the coordination, procurement, and transportation of goods and services, which is essential for effective implementation of the response plan.

Fixed Distribution Points

There are several locations throughout the city where residents may acquire a water filter. These locations are:

Flint City Hall
1101 South Saginaw, Flint MI 48502

Genesee County Community Action Resource Department (GCCARD)
601 North Saginaw, Flint MI 48502
and
2727 Lippencott Blvd, Flint MI 48507

Michigan Department of Health and Human Services
4809 Clio Road, Flint MI 48504
and
125 E. Union Street, Flint, MI 48502

Activation of Ward Distribution Centers

Each of the nine wards will have activated distribution centers that are primarily managed by City Council Members or their designees.

Flint City Council – Water Distribution Sites

WARD	COUNCILPERSON	LOCATION	ADDRESS
1	Eric Mays	Hasselbring Senior Center	1002 W. Home Avenue
2	Jackie Poplar	Joy Tabernacle Church	2505 N. Chevrolet Avenue
3	Kerry Nelson	Antioch Baptist Church	1083 E. Stewart Avenue
4	Joshua Freeman	Flint Fire Station No. 5	3402 Western Road
5	Wantwaz Davis	Doyle/Ryder Elementary School	1040 N. Saginaw Street
6	Herbert Winfrey	New Community Baptist Church	1375 Lavender Avenue
7	Monica Galloway	Brennan Community Center	1301 Pingree Avenue
8	Vicki VanBuren	Flint Southwestern Academy	1420 W. 12th Street
9	Scott Kincaid	Dort Mall Police Service Station	3600 S. Dort Highway

Mobile Distribution Centers

With the help of transportation agencies, like the Metro Transit Authority (MTA), meals on wheels, and GCCARD, the city can help establish mobile distribution centers and delivery systems that can provide water filters, bottled water, and nutritious foods, among other types of relief accompanied by educational materials to neighborhoods and to homes of people who experience limited mobility.

- Mass Transportation Authority-MTA bus passes: Assisting residents with bus passes to improve their mobility will increase their chances of receiving help. Transportation services will also improve residents' access to medical care.
- MTA-Your Ride mobile distribution:
  - Estimated Costs: $25 per hour to deliver water and filters to homes throughout the City.

Problem 1. Public Health Emergency

The first objective in addressing this emergency is reducing, and eventually eliminating, the danger to public health. As City water coming out of faucets continue to contain lead, and copper and other

harmful contaminants exceeding government guidelines and regulations, it poses a risk to the people of our community. Preventative measures must be taken to avoid the effects of toxicosis that are difficult if not impossible to completely reverse.

As far as preventative measures are concerned, education, water filters, and bottled water must be provided to every household in the City in order to reduce the chances of lead exposure, especially to our most vulnerable members of the community. If lead exposure has occurred, resulting in elevated blood lead levels, immediate and sustained medical attention must be available to those affected. Health services must be expanded in the area to accommodate increased numbers of case loads and specialized care regarding lead poisoning and its effects.

Immediate Relief for Public Health:

1. Prevention: Education, water filters and replacement cartridges, free water testing, and bottled water must be available to everyone.
2. Access to nutritious food that reduces the risks of lead absorption by the body. The City can coordinate activities with the County Health Department

Long Term Solutions: Maintaining Public Health and Coping with Lead Exposure

1. Work closely with the Genesee County Health Department and Michigan Department of Health and Human Services in order to provide sustainable care and monitoring of children exposed to lead. This care must be available for them for several years-preferably several decades.
2. Support and education for primary care providers regarding aggressive long-term neurodevelopmental screening and testing.
3. Improved access to developmental and behavioral (DBP) specialists, pediatric psychologists, pediatric psychiatrists.
    a. Pre-emptive referral to mental health/ toxic stress screenings.
    b. Support capacity building and or incentivize recruitment to allow Genesee health system (CMH) to build this capacity which is currently needed and lacking.
4. Increase recognition and education regarding trauma informed care, social determinants of health (SDOH).
5. Expand State funded Genesee Health System (CMH) services.
    a. Infant mental health (30 day capacity)
    b. Child case management
    c. Home based services
    d. Trauma informed care- trauma focused CBT

Problem 2. Lead Contamination in the Water

Immediate Relief:

1. Education, water filters and replacement cartridges, free water testing for water customers, and bottled water must be available to everyone. Water filters can be obtained at any of the fixed distribution points throughout the City.
2. Identification and verification of lead water service lines throughout the city- both public and private.
3. Assistance to identify lead pipes within buildings and homes.

Distribution of Bottled Water:
At this point, we are directing all offers for donations to the Food Bank of Eastern Michigan. It is imperative that water be accessible to all members of the community through a variety of distribution channels. These channels are explained in the Logistics Section of this plan.

Distribution of Test Bottles:
Water testing kits can be picked up at City Hall with instructions. Test results are posted on the City's website to raise public awareness and encourage more participation.

Long term Solutions: Capital Improvements Needs
The distribution of filters, water, and food to counter the effects of lead are essential response efforts to keep people safe. However, long term solutions are required to keep people healthy, to eliminate lead from the public and private water distribution system distribution, and to provide affordable clean water. Our public infrastructure and utilities must be reliable, sustainable, and equitable in order for this community to rebound after this emergency. The following long term solutions must be implemented in order to set the City of Flint on a course for recovery. These solutions come at a heavy cost for a City that is currently in receivership. The City has experienced financial distress due to this Emergency, in addition to a two million dollar loss from switching back to DWSD. The City has diligently applied for Fiscally Distressed Cities, Villages, and Townships, Grant in order to supplement funding for capital improvement projects. It is essential that these grants be awarded in order to achieve long term solutions.

1. <u>COMPLETE</u> **Transition to a Temporary Safe Water Source until the Completion of KWA:**
   This has already occurred. On October 16, 2015, Flint returned to receiving its water from DWSD on a 9 month agreement. This agreement will expire in June 2016, when the KWA is projected to be complete. The City had to pay $2 million out of its general fund to make this switch.

2. <u>IN PROGRESS</u> **Additional Corrosion Control added to the Water System:**

This is already occurring. In early December, 2015, Flint began to add additional corrosion control to the water coming in from DWSD in attempts to rebuild the protective scale inside its pipes. This is estimated to reduce lead levels in two to six months.

3. **Faucet Replacement:**
   Replacement of Water faucets, and drinking fountains in the school system. It has been determined after state inspections that many sources of lead contamination in the School System's water were the faucets themselves. These faucets need to be replaced.

4. **Water Line Replacement:**
   Water Line Replacement to reduce antiquated infrastructure and lead service lines. These lines must be identified, verified, and replaced. Residents who are facing financial hardships must have access to assistance to cover the costs of these replacements through access to grants and (forgivable) loans made available through State and Federal agencies. The corrosion damage to public and private lines that Flint River water caused is still being determined.
   - Replacement of an estimated fifteen thousand (15,000) lead service lines at an estimated cost of three thousand dollars ($3,000) per line. Total costs forty –five million dollars ($45,000,000). This project is estimated to be one of the most cost-intensive endeavors related to ameliorating water contaminants.

5. **Reimbursement of Critical Expenditures:**
   Seeking reimbursement of two million dollar cost of returning to DWSD and forgiveness of Water Revolving Loan Debt from the State of Michigan.

6. **KWA Capital Improvements:** The City has reconnected to Detroit temporarily until a water line from Port Huron is developed. The new water line known as the KWA pipeline or Karegnondi Water Authority is expected to bring water to the City from Lake Huron by July. The current cost agreement between Flint and DWSD is for nine months, therefore it is imperative that KWA be completed as soon as possible. Assistance relating to capital improvements to expedite this process will help to achieve long term goals.

KWA Capital Improvements:	**Estimated Costs:**
a. *Transfer Station to Dort Reservoir*	*$4,500,000*
b. *Raw water line to pump station #4*	*$636,000*
c. *Phosphoric acid feed system*	*$186,000*
d. *Alum Feed system*	*$40,000*
e. *Post filtration system*	*$387,289*

f.	*SCADA Upgrades*	*$424,000*
g.	*Sewer Relining*	*$100,000*
	Total	***$6,273,289***

Ancillary Considerations: Public Safety during an Emergency

During a time of emergency public safety agencies need to be prepared to respond to threats to public safety and critical infrastructure. The City is facing a man-made emergency that is threatening the public health. Resentment and hostility toward local institutions and municipal government is at a significant level.

Critical infrastructure should be safeguarded if the need arises. This includes increasing security at City Hall to reduce potential for public safety risks. In the case of credible threats to public infrastructure, it may be required to hire private security company for first line of defense. Private Security is lower cost, thereby making it the first option. The minimum response is acted upon first, elevating only if the need arises. Credible or imminent threats of damage or destruction to critical infrastructure requires an elevated response. Such needs may require over-time police officers to address critical situations. Mutual aid from surrounding communities can be requested if Flint public safety is overextended.

Implementation:

Community Partners

Financial limitations of the city persist while it confronts this emergency. Many community partners have offered their assistance to perform various needed functions. The city is heavily reliant on the assistance that government agencies and nonprofit organizations have provided.

The Mott Foundation

The Mott Foundation has provided financial assistance, especially in their generous contribution of $4 million. In addition, the Mott Foundation has recently pledged an additional

United Way

The Genesee County United Way has provided significant financial assistance in the way of purchasing and helping to distribute water filters since the public health emergency began on October 1st, 2015.

Genesee County Community Action Resources Department (GCCARD)

GCCARD is organized to fight poverty and has been a primary partner in the distribution of water filters. It has also regularly supported the city with the logistics and availability of water filters at City Hall.

Genesee County Health Department

Has provided educational information to Flint Water customers

Genesee County Board of Commissioners

The Board of Commissioners have pledged their support to help Flint seek solutions to this crisis. The Board has already assisted in making health and nutrition information available to the public.

Assistance from Wayne State University

Wayne State University's Center for Urban Studies will be providing technical GIS support to assist in the documentation of emergency relief efforts.

The US Environmental Protection Agency

Region 5 EPA has offered assistance with Public Information distribution during the emergency.

Outside Help is still needed...

The City of Flint is forever thankful to our community partners who have given so much to help so many people. However the magnitude of this emergency calls for more resources that are beyond the capacity of the combined local organizations and government agencies. Long term solutions will require a heavy investment in health care and capital improvement projects to upgrade the city's antiquated water distribution system.

- Help with Immediate Relief in terms of assuring allocative efficiency. Distribution should be equitable- assistance from other governments required to assure this.
- Reaching communities for the distribution of water filters, water, and educational materials.
- Help with Water Testing to increase participation and lead education.
- Increasing the rate of water testing
- Assistance is required to fund essential capital improvement projects to guarantee clean and safe water.

Office of Genesee County Sheriff

Emergency Management/Homeland Security

1002 S. Saginaw, Flint, MI 48502
(810) 257-3407
(810) 257-3077 (fax)

January 4, 2016

TO: Commanding Officer - Emergency Management Division
Department of State Police; District #3
Emergency Management Division District Coordinator
Post #35 State Police Post Commander

On October 1, 2015 residents within the City of Flint, located within Genesee County, were exposed to toxic levels of lead resulting in an imminent danger to public health and safety caused by elevated lead levels in the public water distribution system due to utilizing the Flint River as a primary source of water without proper corrosion control treatment. As a result of this situation, the following conditions exist: lead toxicosis in City of Flint residents and accelerated deterioration of the City of Flint water distribution system.

Therefore, as Board of Commissioners Chairperson of Genesee County, in accordance with Section 10 of 1976 PA 390, as amended, I hereby declare that a "State of emergency" exists therein, that the response and recovery aspects of the emergency operations plan have been activated, and that local resources are being utilized to the fullest possible extent.

Authorized by: _____

Jamie Curtis, Board Chairperson

Act No. 143
Public Acts of 2015
Approved by the Governor
October 15, 2015

EFFECTIVE DATE: October 15, 2015

STATE OF MICHIGAN
98TH LEGISLATURE
REGULAR SESSION OF 2015

Introduced by Rep. Pscholka

ENROLLED HOUSE BILL No. 4102

AN ACT to make, supplement, and adjust appropriations for various state departments and agencies for the fiscal years ending September 30, 2015 and September 30, 2016; to provide for the expenditure of the appropriations; and to repeal acts and parts of acts.

The People of the State of Michigan enact:

PART 1

LINE-ITEM APPROPRIATIONS
FOR FISCAL YEAR 2014-2015

Sec. 101. There is appropriated for the various state departments and agencies to supplement appropriations for the fiscal year ending September 30, 2015, from the following funds:

APPROPRIATION SUMMARY		
GROSS APPROPRIATION	$	7,775,000
Total interdepartmental grants and intradepartmental transfers		0
ADJUSTED GROSS APPROPRIATION	$	7,775,000
Total federal revenues		0
Total local revenues		0
Total private revenues		0
Total other state restricted revenues		1,000,000
State general fund/general purpose	$	6,775,000
Sec. 102. LEGISLATURE		
(1) APPROPRIATION SUMMARY		
GROSS APPROPRIATION	$	50,000
Interdepartmental grant revenues:		
Total interdepartmental grants and intradepartmental transfers		0
ADJUSTED GROSS APPROPRIATION	$	50,000
Federal revenues:		
Total federal revenues		0
Special revenue funds:		
Total local revenues		0
Total private revenues		0
Total other state restricted revenues		0
State general fund/general purpose	$	50,000

		For Fiscal Year Ending Sept. 30, 2015
(2) LEGISLATIVE COUNCIL		
Criminal justice policy commission	$	50,000
GROSS APPROPRIATION	$	50,000
Appropriated from:		
State general fund/general purpose	$	50,000
Sec. 103. DEPARTMENT OF STATE POLICE		
(1) APPROPRIATION SUMMARY		
GROSS APPROPRIATION	$	7,725,000
Interdepartmental grant revenues:		
Total interdepartmental grants and intradepartmental transfers		0
ADJUSTED GROSS APPROPRIATION	$	7,725,000
Federal revenues:		
Total federal revenues		0
Special revenue funds:		
Total local revenues		0
Total private revenues		0
Total other state restricted revenues		1,000,000
State general fund/general purpose	$	6,725,000
(2) ONE-TIME APPROPRIATIONS		
Legal settlement	$	7,725,000
GROSS APPROPRIATION	$	7,725,000
Appropriated from:		
Special revenue funds:		
Risk management revolving fund		1,000,000
State general fund/general purpose	$	6,725,000
Sec. 104. DEPARTMENT OF TREASURY		
(1) APPROPRIATION SUMMARY		
GROSS APPROPRIATION	$	0
Interdepartmental grant revenues:		
Total interdepartmental grants and intradepartmental transfers		0
ADJUSTED GROSS APPROPRIATION	$	0
Federal revenues:		
Total federal revenues		0
Special revenue funds:		
Total local revenues		0
Total private revenues		0
Total other state restricted revenues		0
State general fund/general purpose	$	0
(2) ONE-TIME BASIS ONLY APPROPRIATIONS		
MSF, special grants	$	(500,000)
MSF, special grants		500,000
GROSS APPROPRIATION	$	0
Appropriated from:		
State general fund/general purpose	$	0

PART 1A

LINE-ITEM APPROPRIATIONS
FOR FISCAL YEAR 2015-2016

Sec. 151. There is appropriated for the various state departments and agencies to supplement appropriations for the fiscal year ending September 30, 2016, from the following funds:

APPROPRIATION SUMMARY

Full-time equated classified positions 3.0

		For Fiscal Year Ending Sept. 30, 2016
GROSS APPROPRIATION	$	9,350,100
Interdepartmental grant revenues:		
Total interdepartmental grants and intradepartmental transfers		0
ADJUSTED GROSS APPROPRIATION	$	9,350,100
Federal revenues:		
Total federal revenues		0
Special revenue funds:		
Total local revenues		0
Total private revenues		0
Total other state restricted revenues		2,200,000
State general fund/general purpose	$	7,150,100
Sec. 152. DEPARTMENT OF ENVIRONMENTAL QUALITY

PART 2

PROVISIONS CONCERNING APPROPRIATIONS
FOR FISCAL YEAR 2014-2015

GENERAL SECTIONS

Sec. 201. In accordance with the provisions of section 30 of article IX of the state constitution of 1963, total state spending from state resources in this appropriation act for the fiscal year ending September 30, 2015 is $7,775,000.00 and state appropriations paid to local units of government are $0.00.

Sec. 202. The appropriations made and expenditures authorized under this act and the departments, commissions, boards, offices, and programs for which appropriations are made under this act are subject to the management and budget act, 1984 PA 431, MCL 18.1101 to 18.1594.

DEPARTMENT OF STATE

Sec. 301. (1) From unexpended and unencumbered funds appropriated in 2010 PA 191 for branch and central operations, $6,000,000.00 is appropriated for a business application modernization project and shall be reappropriated for the fiscal year ending September 30, 2015 in an appropriation line entitled information technology services and projects.

(2) The funds described in subsection (1) shall remain available for expenditure to implement provisions of business application modernization ongoing costs. The unexpended funds reappropriated into the information technology services and projects line item are considered work project appropriations, and any unencumbered or unallotted funds are carried forward into the succeeding fiscal year. The following is in compliance with section 451a(1) of the management and budget act, 1984 PA 431, MCL 18.1451a:

(a) The purpose of the projects is to modernize the technical infrastructure to support the business needs of the department.

(b) The projects will be completed by contract staff and state employees.

(c) The total estimated cost of all projects is $6,000,000.00.

(d) The tentative completion date is September 30, 2019.

Sec. 302. (1) Unexpended and unencumbered amounts of funding remaining in accounts appropriated in section 301 of 2011 PA 83, for implementation of the help America vote act of 2002, 42 USC 15031 to 15545, for the secretary of state, shall be reappropriated for the fiscal year ending September 30, 2015 in an appropriation line item entitled help America vote act.

(2) The funds described in subsection (1) shall remain available for expenditure to implement provisions of the help America vote act of 2002, 42 USC 15031 to 15545, section 37 of the Michigan election law, 1954 PA 116, MCL 168.37, and other election reforms. Consistent with the help America vote act of 2002, 42 USC 15031 to 15545, the unexpended funds reappropriated into the help America vote act line item are considered work project appropriations and any unencumbered or unallotted funds are carried forward into succeeding fiscal years. The following is in compliance with section 451a(1) of the management and budget act, 1984 PA 431, MCL 18.1451a:

(a) The purpose of the projects is to implement provisions of the help America vote act of 2002, 42 USC 15031 to 15545, section 37 of the Michigan election law, 1954 PA 116, MCL 168.37, and other election reforms.

(b) The projects will be completed by state employees, by contracts with private vendors, or by grants to local units of government.

(c) The total estimated cost of these projects is identified in each line-item appropriation.

(d) The tentative completion date for these projects is September 30, 2019.

STATE TRANSPORTATION DEPARTMENT

Sec. 401. Unexpended and unencumbered amounts of DOT, federal railroad administration (ARRA) funds appropriated in 2011 PA 157 for high-speed intercity passenger rail (ARRA) shall not lapse pursuant to section 451a(1) of the management and budget act, 1984 PA 431, MCL 18.1451a, but instead are reappropriated for expenditure as originally intended and are a work project meeting the following criteria:

(a) The purpose of the project to be carried forward is to preserve and invest in transportation infrastructure of the state of Michigan.

(b) The projects will be accomplished by state employees and by contract.

(c) The total estimated cost of the project is $26,711,800.00.

(d) The tentative completion date is September 30, 2017.

DEPARTMENT OF TREASURY

Sec. 501. (1) From the funds appropriated in part 1 for special grants, the fund shall allocate $500,000.00 for the purpose of funding the cost of GED testing and certification as provided by this section. The workforce development agency shall administer a Michigan GED-to-school program, which shall cover the cost of providing the GED test free of charge to individuals who meet all of the following requirements:

(a) The individual has not previously been administered a GED test free of charge under this section.

(b) The individual meets at least 1 of the following requirements:

(*i*) Prior to taking the GED test, the individual successfully completed a WDA-approved GED preparation program.

(*ii*) Prior to taking the GED test, the individual completed the official GED practice test and the individual's score indicated that he or she is likely to pass.

(2) A WDA-approved GED preparation program shall include all of the following:

(a) Instructional and tutorial assistance.

(b) GED test practice.

(c) Required attendance at program instructional sessions.

(d) A curriculum that prepares students for opportunities in postsecondary education and the job market.

(e) Information on potential postsecondary and career pathways.

(f) Counseling on preparing for and applying to college.

(g) Personal and job readiness skills development.

(h) Comprehensive information on college costs and financial aid.

(i) College and career assessments.

(j) Computer-based instruction, practice, or remediation.

(3) By January 1, 2016, the workforce development agency shall post online an announcement of the Michigan GED-to-school program, minimum standards for GED preparation program approval, and approval procedures.

(4) By April 1, 2016, the workforce development agency shall do all of the following:

(a) Develop procedures consistent with this section under which individuals can take the GED test without charge.

(b) Provide program information for educators and students on the workforce development agency website, including explanations of the procedures developed under this subsection, and contact information for questions about the program.

(c) Provide an estimate of the full-year cost of the program to the senate and house appropriations subcommittees on general government, the senate and house fiscal agencies, and the state budget director.

(5) By September 30, 2016, the workforce development agency shall report to the senate and house appropriations subcommittees on general government, the senate and house fiscal agencies, and the state budget director on utilization of the GED incentive program, including numbers of GED certifications issued by location, year-to-date expenditures, and numbers of participants qualifying under subsection (1)(b)(*i*) or (*ii*), or both.

(6) The unexpended funds appropriated for the GED-to-school program are designated as a work project appropriation, and any unencumbered or unallotted funds shall not lapse at the end of the fiscal year and shall be available for expenditure for projects under this section until the projects have been completed. The following is in compliance with section 451a(1) of the management and budget act, 1984 PA 431, MCL 18.1451a:

(a) The purpose of the project is to fund the cost of GED testing and certification for certain individuals as provided by this section.

(b) The projects will be accomplished by utilizing state employees or contracts with private vendors, or both.

(c) The total estimated cost of the project is $500,000.00.

(d) The tentative completion date is September 30, 2019.

PART 2A

PROVISIONS CONCERNING APPROPRIATIONS FOR FISCAL YEAR 2015-2016

GENERAL SECTIONS

Sec. 1201. In accordance with the provisions of section 30 of article IX of the state constitution of 1963, total state spending from state resources in this appropriation act for the fiscal year ending September 30, 2016 is $9,350,100.00 and state appropriations paid to local units of government are $6,000,000.00.

Sec. 1202. The appropriations made and expenditures authorized under this act and the departments, commissions, boards, offices, and programs for which appropriations are made under this act are subject to the management and budget act, 1984 PA 431, MCL 18.1101 to 18.1594.

DEPARTMENT OF ENVIRONMENTAL QUALITY

Sec. 1251. From the funds appropriated for the city of Flint emergency water services, the department is authorized to pay up to $6,000,000.00 for reconnection services to the Detroit water and sewerage department or its successor. The payments shall only be made once a legally executable agreement has been reached between the parties and a successful reconnection has occurred to the Flint water system. These funds are intended to pay reconnection costs through June 30, 2016.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Sec. 1301. From the funds appropriated in part 1A for Michigan rehabilitation services, the department shall allocate $6,100,300.00, including federal matching funds, to service authorizations with accredited, community-based rehabilitation organizations for job development and other community employment-related support services.

Sec. 1302. (1) From the funds appropriated in part 1A for in-home community care programs, $400,000.00 shall be used to expand or create new in-home care and community-based juvenile justice services to rural counties through a grant making process. Counties that received funds for the purpose described in section 587 of article X of 2013 PA 59 are not eligible to receive the funds in this section. The department shall have contracts in place for the full amount of funds for the purpose described in this section by January 15 of the current fiscal year.

(2) By June 30 of the current fiscal year, the department shall submit a report that describes the program expansion and expenditures in detail to the senate and house appropriations subcommittees on the department budget, the senate and house fiscal agencies, and the senate and house policy offices.

REPEALERS

Enacting section 1. Sections 587 and 806 of article X of 2015 PA 84 are repealed.

Enacting section 2. Section 1069 of article VIII of 2014 PA 252 is repealed.

This act is ordered to take immediate effect.

Clerk of the House of Representatives

Secretary of the Senate

Approved .....

Governor

Office of Genesee County Sheriff

Emergency Management/Homeland Security

SHERIFF ROBERT J. PICKELL

Chris DeVriendt
Interim Emergency Management Manager

(810) 257-3407
(810) 257-3077 (fax)

January 4, 2016

Honorable Rick Snyder
Governor
Office of Governor
State of Michigan
P.O. Box 30013
Lansing, MI 48909

SUBJECT: REQUEST FOR GOVERNOR'S EMERGENCY/DISASTER DECLARATION

Dear Governor Snyder:

On January 4, 2016 pursuant to Section 10 of Act 390, P.A. 1976, as amended, I declared that a "State of Emergency" exists in Genesee County due to the introduction of lead into the public water system and subsequently elevated blood lead levels exceeding governmental standards. The response and recovery aspects of the Genesee County emergency operations plan have been activated, and local resources are being utilized to the fullest extent practicable. Despite these efforts, local resources are not sufficient to cope with the situation.

Therefore, in accordan ce with Section 12 of Act 390, P.A. 1976, as amended, I deem this incident to be beyond the control of Genesee County, and I respectfully request, for and on behalf of the citizens of Genesee County that the Governor declare a "State of Emergency/Disaster" exists therein and that consideration be given, if conditions warrant, to petitioning the President of the United States for assistance provided by Public Law 93-288, as amended. In support of this request, we will submit specific damage assessment data through official channels and in accordance with the guidance in EMD PUB-901 (*Damage Assessment Handbook)* within three (3) days of this disaster, unless circumstances dictate an earlier submittal as requested by the Emergency Management Division, Department of State Police. Furthermore, I understand that this request will not be acted upon without sufficient damage assessment data to substantiate the need for assistance.

Specifically, I request the following assistance:

ESF #3 / Infrastructure Systems Recovery Support Function support to include but not limited to:

- Post-incident assessments of public works and infrastructure
- Executing emergency contract support for life-sustaining services

- Providing technical assistance to include engineering expertise, construction management, contracting, and real estate services
- Providing emergency repair of damaged public infrastructure and critical infrastructure

ESF #8 support to include but not limited to:

- Assessment of public health/medical needs
- Health surveillance
- Medical care personnel
- Patient care
- Behavioral health care
- Public health and medical information
- Potable water

ESF #11 support to include but not limited to:

- Provision of nutritional assistance
-

Accordingly, be advised that Christopher DeVriendt, Interim Genesee County Emergency Management Manager will provide liaison and coordination with State and Federal authorities for assistance related to this disaster, and in accordance with Section 14 of Act 390, P.A. 1976, as amended, he is directed to transmit this request to the appropriate State Police Emergency Management Division (EMD) District Coordinator by the most expeditious means.

Authorized By:

Jamie Curtis - Chairperson
Genesee County Board of Commissioners

Tober, Renee (MSP)

From: Katarsky, Anthony (MSP)
Sent: Tuesday, January 05, 2016 4:46 PM
To: MSP-EMHSD-Division
Subject: URGENT - SEOC Activation

On January 4, 2016, Genesee County requested that a "State of Emergency/Disaster" be issued by Governor Snyder. Today, the Governor issued a State of Emergency declaration. EMHSD will **activate the SEOC tomorrow at 0800** and will conduct a briefing at 0900 on the event. All state agencies will be represented. I ask that only those personnel requested to play SEOC roles and section managers attend the 0900 briefing due to space constraints. The initial focus of the SEOC will be to:

- Identify and implement any needed protective actions to protect public health and safety;
- Develop situational awareness;
- Develop understanding of technical aspects;
- Coordinate damage assessment;
- Coordinate public information; and
- Identify programs to assist in remediating damage.

If you have any questions, please let me know.

DCDS Hours Entry by Coding Block

(Last revised 1/28/14)

To change your default entry to Hours by Coding Block Entry:

1. Log into DCDS.
2. Select Options.
3. Check Hours by CB (Coding Block) Entry to change your default.

To enter work Hours by Coding Block (regular, overtime, comp time earned, etc.):

1. Open your time sheet as you normally do.
2. You should see an Hours Entry by Coding Block section above the time entry section. *The blue line is the active line.*
3. Click your cursor in the AY box and enter the last 2 digits of the appropriation (fiscal) year.
4. Tab to Index and enter your Index number.
5. Tab to PCA and enter the PCA associated with work you did for the number of hours worked that you worked on it.
6. Move down to the time entry section and select the appropriate Hours Type.
7. Tab to the appropriate day and enter the number of hours associated with the PCA you entered above.
8. Enter daily comments for each Hours Type.
9. Select Save.
10. At the end of the pay period, select Submit.

To enter hours for holidays, comp time used, annual leave, sick leave, school & community leave, bank leave time used, administrative leave, initial leave, jury duty, Plan A:

1. Check the "std" (standard coding) box under the Hours Entry by Coding Block section.
2. Move down to the time entry section and select the appropriate Hours Type.
3. Tab to the appropriate day and enter the number of hours.
4. *Enter the required information for school & community leave.* Required information includes all of the following: 1) name of the school or community activity sponsor; 2) name of the event, description of the volunteer services performed; and 4) the time period that the employee performed the volunteer services.
5. Select Save

6. At the end of the pay period, select Submit.

To view your time sheet:

1. Select Reports.
2. Select Employee Data Collection
3. Selection Option B - Detail Time (or Option A - Coding Block Detail Time).
4. Enter Department 55.
5. Enter Agency 01.
6. Enter TKU 044. (EMHSD)
7. Select the PP (pay period) End Date.
8. Select OK.

Subject: SEOC Staffing through 1/31/16
Attachments: SEOC Schedule week of 1_16 thru 1_31_16_Final (2).xlsx

Good evening,

Attached is the list of staff assigned to work in the SEOC through 1/31/16. The hours are 8 a.m. to 8 p.m. Lunch and dinner will be provided. As always, business casual attire is appropriate. No jeans for EMHSD staff.

For Fiscal, your names are not on this schedule but I know it has been worked out within the section for the appropriate staff to cover.

Thanks,

Penny

Subject: SBA in Flint

Renee, Bri, Joel.

Please host some discussion with this in mind as to required deadlines, etc. MDARD is asking in specific, should food establishments get positive testing, there may be inquiries about eligibility for SBA.

Good Afternoon Kent,

I have been in contact with Gary Davisson from the SBA Office of Disaster Assistance. Based on my discussion SBA is not actively engaged in this event. Additionally, the State is not eligible for an SBA declaration if they are still pursuing assistance from FEMA through a major declaration. If an appeal for a major declaration is disapproved they can pursue a stand-alone declaration from SBA.

Please let me know if you have any additional questions.

V/r,

Jason

Subject: SBA support to Flint Businesses

Cathy
The State of Michigan is trying to determine if businesses in Flint that have been affected by lead in the Flint water system are eligible for any SBA loans and if they are eligible what would the timeline to apply?

Thanks

Hello!

We changed the schedule to split shifts – you would work 2 hours in your regular job and 6 hours in the SEOC (we can decide how the splits work as far as crossover time to brief each other).

Bri and Renee you can work out if you would like to spilt this Sunday.

Carly

Recovery Branch Schedule

	Sat 1/30	Sun 1/31	Mon 2/1	Tues 2/2	Wed 2/3	Thurs 2/4	Fri 2/5	Sat 2/6	Sun 2/7
Carly	8 am - 2:00 pm			PM		AM			AM
Brianna		8 am - 8pm	PM		AM	PM			PM
Stacy	12 pm - 8 pm						AM		
Renee		8 am - 8 pm	AM				PM	PM	
Karl				AM	PM			AM	
				Shifts:	8a - 2:30P	2p - 8p

Subject: IA Officer

This came from the Unified coordination Group

The MARC will be city/county VOAD center. As of now, Federal agencies understand that they will not have a presence and this really needs to happen at the local level and the state would resource it. The recommendation is that Renee Tober, IA Officer for the state, be engaged (on site I believe).

Please advise

Hi Renee,

I am NOT available for the SEOC on Tuesday (9th), Wednesday (10th), and Saturday (13th).

I can be scheduled for Monday (8th), Thursday (11th), Friday (12th), and/or Sunday (14th). It works best for me to work the first shift in the morning. I am quite backlogged with my regular job (as I am sure everyone is ☺) so I am hoping with the extra staff that I won't be scheduled all four of these days so I can be in the office some.

Any questions please let me know. Thanks Renee!

Subject: Recovery Schedule

Hello All!

Tomorrow we will be adding Bridget Spencer and Mike Farmer from MDOC to our recovery staff. We are going to create the schedule for the next week or so tomorrow (and will get that to everyone and Logistics asap). For the rest of this week the schedule is below:

Thursday 2/4
Carly 8-8
Mike/Bridget 8-5 (ish)
Renee 2-8 (confirming)

Friday 2/5
Stacy 8-5
Mike 2-8
Bridget (confirming)

Saturday 2/6
Mike 8-8
Renee 12-8

Sunday *Subject to change ☺ 2/7
Carly 8-5
Bri 12-8

Renee,

I can't work on Monday (15th), Tuesday (16th), or Saturday (20th).

However, I am available as needed for the other days (17, 18, 19).

Thanks!

I can be scheduled for Monday (8th), Thursday (11th), Friday (12th), and/or Sunday (14th). It works best for me to work the first shift in the morning. I am quite backlogged with my regular job (as I am sure everyone is ☺) so I am hoping with the extra staff that I won't be scheduled all four of these days so I can be in the office some.

Any questions please let me know. Thanks Renee!

Subject: Additional DCDS Coding - City of Flint
Attachments: Activity Tab DCDS.png

Good Afternoon:

The State Budget Office (SBO) has requested some additional coding in DCDS for staff that work on the City of Flint Water Emergency. We will still be coding all overtime costs to PCA 28670. But at their request, we will also be utilizing the "Activity" code in DCDS.

To enter Activity Code

- Open Employee Data Collection
- Click on **Activity Tab** of DCDS timesheet
- On the Unit Entry tab, under Activity column at left, enter F in drop down box and select **FDWP** when it appears.
- Enter total of "**regular and overtime hours**" related to the Flint Water emergency in cell for each date worked.
- These hours should match the total hours for each day you have entered into your timesheet.
- Save when you have entered your activity hours.

Again, this is only for hours spent working on the City of Flint Emergency and should begin with this current pay period. Please let me know if you have questions.

Thanks,
Penny

Good morning,

This Friday, February 12, I am only able to work my regular shift of 7:30 AM to 4:00 PM due to daycare issues. So I will be in the SEOC one hour less, sorry for any inconvenience.

Thanks!

Subject: URGENT - Records Request

Importance: High

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than **2:00 PM on Friday, February 12, 2016.**

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on **Thursday, February 18, 2016.**

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms. Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to MSP-FOIAProject@michigan.gov.

REMINDER: Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is **two years.** Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact Ms. Lori Hinkley.

Analysis of Proposed Flint Communications
Project under Federal Preparedness Grants

The Proposed Flint Communications Project does not meet eligibility requirements under the Homeland Security Grant Program.

In order to qualify for funding under the Emergency Management Performance Grant (EMPG), this project requires submittal of a request to the Federal Emergency Management Agency (FEMA) for an amendment to the current Scope of Work The Fiscal Year (FY) 2015 EMGP Notice of Funding Opportunity Announcement and 2 CFR 200.308 require that only activities and projects included in the FY 2015 EMPG program Work Plan previously submitted and approved by FEMA may be funded without prior written consent. This project is outside the scope of the original Work Plan; activities and projects unrelated to the completion and implementation of the EMPG Program are not allowable.

To be eligible under the EMPG, activities must support the mission and intent of the grant program. The EMPG is designed to provide Federal funds to states to assist state, local, territorial, and tribal governments in preparing for all-hazards, as authorized by Section 662 of the *Post Katrina Emergency Management Reform Act* (6 U.S.C. § 762) and the *Robert T. Stafford Disaster Relief and Emergency Assistance Act* (42 U.S.C. §§ 5121 et seq.) EMPG funds may be used for all-hazards emergency operations, staffing, and other day-to-day activities in support of emergency management. To be eligible, this project must be able to establish a direct link to emergency management activities for the 25 percent of the position that would be EMPG funded. Our preliminary assessment leads us to question whether this project aligns with the mission of the EMPG. Specific correlations to emergency management-related activities such as emergency preparedness, planning, training, or designing and conducting exercises must be established.

Given our uncertainty with respect to the use of EMPG funds, we recommend submittal of the proposed project with additional clarifying detail which establishes an emergency management link to FEMA for 1) determination of eligibility under the EMPG and 2) modification of the FY 2015 EMPG Program Work Plan.

Subject: RE: Downtown Flint

Pat – that sounds like it'd do it to me. I'm also willing to bet that the overlay indicator (gimbal icon) on the lower right corner of the screen was yellow or red, too, indicating that the system was having trouble making sense of the orientation data it was receiving from the camera – which does happen at nadir. I don't know the computer code for that particular process, but I'd imagine that ARS trying to constantly redraw the overlays at different orientations would eat up processing time, in addition to the two recorders running, and cause the stutters. Great detective work!

Thanks for keeping us posted.

Trevor

Subject: RE: Downtown Flint

Trevor,

I just remembered what was different on the first pass over Flint.

On the first pass we were recording both the screen and camera.

I remember that the Churchill was having a difficult time determining north and where to place the street overlays.

The rest of the nadir shots we only recorded the camera video.

So for now when we record these nadir shots, just record the camera.

Thanks,

PL

Subject: RE: Downtown Flint

Hi Pat – Following-up on our phone conversation: Keith and I reviewed the video clip - thanks Walter for uploading that.

Our suspicion is that the root cause of the stutters is the write-speed issue to the USB stick itself. This can happen when the cable-run to where the USB drive is plugged in is too long, however that doesn't sound like the case in your installation. It's also a bit unusual that the stuttering didn't appear in other recordings from the same day.

Would it be possible to try a similar recording next time you're flying? Basically same mission profile, 700' AGL, camera near nadir and USB plugged into one of the ***blue*** ports on the ARS box itself. This will eliminate any of the cabling and help us narrow down what might be happening. It's a longshot but it might also be worth trying to see if the gimbal orientation has anything to do with the stutters – a pinched cable or something. Maybe try flying with the camera off-nadir by a few degrees. In any event, please keep me posted -- we'd like to work with you to see if we can get this resolved ASAP.

Thanks,
Trevor

Hi Pat – We're happy to help troubleshoot this issue. Just to collect some background information, did you happen to notice this same stutter via the monitor in the aircraft while flying the mission? Also, was this present throughout the entire 700' AGL Nadir recording(s)? The clip attached to the email is very helpful but would it be possible to get the full recording (or at least the part in question) from the .TS file that was recorded to the USB drive itself? Feel free to upload it to our site: http://churchillnavigation.com/upload/

Thanks in advance,
Trevor

Pat:

When we spoke last about the Flint helicopter video I mentioned that we could not use the low altitude pass because it was jittery. I have attached a short section of the beginning of the video as an example of what I mean by jittery. The quality of the images at that altitude are outstanding and if the video could be smoothed out we could get a product with fine detail. Let me know if you need more video or anything else regarding this issue. Thanks.

Pat,

We should have a mosaic photo from the 1700' nadir video sometime tomorrow. It will take more time to incorporate the rest of the imagery. The nadir video at 700' has some strange behavior which is causing some problems when extracting the frames. I think it is still usable but will need some additional work. The oblique video looks good but will take much longer to run as it needs more frames(3400) for processing. I would think we might be able to have additional products by the end of the week.

Because the Pix4D program is ripping frames from the video, the resolution of each image is much less than normal handheld camera or the uas cameras. I opted to go with more overlap resulting in projects with 1500 photos(nadir 1700') to 3400 (oblique) photos. For reference, the Cook Nuclear plant used approximately 530 photos and many of the crime scenes/explosions use approximately 60-80 photos.

Hello All,

Videos are in the shared Aviation/EMHSD folder.

The cage position worked well for the nadir shots. It's a huge area.

We flew the initial tracks at 700' , I hope you have the overlap that you need.

We flew it again at 1,700'. Then we took oblique shots.

This is the area we tried to cover.

<image002.png>

Let me know if you need anything further.

Thanks

Hi Pat – We're happy to help troubleshoot this issue. Just to collect some background information, did you happen to notice this same stutter via the monitor in the aircraft while flying the mission? Also, was this present throughout the entire 700' AGL Nadir recording(s)? The clip attached to the email is very helpful but would it be possible to get the full recording (or at least the part in question) from the .TS file that was recorded to the USB drive itself? Feel free to upload it to our site: http://churchillnavigation.com/upload/

Thanks in advance,
Trevor

Walter,

Thanks. I will have the vendor take a look.

Keith and Trevor,

Please see the attached video.

The rest of the recordings that we took that day were fine. We are using 3.0 USB sticks, not sure what caused this but we have had it before.

Thanks,

PL

Pat:

When we spoke last about the Flint helicopter video I mentioned that we could not use the low altitude pass because it was jittery. I have attached a short section of the beginning of the video as an example of what I mean by jittery. The quality of the images at that altitude are outstanding and if the video could be smoothed out we could get a product with fine detail. Let me know if you need more video or anything else regarding this issue. Thanks.

Pat,
We should have a mosaic photo from the 1700' nadir video sometime tomorrow. It will take more time to incorporate the rest of the imagery. The nadir video at 700' has some strange behavior which is causing some problems when extracting the frames. I think it is still usable but will need some additional work. The oblique video looks good but will take much longer to run as it needs more frames(3400) for processing. I would think we might be able to have additional products by the end of the week.

Because the Pix4D program is ripping frames from the video, the resolution of each image is much less than normal handheld camera or the uas cameras. I opted to go with more overlap resulting in projects with 1500 photos(nadir 1700') to 3400 (oblique) photos. For reference, the Cook Nuclear plant used approximately 530 photos and many of the crime scenes/explosions use approximately 60-80 photos.

Hello All,

Videos are in the shared Aviation/EMHSD folder.

The cage position worked well for the nadir shots. It's a huge area.

We flew the initial tracks at 700' , I hope you have the overlap that you need.

We flew it again at 1,700'. Then we took oblique shots.

This is the area we tried to cover.

Subject: RE: Downtown Flint

Hi Pat – Following-up on our phone conversation: Keith and I reviewed the video clip - thanks Walter for uploading that.

Our suspicion is that the root cause of the stutters is the write-speed issue to the USB stick itself. This can happen when the cable-run to where the USB drive is plugged in is too long, however that doesn't sound like the case in your installation. It's also a bit unusual that the stuttering didn't appear in other recordings from the same day.

Would it be possible to try a similar recording next time you're flying? Basically same mission profile, 700' AGL, camera near nadir and USB plugged into one of the ***blue*** ports on the ARS box itself. This will eliminate any of the cabling and help us narrow down what might be happening. It's a longshot but it might also be worth trying to see if the gimbal orientation has anything to do with the stutters – a pinched cable or something. Maybe try flying with the camera off-nadir by a few degrees. In any event, please keep me posted -- we'd like to work with you to see if we can get this resolved ASAP.

Thanks,
Trevor

Hi Pat – We're happy to help troubleshoot this issue. Just to collect some background information, did you happen to notice this same stutter via the monitor in the aircraft while flying the mission? Also, was this present throughout the *entire* 700' AGL Nadir recording(s)? The clip attached to the email is very helpful but would it be possible to get the full

recording (or at least the part in question) from the .TS file that was recorded to the USB drive itself? Feel free to upload it to our site: http://churchillnavigation.com/upload/

Thanks in advance,
Trevor

Walter,

Thanks. I will have the vendor take a look.

Keith and Trevor,

Please see the attached video.

The rest of the recordings that we took that day were fine. We are using 3.0 USB sticks, not sure what caused this but we have had it before.

Thanks,

Pat:

When we spoke last about the Flint helicopter video I mentioned that we could not use the low altitude pass because it was jittery. I have attached a short section of the beginning of the video as an example of what I mean by jittery. The quality of the images at that altitude are outstanding and if the video could be smoothed out we could get a product with fine detail. Let me know if you need more video or anything else regarding this issue. Thanks.

Pat,
We should have a mosaic photo from the 1700' nadir video sometime tomorrow. It will take more time to incorporate the rest of the imagery. The nadir video at 700' has some strange behavior which is causing some problems when extracting the frames. I think it is still usable but will need some additional work. The oblique video looks good but will take much longer to run as it needs more frames(3400) for processing. I would think we might be able to have additional products by the end of the week.

Because the Pix4D program is ripping frames from the video, the resolution of each image is much less than normal handheld camera or the uas cameras. I opted to go with more overlap resulting in projects with 1500 photos(nadir 1700') to 3400 (oblique) photos. For reference, the Cook Nuclear plant used approximately 530 photos and many of the crime scenes/explosions use approximately 60-80 photos.

Hello All,

Videos are in the shared Aviation/EMHSD folder.

The cage position worked well for the nadir shots. It's a huge area.

We flew the initial tracks at 700' , I hope you have the overlap that you need.

We flew it again at 1,700'. Then we took oblique shots.

This is the area we tried to cover.

Walter,
I wanted to give you advance notice of a request by Governor Snyder to have access to the GIS ESRI Data in relation to the Collector APP and Dashboard. This is the same access that was granted to Director Creagh yesterday. Tony Katarsky provided me your contact information due to Trevor's absence. Lisa Dygert from DNR GIS is assisting the Governor's Office with the loading of the app and or programs.

Lisa can be contacted at If you need to speak with her. Please respond reply all once this email is received and once the process is completed.

Fyi, additional individuals assisting with the Flint Water Event from DNR and the ECC Team were submitted last evening around 10 pm. If you could check the status of their access I would appreciate it.

> Pat,
> We should have a mosaic photo from the 1700' nadir video sometime tomorrow. It will take more time to incorporate the rest of the imagery. The nadir video at 700' has some strange behavior which is causing some problems when extracting the frames. I think it is still usable but will need some additional work. The oblique video looks good but will take much longer to run as it needs more frames(3400) for processing. I would think we might be able to have additional products by the end of the week.
>
> Because the Pix4D program is ripping frames from the video, the resolution of each image is much less than normal handheld camera or the uas cameras. I opted to go with more overlap resulting in projects with 1500 photos(nadir 1700') to 3400 (oblique) photos. For reference, the Cook Nuclear plant used approximately 530 photos and many of the crime scenes/explosions use approximately 60-80 photos.

Hello All,

Videos are in the shared Aviation/EMHSD folder.

The cage position worked well for the nadir shots. It's a huge area.

We flew the initial tracks at 700' , I hope you have the overlap that you need.

We flew it again at 1,700'. Then we took oblique shots.

This is the area we tried to cover.

<image002.png>

Let me know if you need anything further.

Thanks

Subject: Updated Totals for nightly stats

For the residential parcel statistics that are sent to planning every night, the overall totals have to be updated since more franchise parcels have been added. Also, I noticed that only 45 of the 199 franchise parcels were marked as active water customers (had a value of 1 in the ActiveWater_1_22 column) in the master parcel layer. So I updated the ActiveWater_1_22 column in the master parcel layer for all franchise parcels so that they have a value of 1 in that column and will be included in active water customer queries from this point on.

Here are the new totals/changes highlighted in yellow:

We are tracking ~~38,831~~ **38,875** residential parcels that the City of Flint has identified as non-vacant (including Franchise).

We are also tracking that there are ~~29,944~~ **30,188** active water subscribers (metered service lines, **including Franchise**) in the city. When consolidated down and filtering out only residential there are ~~26,673~~ **26,811** residential parcels (**including Franchise**) that have the ability to use the Flint Water System.

I'm working on the Team Areas map now. The newest Homes with filters map usually doesn't get produced until 6-7pm since it relies on the parcel pairing of the field team data collected today. So we can either provide him a map of homes with filters with data as of last night or one with data as of 3pm this afternoon... starting at 3pm should give us enough time to generate the map he is looking for, it just won't have all of today's data. Thoughts?

Subject: RE: Maps for Cap and Executive Council

I'm working on the Team Areas map now. The newest Homes with filters map usually doesn't get produced until 6-7pm since it relies on the parcel pairing of the field team data collected today. So we can either provide him a map of homes with filters with data as of last night or one with data as of 3pm this afternoon... starting at 3pm should give us enough time to generate the map he is looking for, it just won't have all of today's data. Thoughts?

Sent: Friday, January 29, 2016 4:31 PM
To: Chomentowski, Walter (MSP)
Subject: procedure

Parcel pairing needs to happen before the daily map can be updated.

Once parcel pairing is complete, do the field team activity map/follow those procedures.

Once the field team activity map is complete, do the daily planning map/follow those procedures. Before you *save/export this map, drag/add the field team activity layer you created for the field team map* to the daily planning map. Recovery would like to see the parcels that still need to be visited as well as the field team activity for the day on the same map.

Ken,

Here are two revised versions of the individual team maps. They are currently 11 x 17 but if you choose the Fit option when you print, it prints on normal letter size paper just fine. Let us know which one would better fit your needs/the teams needs and if any other adjustments need to be made.

Thanks,

Malyssa

My director, Kelly Rose, told me I could contact you regarding the Flint Water response for our Housing Choice Voucher Program.

We are attempting to determine the geographical boundaries of the Flint Water system. I can see that the zip codes for the city name "Flint" expand outside of the geographical city limits of Flint itself. What I cannot tell is which addresses to include from our program as impacted by this issue.

Do you have access to this information? Can you provide me information that will allow me to determine the number of individuals on our rental assistance program that are within the Flint Water system limits?

We are building a program response to this issue and we need this information to proceed.

Subject: FW: UM-Flint & State GIS contact information

Importance: High

James,
A phone conference with our group and these people should be setup.

Matt

Subject: UM-Flint & State GIS contact information
Importance: High

Hello Everyone,
You'll find below the email addresses of the UM-Flint professors who have been engaged by the City of Flint to digitize its water infrastructure data. The additional address is for the State's GIS team in the State Emergency Operations Center.

martyk@umflint.edu
grybar@umflint.edu
rosencra@umflint.edu
msp-seocgis@michigan.gov

The goal in sharing this information is to ensure that the State, the City of Flint and the University of Michigan-Flint have a common understanding of the time needed to complete this digitization effort, given current resources.

In addition to my UM-Flint position, I'm a SEOC liaison/external relations lead for the Michigan Region of the American Red Cross. Should you wish to contact me, you can reach me 24/7 at linda.dintenfass2@redcross.org and 734.476.6294.

If I can assist in any way, I would be glad to.

Linda

Linda Dintenfass, PEM; MBA
Emergency Preparedness Specialist
Environment, Health and Safety
University of Michigan-Flint
Work schedule: Mon, Wed & Thurs

To: Chomentowski, Walter (MSP); Tchorzynski, James (MSP)
Subject: Parcel data

Walter,
Did you happen to get parcel data for Burton City, Flint Twp, Genesse Twp, and Mt Morris Twp? Or Genesse County?

Matt

Chomentowski, Walter (MSP)

From: Katarsky, Anthony (MSP)
Sent: Tuesday, January 05, 2016 4:46 PM
To: MSP-EMHSD-Division
Subject: *URGENT - SEOC Activation*

On January 4, 2016, Genesee County requested that a "State of Emergency/Disaster" be issued by Governor Snyder. Today, the Governor issued a State of Emergency declaration. EMHSD will **activate the SEOC tomorrow at 0800** and will conduct a briefing at 0900 on the event. All state agencies will be represented. I ask that only those personnel requested to play SEOC roles and section managers attend the 0900 briefing due to space constraints. The initial focus of the SEOC will be to:

- Identify and implement any needed protective actions to protect public health and safety;
- Develop situational awareness;
- Develop understanding of technical aspects;
- Coordinate damage assessment;
- Coordinate public information; and
- Identify programs to assist in remediating damage.

If you have any questions, please let me know.

Anthony P. Katarsky
Assistant Division Commander
Michigan State Police
Emergency Management and Homeland Security Division
517-336-2686

Team Assignment – Target Areas

Priority – City Sections 3, 9, 11, 17, 19, 20, 23
Secondary – City Sections 2, 10, 28

Map Support

Maps and addresses will be provided daily to provide detailed information on city sections. Teams will target specific homes requiring follow up.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail.

Lee Janet to Jenna ARC Union 2 trucks request @ home depot.

Water Response Team – Door to Door Canvas

February 8, 2016

Recovery Staff Proposed Changes:

- Approve ARC to go from 10 to 5 ERVs/Teams.
    - ARC requested going from 10 to 5 ERV teams a week or so ago. They continue to train new drivers to give current staff breaks.
- Approve ARC to assist with 211, Rapid Response and AFN Lists.
    - Recovery is working on an Access and Functional Needs list for the Local EOC for ongoing service to AFN citizens and the goal is to have ARC assist with that, dispatched from Local EOC.
- Approve ARC to run water only teams
    - ARC is already doing water only delivery with event based volunteers rather than sending them out on the WRTs.
    - **Report amounts of water taken from warehouse/delivered to citizens.**
    - ***Report Areas (38 as broken out by GIS) visited daily for situational awareness.***
    - Not required to be tracked on iPad.

Status of parcels and citizen contact:

- WRTs are finishing up list of homes that had zero contact/no filter over the last 3 weeks of canvassing.
- WRTs are finishing up "Vacant/Active/No Filter" list.
- 99.3% of parcels have been engaged in water response efforts.
- WRTs are down to 195 (1%) parcels that have not had personal contact – this can be continued to get to 100% contact with the 5 ERVs in the coming days.

Other Activities for ARC Volunteers

- Community Centers have expressed need for help passing out water
    - Can be coordinated thru LEOC/per meeting held with BJ and Jay.

Flint Water Response Team Plan
Thursday, 01.28.16 - FINAL

Key

WRT	Water Response Team
OIC	Officer In Charge
ARC	American Red Cross
HH	Household
LEOC	Local Emergency Operations Center

Key Leaders

ARC OIC	Kristy Gallagher	Kristy.gallagher@redcross.org

Plan

Agency	Team Types	Mission
ARC	10 Type V	1000 HH

Resource Status

ARC

Team Type & Quantity	Type: Type V Quantity: 10 (10 ERV)				
Resource	**Required**	**Confirmed**	**Notes**	**Date**	**Time**
Team Leader	10	10		1/28/16	8:00 am
ARC ERV	10	10		1/28/16	8:00 am
ARC ERV Driver	10	10		1/28/16	8:00 am
Team Member	2-4	2-4		1/28/16	8:00 am
Team Transport Vehicle for 2-4 Team Members	10	10		1/28/16	8:00 am
Team Transport Vehicle Driver	10	10		1/28/16	8:00 am
iPads	10	10		1/28/16	8:00 am
Hand Warmers	40	40		1/28/16	8:00 am
Distribution Kit	1000	1000		1/28/16	8:00 am

Execution:

Key Locations

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Team Assignment – Target Areas

Priority – City Sections 3, 9, 11, 17, 19, 20, 23
Secondary – City Sections 2, 10, 28

Map Support

Maps and addresses will be provided daily to provide detailed information on city sections. Teams will target specific homes requiring follow up.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail.

Request/Task Details

Mission Name

Assist with case management home visits

Detailed description

Need 2-4 community members willing to accompany CDC case management staff to home visits starting Monday, Feb. 22nd. These teams, led by CDC will be visiting pre identified residences of children who have had a high blood lead level test results. CDC will have all the health resources.
The members that fill this request, would just need to be knowledgeable of the community and the other available resources, such as filters, water, test kits and the like.
For now they would meet at the Genesee Co Health Dept. at 0800 on Monday. They will meet with CDC there and ride with CDC throughout the visits.
Times may vary though, due to family availability, and it is expected there will be some weekend needs as well.

Attachment Description

Originating Position:	Originator Name:	
MDCH CHECC MGT Incident Response Coordinator	Mary Sharp	
Point of Contact:	Point of Contact Number:	
CHECC Incident Coordinator	517-335-8456

SAFETY MESSAGE/PLAN (ICS 208)

ASPR
ASSISTANT SECRETARY FOR PREPAREDNESS AND RESPONSE

1. Incident Name/Location: Flint Water Crisis	2. Operational Period: Date From: 2/6/16 Date To: 2/10/16 Time From: 0800 Time To 0800

3. **Location:** UCG Flint/ DTMB Building 125 East Union St, Flint MI

4. **Site Emergency Action Plan (Alarm and Evacuation Signal, Route and Rally Point, Accountability and Critical Material/Process Actions):** UCG operating from Administration Building; if fire alarm activates exit building through fire tower stairways located in the elevator lobby and near cargo elevator, UCG Plans will have copy of current personnel assigned and be responsible for accountability, rally point will be across from main lobby entrance in front of parking garage. Do not return to the building until given the all clear by Command.

5. **Hazardous Areas/Work Prohibitions (Prohibited Areas or Activities):** Avoid construction area in the main lobby. Rain and snow are expected and appropriate cold weather and rain gear should be in use. Driving conditions change with the weather. Temperature fluctuations result in wet pavement becoming ice and dangerous driving and walking conditions. Seat belt use is mandatory in rental cars in addition to all government vehicles.

6. **Sanitation (Toilets, Hand Washing, Shower, Waste Locations or Protocol):**
   - Facility has indoor restrooms to support up to 100 people (normal daily use).
   - Use refuse containers deployed about work area.
   - Please separate recyclables and deposit in appropriate containers (marked).
   - Regular hand washing is recommended. Wash hand after restroom use and prior to eating.
   - Canned and bottled water is available in the UCG.

7. **Security (Control Point and Site Security Protocol):** All personnel will wear issued identification and check with security in lobby when entering building if they have no building access card. Do not leave valuables in your car or your hotel room.

Do not travel alone. Use the buddy system.

7. Safety Officer Bill Kershner Contact: 202-697-1065 2/5/16 1445

Numbers

Fri 2/12/2016 5:28 PM

To Spata, Paul <paul spata@redcross.org>;

- Coordinated a total of 15 American Red Cross volunteers, 9 NCCC, 38 EBVs to visit 1173 homes to distribute 570 cases of water, 48 filters, 340 replacement cartridges, 145 test kits and 459 door hangers.

Court Street Apartments have been done - will look for the street sheet(s)

Miller West has been done - they stated we have been there several times and not to come back - will look for the street sheets

Asylum St. Apts and 4001 N. Averill Ave - told our volunteers they did not need anything.

Tebo St. Apts - Boarded up

Glenn Acre Estates - Boarded up

Robert T Longway - done - will look for street sheets

Roy J. Morrison Apts - done today - will email street sheet to you tonight.

I believe that completes the list of apartments given to us.

Diane,

Thanks for updating the apartment info.
Your earlier email indicated that the Robert T Longway Buildings were boarded up.

Alex from 'Recovery Branch' tells me he sent a new list of apartments to you yesterday. Based on what you have just reported, there would still be 4 complexes not yet accounted for from that list:

4001 N. Averill Ave
Asylum St Apartments
Ballenger Court Apts
Berridge Place Apartments

So, I guess we still have some place to send teams tomorrow.

By the way, I have just been informed that SEOC Operations wants us to keep our teams in place for the time being. It still to early to start reducing our volunteer force. Of course the cannot tell me how much longer they think we will need this many people.

Position	Name	Phone	Date/Time	Comment	Details
SEOC OPS Recovery Branch Director	Renee Tober	517-333-5030	02/08/2016 10.26.16	A recommendation was provided by email to SEOCOPSC to evaluate the need for the canvassing teams. If we continue canvassing efforts, Recovery Unit staff recommends possibly assisting with 211 calls and servicing the access and functional needs population. Recovery staff is working to compile a full list of these It may be possible to reduce the number of ARC teams to five (or fewer)	Update
SEOC OPS Recovery Branch Director	Renee Tober	517-333-5030	02/01/2016 12 39 10	Staff continues to compile daily distribution numbers from Water Response Teams and provide updates to Operations Chief and Planning Chief. Recovery Unit continues to deliver nightly bullet reports on team accomplishments to Planning Section by 6 pm	Update
SEOC OPS Recovery Branch Director	Renee Tober	517-333-5030	02/01/2016 11 32.55	Coordinating with water response teams to follow up with houses, Franchise Customers and Apartment Complexes Demobilizing resources as the number of teams have reduced. Act upon any new requests for resources	Update
SEOC OPS Recovery Branch Director	Renee Tober	517-333-5030	02/01/2016 11 30 54	Staff continues to coordinate with the GIS Unit on development of target area maps such as Franchise customers, and Team Assignment Areas	Update
SEOC OPS Recovery Branch Director	Renee Tober	517-333-5030	02/01/2016 11 25 35	Recovery staff has been attending daily Distribution Process Meetings to continue coordination and verification of supplies needed to support the PODs and the Water Response Teams	Update
SEOC OPS Recovery Branch Director	Stacy Theis	517-336-2694	01/25/2016 13 17 36	Coordinating with water response teams to follow up with houses Demobilizing resources as the number of teams have reduced. Act upon any new requests for resources	Update
SEOC OPS Recovery Branch Director	Brianna Briggs	517-230-2949	01/12/2016 10 57 24	Hours of operation for the teams has been established and will remain 8 30 a.m to 5 p m. Local GIS has provided iPads and software for tracking distribution in the field. A tracking sheet has been developed and printed for use in the field if software issues occur Training was developed and conducted for the teams currently scheduled to be in the field Tuesday through Friday MSP is currently developing a strategy for canvassing of the entire affected area Teams were deployed into the field as of 1000 Tuesday, Jan 15. Weather conditions and media avail at GCCARD prevented start time at 0830 MSP continues to monitor any safety and security concerns for the teams EMHSD staff delivered the four vehicles being used for canvassing to the GCCARD facility on Monday, Jan 11. All related requests are currently being worked on and monitored by Recovery Branch staff. Additional requests are being considered in order to expand operations of the teams in the field. Training was conducted for the current teams. Daily deployment briefings will be conducted. The first briefing occurred Tuesday, Jan 12	Update

Recovery Branch (Obj 1)-2015-10-01-City of Flint-Water Contamination/Shortage Objective: 1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.	Date From: 02/09/2016 Time From:08.00.00	Date To: 02/16/2016 Time To: 08.00:00	

4. Operations Personnel:	Name	Contact Number(s)
Operations Section Chief:	Rotating Daily	
Branch Director:	Brianna Briggs	
Division/Group Supervisor	Carly Georgopoulos	

5. Resources Assigned:		# of Persons	Contact (e g , phone, pager, radio, frequency, etc.)	Reporting Location, Special Equipment and Supplies, Remarks, Notes, Information
Resource Identifier	Leader			
ARC POC	Diane Fodness	1		

6. Work Assignments:

Critical Task Support ongoing distribution efforts.

Tactics:
1. Verify with Logistics that there are enough supplies to support the PODS and Water Response Teams.
2. Coordinate with GIS on development of target area maps.
3 Update Water Response Team Plan daily for distribution to key personnel.
4. Compile daily the distribution numbers from Water Response Teams and provide to Operations Chief and Planning Chief
5. Recovery Unit will deliver nightly reports on team accomplishments to Planning Section by 6 pm.
6. Demobilize resources as Water Resource Team sizes reduce.

7. Special Instructions:

Any safety information, report in requirements, information to share/not to share, etc

A Flint Water Response Team consists of personnel, transportation, mobile device, identified team leader with contact information, resource package (from warehouse).

All volunteers will be coordinated by the American Red Cross through the Volunteer Reception Center (VRC). Local MSP contact will coordinate with the VRC to fulfill missions.

The number of teams will vary from day to day for deployment during this operations period.

8. Communications (radio and/or phone contact numbers needed for this assignment):

Name/Function	Primary Contact: indicate cell, pager, or radio (frequency/system/channel)

Date: 2-5-16 Operational Period: 11 am - 1:21:30

Behavioral Health Response Plan:

- Flint Community Resilience Group response planning group—developing immediate, medium, and long-range goals (recruit providers, obtain HRSA Health Professional Shortage Area designation, complete CAST and STYH surveys.

PFA TTT focusing on schools and faith-based entities

- Have contacted 25 community groups for PFA; 16 have indicated their interest in scheduling PFA training.
- PFA TTT presentation finished for use. Combination of American Red Cross, Listen/Protect/Connect, and NCTSN.

Behavioral Health Support for community-based health and human service providers:

- Scheduling force health protection events.

Human Service Task Force

- Transfer 2 activities to recovery –monitoring.
- Develop exit report and strategy for FHCO
- HUD has now heard back from all owners/management agents of privately owned multifamily housing with HUD assistance in Flint comprised of 2300 units in 18 housing developments. A summary is provided below:

1. Linden Lane: Property in Flint Township, not on City of Flint water.
2. Shiloh Commons: Installed filters in all units. Ordered additional filters to install in bathrooms as well.
3. Cambridge Square: Not on Flint water
4. Miller West: Not on Flint water
5. Garden view: Installed filters in all unit
6. Ridgecrest Village: Installed filters in all units
7. River Village: Installed filters in all units
8. Roy J. Morrison Apts: Will be submitting request to HUD for funding for filters
9. Slidell Senior: Filters installed in all units
10. Taylor Lake Manor: Filters installed in all units
11. Cranbrook Village: Not on Flint water
12. Oak Street Senior: Tested water, lead levels at 0. Fairly recent

construction.

13. REC Group Living: Not on Flint water
14. Evergreen Regency: Filters installed in all units
15. Flint Heights: Not on Flint water
16. Kearsley Manor: Filters installed on all kitchen faucets
17. Rolling wood Manor: Filters installed on all kitchen faucets
18. Eastside Village: Not on Flint water

- HUD has confirmed that all public housing residents have been supplied one filter per unit and have access to replacement cartridges.

Nutrition and Education Task Force

- Requests from Michigan Department of Education and Michigan Department of Health and Human Services continued to be reviewed.

Public and External Affairs Task Force

EPA PIO

- Completed the update Active Steps To Keep Your Family Safe Fact Sheet; gone to printer, will translate to Spanish, and Chinese, posted to website
- Updated fact sheet and door hanger language.
- Worked with Logistics to establish a local phone number for residents to call to request sampling.
- Assisted sampling teams with field grab and sequential sampling.
- Engaged with residents during sampling and handed EPA flyers.
- Scheduled further sampling appointments for the next few days.
- Communicated with Flint Community Schools regarding the ORD Water Assessment Team's chlorine sampling efforts. Informed the Superintendent of intention to sample at school buildings tomorrow.
- Provided staffing needs to Situation and Resources Unit.
- Connected with Flint Area Boys and Girls clubs and made arrangements to talk to club members at upcoming events. Left EPA flyers for students and parents.
- Provided English and Spanish flyers to local community groups and churches.
- Introduced newly-mobilized EPA Hispanic translator to Flint contacts to maintain connections through staffing changes.
- Provided current list of community contacts to Public Information Unified
- Command Liaison.

CDC PIO

- Coordinated with response communication leadership regarding possible media release on BLL screening recommendations.
- Developing talking points regarding the reasoning behind the recommendation for Blood Lead Level screening.
- Adapting existing lead infographic requested by Genesee County.
- CDC/ATSDR leadership is working with the response External Affairs Task

Attached is the updated list of franchise customers. The ones highlighted in yellow are completed and the orange are business and the blank ones will be our priority Monday morning.
We completed the previous list that you gave us, which included: 3, 11, 17, 20, 23, 27, 28, 29, 30 & 31

We have a minimal amount of back data entry that will be entered in before 12 noon tomorrow.

Dave

Cc: Fodness, Diane; Montgomery, Leslie; Gallagher, Kristy; Lampson-Coats, Debra
Subject: 180 list

All,

Chris DeVriendt, Genesee Emergency Manager, is asking about a list of approximately 180 addresses that the "state" keeps telling him have not been touched. It is Chris' impression that list has been given to the Red Cross and we have been including them in our routes. His request is:

1 What is the status of these addresses?
2 How many times have we gone there?
3 Is it a vacant lot?
4 Does it visually appear vacant?
5 Is there a padlock on the door?
6 What happens to these notes if they are written on the street sheets?

Chris would like to get to the bottom of this list, as I'm sure we would, and define a way of removing addresses from the not touched list for whatever reason is deemed acceptable.

On a similar note, Chris would also like to get to clear up these same questions with the NCCC team list but has decided to take that up after the Southern Baptist Convention takes this over next week.

Thank you,

Cheryl Partlo

Hey all –

Bridgit at the SEOC has also reached out directly to Diane in Ops. We have asked that this list of 193 be sent to Ops so that we can compare it to what we've done. Linda, can you connect with Bridgit?

We're confident that we have touched all the addresses that we've been sent via the state.

Cheryl – can you pass to Chris that we are working this with the state?

Thanks,
Seth

Subject: RE: Request from Governor's Office for Daily Sample Metrics

Since the implementation of the Residential monitoring through January 22, 2016 the numbers are as follows:
1186 total Residential Samples have been reported
1099 Samples are at or below the Action Level of 15 ppb (92.7%)
966 Samples are at or below 5 ppb (81.5%)
87 Samples exceed the Action Level of 15 ppb (7.3%)

Since January 7, 2016 through January 22, 2016 the numbers are as follows:
514 total Residential Samples have been reported
477 Samples are at or below the Action Level of 15 ppb (92.8%)
432 Samples are at or below 5 ppb (84.0%)
37 Samples exceed the Action Level of 15 ppb (7.2%)

Since January 19, 2016 through January 22, 2016 the numbers are as follows:
341 total Residential Samples have been reported
322 Samples are at or below the Action Level of 15 ppb (94.4%)
432 Samples are at or below 5 ppb (87.4%)
19 Samples exceed the Action Level of 15 ppb (5.6%)

There are approximately 1000 additional samples that have been received at the Lab and are in process.

I have submitted a request to the EOC to obtain information from MDARD that will allow me to identify food establishment samples. Once I get that information I can see if I can provide that as well.

Thank you
George

Subject: Re: Request from Governor's Office for Daily Sample Metrics

I asked the chief of state to provide standing information requirements so I could provide the gov the same info in my nightly report. So all the below will be filtered into my nightly report versus different state agencies sending him a report each night correct?

Draft Flint Water Operations Plan

January 22, 2016

12:45

The State of Michigan's emergency response to the Flint water crisis will involve several phases: Initial Mass Distribution; a distribution Surge, Volunteer Expansion (an increase in the utilization of the volunteer force to distribute commodities over the longer term, Ongoing Resourcing, and Long Term Recovery.

Initial Distribution 1/21/16 - Complete

- Canvassing teams were initiated by the sheriff and fleshed out by MSP, American Red Cross, National Guard, and volunteers.
- Goal – Touch every residence with water, filters, filter cartridges, and test kits to demonstrate we have attempted to supply all residences with potable water.
- Canvassing was based on geographic areas to make the distribution as efficient as possible.
- Points of Distribution (PODS) established at 5 Flint fire stations to distribute water, filters, filter cartridges, and test kits; initially ARC staffed, then replaced by National Guard.
- 2-1-1 used to address all questions and serve as POC for all special needs requests (hot shots).
- Initial Distribution complete the morning of January 21 based on feedback from local EOC.

Surge – Current

- A resource surge, including National Guard and American Red Cross canvassing teams began January 21. Daily missions were intended to reach as many households as possible who may not have been reached in the initial distribution. The surge included water, filters, filter cartridges and test kits.
- Goal – Reach every residence with water, filters, filter cartridges, and test kits.
    - Metric 1 – Every household will be identified as having either been reached and resources distributed or information left at the door as to how to have resources delivered.
- Canvassing was based on geographic areas to provide manageable areas for each team and to assure that areas where risks of lead contamination or vulnerable populations were known to be more likely were adequately covered. Also, where distribution in the Initial Distribution phase needed additional support were identified and re-canvassed.
- Points of Distribution (PODS) staffed by National Guard continue at 5 Flint fire stations to distribute water, filters, filter cartridges, and test kits.
- 2-1-1 is addressing all questions and serving as Point of Contact for all special needs requests (hot shots).
- Surge completion is planned for COB January 24; remaining hot shots will be addressed by ARC or other volunteer teams.

Volunteer Expansion -ARC

- Goal – Move from manual distribution mechanism to less labor intensive processes.
    - Metric – One year of availability and supply of water and other commodities to every household and franchise customer.
- Develop messaging for the transition to a more volunteer/community based distribution of water, filters, cartridges, and test kits noting Fire Station PODS to be relocated to locally operated PODs by January 31 (*Suggested alternate: February 12*). NG avail until 2/14
- Identify new water only PODs operated by local non-governmental agencies, faith-based organizations or other volunteer groups.
- With a working group of SEOC staff and local agencies, develop and implement best methodology for long-term distribution of filters and filter cartridges by *the target date.*
- Volunteer Expansion complete by COB January 31 (*or February 12*).

* Does one to be registered / confirmed by all parties

Draft Flint Water Operations Plan

January 22, 2016

set up resource hotline

Ongoing Resourcing

- Goal – Implement long-term, workable processes to sustain provision of potable water to residents.
  - Metric – Every household and franchise customer has access to adequately filtered water at each faucet within the home. "SMART" - measurable
- Develop messaging for implementation of this phase and transition to next phase.
- Water distribution by the city or by faith-based or other volunteer groups.
- Establish long-term filter distribution process using USPS, vouchers, Bridge style cards, or other measureable program.

Long Term Recovery

- Goal –water distribution operations are normalized.
  - Metric 1 – Households are served by the Flint water system.
  - Metric 2 – Households do not require filtration at the faucet.
  - Metric 3 – All water tests meet or exceed all established water quality metrics and regulations.
- Ongoing public messaging and education are offered free to the public by a variety of public message outlets, media, extension courses and community workshops and seminars.
- All recommended solutions are implemented. Analyses are complete, and public trust in Flint water is re-established.
  - Metric 1 – Surveys indicate that __% of residents and customers agree that the water tastes fresh and they trust test results.

Pastors/faith based
- divide city in 4 quad.
1 church serve as "super POD"

FEDERALSEOC

From: MSP-EOC-MDSP
Sent: Friday, January 15, 2016 8:56 AM
To: Briggs, Brianna (MSP); FEDERALSEOC; MSP-SEOC5
Subject: FW: Teams tomorrow

FYI, I think the information you requested is below, please let me know if you need more or have other questions.

Lt's.
The Team coverage in the Wards tomorrow is this...
Red Cross teams = Ward 6
MSP teams = Wards 5 and 2

This is what I know at this time.
Mike
Spl/Lt. Mike Garland

trucks Rented thru 1/23
16ft Uhauls #

trucks + trailers DOC thurs
trucks + Trucks DOC Friday

1 Shuttle + Truck + Trailer to ARC

We are projecting 8 teams tomorrow, 12 volunteers per team.

Local Water Response Team manager is F/Lt. Tom Kish. He can answer the ones I do not have answers for. My answers are in bold below.

1. How many teams? **Kish?**
2. How many volunteers on a team? **Kish?**
3. Where are they reporting to? **Local EOC, 1101 Beach Street, parking at corner of Beach and 8th**
4. Who do they report to? **Kish and his local commander**
5. Do you have enough transport vehicles? **yes**
6. Do you have enough supply vehicles? **Yes**
7. Do you need all the DOC crews back tomorrow? **No, we need 4 short box trucks, DOC calls them Cubes. The resource request has been updated in MiCIMS and this was communicated to DOC. The vehicles they had there today apparently are loaded with product and will need to be unloaded or used tomorrow, so they will be there first thing in the morning and need to be dealt with.**
    a. Here are all the resources they had today and they are mirroring it tomorrow. (If this is not what is needed, this needs to be stated in the resource request. Nothing is getting updated.) **This has been updated, see #7. The below resources that do not fit within #7 may be related to other operations, so I cannot cancel them all. However, I did cancel the passenger vans, handicap van, pickup trucks, and trailers for Water Response Team operations. We left 2 pickup trucks with trailers for "Hot Shot" use**

Today we had . staff and vehicles dedicated (on site) to the response, additionally we have 4 pallet jacks, one refrigerated semi-trailer and three MDOC staff assigned to the SEOC location.
Information is as follows:
(6) Large Box trucks — where are other 3 from?
(5) 15 passenger vans

(2) Pick-up trucks — DOC or EMHSD
(2) enclosed trailers
(1)Handicap Van
(1)20 passenger Van

8. If you do need them, where are they reporting? **The 4 we have requested should report to the Local EOC.** I would like 2 for the GCCard Hot shots operation please. **Feel free to use any, otherwise unallocated DOC vehicles for your needs. I have cancelled all requests in MiCIMS for all DOC assets other than the 4 vehicles we have requested above and the 2 DOC trucks and trailers you requested today. The sheriff department is using some DOC vehicles as well. I did not cancel those requests as they were not my requests. If the sheriff department does not need them anymore, they will need to cancel their request by contacting you.**

9. If we are expecting 100+ people, I think it's a good idea to have the Penske trucks? Especially to offset the DOC crews, since we are paying them and the Penske are free.

We are using 8 U haul trucks that are tasked to the Water Response Team mission in addition to the 4 DOC vehicles listed above. If you want to use Penske trucks instead of U Haul trucks, DTMB will need to coordinate that change. However, the Penske trucks should be low level trucks that can be loaded from the ground without a lift gate or fork lift. (Step up/step in height.

Water Resource Team Coordination Meeting 011616

Goal: Increase the # of households served per day by the Water Resource Teams through scalable resource optimization

How: Standardize and Support

1. Standardize the team composition and resource requirements
2. Provide end to end support to the Water Resource Teams

Bottom Line: All teams start day with all resources necessary to meet their assigned mission. Should a team exceed their daily mission with sufficient time to continue canvassing, resupply will come to you. These are planning considerations and WILL NOT negate the authority to adjust team composition, routes resides with Water Resource Team Commander and Red Cross OIC

Concept of Operation and Support

1. Planning & Prioritization
   a. Plan Components
      i. Team Type: Mission, Resources (Vehicles, Members) Product
      ii. Priority: Wards
   b. Accountable: Recovery
   c. Approval: Director

Lead, VulnerablePOP, where we've been

2. Resource
   a. Resource Components
      i. Vehicles
      ii. Product
      iii. Personnel
      iv. Lunch
   b. Accountable: SEOC Logistics
   c. Responsible: SEOC Logistics, SEOC Warehouse, Red Cross Volunteer Resource Center
3. Execution
   a. Water Resource Team Daily Distribution
   b. Accountable: MSP
   c. Responsible: MSP Water Resource Commander, Red Cross OIC
4. Execution Support
   a. Team Replenishment
   b. Accountable: SEOC Logistics
   c. Responsible: SEOC Warehouse
5. Reporting
   a. Distribution Reporting
   b. Accountable: MSP Water Resource Commander
   c. Responsible: All Water Resource Teams

Subject: FW: MDOC-SEOC Daily Report: Friday, January 15th, 2016
Attachments: Snyder seeks presidential emergency and major disaster declaration to help flint residents - 2016.01.14.pdf

Importance: High

- Director Washington and SEOC assigned staff have maintained communication during this activation.
- Operation period of 12-14 hours daily for the Emergency Management Section assigned staff throughout the weekend.

Resources scheduled for Saturday, January 16, 2016:

Vehicles with Drivers

(2) – 18' Box Trucks
(3) – 20' Box Trucks
(2) - 24' Box Trucks
(1) - 30' Box Truck (Lift gate broken but truck still on site, DTMB repairing)

Box Trucks have power lift gates

(1) – F250 Pick Up Quad Cab with Cap
(1) – 5 Passenger Handicapped Capable Van

(1) – 15 Passenger Van with 10' Enclosed Trailer
(1) – Pick-up Truck with 20' Enclosed Trailer

(4) – 10/15 Passenger Vans

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(4) - Pallet Jacks

(5) 6-10 Passenger Vans

All vehicles drivers have 800 MHz Radio Operability (G EVENT 9)

Staffing

There will be 22 staff members on site 21 drivers and an assistant for the Red Cross Transportation Van (w/trailer).

You will be receiving updated information as we progress with the operation. This information is not to be shared outside the agency.

If the family is enrolled in the program, Head Start will : • Determine if the family has been tested for lead. • If they have not been tested, they will be referred to their local health department to obtain the testing. • If they have been tested and the blood lead levels are above 5 parts per billion, Head Start will recommend further testing through the local health department or the family's healthcare provider. If the family is not enrolled in the program, Head Start will: • Refer the family to the local health department for lead testing and other services. • Refer the family to WIC.
Application Process:	Contact Head Start for information

Program:	Community Development Grants
Responsible Agency:	Michigan Strategic Fund Michigan Economic Development Authority (MEDC)
Point of Contact:	CDDmailbox@michigan.gov or via the CDD Office main telephone line at 517.373.1974.
Type of Support:	Local governments and non-profit agencies.
Eligibility Guidelines:	Refer to individual programs for eligibility information
Benefits Available:	Effective January 19, 2016, the majority of the MSHDA and MEDC Community Development staff and Downtown & Community Services staff will merge together under the Michigan Strategic Fund (MSF) in a new group called the Collaborative Community Development (CCD) team. This division oversees the following grants: BLIGHT ELIMINATION PROGRAM • The program is designed to provide financial assistance to communities to make physical

	improvements to residential neighborhoods through blight removal of vacant residential structures that are publically owned. HOMEBUYER ACQUISITION AND REHAB PROGRAM • Homebuyer assistance is used to expand homeownership opportunities for income-eligible homebuyers through the acquisition, rehabilitation or new construction of single-family units. Funds may be used to help buyers qualify for conventional financing or to rehabilitate existing units offered for sale in the local market. HOMEOWNER REHAB ASSISTANCE PROGRAM • Homeowner assistance is used to improve the principal residence of income-eligible homeowners. Repayment for assistance other than emergency repair is required upon sale or transfer of the property to a new owner or if the property is no longer occupied by the borrower, which is ensured through a lien on the property. PRE-DEVELOPMENT LOAN PROGRAM • The Pre-Development Loan Program (PDL) provides interest-free capital for costs incurred prior to the development of certain housing projects. RENTAL REHAB PROGRAM • The rental program provides quality, safe and affordable rental housing in vibrant places by granting financial resources to our local and statewide partners. Priority of properties is moving toward being inclusive of a wide range of building types that can create an assortment of urban conditions: downtown mixed-use buildings, semi-detached and attached duplexes, front/ rear/stacked row houses, townhomes and stacked flats (restrictions apply).
Application Process:	Contact the Community Assistance Team East Michigan Rep: Emanuel Odom 810-941-2358 Odome1@michigan.org

Program:	Michigan Neighborhood Stabilization 2
Responsible Agency:	Michigan State Housing Development Authority
Point of Contact:	MSHDA at (517) 373-8370 Michele Wildman wildmanm@michigan.gov
Support:	Local government, economic development agencies, consortiums, etc.
Eligibility Guidelines:	These funds are for 93 census tracts in the cities of Detroit, Highland Park, Hamtramck, Wyandotte, Flint, Saginaw, Pontiac, Lansing, Battle Creek, Kalamazoo, Grand Rapids and Benton Harbor.
Benefits Available:	Generally, the money must be used to buy, fix up, and resell or demolish foreclosed and abandoned homes. As long as the funds are used for this redevelopment, MSHDA governs how to use the funds and what specific redevelopment activities to undertake in Michigan.
Application Process:	Contact Michelle Wildman at MSHDA (see above)

Program:	Safe Homes/Safe Kids
Responsible Agency:	Michigan Alliance for Lead Safe Housing

Potential Assistance Programs –
Compiled by MDARD

Program Name: **USDA Rural Development Business & Industry Loan Guarantee**

Agency Responsible for program – USDA Rural Development

Point of Contact: James Turner, Michigan Director, USDA Rural Development

Type of Support (Individual or Government) – Businesses, Nonprofits, Government loan guarantees

Eligibility Guidelines – Lenders apply for loan guarantees for borrowers. Though most USDA Rural Development programs are limited to rural areas, this program has the authority to fund local food infrastructure in urban areas as long as the project supports farm and ranch income and expands healthy food access in underserved communities.

Benefits Available – Loan guarantees for business development, enlargement, purchase of facilities & upgrades, purchase of equipment.

Application Process – Rolling applications; contact lender or USDA Rural Development Michigan office for more information.

Link: http://www.rd.usda.gov/files/Local_Food_Fact_Sheet_20150401.pdf

Program Name: **USDA Agricultural Marketing Service Farmers Market Promotion Program**

Agency Responsible for program – USDA Agricultural Marketing Service

Point of Contact: FMPP Staff by email at USDAFMPPQuestions@ams.usda.gov or by phone 202-720-0933

Type of Support (Individual or Government) – Grants to Businesses, Nonprofits, Governments

Eligibility Guidelines – Entities that are eligible to apply include:

- Agricultural businesses
- Agricultural cooperatives
- Community Supported Agriculture (CSA) networks
- CSA associations
- Economic development corporations
- Local governments
- Nonprofit corporations
- Producer networks
- Producer associations
- Public benefit corporations
- Regional farmers' market authorities

Program Name: **USDA Agricultural Marketing Service Federal State Marketing Improvement Program**

Agency Responsible for program – USDA Agricultural Marketing Service

E-mail: janise.zygmont@ams.usda.gov

Type of Support (Individual or Government) – Grants to state agencies & universities

Eligibility Guidelines – FSMIP provides matching grant funds to conduct applied research projects that explore new market opportunities for U.S. food and agricultural products and improve the efficiency and performance of the U.S. agricultural marketing system. These grants are awarded on a competitive basis to State departments of agriculture, forestry, natural resources, or energy, as well as other State agencies such as experiment stations, universities, and colleges. Projects can focus on a wide variety of agricultural research goals, including increased sales of value added meat products, aquaculture, fresh and processed products, local and regional food systems, forestry, bioenergy, and horticulture. Proposals that benefit one business or individual will not be considered. Proposals that address issues of importance at the State, multi-State, or national level are encouraged.

Benefits Available – 2015 FSMIP Projects: Total Funding: $1,005,906; Average Grant: $67,060; 15 projects in 14 States.

Application Process – 2015 grant cycle applications were due May 14, 2015; 2016 cycle not yet announced.

Link: http://www.ams.usda.gov/services/grants/fsmip/apply

Program Name: **Specialty Crop Block Grant Program**

Point of Contact: Nancy Nyquist, Michigan Department of Agriculture and Rural Development

Agriculture Development Division
P.O. Box 30017
Lansing, Michigan 48909
Phone: (517) 284-5735

The Michigan Department of Agriculture and Rural Development (MDARD) offers the Specialty Crop Block Grant Program-Farm Bill (SCBGP-FB) through the United States Department of Agriculture/Ag Marketing Service (USDA/AMS); the funding is from the federal allocations.

- Tribal governments

All applicants must be domestic entities owned, operated, and located within the 50 United States. State Departments of Agriculture are eligible if the State's regulatory statutes identify the specific State Department of Agriculture as a regional farmers' market authority (need to confirm Michigan status).

Benefits Available – The minimum FY 2015 award per grant was $15,000 and the maximum $100,000.

Application Process – 2015 grant cycle applications were due May 14, 2015; 2016 cycle not yet announced.

Link: http://www.ams.usda.gov/services/grants/fmpp

Program Name: **USDA Agricultural Marketing Service Local Food Promotion Program**

Agency Responsible for program – USDA Agricultural Marketing Service

Point of Contact: LFPP staff by e-mail at USDALFPPQuestions@ams.usda.gov or by phone at

Type of Support (Individual or Government) – Grants to Businesses, Nonprofits, Governments

Eligibility Guidelines – The Local Food Promotion Program (LFPP) offers grant funds with a 25% match to support the development and expansion of local and regional food business enterprises to increase domestic consumption of, and access to, locally and regionally produced agricultural products, and to develop new market opportunities for farm and ranch operations serving local markets. There are two types of project applications are accepted under LFPP—planning grants and implementation grants. Applicants can apply for either but will receive only one type of grant in the same grant cycle. Eligible entities may apply if they support local and regional food business enterprises that process, distribute, aggregate, or store locally or regionally produced food products. Such entities may include:

- Agricultural businesses and cooperatives
- Producer networks and associations
- Community supported agriculture networks and associations
- Other agricultural business entities (for-profit groups)
- Nonprofit and public benefit corporations
- Economic development corporations
- Regional farmers' market authorities
- Local and tribal governments

Benefits Available – The minimum FY 2015 award per grant was $15,000 and the maximum $100,000.

Application Process – 2015 grant cycle applications were due May 14, 2015; 2016 cycle not yet announced.

Link: http://www.ams.usda.gov/services/grants/lfpp

Specialty crops are defined as "fruits and vegetables, tree nuts, dried fruits, and horticulture and nursery crops, including floriculture." Included are listings of plants commonly considered as fruits and tree nuts; vegetables; culinary herbs and spices; medicinal herbs; and nursery, floriculture, and horticulture crops.

PURPOSE OF GRANTS:

Examples of "enhancing the competitiveness" of specialty crops includes, but is not limited to: research, promotion, marketing, nutrition, trade enhancement, food safety, food security, plant health programs, education, increased knowledge and consumption, increased innovation, improved efficiency and reduced costs of distribution systems, environmental concerns and conservation, product development, good agricultural practices, good handling practices, and good manufacturing practices.

Increasing competitiveness may include developing local and rural agricultural economies, and improving food access in underserved communities:

- Increase nutritional knowledge and specialty crop consumption
- Improve efficiency within the distribution system and reduce costs
- Promote the development of good agricultural, handling and manufacturing practices while encouraging audit fund cost-sharing for small farmers, packers and processors
- Support research through standard and green initiatives
- Enhance food safety
- Develop new/improved seed varieties and specialty crops
- Control pests and diseases
- Create organic and sustainable production practices
- Establish local and regional fresh food systems
- Increasing healthy food access in underserved communities

Grant funds cannot be used for coupon/incentive redemptions or price discounts. Costs associated with printing, distribution, or promotion of coupons/tokens or price discounts (i.e., a print advertisement that contains a clip-out coupon) are allowable only if they solely promote the specialty crop rather than promote or benefit a program or single organization.

MDARD will release a request for proposals in early February 2016 for funding consideration. Applicants may request up to $100,000 in funding and approved projects cannot begin work until after October 1, 2016.

Program Name: **Value Added Grant Program (State funding)**

Point of Contact: Nancy Nyquist, Michigan Department of Agriculture and Rural Development

Agriculture Development Division
P.O. Box 30017
Lansing, Michigan 48909
Phone: (517) 284-5735
E-Mail: nyquistn@michigan.gov

This grant program is currently under review by the Michigan Department of Agriculture and Rural Development. It is anticipated that a late winter/early spring 2016 request for proposals will be available with funding of projects up to $150,000 with a 25% (minimum) match requirement of total project costs. Proposals should be focused on the following areas: Technical assistance, Feasibility studies, increasing the economic value of a commodity through production processes, export market opportunities, and projects that intend to establish, retain, expand, attract and/or develop value added agricultural processing in the State of Michigan.

d. Type of Support: Individual
e. Eligibility Guidelines: Borrower must be primarily involved in manufacturing, be a not-for-profit corporation, or be a solid or hazardous waste disposal facility. Maximum bond amount is $1 million free of any restrictions on capital expenditures or $10 million subject to the condition that the company's total capital expenditure in the locality over the three years before and three years after the date of the issuance does not exceed $20 million. There is no size limit for bonds issued to finance solid or hazardous waste disposal facilities. Fees apply based on the amount of the bond
f. Benefits Available: Provide firms with capital cost savings stemming from the difference between taxable and tax-exempt interest rates.
g. Application Process: Applicant prepares an application for the bond and submits it to MSF staff. MSF considers an inducement resolution at its public meeting recognizing the public purpose of the project. Applicant structures the financing and bond counsel begins to prepare documents. MSF considers adoption of authorizing resolution.

Business Development

a. **Program Name – Michigan Business Development Program**
b. Agency Responsible for program – MEDC
c *Point of Contact – Josh Hundt*
d. Type of Support (Individual or Government) – Government
e. Eligibility Guidelines – job creation and private investment by expanding or relocating business
f. Benefits Available – cash grant
g. Application Process – submission of application to MEDC staff, Michigan Strategic Fund review and approval, execution of incentive agreement, milestones and disbursements, reporting and compliance.

Federal Grant Development

a. **United States Department of Agriculture – Rural Community Development Initiative Grants**
b. Agency Responsible for program – USDA
c. Point of Contact – Jennifer Tebedo

d. Type of Support (Individual or Government) – Government
e. Eligibility Guidelines – Rural areas outside the boundaries of a city of $50,000 or more and its immediately adjacent urbanized area to improve housing, community facilities, and community and economic development projects
f. Benefits Available – cash grant
g. Application Process – Applications are accepted on an annual basis through a Notice of Funding Availability (NOFA) in the Federal Register

a. **United States Department of Agriculture – Rural Business Development Initiative Grants**
b. Agency Responsible for program – USDA
c. Point of Contact – Jennifer Tebedo
d. Type of Support (Individual or Government) – Government
e. Eligibility Guidelines – Rural areas outside the boundaries of a city of $50,000 or more and its immediately adjacent urbanized area to support community economic development.
f. Benefits Available – cash grant
g. Application Process – Applications are accepted through the USDA Rural Development's local or State Office once per year.

a. **United States Department of Commerce – Planning Program and Local Technical Assistance Program**
b. Agency Responsible for program – US EDA
c. Point of Contact – Jennifer Tebedo
d. Type of Support (Individual or Government) – Government
e. Eligibility Guidelines – assists eligible recipients in developing economic development plans and studies designed to build capacity and guide the economic prosperity and resiliency of an area or region. The Planning program helps support organizations, including District Organizations, Indian Tribes, and other eligible recipients, with Short Term and State Planning investments designed to guide the eventual creation and retention of high-quality jobs, particularly for the unemployed and underemployed in the Nation's most economically distressed regions.
f Benefits Available – cash grant
g. Application Process – Applications are accepted on a continuous basis through the regional or State Office.

a. **United States Department of Commerce – Public Works and Economic Adjustment Assistance Programs**
b. Agency Responsible for program – US EDA
c. Point of Contact – Jennifer Tebedo
d. Type of Support (Individual or Government) – Government
e. Eligibility Guidelines – EDAP makes construction, non-construction, and revolving loan fund investments to support the implementation of regional economic development strategies designed to create jobs, leverage private capital, and encourage economic resilience.
f. Benefits Available – cash grant
g Application Process – Applications are accepted on a continuous basis through the regional or State Office.

MSHDA

Program Names: Community Development Block Grant Program (CDBG) and HOME

Agency Responsible For Programs:

Non-Entitlement Areas – Statewide

CDBG: Michigan Strategic Fund/Collaborative Community Development
Contact Person: Katherine Czarnecki Phone Number: 517.241.4950

HOME: Michigan State Housing Development Authority
Contact Person: Michelle Wildman Phone Number: 517.373.4363

Entitled Areas receive a direct allocation from the U.S. Department of Housing and Urban Development (HUD). Flint falls under the category of an Entitled Area and in FY15, HUD directly awarded Flint $3,617,741 in CDBG and $666,059 in HOME.

Type of Support: CDBG and HOME Federal Assistance

CDBG Eligibility Guidelines:
There is a lot of flexibility overall within CDBG. Note: activities identified in the City of Flint's Consolidated Plan include: **"Community Development and Infrastructure -** The City has 540 miles of water distribution lines, 570 miles of sanitary lines, and 350 miles of storm rain water lines. Much of this infrastructure is over 100 years old and in need of reconstruction or replacement. Insufficient funds are the major obstacle to addressing this need. CDBG and municipal financing represent a fraction of what is needed to address the problem. Additional funds from state and federal sources are needed and are being sought. CDBG will help fill the gap of inadequate resources to maintain community facilities and increase services."

For additional details go to the attached hyperlink City of Flint Consolidated Plan Link.

Overall CDBG can be used for: Acquisition of Real Property; Disposition; Public Facilities and Improvements; Clearance; Public Services; Interim Assistance; Relocation; Loss of Rental Income; Privately-Owned Utilities; Rehabilitation; Construction of Housing; Code Enforcement; Special Economic Development Activities; Microenterprise Assistance; Special Activities by CBDOs; Homeownership Assistance; Planning and Capacity Building; Program Administration Costs and Miscellaneous Other Activities.

CDBG can be qualified based on Urgent Need: An activity designated to alleviate existing conditions and the grantee certifies that those conditions are a serious and immediate threat to the health or welfare of the community, they are of recent origin or recently became urgent, the grantee is unable to finance the activity on its own, and other sources of funds are not available.

CDBG can be qualified based L/M Income Area Benefit: Can be used for an activity the benefits of which are available to all the residents in a particular area that is primarily residential, and at least 51% of those residents (or fewer if the exception criteria apply) are L/M income persons. **See hyperlink page 37 for a list of eligible census tracts.

HOME Eligibility Guidelines:
The actual activities that have been identified in the Consolidated Plan (hyperlink Page 155) are homebuyer assistance and refinancing of existing debt on multi-family projects.

Overall HOME can be used for: home purchase or rehabilitation financing assistance to eligible homeowners and new homebuyers; build or rehabilitate housing for rent or ownership; or for other reasonable and necessary expenses related to the development of non-luxury housing, including site acquisition or improvement, demolition of dilapidated housing to make way for HOME-assisted development, and payment of relocation expenses. HOME funds can also sometimes be used for tenant-based rental assistance contracts.

HOME can be qualified based L/M Income Household Benefit: The incomes of households receiving HUD assistance must not exceed 80 percent of the area median. HOME income limits are published each year by HUD. For rental housing and rental assistance, at least 90 percent of benefiting families must have incomes that are no more than 60 percent of the HUD-adjusted median family income for the area. In rental projects with five or more assisted units, at least 20% of the units must be occupied by families with incomes that do not exceed 50% of the HUD-adjusted median.

Benefits Available/Application Process: Undetermined – contact with the City of Flint regarding current allocation balances for FY15 and prior years is recommended.

Program Name: Housing Choice Vouchers (HCV)

Agency Responsible: HUD, MSDHA

Point of Contact: Kelly Rose

Type of Support: Individual, Rental Assistance

Eligibility Guidelines: 80% of applicants must be below 30% AMI, 20% below 50% AMI. Applicants must pass criminal screening that they do not have any violent crime in the past 24 months or drug offenses in last 12 months.

Benefits Available: HCV program pays a portion of the participants rent and utilities. It does not have any home repair funding component.

Application Process: MSHDA has a Homeless preference—homeless service agencies across the state can enter homeless person's application on waiting list. Non-homeless individuals/families must apply when the County resident waiting list is open for applications. This happens periodically when waiting lists get low on applicants. When vouchers are available names are pulled off the waiting list and applicants are contacted to fill out an application so their eligibility can be determined. Once eligibility is determined, they are issued a voucher and search for a rental unit. The unit is then inspected for HUD's HQS standards (does not have a water quality component) and if the unit passes a contract with the landlord is done and the family moves into the unit.

Editorial Comments: This program is not able to directly help with the Flint water issue. We are formulating a plan in consultation with HUD as to notifying individuals of their ability to get free water filters, etc. as well as their options for moving if they would like to relocate. We are also considering inspecting all homes with children 6 and under for proper installation of water filters.

Program Name: Section 8 Project Based Rental Assistance (Subsidized and Public Housing)

Agency Responsible for Program: HUD, MSHDA

Point of Contact: Daphne Wells

Type of Support: Individual. It provides rental assistance to tenants who reside at a property that has a project based rental assistance Section 8 contract with HUD. MSHDA administers this subsidy as a HUD subcontractor and in some instances has provided financing to build/rehab some of these properties.

Eligibility guidelines: Housing is available to income eligible individuals at these specific properties. Eligible applicants must apply individually at each property in which they are interested in living at and each property has a tenant selection criteria that is adhered to for prospective applicants. Each individual property maintains its own waiting list for applicants wishing to reside there.

Benefits Available: This program wouldn't have any benefits available to the Flint Water issue in that the Section 8 housing is tied to a specific property and only offers rent assistance.

Application Process: Applicants can apply at each individual rental property.

Editorial Comments: The only thing that really fits this category (Subsidized and Public Housing) is the Section 8 program as it provides rental assistance to tenants. Nothing in the program can help as it relates to the water issue as the assistance is tied to the building itself. There isn't anything in the program that would help in this situation except using our contacts with agents and owners in Flint to provide them information as we have talked about.

Program Name: MSHDA Housing Development Fund

Agency Responsible for Program: MSHDA

Point of Contact: Brian Mills

Type of Support: Individual. It provides rental assistance to tenants who reside at a property that has a project based rental assistance Section 8 contract with HUD. MSHDA administers this subsidy as a HUD subcontractor and in some instances has provided financing to build/rehab some of these properties.

Eligibility guidelines: In order for a proposal to be eligible for MSHDA's Statewide Partnership Grant program, the proposed activities must fit within one of five categories (Demolition, Land Acquisition & Development, Neighborhood Service Centers, Capital Improvements, or Community Development).

Benefits Available: Grants are limited discretionary budget dollars generated from interest from MSHDA earning on loan proceeds. Grants under $250,000 do not require formal board approval.

Application Process: Application is attached

Editorial Comments: Pursuant to communications with Mel Brown a few months ago, we suggested a number of different potential ideas for grant use in Flint Those are detailed below:

- Pay for the costs of water quality analysis of all MSHDA backed mortgages in Flint. Evidently FHA is now conditioning all appraisals in Flint on a water quality analysis – and depending on the results won't put the mortgage through without the addition of a water infiltration system of some kind. Cost estimates are around $3,000 per home which is apparently having a negative impact on an already difficult real estate market.
- Pay for the replacement of water lines owned by residents with MSHDA mortgages within the city that need to be replaced or lines to homes with MSHDA backed mortgages or incomes less than 50% AMI.
- Pay for a percentage of the reconnection fee to acquire water from Detroit up to an amount not to exceed the % of MSHDA financed homes or low income households in the city (50% AMI).
- Pay for the replacing the city's municipal water line infrastructure associated with water lines being replaced to homes in the city with MSHDA backed mortgages or those household at or below 50% AMI.
- Pay for a percentage of any new infrastructure costs associated with the build out of a new water supply system so long as the amount doesn't exceed the % of MSHDA financed homes or low-income households in the city (50% AMI).
- Purchase of water for low income households (50% AMI).
- Purchase of water filters for any low income households (50% AMI).

Program Name: Housing Counseling

Editorial Comment: We have one Counseling agency in Flint right now (Metro Community Development) and they are not involved with water/filter distribution nor are they a site for people to get these items. More information regarding program information can be obtained from Mary Townley at 517.373.6864

Program Name: Self-help Homeownership Opportunity Program (SHOP)

Editorial Comments: The SHOP program is not administered by MSHDA. Mary Townley has calls into HUD to find out who in the state offers this product. Above is a product eligibility information showing that it is administered through non-profits.

SHOP awards grant funds to eligible national and regional non-profit organizations and consortia to purchase home sites and develop or improve the infrastructure needed to set the stage for sweat equity and volunteer-based homeownership programs for low-income persons and families. SHOP funds must be used for eligible expenses to develop decent, safe and sanitary non-luxury housing for low-income persons and families who otherwise would not become homeowners. Homebuyers must be willing to contribute significant amounts of their own sweat equity toward the construction or rehabilitation of their homes.

SHOP is authorized by the Housing Opportunity Program Extension Act of 1996, Section 11, and is subject to other Federal crosscutting requirements. No separate program regulations exist. All program requirements are listed in the applicable SHOP Notice of Funding Availability (NOFA).

Eligible Applicants: National and regional nonprofit organizations or consortia with experience in using homebuyer and volunteer labor to build housing may apply for SHOP grants. Applicants must have completed at least 30 units of self-help homeownership housing within the last 24 months. Eligible homebuyers must apply to participate in the SHOP program through a current SHOP grantee or one of their affiliates.

Application: SHOP grant funds are made available through HUD's annual SHOP NOFA competition. The SHOP NOFA is published on HUD's e-grant portal. Once the NOFA is published, eligible applicants may apply through this e-grant portal.

Eligible Activities: SHOP grant funds can only be used for land acquisition, infrastructure improvements, and administrative costs. Total land acquisition and infrastructure improvement costs cannot exceed an average of $15,000 in SHOP assistance per unit. Administrative costs cannot exceed 20% of the SHOP grant amount. SHOP grantees must leverage other funds for the new construction or rehabilitation of their SHOP units.

Program Name: HOPE

Editorial Comments: At this time MSHDA is unaware of this program and do not administer functions related to it.

TIA/WDA

Program Name: Workforce Innovation and Opportunity Act (WIOA) Adult Program

Agency Responsible for Program: Workforce Development Agency (WDA)

Point of Contact: Krista Johnson, Manager, WIOA Title I Section

Type of Support (Individual or Government): Government

Eligibility Guidelines: Adults Age 18 and Older, Priority is given to recipients of public assistance, other low income individuals, and individuals who are basic skills deficient.

Benefits Available:

Basic Career Services: Basic career services are available to all adults and may include: program information and basic assessment, general information, individual job development, advanced job club, advanced screened referrals, group activities, and job search.

Individualized Career Services: Individualized career services are designed for adults who have been unable to obtain employment through core services and have been determined to be in need of more individualized services. Individualized career services may include: comprehensive and specialized assessments, individual employment planning, counseling, short-term pre-vocational skills, case management, literacy activities, out-of-area job search, relocation assistance, internships and work experience.

Training Services: Training services, if made available, may include occupational skills training, On-the-Job training, workplace training with related instruction, registered apprenticeship, incumbent worker training, pre-apprenticeship training, skill upgrading and retraining, entrepreneurial training, transitional jobs, and adult education and literacy training provided in combination with another training service.

Application Process:

Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org

Program Name: Workforce Innovation and Opportunity Act (WIOA) Dislocated Worker Program

Agency Responsible for Program: Workforce Development Agency (WDA)

Point of Contact: Krista Johnson, Manager, WIOA Title I Section

Type of Support (Individual or Government): Government

Eligibility Guidelines:

A dislocated worker is an individual who:

1. Has been terminated or laid off, or who has received a notice of termination or layoff; and
   - Is eligible for or has exhausted entitlement to unemployment compensation; or
   - Has been employed for a duration sufficient to demonstrate attachment to the workforce, but is not eligible for unemployment compensation; and
   - Is unlikely to return to a previous industry or occupation.
2. Has been terminated or laid off, or has received a notice of termination or layoff, from employment as a result of any permanent closure of, or any substantial layoff at, a plant, facility, or enterprise; or
   - Is employed at a facility at which the employer has made a general announcement that such facility will close within 180 days; or
   - Is employed at a facility at which the employer has made a general announcement that such facility will close.
3. Was self-employed but is unemployed as a result of general economic conditions.
4. Is a displaced homemaker.
5. Is the spouse of a member of the Armed Forces on active duty and who has experienced a loss of employment as a direct result of relocation to accommodate a permanent change in duty station of such member; or
   - Is the spouse of a member of the Armed Forces on active duty and whose family income is significantly reduced because of a deployment, a call or order to active duty pursuant to a provision of law, a permanent change of station, or the service connected death or disability of the member; and
   - Is unemployed or underemployed and is experiencing difficulty in obtaining or upgrading employment.

Benefits Available:

Basic Career Services: Basic career services are available to all dislocated workers and may include: program information and basic assessment, general information, individual job development, advanced job club, advanced screened referrals, group activities, and job search.

Individualized Career Services: Individualized career services are designed for dislocated workers who have been unable to obtain employment through core services and have been determined to be in need of more individualized services. Individualized career services may include: comprehensive and specialized assessments, individual employment planning, counseling, short-term pre-vocational skills, case management, literacy activities, out-of-area job search, relocation assistance, internships and work experience.

Training Services: Training services, if made available, may include occupational skills training, On-the-Job training, workplace training with related instruction, registered apprenticeship, incumbent worker training, pre-apprenticeship training, skill upgrading and retraining, entrepreneurial training, transitional jobs, and adult education and literacy training provided in combination with another training service.

Application Process:

Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org.

Program Name: Workforce Innovation and Opportunity Act (WIOA) National Dislocated Worker Grants (NDWGs) – previously called National Emergency Grants (NEGs) under the WIA

Agency Responsible for Program: Workforce Development Agency (WDA)

Point of Contact: Krista Johnson, Manager, WIOA Title I Section

Type of Support (Individual or Government): Government

Eligibility Guidelines:

A dislocated worker is an individual who:

1. Has been terminated or laid off, or who has received a notice of termination or layoff, and
   - Is eligible for or has exhausted entitlement to unemployment compensation; or
   - Has been employed for a duration sufficient to demonstrate attachment to the workforce, but is not eligible for unemployment compensation; and
   - Is unlikely to return to a previous industry or occupation.
2. Has been terminated or laid off, or has received a notice of termination or layoff, from employment as a result of any permanent closure of, or any substantial layoff at, a plant, facility, or enterprise; or
   - Is employed at a facility at which the employer has made a general announcement that such facility will close within 180 days; or
   - Is employed at a facility at which the employer has made a general announcement that such facility will close.
3. Was self-employed but is unemployed as a result of general economic conditions
4. Is a displaced homemaker.
5. Is the spouse of a member of the Armed Forces on active duty and who has experienced a loss of employment as a direct result of relocation to accommodate a permanent change in duty station of such member; or
   - Is the spouse of a member of the Armed Forces on active duty and whose family income is significantly reduced because of a deployment, a call or order to active duty pursuant to a provision of law, a permanent change of station, or the service connected death or disability of the member; and
   - Is unemployed or underemployed and is experiencing difficulty in obtaining or upgrading employment.

Benefits Available:

Basic Career Services: Basic career services are available to all dislocated workers and may include: program information and basic assessment, general information, individual job development, advanced job club, advanced screened referrals, group activities, and job search.

Individualized Career Services: Individualized career services are designed for dislocated workers who have been unable to obtain employment through core services and have been determined to be in need of more individualized services. Disaster Relief Employment Specific NDWGs:

The Secretary of Labor is authorized to award NDWGs to provide assistance to the Governor of any state whose boundaries include a disaster area in order to provide disaster relief employment assistance in the disaster area.

"Emergency or disaster" means:

1. An emergency or a major disaster, as defined in paragraphs (1) and (2), respectively, of Section 102 of the Robert T. Stafford Disaster Relief Emergency Assistance Act; or
2. An emergency or disaster situation of national significance that could result in a potentially large loss of employment, as declared or otherwise recognized by the chief official of a Federal agency with authority for or jurisdiction over the Federal response to the emergency or disaster situation.

The term "disaster area" means an area that has suffered or in which has occurred an emergency or disaster.

If awarded, funds shall be used in coordination with the Administrator of the Federal Emergency Management Agency, as applicable, to provide disaster relief employment on projects that provide food, clothing, shelter, and other humanitarian assistance for emergency and disaster victims, and projects regarding demolition, cleaning, repair, renovation, and reconstruction of damaged and destroyed structures, facilities, and lands located within the disaster area and in offshore areas related to the emergency or disaster.

An individual may be eligible to be offered disaster relief employment if such individual is:

1. A dislocated worker;
2. A long-term unemployed individual;
3. Temporarily or permanently laid off as a consequence of the emergency or disaster; or
4. In the case of an individual who is self-employed, becomes unemployed or significantly underemployed as a result of the emergency or disaster.

No individual may be employed for more than 12 months for work related to recovery from a single emergency or disaster, unless an extension is granted by the Secretary of Labor. Extensions granted by the Secretary of Labor may not exceed an additional 12 months.

Program Name: Workforce Innovation and Opportunity Act (WIOA) Youth Program

Agency Responsible for Program: Workforce Development Agency (WDA)

Point of Contact: Krista Johnson, Manager, WIOA Title I Section

Type of Support (Individual or Government): Government

Eligibility Guidelines:

Out-of-School Youth (OSY) are individuals who are:

- Not attending any school (as defined by State law);
- Not younger than age 16 or older than age 24; and
- One or more of the following:
    - A school dropout;
    - A youth who is within the age of compulsory school attendance, but has not attended school for at least the most recent complete school year calendar quarter;
    - A recipient of a secondary school diploma or its recognized equivalent who is a low-income individual and is:
        - Basic skills deficient; or
        - An English language learner.
    - An individual who is subject to the juvenile or adult justice system;
    - A homeless, runaway, or current/prior foster youth;
    - An individual who is pregnant or parenting;
    - A youth who is an individual with a disability; or
    - A low-income individual who requires additional assistance to enter or complete an educational program or to secure or hold employment.

In-School Youth (ISY) are individuals who are:

- Attending school (as defined by State law);

- Not younger than age 14 or older than age 21 (unless an individual with a disability who is attending school under State law);
- A low-income individual; and
- One or more of the following:
    - Basic skills deficient;
    - An English language learner;
    - An offender;
    - A homeless, runaway, or current/prior foster youth;
    - Pregnant or parenting;
    - A youth who is an individual with a disability; or
    - An individual who requires additional assistance to complete an educational program or to secure or hold employment.

Benefits Available:

Available services include tutoring; study skills training; alternative secondary school offerings; dropout recovery services; paid and unpaid work experiences, including summer employment opportunities; occupational skills training; education offered concurrently with workforce preparation; leadership development opportunities; supportive services; adult mentoring; follow-up services; comprehensive guidance and counseling; financial literacy education, entrepreneurial skills training; provision of labor market and employment information; and activities that help youth prepare for, and transition to, post-secondary education and training.

Application Process:

Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org.

Program Name: Community Ventures

Agency Responsible for Program: Workforce Development Agency (WDA)

Point of Contact: James Durian, Manager, Community Ventures

Type of Support (Individual or Government): Government

Eligibility Guidelines: Flint residents who are DHHS clients, PATH participants, ex-offenders, and persons with disabilities.

Benefits Available: Connection to employment and comprehensive 24 months of wraparound services after job placement.

Community Ventures (CV) can assist Flint residents negatively impacted by contaminated drinking water by providing employment and wraparound services to those effected. CV can also help recruit and retain companies in Flint by partnering with companies and bringing companies together in coordinated community development efforts to help Flint residents. We have done this through promoting social enterprise partnerships like New Life Enterprises, through the formation of an Employer Resource Network (ERN), in Flint, and by partnering with United Way and local financial institutions in providing hard ship loans and financial literacy to Flint residents. CV could expand upon these efforts with a special focus on helping those most negatively impacted by the water crisis.

Application Process: Participants are referred from Mott Community College, Genesee-Shiawassee MWA (MWA), Mid-Michigan Goodwill, New Life Enterprises or DHHS.

Program Name: Job's for America's Graduates

Agency Responsible for Program: Workforce Development Agency (WDA)

Point of Contact: Krista Johnson, Manager, WIOA Title I Section

Type of Support (Individual or Government): Government

Eligibility Guidelines: Students from middle school to 21 years of age.

The JAG Flint program targeted at-risk students at two Flint-area high schools (Flint Northwestern and Flint Southwestern) to help them earn a high school diploma and prepare for college/careers following high school.

Benefits Available:

JAG-Flint's mission focuses on the following:

- Deliver a unique set of services to at-risk and disadvantaged youth in high school;
- Provided follow-up services which will result in the graduate's pursuing a postsecondary education, and
- Ensured the participants entered the workforce in a quality job leading to a career.

The primary objectives of The JAG Model program are:

- Keep program participants in school through graduation.
- Extend program services to participants for 12 months after graduation.
- Assist graduates or completers in pursuit of a postsecondary education and/or an entry-level job that leads to a career.
- Deliver services to non-graduates and non-completers during the 12-month follow-up period to attain a GED certificate or a high school diploma.

Application Process: Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org.

Program Name: Partnership Accountability Training Hope (PATH)
Agency Responsible for Program: Workforce Development Agency (WDA)
Point of Contact: Brian Marcotte, Manager, Welfare Reform Section
Type of Support (Individual or Government): Government
Eligibility Guidelines: Individuals receiving Family Independence Program cash assistance (TANF)
Benefits Available: PATH is the work participation program required for families receiving cash assistance through the Family Independence Program administered by the Michigan Department of Health and Human Services. The Primary goals of PATH are two-fold. First, PATH will identify barriers and help participants connect to the resources they need to obtain employment. Second, the program helps Michigan reach the federally mandated 50% work participation requirement. Work participation is defined by the total number of participants fully engaged in job preparedness training, job search activities, and employment as a percentage of the states work eligible individuals receiving cash assistance.
The program is designed to assist eligible individuals in obtaining employment by offering job search assistance and work skills enhancement. The program offers vocational/occupational training, high school completion or GED attainment and a full range of supportive services that may be required to meet the job search and retention needs of the participants.
Application Process: Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org.

Program Name: Trade Adjustment Assistance (TAA) Program
Agency Responsible for Program: Workforce Development Agency (WDA)
Point of Contact: Tammy Flynn, Manager, TAA Section
Type of Support (Individual or Government): Government
Eligibility Guidelines: Individuals are eligible for the TAA program who have a qualifying separation from a company with a certified petition by the US Department of Labor (USDOL). A petition identifies a worker group at a specific firm or subdivision and covers all individuals in that group. Generally, if a worker is laid off, a petition must be submitted within one year of the layoff for that worker to be covered by the petition and the certification, if USDOL grants the petition. A group of workers may be eligible for TAA if their jobs are lost or threatened due to trade-related circumstances as determined by the USDOL investigation.
After the investigation, USDOL determines group eligibility to apply for TAA benefits and services. Workers in a certified group will be notified by their local Michigan Works! Agency, at which time they may apply for individual eligibility for benefits and services.
Benefits Available: Employment and case management services: Assessments, career guidance, pre-vocational services, labor market information, supportive services, information on financial aid, employment planning, and information on training.
Training: Up to 130 weeks of training including.
- Classroom training
- On-the-job training
- Customized training
- Registered Apprenticeships

Trade Readjustment Allowances (TRA): Up to 130 weeks of wage subsidies for workers enrolled in fulltime training within 26 weeks of their trade-related layoff or certification, whichever is later.
Re-employment Trade Adjustment Assistance: A wage subsidy for workers age 50 or over who are re-employed at annual wages of $50,000 or less.
Job Search Allowance: Reimbursement for job search costs outside the worker's local area.
Relocation Allowance: Reimbursement for relocation costs for a job outside the worker's local area.
Application Process: Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org.

To learn more about how to file a petition, check on the status of a petition, or to obtain more information on benefits and services, please visit www.doleta.gov/tradeact or contact Tammy Flynn at flynnt@michigan.gov.

Program Name: GED To School
Agency Responsible for Program: Workforce Development Agency (WDA)
Point of Contact: Keenan Wade
Type of Support (Individual or Government): Government
Eligibility Guidelines: Must Pass Official Practice Test or Complete Adult Education GED Preparation Course.
Benefits Available: $150 per candidate to pay the cost of GED testing fees.
Application Process: Individuals should visit the GED To School website at http://michigan.gov/wda/0,5303,7-304-64362-298726--,00.html or call 517-373-1692 for additional information.

Program Name: Adult Education Program
Agency Responsible for Program: Workforce Development Agency (WDA)
Point of Contact: Cliff Akujobi, State Administrative Manager
Type of Support (Individual or Government): Government
Eligibility Guidelines: Adults Age 16 and Older
Benefits Available: Adult Education provides an opportunity for students to improve or achieve education levels equivalent to those of high school graduates each year. Instruction is tailored to meet the individual needs of adult students. Standardized tests identify existing skill levels, appropriate instruction, and academic gains due to instruction. Adult Education consists of five components:

- High School Completion: Instruction designed to fulfill the requirements for a high school diploma.
- GED Test Preparation: Instruction in language arts, math, social studies, science, and writing, to enable successful completion of a GED test.
- Adult Literacy: Instruction in reading, English, language arts, math, and civics for adults without a high school diploma. The most basic literacy courses teach adults to read.
- English as a Second Language: Instruction in reading, speaking, writing, and understanding the English language.
- Labor Employment Related/Employer Workforce Readiness: Instruction in job- or employment-related mathematics, reading, and communication skills. Instruction may be "applied," which means that the academic material is directly related to specific job requirements.

Application Process:
Individuals should contact the Office of Adult Education at 517-373-8800 or visit the Adult Education website at http://www.michigan.gov/wda/0,5303,7-304-64362---,00.html

DEQ / GRANTS AND LOANS

Drinking Water Revolving Fund Loans

Purpose: The Drinking Water Revolving Fund provides low-interest loans to water suppliers to finance the construction (including upgrades/expansions) of public drinking water systems.

Goals of the Program: To assist water suppliers in providing safe/high quality drinking water.

Eligibility: Any water supplier who owns and operates a community or non-community (if operated as a non-profit entity) water supply.

Criteria: The requirements for this program are identified in Part 54, Act 451 of the Public Acts of 1994, as amended. Certain federal requirements may also apply and are spelled out in Title XIV of the Public Health Services Act (commonly referred to as the Safe Drinking Water Act). Primarily, applicants must present environmentally sound water supply projects which are drawn from a Project Priority List (PPL) administered by the Office of Drinking Water and Municipal Assistance.

Application Process:

- The water supplier is first ranked on the project priority list by submitting a project plan to the Department of Environmental Quality (DEQ).
- The water supplier is included in the annual fundable range according to priority ranking and the level of fund lending capacity.
- The water supplier submits plans and specifications for DEQ review.
- The water supplier submits an application for assistance in accordance with the quarterly funding schedule.
- The water supplier receives financial assistance upon satisfying program requirements through the application process.

and the project is ranked on the PPL, projects in the fundable range are notified. A schedule is then developed that will lead to completion of the environmental review, submission of an application, award of an Order of Approval, and closure of the loan.

Deadlines: The deadline for submission of a project plan to be included on the annual PPL is May 1. The deadline for the application for financial assistance is negotiated for each project dependent upon which quarter they will receive a binding commitment.

Timelines: The time period may run approximately eight months to several years from the time the project plan is submitted to receipt of assistance. From the time of actual application to receipt of assistance, the process may take as little as three months. Much is dependent upon available funds and the quality of municipal submissions.

Dollar Amount(s) Available (Min or Max): Dependent on federal grant amount

Required Match: No local match is required.

Source(s) of Funds: The fund is capitalized with federal grant funds and a required 20% state match.

Authority: Part 54, Act 451 of the Public Acts of 1994 and Title XIV of the Public Health Service Act (commonly referred to as the Safe Drinking Water Act).

Responsible Division/Office Contact: Office of Drinking Water and Municipal Assistance, Revolving Loan Section, Sonya Butler, Chief, 517-284-5433.

Phase-out/Expansion/Changes for Next Fiscal Year: Since the fund "revolves" it is intended to operate in perpetuity. Annual lending capacity will remain even if new federal/state capitalization ceases

Related Programs: None.

Request for Proposals: Municipalities can apply at any time by submitting a project plan.

Subject: Potential Assistance Programs

State Emergency Management Coordinator:

As discussed in this morning's briefing, your agency has been identified to research potential assistance programs (private, state, federal, etc.) that may be available to address the short- and long-term recovery needs in response to the Flint water incident. Earl Zuelke, FEMA Long-Term Recovery, has made contact with some federal agencies to assist with this research. Feel free to touch base with him in the SEOC.

Attached is a copy of the Non-Stafford Act Recovery Guide. Appendix 2 (pg. 24-26) provides a list of some potential federal programs. This list is **not** all-encompassing; however, it will provide a starting point if any of these programs may apply to the response and recovery for this incident.

Provide the following information, *at a minimum*, on potential assistance programs for individuals and/or government support in response to this incident:

- Program Name
- Agency Responsible for program
- Point of Contact
- Type of Support (Individual or Government)
- Eligibility Guidelines
- Benefits Available
- Application Process

This information shall be submitted to Brianna Briggs, the Recovery Branch Chief, at briggsb3@michigan.gov by **COB Friday, January 15.**

Let Brianna (cell phone below) know if you have any questions on this request.

Thank you,

Brianna Briggs
Recovery Branch Director

To: MSP-SEOC5; Farmer, Michael V. (MDOC - Training); FEDERALSEOC
Subject: Wednesday 2/10/2016

- Compiled data of addresses and facilities that service citizens with Access and Functional Needs from 4 sources. Waiting on additional data to complete the list. Alex has a call into the Michigan Office of Disability Network, Vicki Saharski for any additional data she may have regarding this population. We are gathering this information for the possibility of issuing cartridge replacements and long-term recovery plan.

- The Recovery Branch received access to a new mapping tool called, ArcGIS Online. It show ALL VISITs by the Field Teams and Distributions by PODS.
    - Directions
        - Go to flint.maps.arcgis.com
        - Log in using the username: MSP_data1 and the password: Recovery1
        - Go to Groups→ Recovery Unit → All_Field_Team_Activity_Update and click open in map viewer
        - The map will open in a web viewer. Navigate ONLY by searching addresses. Do not move around by clicking and dragging. There is too much data for that to work effectively. Do not zoom out too far either because it will cause the website to freeze.

- No changes in Thursday's ARC Plan. They have a one page list of addresses to complete and few apartments to confirm.

- Entered all remaining available data sheets from ARC regarding apartment visits.

- Bridget met with 7th Day Adventist Volunteers in place of Mike Farmer for the Corrections Branch. The Plan was received and passed onto Logistics and Brent Travelbee.
    - They are looking at starting at the Kroger warehouse this Tuesday and expect the MDOC staffing to assist them with their transition for up to a week.
    - 7th Day Adventist turned in an "Equipment Needs" List is being reviewed.
    - Logistics would be best to get more information from

Paul,

We will have about 150 address' yet to touch tomorrow off that list of 1300+ list. With the weather, they will be finished tomorrow, but it is hard to estimate what time we will finish.

As for visiting houses more the once:

Sunday we touched 1121 homes, of these 418 were a second touch.

Monday we touched 847 homes, of these 415 were a second touch.

Any questions, let me know.

The list under this cover includes all apartment complexes in the City of Flint that the Recovery Unit has been able to identify based upon available information. This list is as complete as can be based upon our knowledge, skills, and the existing data.

- We conclude that there are 5,799 apartment units in Flint.
    - This does not include apartment buildings and complexes that are currently unoccupied, nor does it include houses that may have multiple units, or apartment complexes outside the boundaries of the City of Flint that do not receive Flint water.
- There are an additional 545 units on Flint water that are part of a complex that is a franchise customer.
- We used a variety of sources in compiling this list, including data from the City of Flint, the Flint Housing Commission, the Michigan State Housing Development Authority, the United States Department of Housing and Urban Development, and private sources such as Apartments.com.
    - In addition to data sources, we deployed a team from the Department of Corrections to verify the status of several complexes. The team found several apartment complexes abandoned and made contact with residents of the occupied complexes.

Position	Name	Phone	Date/Time	Comment	Details
SEOC OPS Recovery Branch Director	Renee Tober	517-333-5030	02/08/2016 10 26 16	A recommendation was provided by email to SEOCOPSC to evaluate the need for the canvassing teams. If we continue canvassing efforts, Recovery Unit staff recommends possibly assisting with 211 calls and servicing the access and functional needs population. Recovery staff is working to compile a full list of these It may be possible to reduce the number of ARC teams to five (or fewer)	Update
SEOC OPS Recovery Branch Director	Renee Tober	517-333-5030	02/01/2016 12 39 10	Staff continues to compile daily distribution numbers from Water Response Teams and provide updates to Operations Chief and Planning Chief Recovery Unit continues to deliver nightly bullet reports on team accomplishments to Planning Section by 6 pm	Update
SEOC OPS Recovery Branch Director	Renee Tober	517-333-5030	02/01/2016 11 32 55	Coordinating with water response teams to follow up with houses, Franchise Customers and Apartment Complexes Demobilizing resources as the number of teams have reduced Act upon any new requests for resources.	Update
SEOC OPS Recovery Branch Director	Renee Tober	517-333-5030	02/01/2016 11 30 54	Staff continues to coordinate with the GIS Unit on development of target area maps such as Franchise customers, and Team Assignment Areas	Update
SEOC OPS Recovery Branch Director	Renee Tober	517-333-5030	02/01/2016 11 25 35	Recovery staff has been attending daily Distribution Process Meetings to continue coordination and verification of supplies needed to support the PODs and the Water Response Teams.	Update
SEOC OPS Recovery Branch Director	Stacy Theis	517-336-2694	01/25/2016 13 17 36	Coordinating with water response teams to follow up with houses Demobilizing resources as the number of teams have reduced Act upon any new requests for resources	Update
SEOC OPS Recovery Branch Director	Brianna Briggs	517-230-2949	01/12/2016 10 57 24	Hours of operation for the teams has been established and will remain 8 30 a m. to 5 p.m. Local GIS has provided IPads and software for tracking distribution in the field. A tracking sheet has been developed and printed for use in the field if software issues occur. Training was developed and conducted for the teams currently scheduled to be in the field Tuesday through Friday MSP is currently developing a strategy for canvassing of the entire affected area Teams were deployed into the field as of 1000 Tuesday, Jan 15. Weather conditions and media avail at GCCARD prevented start time at 0830 MSP continues to monitor any safety and security concerns for the teams EMHSD staff delivered the four vehicles being used for canvassing to the GCCARD facility on Monday, Jan 11 All related requests are currently being worked on and monitored by Recovery Branch staff. Additional requests are being considered in order to expand operations of the teams in the field Training was conducted for the current teams Daily deployment briefings will be conducted The first briefing occurred Tuesday, Jan 12	Update
